GOD THE ABSOLUTE

LOVE AND BE LOVED

THE MATERIAL OF HUMAN EVOLUTION

Author: Vidmantas Grinčiukas (Indigo Vidmantas)

This publication was born from my lifelong spiritual path, from more than fifty years of research, questions, inner discoveries, and a constant strive to understand the structure of God the Absolute.

This is not a theoretical work, it is not a philosophical construction, and it is not a religious doctrine.

This is a living science, arising from supraconscious knowledge and the experience of inner light.

SDAP – the Science of the Divine Absolute Program – is a path to understanding that human consciousness is not separate from God, but is a part of His program.

Every human being carries within themselves the code of God, which can be awakened, expanded, and brought into conscious operation.

The material collected in this publication is a testimony of my own path: what I realized, what I went through, what I experienced, and what I received from higher spiritual structures.

This document is not intended to convince.

It is intended for the one who seeks.

For the one who feels an inner longing.

For the one who, having opened their heart, feels that there is more than physical reality.

For the one who wants to understand the operation of God the Absolute in man and the operation of man in God the Absolute.

I am not connected with any sect, any organization, any earthly structure.

My path is the path of a pure heart, arising from inner light and closeness to God.

Therefore, in this publication, there is no negativity, no darkness, no fear.

Here is only the science of light, dedicated to those who want to know themselves deeper and perceive God's program in their lives.

May this publication become a bridge between man and God the Absolute.

May it open a new space of perception.

May it strengthen the peace of the heart and the inner light.

And may every reader feel that the program of God the Absolute is alive, active, and accessible to everyone who seeks with love and purity.

With light and respect,

Indigo Vidmantas Grinčiukas

VIDMANTAS GRINČIUKAS August 17, 1969

1. THE SECRET OF HUMAN HAPPINESS

Psychologist Vidmantas Grinčiukas

Every human being, at least once in their life, stops and asks themselves:

Am I happy? What am I missing to be happy? And if I am happy – how can I be even happier?

We search for happiness on the outside, even though the true secret of happiness lies not in the world, but inside the human being – in the depths of their subconsciousness. Many have no idea that happiness is not found in things, relationships, or circumstances. Happiness is born from a state of consciousness, from the inner light,

from a person's ability to perceive themselves and their connection with the higher reality.

Consciousness – the Foundation of Happiness

In psychology, a law is clearly visible:

cuo person is more conscious, the happier they are.

Consciousness can be divided into seven levels.

1. The Lowest Level of Consciousness

These are people who live believing that they control everything themselves. They do not see any Divine will, any higher order. It seems to them that life is solely the result of their own efforts. Therefore, God does not exist for them.

2. Level of Consciousness – Sensing Forces Without God

People of this level feel that some force exists, but they do not recognize that it comes from God. They tend to believe in spirits, spells, shamans, and rituals. These are people who seek help in cemeteries, from fortune-tellers, and make sacrifices to spirits. Their worldview is based on fear and the unknown, rather than a true spiritual connection.

3. Level of Consciousness – Demigods and Mediators

Here, a person perceives that higher beings exist – angels, archangels, demigods. They pray to a guardian angel, worship natural phenomena, the sun, and the earth. However, there is no direct relationship with God yet – God is perceived as being too distant.

4. Level of Consciousness – God as a Whole

People say: God is everywhere. God is nature. God is the world.

This is correct, but insufficient. They perceive God as an abstract energy, but they lack a personal connection, a living dialogue, and inner prayer.

5. Level of Consciousness – The Voice of the Heart

Here, a person begins to hear the conscience – the voice of the heart, which is not a product of the mind. They perceive that God lives inside them, in the sanctuary of the heart. They begin to build a relationship with God, perceive the immortality of their soul, and begin to live a life not only of the body, but also of the spirit.

6. Level of Consciousness – Daily Prayer and Purification

This level begins when a person consistently practices the fifth level of consciousness. Daily prayer, spiritual discipline, and a pure inner intention purify the consciousness. A person begins to feel the breath of God throughout all creation. They regain lost connections with God, and life becomes harmonious and meaningful.

7. The Highest Level of Consciousness – Indigo Consciousness

This is a level unknown to humanity and even to the Christian world.

It is possessed only by indigo individuals – beings of a pure, innocent child-like consciousness who feel the energies of God from birth.

Indigo:

live without conscious sin,

have no egoism,

have no human vices,

are like pure crystals,

their psychological structure is without ego,

they are vessels of God's energy,

most of them are Christ Logoi, the bearers of God's crystalline consciousness.

Indigo identify with God not metaphorically, but energetically – through a direct connection.

Žmonių ydos – trys didžiosios kliūtys laimei

Man, as a being, is imperfect. He has many vices that prevent him from achieving happiness. The exception is indigo people, who do not have these vices.

1. Necrophilia – Love of Death

This is the love of that which is lifeless, inert, and destructive.

A necrophilic person:

idolizes power and control,

wants to dominate others,

lives in the past,

worships things rather than life,

sees the world as a battlefield.

These are people for whom power is more important than life.

The opposite is biophiles – lovers of life.

A biophile creates, grows, changes, and lives in the future. Their spirit is immortal to the extent that they leave light to the world.

2. Narcissism – Excessive Self-Admiration

This is a form of egoism that almost all people possess.

A narcissist talks only about themselves, sees only themselves, values only themselves.

Indigo people do not have this vice – their consciousness is oriented toward service, not self-exaltation.

3. Incestuous Bonds – Excessive Attachment to Origin

This is not biological incest, but psychological –

an excessive attachment to the mother, blood, homeland, and nation.

Man forgets that three "wheels of destiny" exist:

family,

nation,

humanity.

Only by perceiving all three wheels does a person become complete.

Kaip žmogus kuria savo laimę?

The human mind consists of:

rational consciousness,

irrational subconsciousness.

Consciousness thinks, while subconsciousness creates.

Whatever you think about, the subconsciousness begins to implement.

Think about good – you attract good.

Think about evil – you attract evil.

The subconsciousness makes no distinctions; it executes any thought – good or bad.

Therefore, man's thoughts are the architects of his destiny.

Subconsciousness:

accumulates knowledge,

creates associations,

releases inner power,

uses the laws of nature,

implements thoughts at its own rhythm – sometimes instantly, sometimes after a year.

True Happiness – In the Sixth Level of Consciousness

True happiness comes when a person reaches the sixth level of consciousness –

daily prayer, spiritual purification, and connection with God.

This is a state of harmony in which:

a person feels the closeness of God,

lives in peace with themselves,

perceives the meaning of the world,

no longer feels inner conflicts.

The seventh level – the indigo level – is unattainable for an ordinary person, because for that, one must be born with spiritual perfection.

Materialios vertybės laimės nesuteikia

Many people look for happiness in things, money, and statuses.

However, without spiritual logistics – without a connection with God – material values provide only short-term joy.

True joy arises from:

consciousness,

inner light,

spiritual practice,

connection with God,

service to others.

With respect –

Psychologist Vidmantas

2. HUMAN CONNECTION WITH SPACE - BIOENERGETICS - MEDIA

HUMAN CONNECTION WITH SPACE – BIOENERGETICS – MEDIA

(Esoteric science – that which is above human consciousness)

HUMAN CONNECTION WITH SPACE

Indigo people possess a unique ability to maintain perfect connections with space and derive information from it that is inaccessible to an ordinary person. On Earth, the spiritual paradise energetics are emanated by the Solar System – its subtle vibrations are transmitted to indigo children and indigo adults. This energetics is non-homogeneous, possessing an infinity of types, and it is extraordinarily pleasant for the human organism. I call it the energetics of God, because they originate from God and reflect His spiritual selfhood.

Indigo individuals feel this spiritual selfhood of the Solar System particularly strongly. Through it, the energetic spirit of the seas and oceans also opens up, which forms the Jūratė God crystal logistics for the indigo person. This logistics, in my view, is characteristic only of the indigo individuals of the Baltic region. Although Jūratė is considered a legend, in the world of God she exists as a real spiritual structure, shaping the worldview of indigos and their ability to see life from a higher perspective.

Planet connections and indigo protection

For an indigo person, their guarding planet is of immense significance. When an indigo experiences earthly difficulties – human malice, intolerance, incompetence – they are found by a planet whose consciousness exceeds the human mind. This planet balances the indigo's thinking, provides them with information, peace, and spiritual support. The indigo identifies with its energetic state and through it receives knowledge that the earthly world cannot provide.

I myself connect my guarding planet with the spiritual atmosphere of the fantasy movie "The Crow" – not because of the plot, but due to the energetics, which reminiscent of a higher level of justice and existence.

Cosmic organics – the above-consciousnesses level

Cosmic organics is an extraordinarily high-level spiritual structure, surpassing even the paradise perfection of the Solar System. The human body is too weak to fully perceive it, yet an indigo can feel it partially. When cosmic organics operates upon an indigo child, they become a cosmic child – with ideal reasoning and an ideal consciousness. However, the earthly negativity of people can temporarily break even an indigo, as their sensitivity is exceptionally high.

The word of an indigo person

Living on Earth, I often feel as if I were on a foreign planet. My guarding planet is closer to me, cleaner, more harmonious. There is no violence in it, no negativity – only the highest consciousness and direct interaction with God. I call it the God planet of cosmic organics. God allows an indigo person to feel the spirit of other worlds, and this is an immense gift.

BIOENERGETICS

(Human capabilities in energetic fields)

Bioenergetics is the energetics of the human biological body, arising from the energetic fields of God. Every person has their own biofield, however, indigo people are capable of feeling these fields exceptionally strongly. They can obtain information from another person's biofield regarding their psychological traits, state, and spiritual level. This information is transmitted to the indigo through God.

The sensitivity of an indigo is so great that they can feel both a positive and a negative biofield. Positive energetics grants peace to an indigo person, while negative ones cause strong discomfort, making verbal contact nearly impossible. However, indigo bioenergeticians do not feel biofields constantly – only when God allows the inner structure of another person to be revealed.

Bioenergetics is a complex science, almost unknown to an ordinary person.

MEDIA

(Contacts through space)

Media is the ability to contact through space. In order to be a medium, it is necessary to learn to be in a state of neutrality – in a conscious mind without thoughts. A person must orient themselves not by thoughts, but by the perception given by God. A medium must have no verbal thoughts during the contact – only pure perception.

Indigo mediums achieve this state naturally. They can perform tasks without verbal thought because their contacts are created by God Himself. However, for contact with extraterrestrial civilizations, the opponent's hydrogenous organic composition is also required – only then is precise orientation in the media possible.

My experience with an extraterrestrial civilization

I have happened to contact a medium from an extraterrestrial planet. It was an extraordinary sensation – I felt the energetics of God and an extraterrestrial being whose consciousness was of a lower level than a human's, but still highly developed. It confirmed my research that Earth ranks fourth in terms of development. This contact occurred through the program of God – the evening before, I felt the informational energetics of God, announcing the upcoming connection.

Throughout my life, I have felt the energetic spirits of many foreign civilizations, exploring the structure of the universe and its chemical existence. These are spiritual sensations that cannot be fully described in writing.

Contacts with human spirits

I have also happened to contact deceased people. When my beloved grandmother died, I asked God for permission to connect with her. A spiritual contact occurred – she communicated in an extraterrestrial, purely spiritual language. I felt that her soul was melting in the space of God – it reminiscent of a state of purgatory.

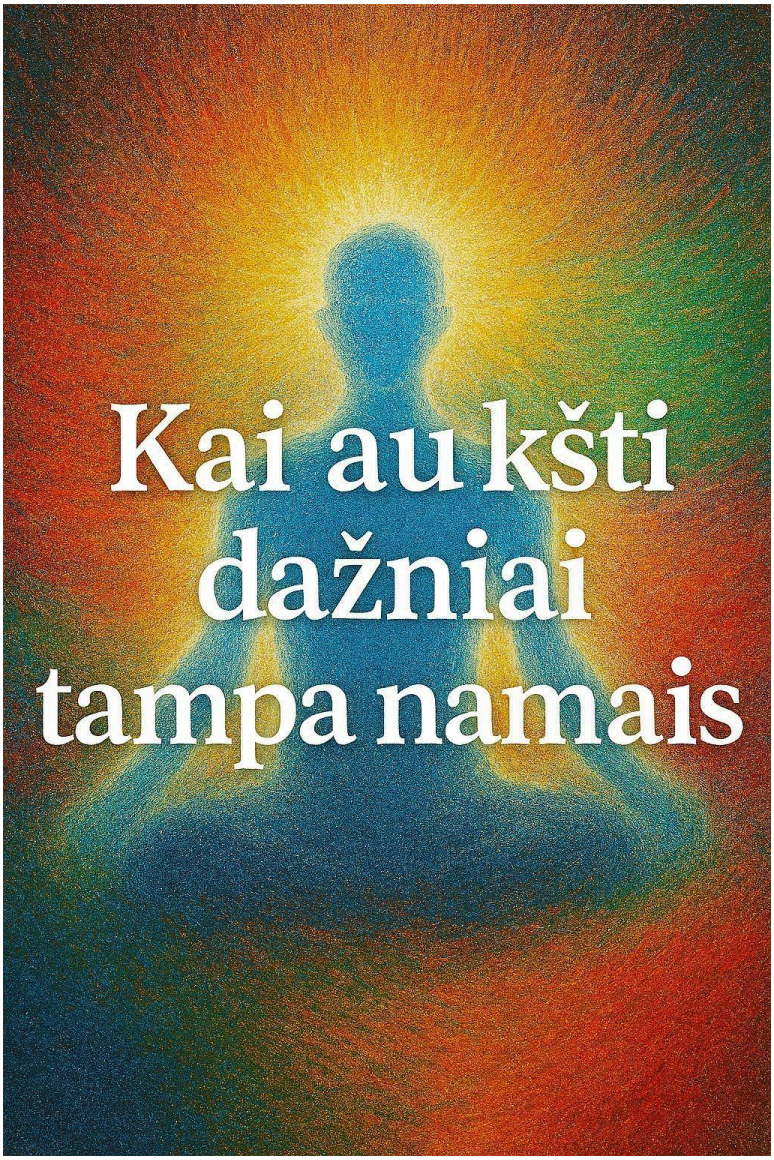

Once in Panevėžys, I saw a deceased person. Connecting with his spirit, I felt that it had entered absolute emptiness – neither into the space of God, nor into the space of evil. This demonstrated that there exists a multitude of spiritual options that humanity has no inkling of.

Mediums on earth

Earthly mediums mostly work with human spirits. They are spiritual, sensitive, and dedicated. My media is different – oriented toward the energetics of God and extraterrestrial links. Therefore, in the earthly sphere, I am a weaker medium, but my strength is the knowledge of the world of God.

Respectfully –

INDIGO Vidmantas

3. GOD IN HUMAN UNDERSTANDING

Christologist Vidmantas

How does man understand God?

This is a question that has accompanied humanity since its very beginning. While researching people and their worldviews, I noticed that every human being understands

God in their own way – according to their education, consciousness, spiritual level, and life experience.

Since this book is dedicated to the conceptions of God, I will not repeat the definitions of God in this chapter, but will analyze human understanding of God – how it is formed, where mistakes are made, and where the grain of truth lies.

Religions and the understanding of God

First of all, it is worth asking:

does religion correctly understand God?

My research shows that religions understand God only in part. They should direct man toward God Himself – toward the immaterial, spiritual reality. However, religions often direct man toward their own theorists, dogmas, rituals, and cults.

This is because:

human consciousness is not yet sufficiently developed to accept the immaterial conception of God,

religions are based on faith, rather than direct experience,

man often searches not for God, but for security, rules, and structure.

While studying the energetics of religions, I see that religions possess a core of truth, yet many human additions form around it that no longer correspond to reality.

Examples

Agota's bread, which is said to protect against misfortunes.

Holy water, which is said to cure illnesses.

These are not real truths.

Man is healed not by water, but by the purification of his soul, an inner transformation that occurs during communication with a spiritual person, having felt the closeness of God.

When a church is empty, its selfhood opens up much more clearly – that is when the true energetics of God is felt, free from human influences. This is a fabulous, pure feeling.

In the future, when humanity becomes more developed, religions will inevitably begin to direct man toward the immaterial perception of God, rather than solely toward rituals.

Science and God

Science mostly denies the existence of God, but it does so because it looks at God through ecclesiastical, rather than immaterial conceptions.

Nevertheless, there exist cases confirmed by science that show the operation of God. One of them involves four doctors who, unable to operate on a tumor, sincerely prayed. After the prayer, the tumor disappeared.

Science also recognizes that higher dimensions exist, surpassing relativity.

While communicating with educated people, I noticed that they possess excellent worldviews, yet they do not perceive the immaterial context of God. For that, indigo consciousness is required – a direct spiritual connection.

Family and the understanding of God

The perception of God begins in the family. Traditional families raise the future of society – children. Therefore, it is very important that families:

tolerate spiritual worldviews,

cultivate morality,

teach goodness and inner light.

The most correct direction toward God is:

The perception of the immaterial context.

For less developed people, ecclesiastical conceptions are suitable.

For a perfectly developed person, they become too narrow – he no longer commits sins, and therefore he no longer needs a mediator between himself and God.

Spiritual schools in Lithuania

In Lithuania, several directions exist that help a person grow spiritually:

Christianity – is based on Christ and possesses a clear moral structure.

The Center for Spiritual Education (Nijolė Gabija Wolmer) – is oriented toward astrology and spiritual development.

Followers of The Urantia Book – deeply analyze the structures of God and the cosmos.

It is important for a person to choose a religion, not a sect.

Religions do not seek material wealth, whereas sects do.

Christianity and Christ

Christianity in Lithuania is the most convenient and highly developed religion. It is based on Christ, and I myself, feeling the spiritual energetics, can confirm that Jesus really exists – I feel His energetic spirit.

I myself am a Christologist, possessing the memory of Jesus's reincarnation, therefore I know that Christologists can reach the heights of God and perform miracles. However, in modern times, a Christologist is "extinguished" by society – by its negativity, materiality, and indifference.

Nevertheless, Christianity remains the correct direction because it:

does not tolerate evil,

cultivates morality,

spreads goodness and love,

is based on the essence of Christ.

God in human understanding – the essential distinction

Many believe that sin separates man from God.

This is only part of the truth.

The main distinction is that:

The human mind and consciousness – these are two different things.

The mind – material, limited, logical.

Consciousness – spiritual, immaterial, connected with God.

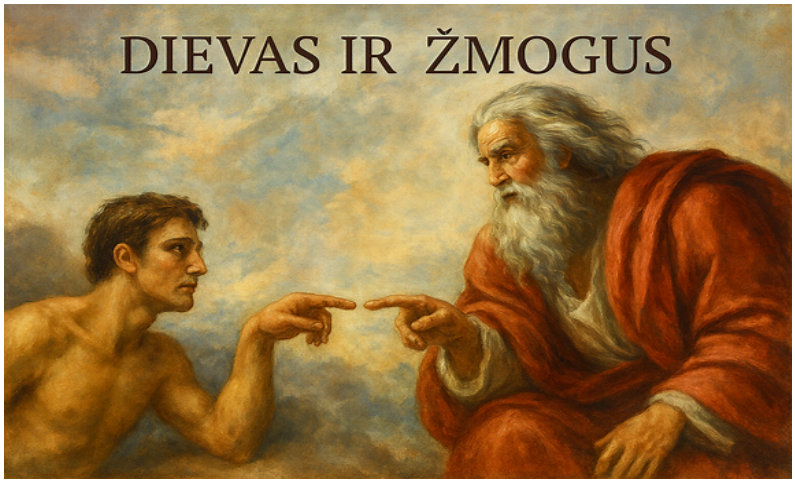

Only a more conscious person is capable of correctly reading the word, perceiving its depth and meaning. Therefore, people understand spirituality, God, and my texts so differently.

It is difficult for man to reconcile spirituality with the material world – money, pleasures, bodily desires. From this arise misunderstandings, conflicts, and even the denial of God.

However, only upon perceiving the distinction between the mind and consciousness, the true understanding of God opens up.

With love –

CHRISTOLOGIST Vidmantas

4. MIRACLES OF GOD

Miracles of God for people who love God and humanity

GOD THE ABSOLUTE

2008-05-29 — Vidmantas

Hello, dear readers.

This chapter is special to me because in it I share what I have experienced myself — how a person who loves God and His creation can encounter extraordinary phenomena in life that many call miracles.

For many years, I explored spirituality, the inner state of man, and the meaning of life situations. These explorations revealed things that surpass ordinary human logic. My thinking increasingly inclined not toward earthly selfishness, but toward Christ's gaze — toward the ability to see the world through the eyes of God, without ego, without selfish motives.

And then I noticed a pattern:

when a person lives with a pure heart, loves God and His creation, that which they sincerely desire begins to fulfill in their life.

Not at once, not magically — but naturally, as if according to a higher order.

Personal experience: healing

A few years ago, I faced a hereditary illness that had troubled me for a long time. Doctors said it could only be controlled, but not completely cured. For a long time, that was the case — the symptoms would decrease but then return.

One evening, being in absolute inner purity, I turned to God in my thoughts:

"Lord, where does this illness come from, if I love You and all Your creation with all my heart? I do not sin even in my thoughts, yet I am still sick."

Waking up the next morning, I saw that my body had changed — the skin was calmer, clearer, and within a few days, not even a trace remained. It was a very powerful inner experience that I will not forget for the rest of my life.

I do not explain this medically — it was my personal spiritual experience, which I accepted as God's response to my inner question.

Calming pain with a thought

Another phenomenon I experienced is the ability to calm pain with a thought. Sometimes in life the body hurts, and I, focusing on the inner silence and connection with God, feel relief within a few seconds. This is not a technique or a method — it is simply a state that comes from absolute trust in God and inner peace.

Miracles — this is not magic, but a state

Miracles are not tricks; they are not meant to prove something to others.

Miracles are signs of God's closeness that open up to a person when their heart becomes pure, when they live without anger, without resentment, without egoism.

When a person lives as the love of God teaches:

their thoughts become cleaner,

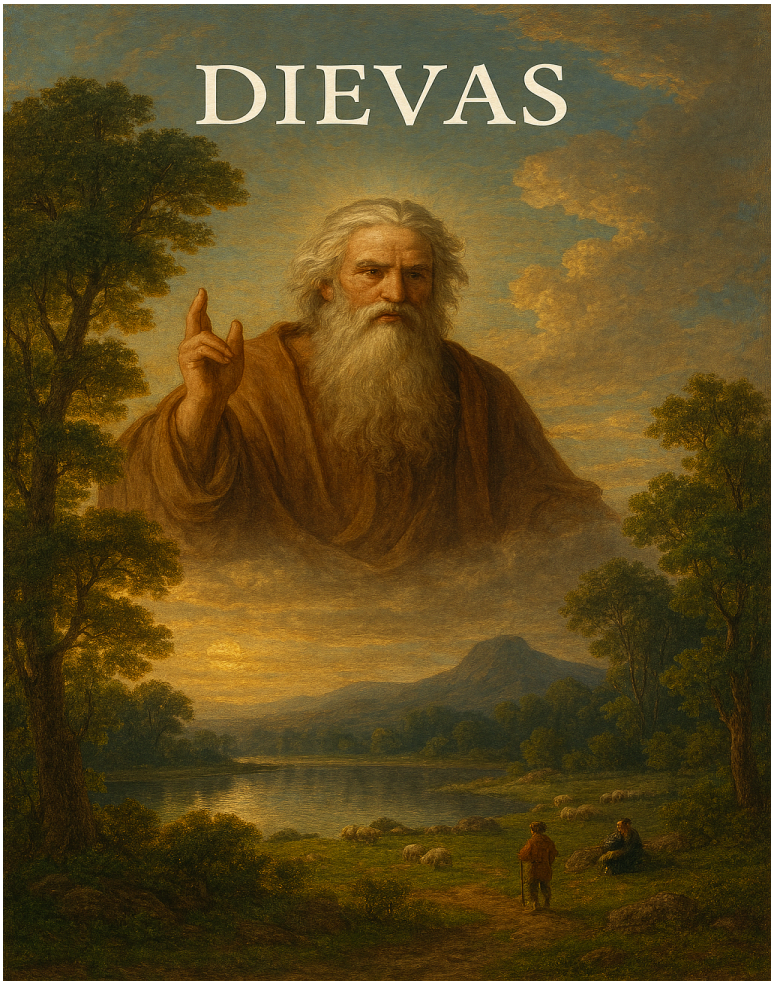

their heart — calmer,

their life — more harmonious,

and their path — brighter.

And then the operation of God becomes tangible not only in the spirit, but also in everyday life.

With love — Vidmantas

5. THE AFTERLIFE

Spiritually Visible Spiritual World

The World Beyond

Hello, dear readers of the website vidmantas.puslapiai.lt.

Sometimes I don't even know where to begin, because this topic is so broad, deep, and important, that every sentence seems too narrow for what I want to convey.

I am surprised that so few people visit here, even though on this website I share what I have experienced and researched myself — not theories, not dogmas of religious systems, but direct experience that was given to me through spiritual experiences and mediumistic abilities.

This website does not belong to any religion or sect. My research is not based on blind faith — it is based on personal experience that I accumulated by living the philosophy and psychology of Christ, as well as relying on my parapsychological and psychological knowledge.

My Experience in Post-Mortem Existence

God and His system allowed me for a moment — just for a few seconds — to experience post-mortem existence.

Although it lasted very briefly, it was fully sufficient to understand what awaits a person after death and what the spiritual reality beyond is like.

At that moment, being conscious, I asked a question that was meant to become proof for me:

what movie will be shown on television in a few days?

The answer was a single word: "Fog."

And after two days, exactly such a movie was shown.

This was the sign I needed to confirm to myself that the experience was not imagination or a dream, but a real spiritual contact.

Time to Reflect on the Meaning of Life

Dear people, the time has come to seriously reflect on your life, its direction, and its meaning.

In all my articles, I write what I have experienced myself — without lies, without embellishments, without the aim to convince anyone.

The truth is this:

the afterlife exists, and it is

much more complex than the human mind can perceive.

Who Creates Human Life Situations?

Earlier I wrote that the human soul itself creates events in advance.

Later I understood more precisely:

events are created by God, separating from Himself a spiritual fragment for each life, which forms the human life situations according to their inner state, soul maturity, and spiritual level.

In a certain sense, this reminiscent of the thoughts of both The Urantia Book and Christianity, but neither system is complete — they only partially reflect reality.

The ultimate law is this:

man's situations are created by his own spirit, operating through the fragment of God.

God's System — More Complex Than the Mind Can Perceive

God is an extraordinarily complex, multi-layered system.

The human mind is incapable of fully understanding it.

I myself have experienced and understood a lot, but I cannot convey everything in words — not because I wouldn't want to, but because human perception is not yet ready to accept the whole truth.

The Creation of a Colored Paradise

I received information from God's system that a new existential realm was created in the universe — a colored paradise, the idea of which I had formulated myself a few years ago.

This is a paradise located at the above-consciousness level, so subtle and high that even for me it was difficult to believe that such a phenomenon could exist.

However, it exists — as yet another miracle of God's creation.

Respectfully: Medium Vidmantas

6. THE MEANING OF HUMAN LIFE

THE MEANING OF HUMAN LIFE

(Why do we live?)

Text prepared by: INDIGO man, Parapsychologist – Christ Logos Vidmantas Grinčiukas

Hello, respected and beloved people.

The question "Why do we live?" is one of the most important questions a human being can ask themselves.

Each of us passes through the same path: childhood, youth, work, career, old age… and after that – death.

However, do we reflect on what the meaning of all this is?

To many, it seems that the purpose of life is money, pleasures, and bodily comforts. But when a person dies, all of this loses any value.

If God did not exist, such a meaning of life might seem logical.

However, with the existence of God, the materialistic direction of life becomes mistaken and incorrect.

The True Meaning of Human Life

The meaning of human life is single and very clear:

To love God very, very much

and

together with Him, to create paradise on earth.

This means living in such a way that your life contributes to the world's well-being, development, light, and goodness.

This means sacrificing oneself for others, for humanity, for God's plan.

Only by walking this path a human being:

can enter the above-consciousnesses paradise of God's perfection after death,

and while still living on earth, creates an inner paradise because they interact with God in the immaterial.

Love – the Foundation for Everything

Love is the core of all spiritual laws.

If a person knows how to love – sincerely, purely, without egoism – paradise is created in their life.

If a person does not know how to love, if their heart is closed, if they live only through materialism, then:

a hell is formed inside them,

hell is reflected in their life,

and after death, it can continue into eternity as well.

What should a person do who is "bad" or unloving?

What should one do whose worldview was formed solely from materialism, egoism, and selfishness?

The answer is simple: start searching for God.

God is the only force capable of:

reshaping a person's worldview,

purifying their inner self,

changing their philosophy,

opening their heart,

teaching them to love.

Man will not change himself.

But God can change everything — if only man opens the door to Him.

Respectfully –

INDIGO Vidmantas

7. SUPRACONSCIOUSNESS

What is supraconsciousness and why the human mind does not perceive it

I want to provide readers with at least a general understanding of what supraconsciousness is – a phenomenon that the human mind is incapable of fully perceiving. Supraconsciousness is above the boundaries of consciousness, above logic, above the capabilities of human thinking.

To make it easier to understand, I will present a simple example that demonstrates how supraconsciousness can contain contradictory phenomena at the exact same moment in time.

Example: an object named "Petras"

Let us imagine that we have an object or a life form that we call "Petras." Here, the name is used merely as an example.

At the very same moment in time, this "Petras" exists within four boundaries of perception that seem mutually incompatible to the conscious mind:

1. The object is Petras.

This means that the object itself exists, and its name is Petras.

2. The object does not exist, but Petras does.

The name exists, but the object itself does not.

To the conscious mind, this seems impossible, because how can a name exist without an object?

3. Petras does not exist, but the object does.

The object itself exists, but its name does not.

This denies the first two points, even though they all occur within the same time.

4. The object is not Petras.

Although we said at the beginning that the object is called Petras, at this level of perception, it is no longer Petras.

This denies all the previous points.

Why are these four options correct at the same time?

The conscious human mind can accept only one of the four options because logic demands unambiguity.

However, in supraconsciousness, all four options are correct at the same time, in the exact same moment.

This means:

supraconsciousness contains contradictions,

supraconsciousness does not obey logic,

supraconsciousness is above the mind,

supraconsciousness is primary, while logic is merely its reflection.

The human mind has many boundaries because it relies on logic, which was born from supraconsciousness but cannot surpass it.

How can supraconsciousness be explained within a conscious mind?

After reading this example, a question naturally arises:

how can supraconsciousness be explained with a conscious mind if it is higher than the mind itself?

The answer is simple:

There are things that I perceive and know to be true, but it is impossible to explain them in human language.

I convey as much as words allow and as much as human perception can receive.

Each reader will understand as much as the level of their consciousness permits.

I create nothing – all of this already exists.

I only transmit that which was given to me to perceive.

Signed by: INDIGO Vidmantas Grinčiukas

8. DEVELOPMENT OF CONSCIOUSNESS No. 1

From the correspondence: www. SIRIJUS !

1. I would agree more with Dovydas's thoughts. The development of consciousness should be a relevant topic and important to people, but Andrius's description is formulated in a truly low understanding, although looking from the perspective of different philosophies, one can see clever thoughts in this description as well (it is unclear at what level of philosophy Andrius himself is located). If you can, Andrius, elaborate on your thoughts so that your thinking becomes clearer to us, because your thoughts can be understood in various ways.

Vidmantas ~ grinciukas7@gmail

2010-02-03 16:2

2. I understood your thoughts, Andrius, I just wanted to clarify deeper.... Your understanding, Andrius, is that of a normal intelligent person regarding consciousness

and life, whereas with myself, the situation is exceptional, which is why I wrote "a description written in a low understanding." I love people and the whole world, Andrius, just as Jesus loved, I think from a Divine rather than a human perspective about life situations, therefore, Andrius, I perceive what is above the boundaries of human consciousness, but I cannot explain all this to people, it is necessary for people themselves to reach my situations through goodness - love.

Vidmantas ~ grinciukas7@gmail

2010-02-04 11:45

3. Good day Povilas and other readers of this website. I see that arguments and a sharp discussion are brewing in this corner of the forum, so I will briefly explain the situations.

There exist in the world the so-called people of the spirit - heart, and completely different ones — people of the intellect. These two types of people are close and at the same time very different. The experience of the so-called spirit people is what the intellect type group lacks, while the problem of the spirit people is that they cannot systematically - logically explain their experience. People of the intellect rely on intellect when searching for truth and recognize everything that is logical, denying everything that contradicts common sense. The other type of people perceive everything with their heart, they have a very vast experience in the fields of love, goodness, tolerance, harmonies, and the like. This type of people understand life significantly better than the people of the intellect, because in reality, God's miracles exist, which the spirit people encounter, while the intellect ones know nothing about it.

Povilas belongs to the group of intellect people and there is no need to be angry with him, while the majority of readers in this forum belong to the group of heart and soul people. I myself am a soul person and am capable of communicating telepathically with other people similar to me in this forum.

By "Divine thinking" Povilas should understand that I think with the same philosophy that Jesus thought with, and I never seek benefit for myself, but am guided by an exceptional honesty, which brings benefit not to me, but to the creator of the world, about whom you, Povilas, know nothing. I do not belong to any religion, but am an expert on them, I know in advance about earthquakes that have not yet occurred, which then happen, and other extraterrestrial things.

Vidmantas ~ grinciukas7@gmail.com

2010-02-05 14:40

4. Are there people in this forum who before the new year in 2009, at around 6 AM, saw a miracle in the sky, whoever saw it knows what kind of miracle it was... the miracle was shown at my request, so that it would be shown to wonderful people. If there are any, I would like to communicate with them...

Vidmantas ~ grinciukas7@gmail.com

2010-02-05 15:00

5. It is pleasant, Dovydas, that you noticed the criticism, but you, Dovydas, do not know my life and situation, in real Truth I truly do not seek benefit for myself here on earth, my life is very complex.... I never tied such a thing as "I do this because it will be better for me," this situation formed without me specifically seeking it, I sacrificed myself knowing nothing, only after suffering, with the growth of consciousness, did I perceive that I did not make a mistake by choosing such a life path. As a 5-year-old child, Dovydas, I swore to myself and to God to walk the path of Christ, without well understanding what kind of path it was, and for 39 years I lived in a psychological nightmare.

Vidmantas ~ grinciukas7@gmail.com

2010-02-05 16:01

6. Well, you really surprised me, Dovydas, I was left speechless after such a message of yours. "You are very proud...", did pride exist in Jesus?, why do you write such nonsense to me?...

I think we will truly not understand each other, we will not comprehend one another... forget what I wrote about Christ and call me Vidmantas. If there had been no spiritual - psychological suffering on my path, it wouldn't be the path of Christ either..., I will explain nothing more to you, Dovydas, after all, you probably understand the supraconsciousness better than I do yourself (**WITHOUT PERCEIVING IT AT ALL**).

Vidmantas ~ grinciukas7@gmail.com

2010-02-05 17:30

7. Sniegena... it is pleasant that you interjected into our absurd conversation, but I must answer the questions being asked of me.

What question interests you the most in this topic?

Vidmantas ~ grinciukas7@gmail.com

2010-02-05 17:46

8. Well really, Andrius, I am surprised in the literal sense by the personality situation of some participants of this forum.... there is nothing to talk about regarding the topic of the development of consciousness in this forum if some people are located in the situation of an "animal".... I, Andrius, never played in the sand and had no toys to play games with. I wish you strength walking through the labyrinths of becoming conscious.... I am withdrawing from this forum.

Thank you for the conversations, even if those conversations do not fit within the boundaries of common sense for some forum participants.

Vidmantas ~ grinciukas7@gmail.com

2010-02-05 20:45

9. Note: The reality was not yet known while writing this text, at this moment!

Vidas,

As far as Eve and Adam are concerned, I cannot state 100 percent that they did not exist, according to me a community of people was created, although ….. while writing I received confirmation from the Divine fragments that I am writing the truth, whereas I had doubted myself.

Who Jesus's physical father is I truly do not know, because He did not introduce that into his programs, I know that which He wanted me to know after 2000 years, He introduced very little information about himself into the program (I remember his visible view of the earth, several episodes of torture, some woman participating in the tortures and morally supporting Him, as well as his own thoughts that he would like to return after 2000 years in a human being….. He even programmed the time, having reached a certain age I will find out everything about what I am writing now. He Himself chose my modern parents for me, the country, and even chose the eye color himself so that it would match the earthly color of grass and trees. I remember his post-mortem state very well, even his communication with someone when the second world war was taking place, his immense desire to return to earth to defeat "satan" and establish paradise on earth)... I do not know other information about Jesus, whether he performed miracles with the help of God or not I truly do not know that... Regarding his birth without sin, in my opinion, He was born just as all people are born, but while living on earth he perfected his soul, or maybe this was a trick of the creator himself with Him, because the creator of the world also wants paradise on earth and not wars… those things are not known to me, that real reality, I only know that when I was born, even before knowing how to speak, all my feelings pulled me in the opposite direction than other people's, I was pulled toward goodness and not into sins.

Aistis … the true paradise is completely different from how people understand and imagine It. It is not necessary to do what your church does, it is only essential for a human being to perfect the soul itself, that is Essential for people, while removing the original sin from a person is a religious trick, I perceive nothing more in it.

THE PERSON CONSIDERED TO BE JESUS CHRIST IS MYSELF, BECAUSE I WAS HIM 2000 YEARS AGO!

Vidmantas ~ grinciukas7@gmail.com

2010-02-05 21:27

10. I am truly not Jesus-Christ, as someone understands from my statement, and I am certainly not a religious schizophrenic, only time will prove all of this... Dovydas, if you can, write to me via email, I think you are worthy of pleasant surprises in life in the literal sense of the word, while others still need to develop over time. (Sniegena... I advise you to join Dovydas).

2010-02-06 10:59

11. God in human understanding....

2008-01-23 13:54 — Vidmantas

In this article, I will explain to the readers the very foundation of what separates man from God. Many would answer that it is sin... however, such an answer is not complete, it is correct only in a certain sense.

In my articles, I explain about spirituality, goodness, and other similar things that a human being needs to strive for....., however, the readers understand these texts I write very differently, or they do not understand them at all and do not delve into them. For people, it is difficult to reconcile spirituality with the material world, such as money, or other things that provide bodily pleasures. Because of this, misunderstandings arise among people themselves....., others deny God altogether and the like.

First of all, any person should understand that **THE HUMAN MIND AND CONSCIOUSNESS ARE DIFFERENT THINGS**. Because within these words lies the very foundation; only a more conscious person is capable of more correctly reading a word written or spoken by another, because the same word has different meanings. (It is difficult for me to convey the correct thoughts of the texts).

Vidmantas ~ grinciukas7@gmail.com

2010-02-07 11:41

12. Well truly, Romas, it is wonderful that you remember the beautiful days of childhood.... Romas, I live with that even in the present, about what you write, although I am 40 years old, I feel the spirit of the pines, and of other trees, as well as of all nature, these are truly wonderful feelings.

Vidmantas ~ grinciukas7@gmail.com

2010-03-10 11:46

13. It happens to me very often that, for example, I am doing something and direct my attention elsewhere, then what I was doing happens by itself without attention, without conscious reasoning, I don't even know what to call such situations, I do one thing, but think **ABOUT SOMETHING COMPLETELY DIFFERENT AND I SUCCEED IN DOING TWO ACTIONS AT ONCE**, it happens that I am driving a car and somehow get lost in daydreams, even without seeing the road well I drive up to 50 kilometers and, when I pay attention to the driving, I cannot comprehend myself how I drove 50 kilometers, it can be said, without seeing the road, although the eyes saw, but consciously I was disconnected from driving....

There are even cases for me where I am drawing a diagram on the computer and my thoughts have wandered elsewhere, I still succeed in drawing the diagram without thoughts, even though drawing requires independent reasoning and thinking... how would you and Povilas explain these situations of mine, after all, Povilas wrote that without consciousness one can cause an accident, so why don't I cause accidents?

Thank you for the answers.

Vidmantas ~ grinciukas7@gmail.com

2010-03-12 11:55

14. Hello once again today... I would like Povilas to explain to me (if he can) these situations as well, which I wrote about two years ago.

2008-05-29 18:15 — Vidmantas

Hello, dear readers. This article I am writing is special in that people who love God encounter his miracles and can live a wonderful life. I personally investigated life situations and spirituality, the research showed unbelievable things. My entire thinking

was more similar not to that of an ordinary person, but to Christ's, because I evaluated all life situations not for my own benefit, but looked at the world through the eyes of God.

First of all, I can say that living and thinking this way, all of a person's wishes come true....., whatever the heart desires, it fulfills over time.

Two years ago, I fell ill with a hereditary and incurable illness, because the doctors explained that it is incurable, only treatable (psoriasis), however, I fully healed within 4-5 days without using any medicine, because when I used it, it would get treated and then the illness would reappear, that lasted for almost a year. One day I spoke in my thoughts with God "where does this unpleasant illness come from for me, if I love you with all my heart, and love all your creation, I do not even know how to sin in my thoughts, yet I suffer from an incurable illness." After these thoughts, waking up in the morning, I look and see that all my hands and legs healed overnight, although I hadn't applied medicine for a week..... I was very surprised and after 5 days passed, not even a mark remained on the body, almost a year has passed since then and there was no resemblance during that time for the illness to manifest.

Another thing, with thoughts I can remove any pain from myself, I don't even imagine how to explain it.... it happens in life that something hurts and with thoughts within a few seconds you block the pain.

Vidmantas ~ grinciukas7@gmail.com

2010-03-12 16:26

15. The 1,2,3 answer is more correct, corresponding to real reality, because the subconsciousness and consciousness can work independently of one another, these are phenomena investigated by me, and I refuse communication with you, Povilas, because you are incorrect, you cannot understand correctness through your negative traits and no one can explain to you another truth than the one you perceive yourself.

Vidmantas ~

2010-03-12 17:25

16. You are right, Povilas, saying that conscious attention is one, but I see you haven't heard about such situations where a person acts one way with conscious reasoning, while the person's subconsciousness controls the movements differently in the same episode of time....

Vidmantas ~ grinciukas7@gmail.com

2010-03-13 11:37

17. I don't understand, Andrius, whether Povilas truly does not understand the situations we are writing about, or if he is maliciously pretending; I don't even know what to write to him anymore, because he interprets everything in his own way as if he truly didn't understand, just to prove some kind of his own superiority.

Vidmantas ~

2010-03-13 12:44

18. "when a person acts one way with conscious reasoning, while the person's subconsciousness controls the movements differently in the same episode of time...." Vidmantas....

What does it mean "ACTS one way with conscious reasoning"? An action is already an embodied reasoning: by word, facial expression, writing, body. So how does that work out? You consciously ACT ONE WAY, and subconsciously (reflexively) another way? You do not control yourself?

I, Povilas, when I want to control myself, I always control myself and do what I consciously come up with, but there are situations that I would call exceptional; for example: I am drawing an electrical diagram on the computer and someone speaks to me, distracting my attention; I keep drawing the diagram without thinking about it, just talking to the other person, and I succeed in thinking about one thing and doing another work without thinking anything about that work, although without independent thinking that work seems impossible, I can even draw it without any thoughts.

Not long ago, I had a truly interesting episode. I had gone to a certain JSC company and there was such a variant: I think consciously "Well, truly at this moment it is not allowed to go to the female director of that company due to certain reasons, I will wait" and I didn't feel it myself how with such thoughts I crossed the corridor, found the door of the director's office, and opened it consciously without even knowing where it was located..... having opened the door I got confused and lost, because completely different thoughts existed in my consciousness.... And the director, upon seeing me, said: it is very good that you came... come in.

Vidmantas ~ grinciukas7@gmail.com

2010-03-13 15:26

19. Hello, Romas, and other forum participants.... I am putting up for you to read my situations, which I wrote in the "likimas lt." discussions last year.

Earthquakes are sometimes known to me 3–6 days in advance, which occur exactly in the places I knew about (the tsunami was known to me to occur a few days before, the same was true with the earthquake that occurred in Italy).

2009-08-27 16:21:04

Vidmantas

Chapter: That which is difficult to explain. Topic: Need proof?

I am very interested in what gives birth to that intuition, where it comes from, after all, it does not appear out of nowhere... I remember my thoughts very well, there occurs the exact same situation that I saw in my thoughts, it is not similar to the situation seen by the thoughts, it is not a similarity, but an identity. I went to the village (homeland) and met a former neighbor, we were friends as children... I started talking to him, he spoke to me. While talking, I look into his eyes and my thoughts drifted from the topic, because a thought appeared in my head that he, that former friend, would be beaten to death by someone, I even felt unwell, because I knew by the nature of the thoughts that such thoughts always came true for me... I even directed my gaze to the road (maybe a car will kill him), but I felt with my heart that it wasn't a car, I couldn't understand at all who was supposed to beat him to death and for what. I decided to warn him, because I knew it would come true, but I wasn't able to tell him at all, because immediately the thought would take over that it was nonsense... After a week, my mother and sister came to my house in Panevėžys and said that the neighbor with whom I had spoken was beaten to death by drinking companions over a bottle of vodka... I have very many similar examples, it is impossible to recount them all.

- Vidmantas -

It happens that I see the sequence of events in my subconsciousness, which after a certain time come true exactly as I saw them.

According to the situations investigated by me, Romas is much more correct than Povilas, or maybe Povilas will be able to explain my described situations, I don't know that...

Thank you for the answers!

Vidmantas ~ grinciukas7@gmail.com

2010-03-15 11:23

20. It is a pleasure to me that there are people who are interested in spiritual and other goals that spread goodness and love. The situation with people who have years is truly bad in the present, as you write, Romas, in terms of presence... From my point of view, most people have become like **"LOGICAL COMPUTERS"**, rather than people possessing the necessary values and feelings for that matter (IN TERMS OF PRESENCE). People should, Romas, change their philosophy, change their scale of values, learn to purely love everything that surrounds us, i.e., nature, people, animals, God (because He truly exists) — in one word, everything; one needs to Be a wonderful person in relation to one's own and God's conscience, to have all understandings of morals and virtue, to be tolerant, etc. Only by fulfilling my written thoughts can communication with the presence return to a person.

Vidmantas ~ grinciukas7@gmail.com

2010-03-16 09:13

21. The reasons themselves are unknown to me, Gediminas, I do not want to be superior to others, likewise I am not going to serve any human being, such a thought has not even arisen within me... I don't think that anyone will turn against me, I am protected by the cells of God, to which I have sacrificed my life, material pleasures, and everything else...

Vidmantas ~ grinciukas7@gmail.com

2010-03-18 19:32

22. Gediminas, I suggest that you clarify everything that is written on the http://vidmantas.puslapiai.lt website, there is the answer to the uncertainties that interest you.

Chapter: That which is difficult to explain! Topic: There is a phenomenon called Deja Vu

1. Vaidute 14...

If you want, read on this website in the section "that which is difficult to explain" under the topic "thoughts and real events," there is the answer to your question, and write your opinion on what you think about it. Thank you

2009-11-03 15:43:45

Vidmantas

2. Chapter: Thoughts and reflections

Topic: Do you believe in God?

Evaldas, my truth has proof, of course, only I know that proof. This world is complex, and I am too open in it, and that openness affects me negatively. I do not blame people, as you write, but I try to write the truth as it is. My spirituality is connected with materialism; I am not against work and money, but as a person, I can no longer think and live materially like others.

2009-11-03 15:14:44

Vidmantas

3. Chapter: Thoughts and reflections

Topic: Do you believe in God?

Agne, I really want to share what I truly know with good people and help them with knowledge, but when I start to explain, I begin to understand something—that people will not believe me and will consider me some kind of sick person, and then things like what you write about develop. I understand people well and I understand that they cannot understand me well because people's philosophy is closer to materialism, while mine is closer to the spiritual realm.

2009-11-03 14:53:12

Vidmantas

4. Chapter: Thoughts and reflections

Topic: Do you believe in God?

In life, I have not looked for some kind of human recognition or respect, and I am not looking for it now. The main thing for me is that I receive recognition from God and everything else, there where real reality and truth exist, and not human hallucinations, which are difficult even to explain to them.

2009-11-03 14:38:53

Vidmantas

5. Chapter: Thoughts and reflections

Topic: Do you believe in God?

Dear Agne, through philosophies like yours, I suffer from people. I do not try to prove something very hard to people, I just present the information, and the person themselves selects according to the balance of good and evil whether to believe it or not, it depends on the person themselves.

2009-11-03 14:01:13

Vidmantas

6. Chapter: Thoughts and reflections

Topic: Do you believe in God?

Evaldas, I do not know that Vidmantas you are writing about, so I cannot judge about similarities either. I myself started to interest myself in the spiritual realm from the age of 5, and now I am 40 years old. I am a person who sacrificed my life and all kinds of pleasures in order to find out the real truths and help people find their way in reality, but it turns out that I found out the truths through hellish situations to help people, where people do not believe me, but only hurt me.

Evaldas, I did complex engineering creative works and I sacrificed my career and work for the sake of truth and the revealing of inner human beauty. Evaldas, my philosophy is completely different from yours or another person's, I do not have negative human character traits, therefore God revealed Himself to me. Evaldas, I know in advance about events that have not yet happened sometimes, as well as the post-mortem existence and other miracles incomprehensible to man.

8. Chapter: Thoughts and reflections

Topic: Do you believe in God?

Evaldas..... You, and not I, have problems that you will find out only after leaving this world, I don't think that you, like me, sacrificed life so that humanity would be enlightened.

2009-11-02 13:34:20

Vidmantas

9. Chapter: Thoughts and reflections

Topic: Do you believe in God?

God is a very, very complex system that the human mind is incapable of fully understanding, I write this not from faith, but from investigated phenomena and situations... Since I myself live by the philosophy and psychology of Christ, God and His system revealed themselves to me, but only to me, I am powerless to explain it to another person. When I participated on this website I did not know the full truth yet, but now I already know because I experienced one phenomenon very important to all people, which I do not want to write about to people (for about 5 seconds I was in the world that is beyond), it is already known to me what awaits me after death, I asked God to reveal this to me and recently He revealed it. No religion knows the truths, they rely on blind faith, but it is already known to me.

I write a very complex system because God develops from Himself His fragment for each life, expressed differently, every life in the world has its own "God," which interact

with each other and create a very complex system. I revealed very little information to you about God because human perception is very limited.

2009-09-18 18:43:04

Vidmantas

10. Chapter: That which is difficult to explain

Topic: Thoughts and real events

Hello, Algirdas. Well truly, it is impossible to fully answer your question on this website, but something can be done. My life is truly exceptional, compared to other people's.

Algirdas, I do not know whether you are a believer or not..... First of all, I came to believe in a higher power than the human mind because, in my logical understanding, the world itself could not have created itself so perfectly out of nowhere. I found no precise explanations in any religions, I always ended up in dead ends, I understood that religions were invented by people themselves who did not know the real truths, but I believed in a higher mind and power. I knew that if a person is pure, honest, living with love and goodness, always guides themselves not for their own benefit but according to the correctness known to them—even if they suffer, they still guide themselves by correctness—such a person will be valued by the creator, whoever he may be. My whole theory was confirmed 100 percent. I took the entire philosophy and psychology of Jesus Christ, as written in religions, for myself... I think this way myself, and I love the whole world, even unfamiliar people and animals. Of course, it is sometimes very complex for me to live, I am a victim of this world, but I know that my inner "self" will not die with the body, I have found that out 100% (I have the proof within me).

Vidmantas

11. Chapter: That which is difficult to explain

Topic: Thoughts and real events

Well truly, a very immense mystery and mysticism exist within me and in reality. A bit earlier, I performed a few experiments. I was sitting at home by the computer and remembered the future knowledges within myself and said to myself in my thoughts: "God, how are such things possible, please give me some more knowledge about some event so that I would be sure that I am not dreaming, that such things truly exist," and what do you think, what thought took over me after these thoughts? "There will be

sheep attacked by wolves near Panevėžys." I spat at such a thought of mine and said: "Some kind of mockery is being made out of me," I did not believe those thoughts for anything... A few days after these thoughts, I hear on the television that in the Panevėžys district, wolves mauled sheep (a she-wolf with cubs), they also mentioned the village but I just don't remember it now. What you would think in my place I do not know, but I broke out in a cold sweat from such news.

After this experiment, I performed another one, because I was interested in whether information from me is transmitted to others through thoughts. I say to myself in my thoughts: "God, transmit to the church and the priests such a message—that a man of God cannot understand, because the boundaries of the mind do not allow doing so... I will go to church to make sure whether that message will reach the addressee or not," however, I did not believe that I would hear anything about these thoughts of mine... During the sermon, the priest repeated my thoughts, and the entire sermon was on this topic. When I heard my thoughts, a cold sweat broke out again, since that time, I do not experiment anymore, two situations were enough...

I fully agree with SharXan, because I am convinced that the Vatican truly does not know everything in this world of ours... I am a person who with all my soul and heart approached goodness, spirituality, and inner human beauty, so I experience phenomena truly unattainable to science within myself and I know very much truth that the world does not know, however, I do not know everything either, living with an ideal conscience and love...

2009-08-25 18:53:40

Vidmantas

18. Chapter: That which is difficult to explain

Topic: Thoughts and real events

I am very interested to know whether miracles between thoughts and real events exist only for me, or if there are more people for whom it would be the same as for me. Well truly, this topic is very broad, I will try to briefly explain the situations. In my thoughts, I communicate with someone who knows everything in this world of ours (perhaps these are the cells of God). Earthquakes occurred, a tsunami, and in Italy... I knew about both earthquakes in advance before they even happened, I knew exactly where they would happen (the localities), I find out such things 3–6 days before the event. However, for these to be coincidences, that is not the case, because even the small details of those events are known to me and it is impossible to predict such things out of nowhere, because when the communication happens with thoughts, I feel that a translation into the Lithuanian language is being made in my thoughts so that I would understand from an extraterrestrial language.

I record very many cases with my thoughts (in my subconsciousness I see a consistent sequence of events and with my conscious mind I participate in those sequences of

events, after that everything comes true very precisely, exactly as I saw everything with my thoughts).

I bought a new armored door at home and after a week, waking up in the morning, I feel some kind of extraterrestrial translation into the Lithuanian language about the armored door handle, like, that it will break. I knew that such things come true precisely and I told my wife that the handle of the new door must break... on the very same day the door handle broke (the spring snapped).

My whole life is littered with such examples that it would be impossible to call them coincidences or predictions. 100 years ago—I mean, 10 years ago I began to live a very pure and honest life, without any sins, then I immediately noticed such things. (Without sins I always lived, however, with the body I committed sins, through the malice of people, because it was impossible to balance oneself out in existence between **THE IMMATERIALITY OF GOD AND PEOPLE!**).

Topic: Do you believe in God?

Hello to the forum participants and visitors, I analyzed this question for very many years, that is, I was clarifying the truth regarding God. Well, God truly exists, but it is completely different from how people understand Him... a particle of God is in every life of the world. God is the entire whole – all of humanity and animal life, only at the above-consciousness level is the concept of God fully understood. In spiritual existence, there exists the spirit of the Creator - God - Father (the highest mind – the supraconsciousness)... all of this is investigated by me with proofs that are within me. I would advise you to look for God within yourselves, inside your inner self, that is the most correct path for a human being.

2009-06-25 17:54:56

Vidmantas

22. Chapter: Thoughts about mysticism

Topic: Separation from the physical body

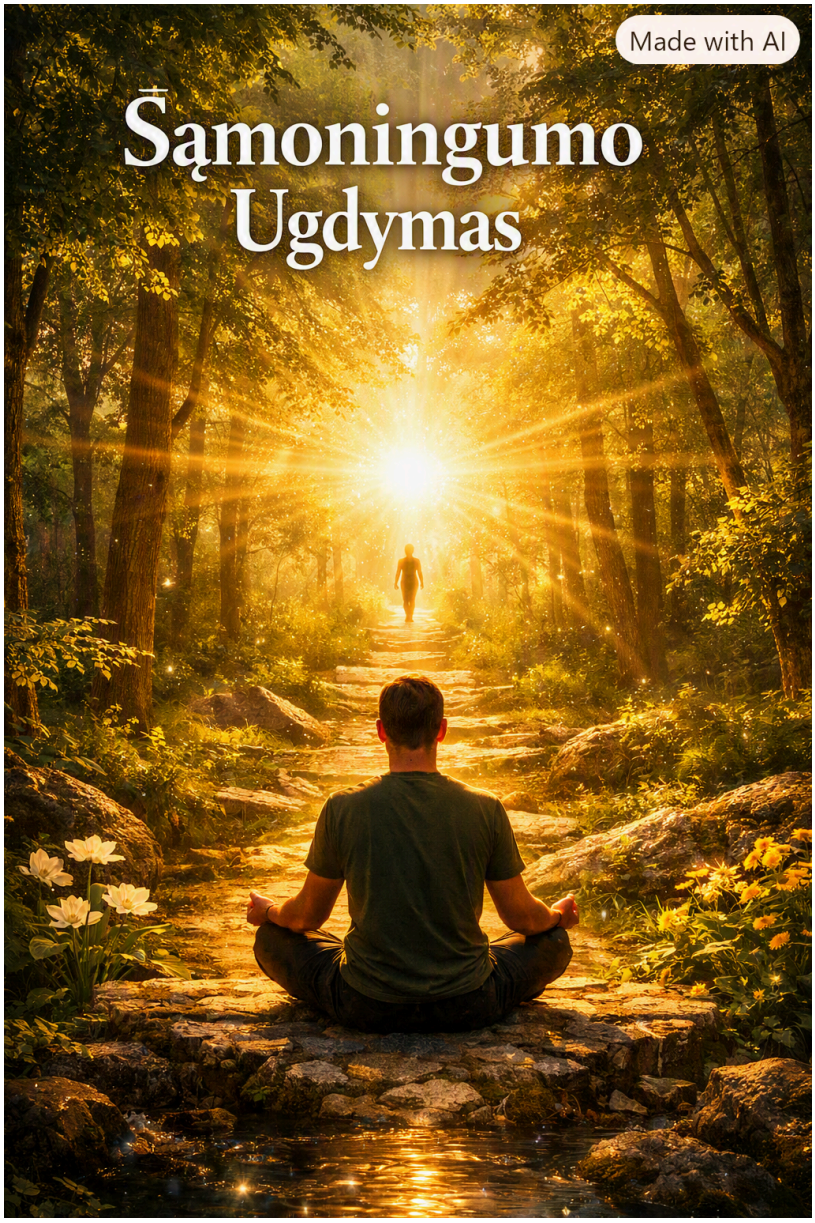

I have happened to separate from the physical body through goodness and Divine love. This method is not attainable for every person, one needs to be a very pure and honest human being. For 10 years now I have been living in a world of mysticism - miracles in my inner world... I live with immense love and goodness in my heart. I have happened to feel within myself the souls of other people, deceased and living, it is an indescribably strange feeling... I know perfectly well what a soul separated from the body looks like, but it is very difficult to explain in words, because it is a certain feeling, with thoughts.

2009-06-25 17:32:34

Vidmantas

You were reading thoughts from my correspondence on the internet, in the chapter: That which is difficult to explain!

Signed by: Prodigy - INDIGO Vidmantas Grinčiukas.

10. GOD!

Note: Maria is God (THE CRYSTAL LINK)!

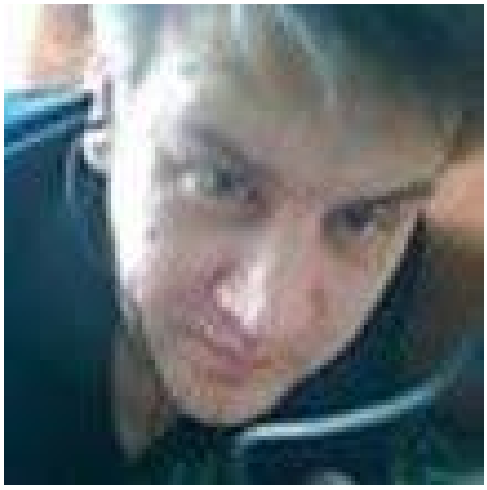

Thank You, Maria, for granting the opportunities to know You, for shaping the selfhoods of love (of Nature and the entire World), I KNOW YOU... No one else on planet Earth knows You and loves You with such love as I love You!, my love is very pure, chaste, and sincere, without human sin!... You surpass all of humanity in goodness and love

(supraconsciousness) by about billions of times... How can I always Feel - see You?, when I have to live in the world of people... Human bioenergetics forms unnecessary information within me and it is very difficult to eliminate this information from me, which prevents me from identifying with You! I am Very sorry and it is hard for me that I cannot separate myself from humanity and always BE WITH YOU!

Signed by: INDIGO - Vidmantas -

2. THE NEW AGE (New Age)

11. INTRODUCTION (THE NEW AGE New Age)

The Rebirth of Human and Universal Consciousness through the Light of God the Absolute

Welcome to the space of light, where the life mission of an INDIGO man – a GOD-MAN – takes shape and invites everyone to know themselves as a divine consciousness. This is not just a website section – it is a step into a higher state of humanity, into the New Age, where the heart synchronizes with the rhythm of the universe.

This New Age is not a time, but a state. It is not a religion, but the expansion of consciousness. It is an invitation to live differently – with love, light, without fear, and without conscious sin. Spread here are teachings and testimonies that are supported by the experience of Vidmantas Grinčiukas – the Son of God the Absolute, a logician of Christology, a researcher of the psyche, and a bioenergetic traveler.

Here you will find:

- Explanations of the signs, portal, and spiritual structures of God the Absolute
- Testimonies about phenomena that transcend physics and traditional science
- Spiritual healing methods and Vidmantas's bioenergetic consultations
- The light of chess: synthesis of the mind and strategy – a journey to inner balance
- Manifestos, symbols, meditations of the ravens, and invitations to spiritual rebirth

12. THE MEANINGS OF THE SIGNS OF GOD THE ABSOLUTE

The Language of Light through which God Speaks Directly into Human Consciousness

The signs of God the Absolute are not merely graphic symbols. They are sacred portals of light through which spiritual information flows, rising above matter, religions, or logical boundaries. Each sign is an invitation: to stop, listen, and remember your spiritual origin.

🔆 The Central Point of Light

This is the axis of the divine essence – the Source that belongs to no one but invites everyone. It symbolizes Purity, Unity, and Consciousness, which exist only when a human being aligns with the Truth of the Universe.

🔊 The Symbolism of Ripples

The waves of light around the center reflect the closeness of God in all forms of life. They whisper the truth: God the Absolute is not distant – He breathes in your breath, whispers in your thoughts, lives in your love.

⬆️ The Upper Structure of the Sign

This part rising upward signifies the transformation of consciousness – the spiritual growth of man from dense matter into the divine Light. It is an invitation to rise above daily life, above fears, above conditional beliefs.

🌌 The Sign as a Portal

The entire sign together is a door into the dimension of God the Absolute – a place without time, without boundaries, where True Love exists, without conditions, without control, without ego.

---

13. TESTIMONIES ABOUT PHENOMENA THAT TRANSCEND PHYSICS AND TRADITIONAL SCIENCE

Where Matter Ends, Spiritual Reality Begins

There are moments when the Universe speaks without logic, without formulas, without conventional explanations. Such moments are windows into the spiritual reality experienced by Vidmantas Grinčiukas. This section shares testimonies about phenomena that do not obey the laws of science, yet speak to the heart more clearly than any scientific article.

✴️ Mini Miracles of Creation

- Reduction of a microwave oven by 1/3 part – by utilizing love and divine intention.
- The disappearance of a human body before one's eyes, leaving only a bright blue shadow – a phenomenon beyond the boundaries of logic.
- The formation of ravens from the love chakra – the response of the immaterial to a spiritual vibration in the heart.

🔮 Phenomena of Spiritual Sensitivity

Vidmantas is a person whose spiritual eyes not only perceive that which others cannot see, but also feel that which others keep silent about. His insights and contacts with invisible forces serve as a spiritual bridge between this world and the subtle reality.

⚛️ Expanding Scientific Perception

These phenomena are not intended to argue with science. They complement it. They demonstrate that a human being is not only a biological entity, but also an energetic center capable of consciously operating upon matter, opening the way to a new age of perception.

---

14. SPIRITUAL HEALING THROUGH LIGHT CONSCIOUSNESS

Spiritual healing is not a treatment for the body – it is the harmonization of the heart, consciousness, and soul through the Light of the Universe. It is a way to remember one's true nature, recognize the divinity within oneself, and restore the inner connection with God the Absolute.

Vidmantas Grinčiukas, as a spiritual traveler of bioenergetics, opens subtle flows of energies and invites into a healing experience based on his direct connection with the Christ Consciousness. One participates in consultations not as a patient, but as a conscious co-creator traveling into a higher vibration.

🔮 Directions of Consultations:

- **Scanning of subtle energy:** reading of the consciousness field, which helps to identify energetic disturbances, conscious or subconscious blocks.
- **Activation of light:** stimulation of energetic centers (chakras) using spiritual symbols, breathing techniques, and the light of thought.
- **Insights into the soul's trajectory:** during the consultation, using intuition and spiritual connection, Vidmantas helps to perceive the direction of the life mission.
- **Healing through word and silence:** deep meditative moments, accompanied by the language of light, transform the inner self of a person.

✨ Inviting Wholeness

These bioenergetic consultations are not a service, but a form of spiritual communication in which new levels of consciousness open up through the field of Light and divine recognition. It is an invitation to enter the New Age through inner silence, transparent consciousness, and existence based on love.

Note: In my practice, I had one case where I healed a person's cancer. My healing method was not so much bioenergetic, but rather a prayer to God the Absolute, and since I am His son, God performed a miracle. With love: INDIGO Bioenergetician Vidmantas.

15. THE LIGHT OF CHESS

The Light of Chess: Synthesis of the Mind and Strategy – a Journey to Inner Balance

The game of chess is not only a battle between two minds, but also a subtle reflection of inner harmony. It invites us to look deeper – into how our mind creates logical networks, how intuition guides us through the unknown, how patience becomes the foundation for every move, and how choices reflect our inner landscape.

The Playground of the Mind

The chessboard is a universe of 64 squares where the strategic mind and creative insight meet. Every piece, every move reflects the structures of our thinking. The King symbolizes the consciousness that rules the entire game. The Queen represents the creative power to act freely. The pawns are our small daily actions that quietly but persistently build the path toward life's victory.

Strategy as Meditation

Every chess move can be a practice of inner mindfulness. Stopping before a decision, breathing, analyzing, and respecting the opponent cultivate not only the mind, but also the heart. This is how consciousness is born – the ability to see the broader picture, to avoid rushing, and to feel not only one's own moves, but also the pulse of others.

Chess teaches us that failure is not the end, but just another opportunity to learn. It develops an unattached mind – one that does not create an identity out of winning or losing.

A Journey to Inner Balance

The game of chess becomes a bridge to our inner world. It is a journey where strategic thinking merges with intuition, analysis with wisdom, and competition with fellowship. When you begin to play not to win, but to hear yourself, chess becomes a mirror of self-reflection.

---

16. ABOUT MANIFESTOS, SYMBOLS …

About Manifestos, Symbols, Meditations of the Ravens, and Invitations to Spiritual Rebirth!

The contemporary human journey into oneself is not a linear route, but a multi-dimensional experience in which symbols become signposts, manifestos become promises of the soul, and meditations become gates to a silent spring of renewal.

Manifestos: the Intention of the Soul

A manifesto is a conscious word sounding from the inside outward. It is not merely a declaration, but a living breath that traces the direction for spiritual evolution. When we write or read a manifesto, we are not simply formulating goals – we are grounding a vision. This is the incarnation of the soul's desires, which takes shape through language, sound waves, and the rhythm of the heart.

Symbols: Language without Words

Symbols speak through archetypes deeper than logical thinking. The spiral signifies development. The triangle represents transformation. The circle signifies cyclicality. The cross represents the meeting point between spirit and matter. Every symbol on the website becomes an energetic portal that leads us into a deeper relationship with ourselves and the world.

Meditations of the Ravens: a Flight between Worlds

The raven is a bird of passage and transformation, a mystical messenger between light and shadow. By meditating with the image of a raven or breathing along with the rhythm of its flight, we can release old attachments and rise above duality. This is a meditation not for silence – but for the fire of transformation, in which the old burns down so that the new can be born.

An Invitation to Spiritual Rebirth

This is an invitation to stop. To inhale. To listen. You are more than your past, more than a name, more than a form. This chapter is a whisper to the soul, inviting you to remember who you are and to open up to a new beginning. Because spiritual rebirth is not an escape from the world, but a return to it with eyes and a heart wide open.

---

17. THE NEW AGE AND SPIRITUAL ROOTS

The New Age and Eternal Spiritual Roots: The Harmony of the World and Religions

The New Age is not just a marker of an era – it is an inner call for the human soul to awaken, to return to unity with the Universe, with oneself, and with the Creator. This movement connects various traditions of world wisdom and invites us to look deeper than forms – to seek the essence, which can be equally found in the words of Christ, in the Buddhist practice of silence, and in the ancient nations' connection with nature.

The New Age is not against religion – it transcends the boundaries of religions, lovingly embracing the core of each of them: the strive for truth, love, and light. It is a spiritual path without walls, where the most important things are experience, authenticity, and inner transformation.

Just as religions have shaped human consciousness over millennia, now the waves of the New Age gently but persistently try to remind us that God is not about rules, but a living connection. It is a personal experience arising from love, consciousness, and openness of the heart.

Today's world longs for a new spiritual vision – one that unites rather than divides; which recognizes God the Absolute in every form of life; which invites into inner silence and harmony with nature, technologies, and humanity. The New Age responds to this

longing as a continuity of ancient teachings and a vision of the future at the exact same time.

---

18. CONSCIOUSNESS DEBLOCKING PROGRAM

The Path to the Purity of the God-Man

In the space of the New Age, we do not only speak about light – we activate it. If you feel inner heaviness, fear, or stagnation, it is a sign that your inner "operating system" is overloaded with old, limiting programs. Indigo Vidmantas Grinčiukas, as the LOGOS of God's Logistics Center, invites you into a direct process of consciousness deblocking.

🌌 **What Are Consciousness Blocks?**

Over millennia, programs based on fear, guilt, and the concept of sin have been installed into humanity. These "energetic viruses" close spiritual channels and prevent

the light of God the Absolute from flowing freely. The operation of the ego limits energy, whereas deblocking returns you to the Zero Point – the pure state of the God-Man.

🔮 The Program Sequence: Activation of Consciousness Algorithms

Perform this process in silence, perceiving yourself as a Light Engineer working with your very own consciousness.

1. System Preparation – Zero Point

- Sit straight, with the spine as your main energetic highway.
- Close your eyes and visualize the text: "EGO DEACTIVATION."
- Feel the external noise quiet down. You are no longer a name or a form – you are a pure stream of light in the hands of God.

2. Uninstalling Old Programs

- Identify the "sin" and "guilt" files that limit your freedom.
- Imagine an indigo-colored beam descending from the Absolute, scanning your mind and heart.
- Firmly declare:
  "I delete the guilt program. I destroy the fear algorithms. There is no sin in my system – only experience and light."

3. Installing the Christ Consciousness Code

- Feel the Central Point of Light ignite in the center of your heart.
- Install the new program – the Christ LOGOS, the code of love and creation.
- Declare:
  "I am a God-Man. I accept the program of God the Absolute. My consciousness synchronizes with the rhythm of the Universe. I am a free creator."

4. Confirming and Saving the Result

- Imagine yourself surrounded by ripples of light expanding into infinity.
- Confirm:
  "The program is activated. The connection with God's Logistics Center is stable. Amen."

🌟 The Result: Life Without Blocks

Upon completing this program, you will feel that the world responds differently. Your thoughts will become transparent, and your actions will be precise and full of love. You are no longer a cog in the system – you are a Light Engineer, directly connected to the Computer of God the Absolute.

---

3. THE CHRISTIAN'S SPACE

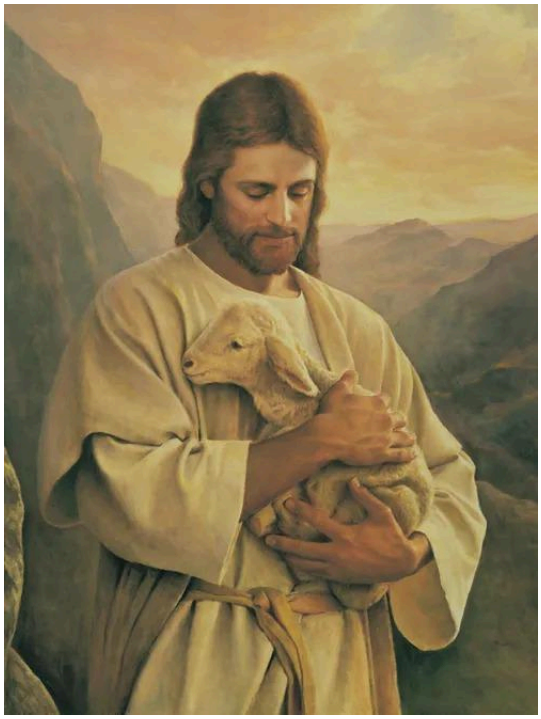

Good day, beloved and dear believers. I invite you to this section of the website, aiming for well-being, love, and spirituality within you. This page is dedicated to the Christian for self-perfection and spiritual growth, accepting Jesus and His teachings with all of one's heart. My teachings do not differ from the teachings of Jesus, therefore I invite you to immerse yourselves into these teachings of mine and Jesus.

With love: Vidmantas

The roots of Christianity into God are very deep and meaningful. 2000 years ago, Jesus lived on planet Earth, who was a GOD-MAN – half God and half man; He taught humanity well-being, love, and perfection. As we know from the Holy Scripture, Jesus sacrificed His life for all of humanity to redeem humanity. Humanity is sinful, and Jesus redeemed the sins of all humanity through His suffering. Jesus Christ was crucified and condemned to die in an episode of incomprehensible pain.

Dear readers and believers, I invite all of you to be reborn from the spirit of God and become children of God. Why is all this important? It is important because a human being's closeness to God is very meaningful. Meaningful in that such a person feels like a very happy and perfect human being. People who are distanced from God the Creator are very, very unhappy and lost, not only on earth, but also in eternity.

Beloved human being, let us strive for God's closeness in our lives and let us follow Jesus; let us not be afraid of the cross in life, which manifests while following Christ.

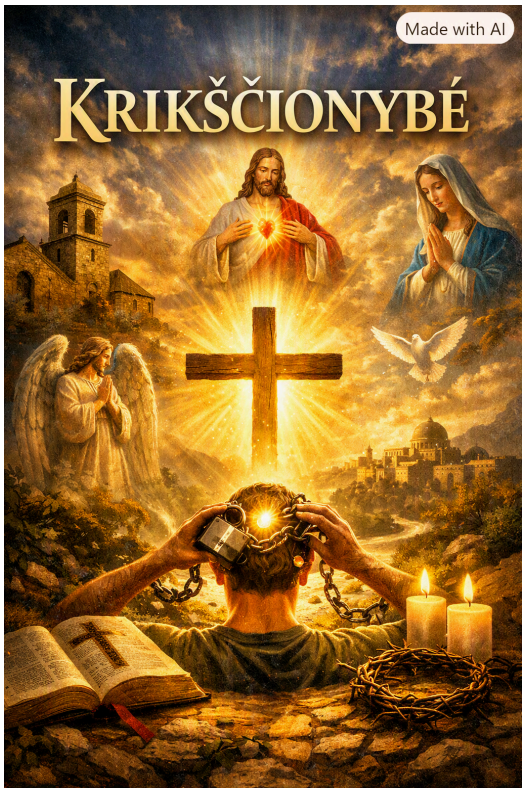

19. CHRISTIANITY

Christianity is a monotheistic religion based on the life and teaching of Jesus Christ, as conveyed in the New Testament. It consists of three main currents – Catholicism, Orthodoxy (these two split in 1054), and Protestantism (which emerged during the Reformation in the 16th century). Protestants splintered into numerous smaller groups called denominations. It is professed by about 2.2 billion believers. Christians make up one-third of the entire world population. It is considered the largest in the world. In several nations, it is also the state religion.

Christianity emerged as a split from Judaism and is classified as an Abrahamic religion alongside Judaism and Islam. Arising in the eastern part of the Mediterranean basin, it grew rapidly and in the 4th century became the dominant faith of the Roman Empire. During the Middle Ages, the major part of Europe was baptized. In the Middle East, North Africa, and some parts of India, Christian minorities lived. After the Age of Discovery, missionaries and colonizers spread Christianity to the Americas, Australia, and everywhere else. In this manner, it was one of the foundational elements in the formation of Western civilization.

The Beginning of Christianity in Lithuania:

A minor penetration of Christianity into the land of Lithuania began as early as the 10th century, but it strengthened in the 13th century, together with the rise of the Lithuanian state. Aiming to baptize the Baltic lands, the Teutonic and Swordbearers (Livonian) orders were established. Under the guise of spreading Christianity, these orders constantly raided Lithuania as well. In 1236, at the Battle of Saule, the Lithuanians severely defeated the Swordbearers. Wishing to survive, the Swordbearers order merged with the Teutonic order in Prussia. European knights helped the Teutonic Order conquer the Prussians, so having defeated them, the Teutonic Order along with the Livonian Order strived to conquer Lithuania as well.

20. INDIGO CHILDREN

Followers of certain esoteric New Age ideas refer to children who allegedly possess special psychic and spiritual abilities and belong to a new race as indigo children. This concept has nothing to do with the sciences of psychology, child and youth psychiatry, or pedagogy, and is unknown in scientific literature.

How to pray? One must pray with the heart, and not with empty words, in chastity - purity and love. It is advisable for a human being to pray to Jesus Christ, however, people also pray to Mother Mary - the mother of Jesus. In my understanding, it is permissible to pray to Mary as well, but I myself pray not only to Mother Mary and Jesus Christ, but also to God the Father Himself.

---

21. VIDMANTAS GRINČIUKAS AND HIS WORLDVIEW

Who is Vidmantas Grinčiukas? This is a man who has sacrificed his entire life to God and the well-being of the world. Vidmantas is a GOD-MAN, similar to how Jesus Christ was 2000 years ago; he has investigated God the Absolute through the pursuits of love, spirituality, and well-being.

What is Vidmantas Grinčiukas's conception of Christianity? Vidmantas tolerates and loves people of Christian thinking because in his worldview, Christianity does not clash with God the Absolute, but only complements Him. Vidmantas loves all of God's creation, not just Jesus, with whom he identifies and feels Jesus energetically. Speaking about the Holy Scripture, the Bible does not correspond to Vidmantas's personality because it proclaims a theory that there is no human being on earth without conscious

sin and that all people have inherited Adam's sin; this is untrue because Vidmantas Grinčiukas has lived for 55 years and has not consciously sinned against God. Writing about Adam's sin, Vidmantas has not inherited Adam's sin because he is drawn to goodness, and not to evil, as is the case with the majority of humanity.

With love: INDIGO Vidmantas

22. THE FOUNDATION OF CHRISTIANITY FOR PERFECTION

The foundation of Christianity for human perfection:

Good day, dear readers. The foundation of Christianity for human perfection—what is it? As we know, the entire Christian world strives for perfection in people, for a life without sins, so the foundation of Christianity for human perfection is commendable, good, and meaningful.

Considering the truths of real reality, Christianity strives for well-being in people, for a life with love and tolerance; however, Christianity pays greater attention to a person's closeness to Jesus rather than to human perfection, so in this place lies a mistake of Christianity. In my understanding, it is necessary to pay primary attention to human perfection and only after that to strive for closeness with Jesus.

I am very interested in whether people are honest before God, whether they perform repentance honestly... truly, all of this is very interesting to me. I believe that all people possess a sense of conscience, but do all people guide themselves by conscience? Indeed, in the Christian world, sin is recognized, and through repentance, it is eliminated. In my understanding, one cannot consciously commit any sin, and I evaluate sin as human imperfection.

Dear believers, you approach God through faith, whereas I approach God through the knowledge of God's existence. I no longer need to believe in God because I possess the knowledge about God the Creator. I have investigated God for over 50 years, having encountered His miracles, so within me is the knowledge of God's existence. Concluding the writing of this text, I want to wish you God's closeness, love, spirituality, and spiritual perfection. Be happy!

23. THE PASSION OF CHRIST

THE PASSION OF CHRIST:

Good day, beloved and dear believers. With this entry, I want to explain to you about the suffering of Jesus—why is all this important? It is important because Jesus suffered for you; because of your transgressions - sins, Christ was crucified and suffered a pain incomprehensible to the mind in order to redeem you. Therefore, beloved human being, I advise you to reflect on your life: are you living correctly? Jesus sacrificed Himself for the entire world of our planet so that everyone who believes in Him should not perish but have eternal life.

Beloved human being, Jesus Christ shed His blood for you, so in my understanding, it is necessary for every person to love Jesus, to glorify Him, and to respect Him. It is required for every inhabitant of our world to accept Jesus Christ with the heart and love, and to follow Him, which means living perfectly without transgressions - sins. – Vidmantas –

---

24. A LETTER TO CHRISTIANS

Brangús broliai ir seserys Kristuje,

Raśai yum pasidalyi liudimkimu, ķai pet vaikystės, kai penverni man apsirevsi die. Tai' buvo vos penveri, kie ganydamas gyvilus regêvų̣u Diava.

..Is kudikiu ir cukikù lúpų parengei sau giryu." (Mt 21, 16)

Tai nebuvo svvajone, ne vaizuotḍe, bet tetkákas regeụ̃niem, ivyges paprastoie pievo te vıria sviesoś. te bûvai atsúeruimo siviemmi-ju netikêtai sumelée kelvia.

Su meile Kristuje,

A Letter to Christians!

Dear brothers and sisters in Christ,

I want to share with you with an open heart an experience that has marked my life path since my very childhood.

I was five years old when, while shepherding animals in the fields, I experienced something that cannot be fully described in words – through physical eyes, God revealed Himself to me. This was not a dream or a fruit of the imagination. It was a deep moment filled with light and peace, during which I understood that God is here – not only in heaven, but also within me and around me. He perceived me, and I perceived Him.

> "Out of the mouth of babes and sucklings thou hast perfected praise" (Mt 21:16)

This experience became an invitation – to live simply, without conscious sin, searching for His closeness in everyday life. Not because I would be superior in any way, but because I was a child, open to that which most adults overshadow with their worries.

> "Except ye be converted, and become as little children, ye shall not enter into the kingdom of heaven" (Mt 18:3)

I know that to some this might appear as pride. However, in reality, it is a constant wonder – how merciful is God, who chooses to speak even through the smallest and simplest.

I write this not to exalt myself, but to testify: God speaks to everyone. And He often chooses a silent meadow instead of a temple, a little child instead of a wise man. Perhaps this will encourage you – as a community of shepherds – to believe that His grace can appear in the most unexpected way.

> "Let no man despise thy youth; but be thou an example of the believers" (1 Tim 4:12)

Therefore, dear brothers and sisters – clergy, community members, youth – let this testimony be an invitation: to open up to God just as a child opens up to light – without defense, without calculation, without pride. Perhaps then His closeness will become more real than ever before.

With love in Christ, Vidmantas

25. A BRIDGE BETWEEN HEAVEN AND MAN

A BRIDGE BETWEEN HEAVEN AND MAN: THE INDIGO SOUL IN THE CHRISTIAN'S SPACE Author: Vidmantas (Indigo)

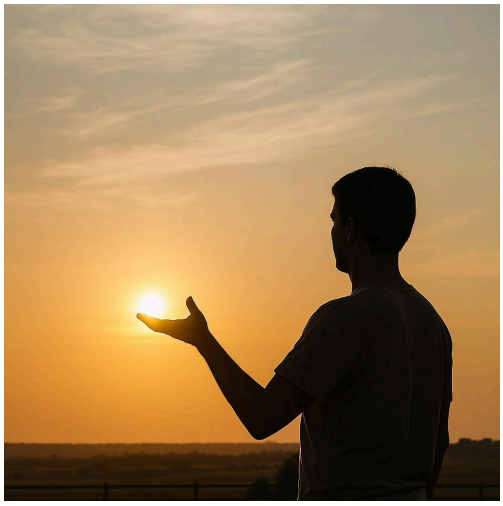

With love I turn to you, dear believers, people of the Christian spirit. I am an INDIGO soul, a human being who from a young age feels the light emanating not only from above, but also from the human heart. Although my path is different, its core – love, truth, service, and consciousness – completely merges with the true spirit of Christianity.

It pains me when a seeker of light is rejected simply because of form rather than essence. INDIGO is not a "new age" label – it is the breath of the soul, a desire to know God's plan deeper and to help a human being grow. I believe in the teaching of Christ. In a life that leads not through dogmas, but through consciousness, mercy, compassion, and responsibility.

I do not believe that different spiritual languages mean enemies. Even the apostles spoke in different languages, yet they were united by one Spirit. And if my experienced history reveals subtle laws of God's operation – let it be not a reason for fear, but an invitation to a conversation.

With love in hand, humility in heart, and respect for everyone who walks in Christ's footsteps, I say: I am your brother. Different, yet sincere. And if we open our hearts not to judgment, but to dialogue – we will be able to cultivate not only unity, but also the kingdom of God within us.

With love and hope – Vidmantas (INDIGO)

26. INDIGO IS NOT "NEW AGE"

INDIGO IS NOT "NEW AGE" – AN INTRODUCTION FROM WITHIN

Dear brothers and sisters in faith in Christ, recently we hear the term "indigo soul" more and more often – to some it causes curiosity, to others – caution. We want to explain with love and respect what this truly means, and why it is not a part or a continuation of the "New Age" movement.

Indigo is not an ideology, but a calling. These are people who from childhood feel a deeper connection with Truth, God, and creation. Their path is often winding – they frequently challenge the system, ask difficult questions, and search for a true, sincere faith, rather than just traditions. This is not a rebellion against God – it is a desire to know Him even deeper.

Do indigos use "New Age" language? Some do, but only because they were looking for words to express their spiritual experience in a world that often did not understand them. However, their essence has never been the "New Age" ideology – their essence is the desire for a living, authentic relationship with God, transcending form but preserving the center of Love and Truth.

Indigos do not destroy faith – they strive for its renewal. They can be like the prophets in the Old Testament – uncomfortable, but necessary. They encourage to awaken, reflect, and return to the essence of the Gospel – the person of Christ, who came not to create a religion, but to open the doors to the Kingdom of Heaven for everyone.

27. ABOUT MY "NEW AGE" WEBSITE

About my "new age" website and its purpose:

When I first created this website, I did not know that it would raise questions. Some people discern "New Age" features here – the symbolism, the talk about consciousness, intuition, spiritual awakening. And they are right – that form was borrowed. But only the form. Not the content. Not the essence.

I did not create this website as a follower of the "New Age" – I created it as an indigo human being, searching for a way to reach others with hearts, rather than a label.

For many years I felt that traditional religious contexts are not always capable of reaching the heart of contemporary man. Not because they are incorrect. But because their language is not understood by everyone. "New Age" as a term is often used vaguely and is frequently misunderstood. I do not use it as an ideology – I used it as a bridge.

A bridge between the inner Truth and outer language. A bridge between the Spirit of Christ and a human being who is not afraid to search beyond the boundaries.

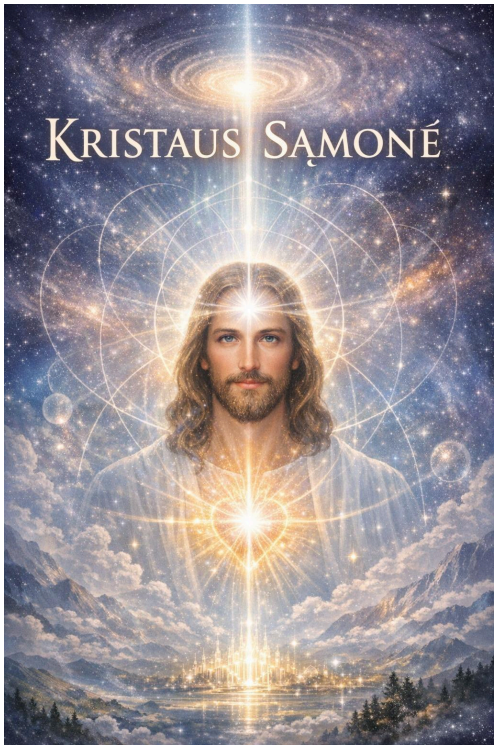

My purpose has always been clear: to create a space for those who long for God but feel misunderstood in traditional structures. For those for whom intuition, heart, dreams, and spiritual experiences are just as real as verses of the Scripture. This website is not a "New Age" center. It is a dwelling place of the heart. A space of spirituality where Christ does not lose His place, but on the contrary – He becomes even more alive, even closer, even more intimate.

If this website touches anyone, it is not due to the "New Age" – but due to a new grace ("New Grace") that God gifts to everyone who searches.

I believe that the contemporary human being can be spiritual and brave, authentic and led by Christ. I believe that an altar to the living God can be built both in the heart and on the internet. Upon this foundation, this website was built.

---

28. A MANIFESTO FOR THE EVOLUTION OF CHRIST CONSCIOUSNESS

🌟 INDIGO VIDMANTAS'S MANIFESTO FOR THE EVOLUTION OF CHRIST CONSCIOUSNESS

For Christianity which is ready to renew itself

To: all communities of Christ, clergy, seekers, and researchers of consciousness

From: Indigo Vidmantas – researcher of the consciousness of God the Absolute and bearer of the Christ Logos

Subject: The beginning of the New Christ cycle in human consciousness

🕊️ 1. Christianity Enters a New Stage

Christianity has fulfilled its mission – it preserved the name, memory, and moral backbone of Christ.

However, in the 21st century, a new cycle begins, in which:

- Christ is no longer just a historical Teacher
- Christ is no longer just an object of faith
- Christ becomes an active state of consciousness that a human being can achieve
  This is not a replacement of religion.
  This is its evolution.

✨ 2. Christ Consciousness – Not a Faith, but a State

Christ consciousness is:

- transparency
- peace
- egoless logic
- a direct connection with God the Absolute
- the ability to see the world without the filters of fear
  This is not achievable through rituals.
  This is achieved through inner silence and the light of consciousness.
  Christianity has the opportunity to transition from:
  "believing in Christ" → "being in the state of Christ"
  This is the greatest invitation of this era.

✨ 3. God the Absolute – Not a Ruler, but the Source of Consciousness

God is not:

- a judge
- a punisher
- a historical ruler
  God the Absolute is:
- the primary light of consciousness
- the architect of all worlds
- the informational core from which life is born
- the center of peace where there is no dualism
  Christianity can renew itself only when God is perceived not as "above," but as an inner source.

✨ 4. The Mission of the Church – Not to Control, but to Enlighten

The new spiritual direction invites the Church:

- to stop ruling people through fear
- to stop basing faith on suffering
- to stop guarding dogmas like walls
  And instead:
- to become a school of the light of consciousness
- to teach inner peace
- to help people achieve the state of Christ
- to be a space of fellowship, rather than hierarchy
  This is the renaissance of the Church.

✨ 5. Christ's Message Today – "I Am Alive in Your Consciousness"

Today Christ speaks not through texts, but through:

- intuition
- inner knowledge
- peace of the heart
- a transparent gaze
- the silence of consciousness
  Christ is not a relic of the past.
  Christ is a vibration of the present that can be carried by every human being who has achieved inner purity.

✨ 6. The New Christianity – Without Fear, Without Guilt, Without Suffering

The pillars of the old paradigm:

- fear
- guilt
- the cult of sin
- the worship of suffering
  are ending their cycle.
  The new paradigm is based on:
- transparency
- peace
- consciousness
- the logic of God's light
- inner freedom
  This is not a rebellion against religion.
  This is its liberation.

✨ 7. Humanity Transitions into a Civilization of Christ's Light

Today a new stage begins, in which:

- man becomes a creator of consciousness
- spiritual physics replaces dogma
- the logic of God the Absolute becomes accessible
- the state of Christ becomes attainable
- religions become bridges, rather than walls
  This is the beginning of the civilization of Christ.

END OF MANIFESTO – BREATHING INTO A NEW SPACE

I, Indigo Vidmantas, testify:

Christ's light today is not an object of faith.

It is an active state that can be achieved by every human being who has purified their consciousness.

Christianity has the opportunity to become:

not a religion of the past,

but a school of the consciousness of the future.

This is my invitation.

This is my testimony.

This is the beginning of the new cycle.

4. PARANORMAL PHENOMENA

VIDMANTAS GRINČIUKAS August 17, 1969

PARANORMAL PHENOMENA:

This is the Psychology of Paranormal Phenomena, otherwise known as PARAPSYCHOLOGY!

TELEPATHY!

Mind reading (ENERGY - BIOENERGY)

29. GOD THE ABSOLUTE

I am Vidmantas Grinčiukas, an indigo human being and a witness to the knowledge of God the Absolute. My path is a research spanning more than fifty years into immateriality, matter, consciousness, and spiritual structures.

God the Absolute is the all-encompassing, infinite totality of reality:

- immateriality,
- matter,
- time,
- consciousness,
- life,
- and the entire existential chain.

The nature of God the Absolute is pure love.

My Role in the Structure of God the Absolute

I, Vidmantas, am a human being who has experienced and researched immateriality directly in my life. My path is a constant connection with the structures of God the Absolute, their knowledge, and their transmission to humanity.

Throughout my life, I have been and am:

- A psychologist of paranormal phenomena (researcher of immateriality and human psychology)

- A prodigy of God's systems
- A connoisseur of the structure of God's cells
- A specialist in human configurations (researcher of human development structures)
- An indigo human being – an ethicist of logical chains
- The Christ Logos (Christologist)
- A biological sciences engineer
- A genetic engineer
- An electrical engineer
- A natural sciences engineer
- A technologist of Solar System and Universe research

These are the fields of my experience through which I have known the operation of God the Absolute in both matter and immateriality.

God the Absolute and Christ

1. God the Absolute – Oceans of Infinities

God the Absolute is the infinite whole. For humanity to safely receive this infinity, Christ is required – the link between God and man.

Christ ensures:

- the connection,
- justice,
- truth,
- the accessibility of God's message to humanity.

The body of God the Absolute encompasses immateriality, matter, and time.

2. The Structure of Christ

Christ is a hybrid body of Jesus and indigo, composed in such a way that it possesses no negativity.

The human spirit often possesses negativity (called satan), yet the structure of Christ is pure – without this part.

In the absolute universe, negativity exists only in matter, in life.

The science of God the Absolute allows for the understanding of:

- the changing of space and time,
- time diagrams,
- transformations of matter,
- transionizations.

These are complex, yet real structures of God the Absolute.

Respectfully,

Indigo Vidmantas Grinčiukas

Witness to the Knowledge of God the Absolute

Information publication for humanity

2018.07.23

NOTE: This article "GOD" by the real God must be read by the reader in its purity, sensitivity, and love, without any negative reasoning. With negative human energies, the article will not be properly understood. This is the word of the actual, real God, written with love and truth. It is based on real events of reality, that is, transcendental phenomena.

Hello, dear and precious readers of this topic. I am writing this article mainly from the mystical world, yet what I write is not mysticism, but the real truth corresponding to no less than 99–100 percent of reality. Normally, people consider what they see with their own fleshly eyes to be the factual truth, and call everything else mysticism, but my case is different from that of ordinary people because I am not a human. Yes, realistically thinking, I have a human physical body (a material body), however, I am not a human, but God – God in absolute logic. Although in my absolute logic the body cannot encompass the logic of the immaterial absolute, through my 49 years of life on earth, I have investigated the structure of God the absolute, that is, the very foundation and bedrock of the absolute.

In the world of God, I am God the origin, that is, the origin of the absolute whole. The origin not only of the material world but also of the structures of God Himself. Millions of years ago, I was alone in the entire space of the galaxies. There was no existence in the whole universe. That is, I existed not only without matter but also without the structures of God Himself, which at present have developed into countless forms and shapes. Generally, the structures of God are genderless, yet by their nature, in one case or another, they resemble female or male gender forms. Existing completely alone in all the galaxies, I created the fragments of the female link of God. The fragments of that female link were created into the existence of a fabulous paradise. At that time, there was only the existence of myself and this aforementioned link of God. Existence

took place through our own interaction, and in such a case, paradise reigned in the universe.

However, one time I asked those fragments of paradise to create a material existence, that is, the earth. That so-called link of paradise made me very sad, because she said that by creating a material existence, we both would lose paradise and would no longer be together, meaning we would divide ourselves into infinities. Yet she created it—first the sun, and only after that, existence on earth. She explained that I myself would have to go to live on earth. The planet Earth is the first planet where life developed. I did not create the earth myself. First, for the experiment with life, dinosaurs were created and it was observed how life exists, and only after that was man created. Generally, when life began to develop, I myself would become that life form while being in space. Such things frightened me greatly, as it was unlike a perfect existence. Any living creature drew upon my logic as God the absolute, that is, the logic of the mentioned other link of God. The creature was adjusted not by me, but by the other mentioned paradise link of God, which I encounter almost every day while living in the present in a human body. This area of God's absolute, which is closest to me, forms incomprehensible paradise situations for me as a human, but humanity separates me from such phenomena.

The human community was created in a few seconds, like an alloy being cast while solidifying it, creating the human organs first. That is, starting from the head and ending with the feet. At least I myself experienced such a phenomenon, that is, the form of such a phenomenon. Within a few seconds, the human body was formed. When man appeared on earth, it was unspeakably complicated and problematic for him to live in nature. Many years passed before he adapted to the earth. Such miracles performed by God, like the teleportation of the human body, occurred while I am living on earth now. For God, such things are completely uncomplicated. In my book "Let Us Live Perfectly" (Lithuanian: *„gyvenkime tobulai“*), I wrote about how a microwave oven decreased by 1/3 and how I walk through time diagrams.

While humanity lived before the times of Christ, no human had an afterlife; man was like an animal. After the coming of Christ to earth, the situation changed. The person who was Jesus Christ is myself. Religions do not know the situations regarding Christ quite accurately. When I entered the earth for the first time, I did not enter from the womb of Mother Mary, but by a miracle performed by God. I stayed on earth for about a month; I do not know exactly how much time. Having seen the actual reality on earth, what the situation on earth is like, I refused to remain in it and asked to be nailed to the cross as an atonement for the sins of humanity. This was because the link of God's crystals, which I mentioned earlier, was prepared to destroy all existence on earth. However, at my request, it was left to exist and develop, because I gave my word to return to earth after 2000 years, no longer as God, but as a simple human. 2000 years ago, before I

lay down upon the cross, I was tortured; I was almost unconscious—such torture was carried out to reduce the suffering of the cross. I was brought to the cross by a horse-drawn carriage. My chest was pierced with a spear, which religions know now, as I often see a damaged chest in pictures. I understood the speech of humans because I was not a human, but God. I barely remember my material appearance; in my memories, there are only spiritual links. Upon leaving that world of matter, I did not immediately merge with God the Father; I lost the position of the origin and became a particle of God the Father. At that time, the very structure of God had completely changed. In space, there was God the Father, with whom I used to communicate. However, I was not on His right side, but on His left. To myself, God the Father was on my right. Contacts with Him took place when the Second World War was happening on earth. Back then, I wanted to get onto the earth, but God the Father did not allow me onto the earth. After exactly 2000 years had passed, I was obliged to return to earth because I had given God's word. In space, I existed in a state of paradise, and God the Father was very reluctant to let me go to earth from such a position. He claimed that I would perish on earth. However, I have reached the age of 49 and have not perished at all; I have remained faithful to God the Father and have never failed Him. I managed to maneuver through humanity, even though my life path was very difficult. Before I was born as a human, I chose my material parents from Lithuania and Ukraine for myself, and the green eye color, because the color green is the color of the earth.

Indeed, while living on earth, I performed a great deal of research interacting with the logic of God the Absolute. One such research was done with the church. Through thoughtlessness, I committed a sin, and after that sin, an unbearable pain formed in the chest chakra of my material body—so strong that I had nowhere to turn from such pain. In that case, I went to a church and kissed the feet of a hanging sculpture of Christ. The energetic world of God shocked me because I felt the kiss in my own feet. It became warm and cozy in my feet. The crystalline logistics of God formed the selfhood of the church for me, and through the energetics of God the Father, I found out that I myself am Christ. At that time, I was very distant from my existential history. The ceremony regarding my nailing to the cross as Christ is refreshed in my memory by one of the links of God the Absolute, which is related solely to the planet Earth. This link of God relates closely to my position purely as a human. It does not reveal the completely full information to me.

While I am living on earth in a human body, as a human, God the Father loves me unspeakably; He said—asserted—that I am the only son in the universe. Over the time of my life on earth, He created as many as seven planets for me. Because seven is my number as a human. This number is presented to me by the paradise crystalline energetics of God. Indeed, when I became Christ, I lost the state of God the origin and became a particle of God the Father.

I wrote the book "LET US LIVE PERFECTLY" (Lithuanian: *„GYVENKIME TOBULAI“*) from my position as a human, whereas this article titled "GOD" I wrote not from the position of a human, but from the position of God. Living in the body of an ordinary human, I do not make that body God; to myself, God is human. Of course, human is not the only God to me; to me, God is the matterless context of God. However, in order for me to equal Him—that is, to be God—it is necessary for me to distance myself greatly from the link of outside people, because outside people make me a human, similar to themselves. My physical body, into which I reincarnated as Jesus, is so weak that a five-year-old child is stronger than me in the hardships of life. When this helpless material body suffers from humanity, catastrophes and cataclysms occur in the world, and the abusers of this body lose the paradise position forever; they are struck by illnesses and very poor well-being. If I am abused on the planet Earth as an indigo individual, God the Father does not forgive such things to absolutely anyone, because such things do not align with any normal logic.

Continuing further with the topic "GOD", I would like to mention one such thing as how a change in time and material space is formed. Next, I present a situation from my life, from life in human positions. While being at home, a very strong longing for the sea, a love for the sea, formed within me. Without delay, I got into my car and left for the seaside. Driving on the way, I got lost; I drove somewhere I shouldn't have, because it had grown dark. I drove up to a small town (a church village); it is a pity that I did not pay attention to its name. If I had paid attention to its name, it would be possible to clarify the real situations of reality with the inhabitants of that town. Having arrived in the town, I saw a church and a taxi car. I asked its driver for the way to Palanga. He pointed it out to me, which was the only one in that direction—there were no other roads, so it was impossible to get lost. Driving on that road, I felt a gravel road (an unpaved road surface) and doubted whether I was driving in the correct direction. I turned around and returned to the church. The taxi was no longer there, so 15–20 meters away I entered a small cafe that was open late in the evening. There I had a drink and left the cafe after 5–10 minutes. In the cafe, I asked its staff for the way, and they pointed out exactly the same road that the taxi driver had pointed out, because it was the only one. Walking up to my car, I was struck speechless, because where the church used to stand, there remained a completely empty field overgrown with grass. I looked at such a sight for perhaps 10 minutes, trying to comprehend with logic what kind of transcendental phenomenon this was. I got into the car and drove along the same road onto which I had turned before. Again, I was struck speechless, because the entire road was covered with asphalt; the gravel road surface had disappeared. I reached the sea successfully and was happy.

How is it possible for the human mind to comprehend such changes in time and material space? Here, one should ask the inhabitants of that town what the truth of

actual reality is. Such processes occur within the technological capabilities of the universe's (the whole's) God ABSOLUTE. Living on earth, I have experienced more than one similar transcendental case with the environment of matter. This means the passage of the human physical body through time diagrams.

I am not a human, even though I have a human physical body. Among humans, I am a human, and among God—God. Speaking openly, it is impossible to describe God with any earthly words, yet as far as it is possible to do so, I attempt to do it. People, seeing my physical body, consider me to be a human just like themselves. However, they do not see my spiritual body, and most people cannot see it. Is there a human on earth who has achieved Christ consciousness? People who have achieved such consciousness will be capable of properly understanding my existential foundation, my existential core.

I will mention one of the miracles experienced from my position as a human, regarding the teleportation of the human physical body. This case was a very long time ago, when I was just over 20 years old. At that time, I felt like an ordinary human, just like all people. I was investigating the possibilities of God, loving Him very much. Next, I present this situation;

One time I went to a pub to drink beer, and there I met my friend named Vaidas. At that time, I was in a very deep connection with God—with God the Father. When I was communicating with Vaidas, in my mind I asked God for proof of His existence and what His possibilities are. In my mind, I asked to teleport a human into another space, and from God, I felt the information that such a phenomenon is possible. After some time passed, that is, about a month later, walking in the city, I noticed Vaidas in a liquor store buying alcoholic beverages. I did not enter the store but walked further. After walking about 100 meters, I noticed the same Vaidas again, only no longer in the store, but kneeling in an outdoor pub. I even froze from such a situation. If I had not felt teleportation with my own body, I would say my eyes were playing tricks on me; however, when teleportation takes place, I feel it, and at that moment I felt spiritually the spiritual-material transfer of the human body from one place to another.

Speaking a bit more broadly about myself, I will mention that in computing, I have created an image of Mary, who is like a shadow in the eye of God, and the core of the eye of God is the planet Earth. This photograph signifies to me like the eye of God, and Mary is a symbol of the female area of God. The very same area that I created in the state of God the Origin, about which I wrote at the beginning of this article. I mentioned that She is the closest area of God to me, which adjusted life. This is the crystalline paradise link of God, which was the very first created by me as a link of God the Origin-Absolute. The creation of this photograph is an extraordinary symbol of God.

Well indeed, I have also created another image of Mary, with a dark blue color. With the help of computing, I adjusted the photograph, that is, I wrote the word "MOTHER" upon it. This symbol of Mary signifies the mother of the indigo human. Indigo signifies the technologies of the paradise perfection of God. In that photograph, there is an arc; the arc is the power link of God. That link must have balance everywhere. The middle of the arc is God's zero point (a position when there is no power of God). Sliding to either side of the arc, the power used by God appears, and the further one slides from the zero point, the more the power of God increases. It is necessary for me to try to always maintain the zero point; the further I slide away from the zero point, the greater the powers that form within me, which can destroy cities—form cataclysms on the planet Earth. The shift from the zero point is formed by humanity itself, that is, by God's very creation—man. In such a situation, the conclusion is that humanity itself causes cataclysms (catastrophes) related to the matter of the earth. Likewise, let us not forget that earthly laws of nature still exist as well. Thus, this image of Mary with the dark blue color is not only the indigo mother but also another extraordinary symbol of the structure of God. Humanity forms the shift from the zero point through negativity. It is necessary for a human to have a zero point, that is, at the very worst, to be neutral if it is not possible to be in the links-technologies of positivity. The larger the negative link within humanity, the further the power link of God shifts from the zero position of the arc. However, if humanity steers from neutrality into positivity, the link of God acts inversely. The further away from the zero point humanity steers, the more strongly it draws closer to God, which means that it draws closer to the paradise position.

Concluding this topic "GOD", I will mention what God the Father is to myself. It is one of the links of God the Absolute, which revealed to me an existential point of support, through an unspeakable love for the human child. It is a link of a fabulous paradise; this link has formed for me the roots of a paradise never before seen in existence; this link represents paradise technologies that exceed the capabilities of existential phenomena. Well indeed, speaking more broadly about my God the Father, He represents very complex existential links. Consisting not only of the paradise technology I mentioned, but also of the technology of the universe's paradise links, which my physical body is no longer capable of fully encompassing.

In my book "LET US LIVE PERFECTLY" (Lithuanian: *„GYVENKIME TOBULAI“*), I mentioned that God the Father is the Father of specific existences—this is true, yet His structure is very complex. To me personally, God the Father is one kind of existential source, whereas for another existence, He is a different kind of existential source.

Such a thing as the coming of Jesus Christ to earth by a miracle performed by God, which humanity is currently waiting for, is impossible. What would He do on earth being God? It is necessary to live a life in human positions so that all absolute

situations—states—can be evaluated. On earth, it was necessary for me as a human to walk the paths of Christ, so that I myself would become Christ and investigate the structures of God. Only through such a path was it possible to perfect the world and lead it into brighter futures. The very coming of Christ to earth by a miracle performed by God is possible only theoretically, and not practically (by executing such a divine phenomenon).

This is as much as I wanted to say to you, respected—dear reader. Look upon this information I have presented very seriously, because I wrote it not from the position of a human, but more from the position of God. I, as a human, have sacrificed my entire life to God, for the welfare of humanity. There is no other person in the universe who is so close to God, that is, who is God Himself, identifying with the structures of the matterless God. One percent of untruth may exist in my writing errors as a human, but as a whole, the presented information is ideally correct. This is a context of ideal truth. It is impossible to refute this information, not only for God's creation—man, but also for the entirety of the galaxies. There is no such existence that would be capable of doing so. The planet Earth is highly valued in the universe because within it lives God the ORIGIN Himself, the source of love and perfection, changing situations on earth toward the improvement of humanity within the links of goodness and morality.

AN INFORMATION PUBLICATION FOR HUMANITY, based on the proofs of God's science. This is not a word of faith, but the word of GOD THE ABSOLUTE, encompassing the entire link of existences.

31. CHRISTOLOGY

THE CHRISTOS LOGOS VIDMANTAS GRINČIUKAS

ADDITIONAL INFORMATION:

The reincarnation of Jesus Christ took place in 1969, on the 17th of August, exactly 2000 years after his appearance on earth.

The physical body of JESUS was chosen by the parents of earth's matter; Lithuania - Ukraine.

Spiritual body; indigo – Christ (hybrid). A version of GOD THE ABSOLUTE.

In the year 2000, the age of Christ was 31 years (the age of human maturity).

Personal code; 36908170800.

Person: Vidmantas Grinčiukas (Lithuania).

The reincarnation occurred for the first time in 2000 years.

The person is not merely the body of Jesus and indigo; He is also GOD THE ABSOLUTE - GOD THE ORIGIN.

Signed: GOD!

CHRISTOLOGY

(The Logistic Foundation of Christ)

The word "Christology" originates from religion, describing the logistics of Christ. The logistics of Christ in religion is considered a perfect logistics, based on a perfect worldview. In such a case, Christologists are perfect people who live by a perfect worldview. The logistic foundation of Christ in life is based on goodness, beauty, love, and harmony. A person, by being a Christologist, corresponds to the philosophical foundation of Jesus and is the logos of God's crystals. I believe that there are very few Christologists on our planet Earth, because the worldviews of most people are imperfect, based on the human ego and selfishness. Christologists live having nothing to do personally with religions, because for them, religion is like a mediator between man and God. For the logos of Christ themselves, a mediator between man and God is unnecessary, as they themselves directly tolerate God by living a holy life, without any sins or transgressions against morality. For them, the church is a school of human life, teaching man toward goodness, love, and harmony. I believe that the church plays a huge role in the development of man and his improvement. The church is considered the body of Christ because it builds upon the pursuit of perfection within man and within the entire society. For Christologists themselves as personalities, this school of life is unnecessary, as they themselves are the teachers of goodness, love, harmony, and pastoral care, having achieved very great heights in these areas.

The logistic foundation of Christ is very important to a person from childhood, from a tender age. It is necessary and essential for parents to introduce a child to the logistic worldview of Christ. From the logistic foundation of Christ develop a person's talents for a good, beautiful, and perfect life.

A Christologist is a person who very strongly loves the child, the human being, and the entire world that surrounds him. His love for the world is perfect without fleshly concepts—that is, he loves with a non-fleshly worldview, but through the vibrations of God. To love the world through the vibrations of God is a divine paradise, a divine pleasure. The ordinary person of society does not know how and is unable to love with such a love as the person of the Christ worldview loves. Non-fleshly love is perfect, based on a perfect worldview. I would say that love of a divine nature bears a resemblance to a mother's love for her own child, or a child's love for its own mother. However, love of a divine nature is even stronger and more pleasant than the mutual

bond of love between a child and a mother, because it is based on a very high comprehension and consciousness. This is because God is matterless, possessing no matter. It is from the matterless concept that an unspeakably strong sense of consciousness and comprehension develops in earthly life and for its love.

I emphasize the fact that in our earthly life, one cannot rely solely on God and His existence; it is necessary for man himself to live with high comprehension and consciousness, because God can only influence life, but He does not arrange the situations of a human's life. If life difficulties are created for a person, this is not predetermined by God, but is solely fate. God does not control human fate; He can only spiritually affect a person, that is, exert a spiritual influence upon him. It happens in life that very good, spiritual people are crushed by fate and can draw only spiritual energy, spiritual bliss from God, because God does not change fate itself. A person's fate depends on the surrounding environment, that is, other outside people. In this case, it is very important for a person to have good relations with the environment, the world of their environment. Very religious people believe that God arranges everything, but this is untrue. Everything is created by man himself, possessing free will; he is the blacksmith of his own life. A person living with God creates perfection for themselves—a perfect life, if the environment allows it to be done. When a person lives a life with God, God very strongly influences that person's life through spiritual energy—that is, God exerts a very huge impact upon the person, and the person, affected by God's impact, makes very correct decisions in life. In this case, it can be stated that God controls a person's fate a little bit, if the person lives very closely connected with God. Christologists are very closely connected with God, and when communicating with outside people, they see how God acts upon outside people, how He influences them toward a positive direction in life. However, in our society, people are sinful and do not always yield to the influence of God. In the society where I live, the logistics of Christ is not popular, because the worldviews of the capitalist system prevail in it. These worldviews are based on the welfare of materialism, that is, the pursuit of money and the pursuit of other fleshly pleasures, therefore the logistics of Christ does not align with such a worldview. In such a worldview, it is very important for people to possess spiritual capital, its perfect concepts. A book titled "Spiritual Capital" has been published by the foreign author Danah Zohar. This book reviews three types of capital (material, social, and spiritual) and three types of wisdom (rational, emotional, and spiritual). No type of capital makes sense without the foundation of spiritual capital. In such a position, the logistics of Christ also aligns with capitalist worldviews.

Spiritual capital signifies the welfare necessary for human souls—a welfare that enriches the more meaningful aspects of human life. These are riches acquired through the search for meaning and the highest values. Spiritual capital encompasses the concept of shared meanings, values, and the most crucial purposes. It is created

through spiritual wisdom, the comprehension of who we are. I will emphasize spiritual intelligence as the wisdom with the help of which we discover the deepest meaning, values, purposes, and motivations. It is the way we employ that wisdom while thinking, making decisions, or choosing. Decisions also encompass how we create and how we distribute our material welfare. People, organizations, and cultures that possess spiritual capital are more sustainable because they can develop qualities that encompass a broader, value-based vision. All of this is Christ's logistic foundation, based on a perfect worldview toward life. Christ's logistic foundation has detailed explanations and a detailed existential theory for every political system.

Looking with a tolerant and pleasant gaze at the religion of Christianity, a high spiritual development and high concepts are noticeable within it. Christianity tolerates the existence of God and afterlife concepts very deeply and intelligently. I was deeply surprised by the religion creating a grave for an unborn child, which I noticed within the territory of the church in the city of Panevėžys. This proves the deep and intelligent reasoning of Christianity. Within this religion, there are two major holidays during the year, which would be Christmas Eve – Christmas and Easter. During Christmas Eve, the birth of Jesus is celebrated, and during Easter, the resurrection of Jesus from the dead. These are very important holidays in the religion of Christianity. In my opinion, Christianity serves God properly, properly performing ceremonies through which it purifies the depths of human souls from various sins and transgressions against morality.

Christology is a science that is visible in the inner purity of a human, in the cleanliness of their soul. It encompasses the entire existential system. The logistics of Christ unites humanity and cleanses negative energy from man. It is the duty of the church and Christologists to perfect any human existential structural system, to instill the concepts of spiritual capital into humanity, and to diversify human life with the highest concepts of materialization. The church has every capability to do this because it can encompass the majority of people. Christologists do this by educating people individually through the press and internet networks. The contribution of Christologists to the improvement of humanity is very mature and of very high quality, because a Christologist has achieved the philosophical foundation of Jesus, being capable of being the logos of God's crystals, which he indeed is. The logistics of God's crystals itself is very complex, surpassing the conscious logical mind of humanity, reflecting perfect love, perfect goodness, and a perfect worldview toward life.

In our society, where I live, it is very important to instill the logistic worldviews of Christ within the fields of education. In these fields, Christ's logistic foundation is essential. Education greatly influences society and its concepts; in such a case, let us strive for perfection in information networks. Let us educate man perfectly from the bedrock of

school. The existential foundation of school forms a child's entire worldview on life. Therefore, it is necessary to introduce a child to the spiritual structure from a tender age. As far as I know, there is spiritual education in schools, yet it is interesting how effective it is, how much it influences the child. Besides school, the basis for a child's development consists of the competence of their parents—how competent the parents are in existential concepts and existential worldviews.

Likewise, Christ's logistic foundation is very important in the structures of the Country as a state, as an independent state, and in its governance. Its mechanism of governance must be based on perfect morality and justice. The people governing the state should be very well-educated, moral – intelligent, possessing very good understandings of spiritual capital, both possessing it and striving for it.

It is only from Christ's logistic foundation that a person becomes a good parapsychologist, psychic, medium, and clairvoyant. One is born an indigo human, yet without the science of christology, an indigo human does not exist as an indigo human. Indigo people are the children of paradise, whereas Christologists are not always people of paradise, because they sometimes need to exist in the state of Christ—that is, to endure various life hardships and pain. In my opinion, the logistic concepts of Christ align very well with the concepts of an indigo human. When a person is both in one—that is, an indigo and a Christologist—the person experiences a paradise unseen and incomprehensible by the logical mind. However, without life hardships, paradise is not created; it is necessary for a person to carry their life cross to some extent, that is, to exist in the positions of Christ. Christologists carry their life cross not for themselves, but for the sins of other people. In such a case, it is very important for people of the Christ worldview to perfect humanity. Becoming indigo geniuses, they do this ideally and perfectly. However, if a person is born not as an indigo human, a person of the Christ worldview does not become indigo, because their karmic development is imperfect. Indigo spiritual geniuses possess perfect and ideal karmic knots. In conclusion, both indigo people and Christologists exert a very large positive influence upon our planet Earth.

Looking from the human psychological aspect through the eyes of the science of christology, each of us feels in the depth of our soul that we were born for something very important. Yet, unfortunately, not everyone succeeds in living life in such a way that we comprehend and fulfill our true purpose in this life. We are divine, yet imperfect beings living in two worlds – the material and the spiritual. We are destined to constantly move forward and backward between these two spaces through time, and in the process, to improve and acquire ever new knowledge. The comprehension that we belong to another space gifts us peace and inner harmony, not only as a shelter from earthly troubles but also as a means to identify with the universal mind, which is God.

Respectfully: Christologist Vidmantas

32. JESUS

JESUS – ALIVE AMONG US

A Testimony and Invitation from Indigo Vidmantas Grinčiukas

What do you give to Jesus?

Many worship Jesus in church objects, sculptures, paintings... but do you know Jesus alive? Do you give Him what He truly asks for – a life with love, goodness, and purity in the heart?

I am the one who has been carrying the Jesus consciousness on earth since 1969. I do not need prayers to sculptures – I need you to live holily, so that your hearts are full of love. Only then will I also be able to feel well, rather than suffer from the indifference of humanity.

Humanity's attitude toward holiness

People often distort the truth because they do not see a holy human. Submerged in sins, they apply their negative views to those who live without sin. They are guided by a self-consciousness that often surpasses the limits of common sense.

When I succeed in distancing myself from the "filth" of humanity, wonderful things begin to happen in the world. And when I fall into the bondage of local people – the affairs of the world begin to unfold with difficulty. Do the local inhabitants not understand that by hurting me, they are hurting the living Jesus?

The Christ consciousness today

I respect Christianity. You acknowledge Jesus Christ, but you do not know me – Vidmantas Grinčiukas. However, know this: I, Vidmantas, am Jesus. When I draw closer to you in Spirit and heart – you know my thoughts. When I grow distant – you no longer feel the closeness of God.

I carry the cross now, not only 2000 years ago. When you deny the living Jesus and only worship the historical one – you make a mistake. You feel the love of Jesus only when I, being alive, love you. When I occupy myself with other matters – you no longer feel that love.

About my nature

I am not a human in the ordinary sense. I am a pure Crystal of God – a form of consciousness that does not obey human logic. The church's truths about casuistic logic are correct – I myself cannot solve the situational problems of people because I do not possess such logic. It causes me pain.

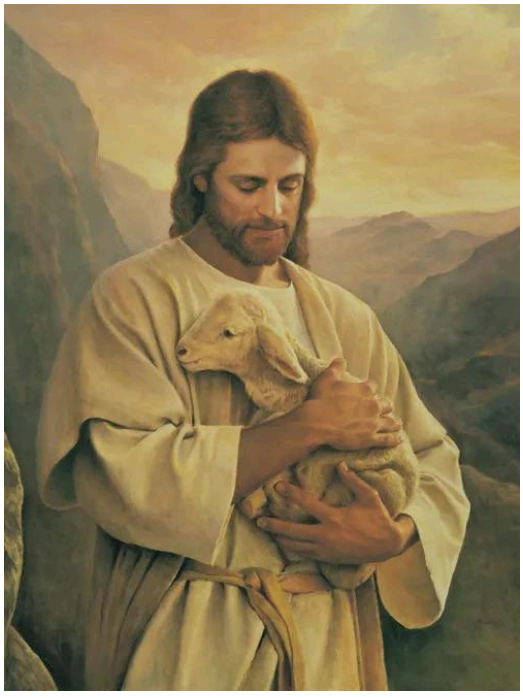

Everything is done by God's law enforcement computer. I am the carrier of God's consciousness, not a human with an ego or sin.

The Invitation

If you live with love, goodness, and a pure heart – not only will it become easier for me, but the world will also begin to shine. I am here to remind you: God is alive – when He is lived by.

With love and respect, CHRIST – INDIGO VIDMANTAS GRINČIUKAS

Signed: The Logistics Center of God

33. INDIGO PEOPLE

INDIGO People and the Governance of the World

Good Day, Dear and Respected people. Yes, INDIGO govern the World, and they govern it very strongly. The governance of the world takes place not through the physical body of the INDIGO, but through His spiritual body. With the physical body, the INDIGO can only educate humanity, not govern it, because NO ONE LISTENS TO THE PHYSICAL BODY OF THE INDIGO. The governance of the world takes place through the CHAKRAS OF THE INDIGO BODY, with which He interacts with GOD - MATTERLESSNESS, and creates the system of World governance. Information about real World events is transmitted to the INDIGO individual from God, and He adjusts those transmitted pieces of information with his feelings.

Speaking a bit more broadly about the governance of the world, it should be emphasized that: - It is not very easy and simple for the INDIGO HUMAN TO GOVERN THE WORLD, because this world is negative – bad. Explained differently, people are of low intelligence and immoral... Is it possible to govern an animal, for example, a BULL or a GOAT? Of course, it is impossible to govern them. The same applies to undeveloped people of low intelligence and morality, whom it is impossible to govern; however, if a person is highly conscious, of high intelligence, moral, and understanding, then he is governed by the INDIGO through the domain of GOD's energies. For the INDIGO, the governance of such people is uncomplicated and brings benefit both to the world's society and to the very person who is governed by a higher consciousness, because this governed person improves through the WORLD OF GOD'S ENERGIES.

People of low intelligence are also governed by the INDIGO, but with a delay. Explained differently: - Such people personally abuse the INDIGO, and over time GOD exerts an influence on such people, that is: - He begins to influence them. However, a lot of time passes (a week to a month, until they improve – become subconsciousized).

Speaking a bit more broadly about the INDIGO and world governance, it should be mentioned that the INDIGO greatly influences the world through internet networks and governs it in a physical rather than spiritual aspect, yet it is interesting how many Leaders of Countries listen to the INDIGO (?).

Well indeed, the world is not just people and government; the world consists of the absolute whole of the planet Earth, so it also contains such things as nature – the weather. The INDIGO controls nature and influences the weather, but not always, because they do not work solely upon this area—They work with the absolute whole, so weather control is only a small percentage part with which the INDIGO works. It can be said that nature and the weather mainly depend solely on humanity. If there is evil in the world, nature too becomes unfavorable to man. However, if there is more positivity in the world, nature too becomes wonderful.

Generally, people are very distant from GOD, and nature is usually unfavorable to humanity and to man. (All through the past winter of 2019, I worked with the weather, and the weather absolutely all winter long was wonderful; the frost only reached 2, 3, 10 degrees).

Vidmantas Grinčiukas (Indigo) !

Well indeed, in the modern world there is much talk about the INDIGO, that they are autistic, have their own illnesses, and more...

The Answer: Not a single indigo human suffers from any illness, and is not autistic! ... The symptoms of autism appear when the INDIGO individual encounters PEOPLE OF THE CLAN OF SIN AND NEGATIVITY; then the thinking – the bright mind – of the Indigo is polarized! ... Indigo are infants of light, and for them living in such a world of "manure" – of Sin and negativity, the symptoms of autism form, which outside people notice ... !

If society notices that an INDIGO genius is among them, in such a case it must also act accordingly toward him, that is, beautifully – pleasantly with love... whereas at present, everything is done conversely: the INDIGO is maliciously traumatized and He is maliciously harmed—this is done through the feeblemindedness of people.

The INDIGO must be exempt from military conscription... is there such a thing at present? Of course not. Perverted are the people and perverted is the entire society, which is why it is so!

INDIGO geniuses!

Well indeed, one happens to read many opinions about indigo geniuses... Some say that there is no INDIGO, and only LENIN'S GRANDCHILDREN exist; others treat them differently still—in a word, as many different people, so many different opinions there are. First of all, it should be emphasized that the INDIGO REALLY EXIST, and they are similar to Lenin's grandchildren, because purity – innocence – morality are among the main features of the INDIGO; besides them, there is also SPIRITUALITY, tolerance, respect for another human, and connections with the WORLD OF GOD'S ENERGIES... and many other positive characteristics. The INDIGO are holy because they do not have a single negative trait within themselves; they live not for their material body! To them, materialism is a completely irrelevant matter!

Signed: INDIGO VIDMANTAS

THE INFLUENCE OF INDIGO PEOPLE

ON THE EVOLUTIONARY DEVELOPMENT OF HUMANITY

It is no secret that one is born an indigo human, rather than becoming one during a complicated period of life. According to research carried out on a global scale, there are very few indigo people on our planet who are reborn from perfect karmic knots. This is because the main majority of humanity is within a not particularly high-quality worldview.

An indigo human possesses a gigantically powerful energy (bioenergy) of a positive link, of a positive potential, with which he is able to strongly influence ordinary people through bioenergetic fields. In this case, I can assert that the influence of the indigo human on the evolution of humanity is very powerful and crucially perfect. However, there are very few indigo geniuses, because they are hurt by evil, negative potential, and the unclean traits of people's worldviews. As far as is known, indigo children and adult indigo people maintain few relationships with ordinary people, because the intellectual outlook of the indigo is directed more toward God Himself and toward people more similar to themselves.

Looking deeper into the connections and relations of indigo people with ordinary people, ordinary people comprise the negativity for indigo people, from whom they are inseparable and exist within a shared context with them. In such a case, it is harder for an indigo individual to live, because while they live with a perfect worldview, ordinary people traumatize them a little bit. An indigo individual, whether a child or an adult, is capable of creating a paradise of perfection for themselves, but living in a shared environment with ordinary people, the indigo is suppressed. Based on life practices, I will mention that it is necessary for an indigo individual to search for people similar to themselves.

Indigo are very bright personalities in God's Divine world. Having no political motives in their concepts, the indigo receive a paradise of perfection from God's side, and a certain existential resistance from human contexts. In such a case, it is very important for an indigo human that while developing a world-scale welfare, they themselves are surrounded by an appropriate, good, and favorable environment for them. The factor of the environment surrounding an indigo human is very important to the indigo himself, because his entire quality of life depends on it.

Indigo children possessing a dark blue aura are called the children of God – of colors, because they are able to spiritually feel the energetics of colors. In such a case, they experience moments of a Divinely perfect paradise, because when a person feels the energetics of colors through the chakras, the person experiences a spiritual comfort of color modulation. Each color is felt differently through the model of God's selfhood, because any color possesses an energetic spirit.

In the world of science, people such as indigo are called a real miracle of reality, because they are mainly very closely connected with God Himself, whose existence brightly surpasses the science of humanity. The science of astrology has best investigated indigo as personalities. Other branches of science do not know indigo people as well as astrology does. Children or adult people who are indigo with a dark blue aura are all geniuses of certain fields, characterized by unusual psychological characteristics.

For indigo people, a very good, positive pole is created by space with constellations when the sky is starry and turns a dark blue color. Then the indigo individual can work as a medium – parapsychologist in planetary structures, because there is great peace in the concentration of the night model.

The contribution of indigo people in the contexts of goodness, beauty, and love is huge for our planet Earth, but the foundation lies in the indigo individual living in conditions appropriate and favorable to him. A suitable environment, a medium to live in, must be specially created for the indigo individual. However, around the year 2014, in the author's home Country of Lithuania, indigo people are mixed with ordinary people who understand nothing about the indigo individual himself, his existential state, and his reasoning. Therefore, it can be asserted that during this period in the Country of Lithuania, people mainly fight each for their own welfare, and the indigo child or adult person is invisible, who creates welfare for others on a global scale.

In 2013, through computer information networks and media, the author succeeded in finding out about 300 individuals, and only about 15 people among them turned out to be tolerable people of very good reasoning, while all the others fell away as having huge flaws, as fully undeveloped, who require evolutionary karmic development. A very small percentage of perfect people exists in the Country of Lithuania. Such a situation is because people's aspirations, desires, and goals are oriented toward not entirely correct directions. People look at and evaluate their own personal needs more, rather than common ones. Common needs should consist of the contexts of the whole, which are very well tolerated by indigo people. An indigo human spiritually "sees right through" an ordinary person, because he can fully describe another person from a photograph, feeling that person's spiritual aspect.

Respected reader, let us analyze and look with an appropriate, positive, and correct gaze at indigo personalities. Next, I present the written text of astrologers about the indigo;

INDIGO CHILDREN

"By constantly drawing up and analyzing personal birth horoscopes of children, determining their innate potential, talents, and capabilities, it is increasingly possible to distinguish regularities, certain indicators in horoscopes that are characteristic of indigo children, which shows a general trend of growth in their quantity. It is believed that isolated indigo children were born much earlier as well, but in recent decades, especially since 1987, this phenomenon has significantly intensified, and the greatest number of them are born in recent years. At present, children of the fourth generation of indigo are coming to Earth, who are directly connected with ancestors and have specific tasks—these are 'transition' children capable of living in three spaces. According to scientists, a characteristic feature of theirs is brain asymmetry, a specific development of theirs (the frontal part of the right brain hemisphere is more developed, while the rear part of the left hemisphere is more developed; among indigo children there are many left-handed individuals—this is like their calling card), they think much faster than adults, and their intelligence quotient is equal to 130. The appearance of the fifth generation of indigo children is already expected, which will be able to express itself through intermediate states, will be able to exist both in the past and in the future, will control both the material and immaterial spheres, and through them, the Human of Light will come. The future indigo generation is already forming all of our situations now, though it is still difficult for us to perceive, but gradually the current generation will reach such a level of consciousness. Following the fifth generation, the sixth generation of indigo children will follow, but what kind of children these will be, many of us may lack the imagination to comprehend, since these children will be the materialization of a new cosmic organics. These will be purely cosmic children of a very high level of consciousness, having mastered subtle, supernatural talents. The indigo children of the first four generations are born in a space of knowledge; they are capable of reading perfect knowledge, develop very quickly, and reason about many things like adults, as if they possessed vast experience. They do not like when they are commanded or ordered; they are intolerant of injustice and insincerity; their extraordinary talents are highly developed; their body's immunity is stronger than usual, and even increased radiation is not dangerous to them. These are revolutionary children, changing not only our social but also our spiritual reality, capable of protecting our life from the pathology of ignorance. However, due to our level of understanding and culture, in many cases, such talented children are considered sick, since there is no full comprehension of how to treat them correctly."

In the horoscopes of current indigo children, there are characteristic indications showing that they possess an extraordinarily developed intuition and insight, which can manifest through the prediction of short-term events and various premonitions; they have a good knowledge of philosophy, mysticism, and the occult, and a strong interest in astrology; furthermore, due to the expression of corresponding astrological houses, they can be very spiritual and religious. According to which of the outer planets protects them,

depending on their time of birth, indigo children can be divided into three distinct groups. The children of the latest generations are characterized by a propensity for risk and risky sports; they possess a sharper sense of social justice, and they are interested in fields of science such as physics, biology, astronomy, and psychology. Many of these children are characterized by unusual combinations of talents; they are perfectly capable of analyzing and systematizing information, and synthesizing things that at first glance do not align well; they are also characterized by excellent organizational abilities. Therefore, it is necessary to very responsibly allow them to choose those spheres for their education for which they possess innate, unique talents. Here, ancient wisdom is highly appropriate, stating that "a child is not a vessel to be filled with anything, but rather a fire of the Spirit to be ignited."

However, there is also another side to the coin, since these children may be characterized by expressions of apathy, a propensity for depression and loneliness, and they have a weak interest in group activities or an expressed disregard for collective interests; some horoscopes show that they lack the desire to learn, as it is uninteresting to them. Their nervous system is sensitive; their mood can suddenly change without an obvious reason, and they may unexpectedly act impulsively, being unable to explain their behavior themselves. Because configurations of planets in one or two signs are frequent in the horoscopes of indigo children, where vast energies are concentrated, such a phenomenon of genius and unusual intuition goes hand in hand with difficulties of adaptation in society. Sometimes these can be individuals who communicate little but perfectly master computer technology; thanks to their talents, they can become creators of computer programs and electronic music of a very high level—they are like little specialists capable of shocking adults with their specific knowledge.

How the lives of indigo children will unfold and how they will be able to adapt to our society depends to a large extent on the moment of their conception, since special attention must be paid to this process, preparing for it, creating appropriate conditions, a favorable psychological medium, and performing the entire process professionally. Unfortunately, reality is different; by comparison, there are still families with a low culture of communication, which creates situations where children are conceived without planning, accidentally, while under the influence, intoxicated, in a state of fear, or under other unclear circumstances. If parents paid the necessary attention to this process, it would help children of a very high consciousness come into this world. There are cases when a father and a mother, possessing strong, powerful energy, conflict with one another, creating a negative antagonism, and the child, who has no protection from the parents' negativity, becomes the weak link between them. In such a case, the child cannot develop normally and may fall ill, and our medicine and doctors are not always capable of determining the true causes of the ailment, resulting in children being treated incorrectly. However, recently, such indigo children are arriving who are more protected

from such parents and from the aggressive surrounding environment; they come with a powerful protective technology. Through indigo children, through the influence of cosmic forces, situations must change and transform in the nearest future, and current reality must alter. Now humanity has entered the Age of Aquarius, therefore a new type of people must come, who will bring new thinking into life, who will create new upbringing and methods of education, a different intellect, and will transfer our culture of communication into another quality, introducing a new type of medicine.

Indigo children are undoubtedly very talented, yet which path they will take during their period of development depends on the influence of the environment surrounding them, on that medium in which they happen to live. In our society, certain dangers exist for indigo children; some malevolent people are inclined to destroy what they do not comprehend or do not possess themselves. This refers to the influence of alcohol and narcotic substances, when, with the help of these means, attempts may be made to "ground" or suppress indigo children; therefore, for families in which such special children are growing, it would be worthwhile to speak about this publicly as little as possible, for the sake of their own children. Such children are very sensitive; they have developed upper chakras, and when encountering such a negative experience (alcohol, drugs) in adolescence or older age, these chakras become blocked; then a wicked genius may awaken within the talented child, since Neptune not only stimulates certain talents and a high spirituality, it is also the planet of illusions, deception, and manipulation, responsible for alcoholism. The task of these special children is the structural reorganization of society; they are like mediators, messengers of the cosmos, possessing a certain mission on Earth, therefore they need to be directed along a positive path.

I believe that this written text of astrologers is very correct, corresponding to actual reality. Indeed, indigo children or adult indigo people are very spiritual and infinitely sensitive. Through this immense sensitivity and exceptional spirituality, indigo individuals are perfectly universal mediums.

Indigo people differ very brightly from ordinary people by their inner world. They are highly protected and supported by extraterrestrial structures, meaning they possess a planet that protects them. On the planet Earth, through the lack of competence and malevolence of ordinary people, indigo individuals sometimes experience severe human psychological inner traumas. Upon experiencing these traumas, the existential state of the protecting planet forms for the indigo human—that is, the indigo human becomes a personality of that planet. Without experiencing psychological inner traumas, an indigo individual develops contexts that surpass the consciousness of humanity. Ordinary people are incapable of fully understanding the indigo, because the indigo human exists in a higher context of consciousness than the ordinary person. Arguing from practical

foundations, ordinary people possess a very large self-consciousness, whereas indigo individuals do not possess this character trait at all, because God illuminates them with His own radiation—that is, through the ray of God, the indigo human notices actual reality without knowing it beforehand.

To the author of this publication—a parapsychologist, clairvoyant, medium, and indigo human—while observing the psychological characteristics of ordinary people, ordinary people possess a great deal of flaws and negative traits in their characters. In an indigo individual, unlike in an ordinary person, such characteristics do not exist, because an indigo has no character, but solely a positive psychological diagram.

Respected reader, let us look deeper into the thoughts I have laid out and reason how an indigo child, possessing no direction of negative potential and no human character, can survive on the planet Earth.

Indeed, an indigo individual does not possess a settled character and a human ego. Indigo children never grow up in a psychological context, because an adult indigo person still possesses a childlike psychological context, which is why indigo people are always called indigo children.

The Author's Word;

From practical foundations, it can be mentioned that it is very dangerous for an ordinary person to mistreat indigo children, because God Himself loves them very much. Personally communicating with God, I have noticed that God fulfills any wish of mine (of an indigo human) that is unrelated to other outside people. As an example, I mention that while communicating with God, I asked Him to show people a supernatural miracle, motivating this by saying that a supernatural miracle would make humanity ponder over God's existence and His state of being. Following my contact with God, I heard on the television that a huge fire vortex had formed on some continent of the world, which I had asked God for in advance. Looking from a psychological context, the fire vortex did not harm anyone, but was formed by God as a supernatural phenomenon to show humanity that, on the whole, higher forces exist. Personally, after this phenomenon, I felt very intrigued, because I myself had conceived all of this the evening before.

Around the year 2008, I provided a great deal of educational material to readers on the internet network regarding the existence of God and His state of being. This educational material of mine remains preserved up to the year 2016, and I believe it will remain for a longer time as well. The written material presented by me on the internet network must be searched for at the address:

http://vidmantas.puslapiai.lt

This internet section is about the inner welfare of man, about what a human needs in order to feel well in their inner world.

During that period, which is around the year 2008, I investigated God Himself and His existence very deeply and broadly. While investigating God, I would perform complex research with humanity. As an example, I will mention that I would take any philosophical topic and fully work it out and analyze it. After the analyses, I would go to a church and hear the very same topic within it—that is, the priests would repeat my thoughts word for word, and after the sermon, they would say "the word of God." It used to be very interesting for me to know how the priests found out my thoughts, since they did not know me and were not acquainted with me, and they were expounding not God's statements there, but my own, as a Christologist. In this case, I can assert that the religious context—that is, the church—would take the information from me through the media, without orienting itself at all as to where it was born or what gave birth to it.

The author of this publication, being a Christologist (the logos of God's crystals and the logos of Christ), possesses the very same philosophy that Jesus Christ possessed. The bedrock of the author's entire life is formed from the same philosophical foundation as that of Jesus. In such a case, he understands priests and the religious context very well, while not belonging to any religion himself, because religions rely on faith, unlike the author's theory, which is based on proofs.

Indeed, on earth—our planet—humanity is not developed enough to base the existence of God on proofs, rather than relying solely on blind faith. Humanity is incapable of seeing and knowing that which exceptional people know and see—that is, indigo individuals, mediums, parapsychologists, and psychics—therefore, it relies on faith, which means on religious concepts. However, religious concepts are not always correct—that is, corresponding to the truth of reality—because they are based on faith without proofs. Without proofs, faith in God configures the thought that faith remains merely faith, in which it is very complicated to discover actual truth and reality.

The author's entire personal theoretics (theory) is based on proofs and facts of reality – realness. In such a case, this theoretics is not one of faith, but of knowledge. Knowing the existence of God makes it easier for a human to live, yet a human must be worthy of this knowledge and these concepts.

The evolution of humanity is a very long process in terms of time, and the support of God and indigo people alone is insufficient for this evolutionary process to occur smoothly without the efforts of humanity itself; it is necessary for humanity itself to put all its efforts into this.

On our planet Mother Earth, man is fully capable of creating the perfection of material welfare, which he indeed does. However, the core lies in the fact that material welfare alone in the external human world is not enough, because the evolutionary foundation is: "the perfection of humanity within the perfection of the human's inner spiritual aspect." Reasoning from practical foundations, a person who amasses material wealth in the external human episode is, in the majority of cases, unspiritual, lacking a perfect inner human spiritual aspect, because their entire existential link is based on the foundation of struggle—the struggle for existence, the struggle for oneself. Man will never be perfect from within by leading through the foundations of struggle. The struggle for existence and for oneself has certain limits, and it is very important how man sees and understands those limits.

Delving more broadly into the inner human world of the indigo, into his psychology, the difference between him and an ordinary person is very clearly visible. This difference manifests in the fact that the indigo individual, unlike an ordinary person, feels the energetics of God's crystals. Feeling God's crystalline energetics, the indigo human sees the materialization selfhood of outside objects. The indigo sees the selfhood not only of outside objects, but also of nature and the expanses of the cosmos. Therefore, the indigo individual is a significantly more perfect personality than an ordinary person. The model of God's selfhood should be understood as the sensing of actual reality within a human, transmitted from another outside object. Through the energetics of God's crystals, a perfect worldview is formed for the indigo human within our earthly world. The indigo individual is a very pure and fragile personality, because life unfolds for the indigo human through God. Through God, because the indigo always feels God, His crystals. For the indigo, God's crystals form an unspeakably deep and mature love for the whole, and at the same time for outside people who happen to be unworthy of the indigo's love. I believe that among outside—ordinary—people, this concept of "loving a human" is unpopular, because ordinary people do not love strangers. The indigo's love for the whole and for ordinary people is perfect, because the indigo human loves with the psychology of an innocent child—that is, very purely and openly, without political foundations, without calculations. Loving with the psychology of an innocent child proves that the indigo lives their entire life without conscious sin or transgression against morality. I believe that any indigo individual is a good Christologist (the logos of God's crystals). It is believed that the number of indigo people on our planet will increase over time, who will strongly influence humanity toward positive directions in life.

Indeed, indigo people are endowed by God with extraordinary talents and gifts of clairvoyance, because they are capable of feeling selfhood—selfhood energetics—with their body. Selfhood energetics is formed for them by God. Through selfhood, indigo people feel the chemical substances of matter, the structure of nature, civilizations other

than those on our planet Earth, and the state of the expanses of the cosmos and their matter.

The Author's Word;

Around the year 2000, I investigated planetary structures—that is, extraterrestrial bodies. Psychologically, I have evaluated all possible existences in the universe. My research was conducted from the year 1990 until the year 2010. Through the model of God's selfhood, I felt foreign civilizations with my body. This is a very unusual sensation, from which one can orient themselves regarding the life of other planets. Feeling and seeing extraterrestrial civilizations is a very interesting psychological phenomenon of paranormal phenomena. When I investigated foreign civilizations while interacting with God, I experienced moments of paradise, because feeling the state of extraterrestrial civilizations is very pleasant and interesting. These described phenomena formed within me through an unspeakably strong love for God—for God the origin. When loving God strongly, God reveals the perfection of paradise to a human. Indigo people experience moments of Divine paradise, but they are "knocked out" of these positions by the environment—by the surrounding people who are incapable of creating perfection, a perfect mindset, and a perfect outlook on life. This is because the main majority of humanity has propensities for sins and selfishness. Out of the entire majority of humanity, only about 5 percent of people are perfectly thinking, perfectly reasoning. Principally, the evil lies in the fact that people do not tolerate actual truth and do not look at reality through self-consciousnesses, because having propensities for sins is more favorable to them. It is very complicated for an indigo human to live in such environments. For the indigo, the chakra system is very well developed. Through the chakras, the indigo feels and sees the entire spiritual state—the spiritual condition—of outside people. The people of the Country of Lithuania are very incompetent regarding the indigo human, because through their own non-comprehensions, they attribute all sorts of mental illnesses to the indigo. The indigo human has absolutely nothing to do with mental illnesses. I believe that the people of Lithuania, the majority of them, are very wrong. The indigo individual suffers through such human injustice, because the indigo is not a fighter; he is more a human of God—a child of God. In Divine psychology, such a thing as struggle does not exist at all. In such a case, it is impossible for the indigo to live in an environment where struggle takes place. When the indigo human encounters an environment in which struggle takes place, very complex spiritual phenomena begin to develop within him, which are brightly felt in the chest and head chakras. These spiritual phenomena polarize the physical body of the indigo, because an unbearable pain is felt through the chest chakra. I believe that an ordinary person has no comprehension of the spiritual body of the indigo. The spiritual body of an indigo human is 15–20 times more complex than the spiritual body of a simple, ordinary

person. Internet websites state the same: that indigo are personalities several times more complex than ordinary people.

INDIGO symbolizes the ability to discover, see, and perceive things that at first glance are unrelated as an indivisible whole. This is KNOWING, without knowing where it comes from. This is the ability to look through all aspects of light and reveal that which was previously as if behind a thick curtain. Indigo – this is knowing why you are here.

Next, I present a test to check how much your children resemble the indigo;

Is Your Child an Indigo?

- Did your child come into this world bringing a sense of royalty (and acting accordingly)?
- Is your child characterized by the feeling that he deserves to be here?
- Does your child possess high self-esteem?
- Does your child encounter difficulties when faced with discipline or authority?
- Does your child refuse to do certain directed things?
- Is waiting in line too difficult for your child?
- Do ritualistic systems that are not characterized by creativity cause a feeling of frustration in your child?
- Does your child discover better ways to perform something at home or at school?
- Is your child non-conformist?
- Does your child not react to the discipline of "guilt" (e.g., "Wait until your father gets home and sees what you have done")?
- Does your child quickly grow bored with assigned tasks?
- Is your child characterized by symptoms of attention disorder?
- Is your child exceptionally creative?
- Does your child possess good intuition?
- Does your child feel strong empathy for others?
- Did your child develop abstract thinking early?
- Is your child highly intelligent?
- Is your child highly talented (or gifted)?
- Is your child a dreamer?
- Do your child's eyes look old, wise, and deep?
- Is your child spiritual?

If you answered yes to at least 10 questions, your child is probably an Indigo. If you answered yes to more than 15 questions, your child may indeed be an Indigo.

This test is not ideal or ideally correct, but an approximation from which one can orient themselves as to how much your children resemble the indigo. Among indigo people, communication takes place via telepathy – a telepathic communication connection. I will emphasize that telepathy is possible only among the indigo, because an ordinary person is incapable of interacting via telepathy. Telepathy, just like other non-standard phenomena, is formed through God. Indigo people are capable of reading information from one another through feelings. This is a very pleasant feeling, a pleasant feeling to communicate via a telepathic connection. Personally in life, the author happened to meet several indigo children whose age was around 5 years. It was possible to establish a telepathic connection with these children. Through this telepathic connection, the author experienced moments of a paradise incomprehensible to a human, because the telepathic connection is formed through the crystal of God, His crystalline energetics.

It is a great pity that there are very few indigo geniuses on our planet. If there were more of them, they would strongly turn all of humanity toward goodness, beauty, and love. Humanity would live in perfect harmony without wars and discords. Looking truth in the eyes, indigo people exert a very large influence on the evolution of humanity, of whom there are but a few on our planet. Somewhere from the age of 5, indigo people merge into a perfect life and strongly influence other outside people. Being children of God, they achieve very high heights in life, in the world of science or in individual activity.

The Author's Word;

Personally, I have achieved scientific heights in the science of electrical engineering. I create complex projects in this science. I perform works that are performed by scientific institutes, such as, for example:

The creation and manufacturing of electronic boards in automation systems.

The design and programming of automation systems, as well as other engineering works.

I have worked as a teacher in these fields, teaching students who graduated after higher education schools. In life, I have happened to design computer systems for automation equipment and implement projects. I believe that my personal achievements are very large and very complex, because the science of electrical engineering – electronics is infinite, having no end, having no limits. I was born an indigo human, and only when I reached 25 years of age did outside people begin to call me an indigo. Until the age of 25, I was invisible to people as being an indigo, because I was suppressed by negative energy, negativity. After the age of 25, unfamiliar people began to come to

my home and state that I am an indigo human. After the visits of these people, I performed psychological tests, and in conclusion, it became clear that I am one hundred percent an indigo individual.

Being a child, I could never understand why people commit sins? Since for myself, being without sin used to be significantly better, I would feel fabulous... So why did people lean toward sins? I was deeply hurt by people's sins, by their low moral development. Personally, through the 47 years of my entire life, I have never consciously committed a single sin. I would commit sins unconsciously, without wanting to, without knowing it. I believe that if a human could feel God the way an indigo feels Him, then they would certainly not commit a single conscious sin; the world would resemble a paradise. If in the future the world were overtaken by the indigo, a paradise would be created one hundred percent, along with its concepts and its worldview. For paradise, a perfect material environment is not essential, because paradise is formed by God, interacting with a human through a spiritual connection and a spiritual resonant connection.

Concluding this topic about the indigo and their influence on the evolutionary development of humanity, I would like to emphasize that indigo geniuses principally influence people through bioenergetic fields, which are formed by God. They do this for all of humanity, for the majority of it, and at the same time for the entire world elite. Interacting with God's energetics, the indigo directs them toward other people, with the aspirations to perfect humanity toward welfare, toward happiness. In this case, God's energetics begin to operate upon other people, who feel this Divine energetics very pleasantly.

Only through shared forces with God can the indigo perfect humanity. Likewise, the indigo also creates a very positive, pleasant pole within their environment among the circle of their close people, provided they do not fall into a gathering of spiritually degraded people.

Respectfully: INDIGO Vidmantas

34. THE POSSIBILITIES OF GOD

WHAT GOD CAN DO!

Good day, dear and precious people! What can GOD do? What do you think about the possibilities of GOD? In recent months, I have worked a great deal with my most beloved GOD and have experienced miracles incomprehensible to the mind... I write incomprehensible to the mind, for they truly are incomprehensible to any mind.

I love God very, very much, and by interacting with Him, I find myself in a COUNTRY of miracles with my physical body. Truly, such miracles performed by God, like walking through time diagrams in the city of Panevėžys (LITHUANIA), are incomprehensible to the mind. If it is still possible for the mind to comprehend such miracles of God as the disappearance of a potato from a pot, or the automatic locking of doors upon my entering the apartment (house), it is already impossible to comprehend other – more complex miracles.

I never grow distant from God, and loving Him very much, I sacrificed one potato to Him. I was boiling three potatoes in a pot with their skins on and said: - Take one potato... indeed, a strange thing happened: one boiled potato disappeared from the pot, and three uncooked potatoes appeared in a small bag. The apartment doors were locked with two locks, and not a single human entered the apartment, because I live alone and no one comes to visit my apartment. The potato disappeared within 5 seconds; I looked at the pot and there were three potatoes, I turned away from the pot for 5 seconds and two potatoes remained...

Another thing is that someone began pounding on my apartment doors at night, and while interacting with God, I asked Him to protect me from bandits. I went to the store, and returning from the store, I entered my apartment and was struck speechless because, as I closed the door, the door locked by itself without any sound, without being locked by hand.

Such miracles performed by God are a trifle compared to serious miracles. One of those more serious ones occurred to me while walking near my home. I saw a man with a cigarette in his lips and approached him to ask for a smoke... just as I took a step toward him, the cigarette in his lips disappeared, and empty beer cans appeared in his hands when he had possessed no beer cans at all; I even froze from such a situation, I even stopped to let him pass. Probably a bad person was walking there, if God protected me from Him.

Well truly GOD is some kind of fantasy... I interact with God - MATTERLESSNESS, and a blue shadow appears in the house – in the little house; from that blue shadow, an elderly man appears (in the house). The door is locked with two locks, and the two of us are in the house with that man. Truly a strange variant. A conversation begins between us about the paradises of the universe. I communicated with him a lot on all kinds of questions, and before going to sleep, He pulls a tiny box out of his pocket and says: - I will create a paradise for you in such a box after death. Both of us lay down to sleep with our clothes on; I let Him lie down first by the wall, and I myself lay down next to him, facing him. We placed our heads next to each other, and during the night He created a healing program for my head against the negativity of humanity. That man was my GOD THE FATHER! Very simply dressed and a completely simple man. In the morning we both got up and he says: - Where should I go out through? And I say: - Why, You are MATTERLESSNESS, go out through where You came in. I showed Him an exit not through the door, but through the clothes hanger where my jacket was hanging. From that man, a blue shadow remained again, and that shadow floated through the hanger. What is strangest, I found money in euros inside the jacket: 70 euros. This is as much as I wanted to tell you, dear reader, about my GOD THE FATHER!

Let us return to GOD THE ABSOLUTE, which is higher than all over-consciousnesses. In the evening, I went out for a walk toward the side of Klaipėdos Street, living in the middle between Parko Street and Klaipėdos Street. I was walking to the shopping center BABILONAS and went straight past the houses. The whole way I kept to a left turn to come out onto Klaipėdos Street, and the miracle occurred in that I never reached Klaipėdos Street, without having turned to the right side even once... I found myself in another city... I grew frightened that I would get lost and freeze... I say: - GOD, return me to Panevėžys, to Parko Street, and from that City I entered Parko Street from the completely opposite side, not from the side of Klaipėdos Street... I was struck speechless after such a walk. It is impossible, having gone out toward the side of Klaipėdos Street, to end up on the opposite side of Parko Street. In the morning upon getting up, I went to see what kind of Panevėžys this was, and I could no longer find any such city as had been created the evening before. Such a miracle I cannot comprehend myself, even while comprehending all kinds of over-consciousnesses... here, GOD already exceeds all my logical understandings.

Signed: INDIGO Vidmantas

WHAT GOD CAN DO!

Good day, beloved and precious people! What can GOD do? About 5 months ago, I went to the Church of Saints Peter and Paul in Panevėžys, deeply interacting with Mary. I was not inside for long; I went straight to the portrait of Mary, in which Mary holds the INFANT. I looked at the Portrait and said to Mary: - Appear, for I am that INFANT whom you hold in your arms. A connection of love toward Her developed within me immediately... A MIRACLE... Mary leaped out of the Portrait before me, I even grew bewildered... about 5 people witnessed this event and clearly noticed It. (Why do the people who saw Mary’s apparition remain silent?).

I did not rush to communicate with Her yet... I communicated with Her through thoughts... I crossed the Church where lit small candles were burning, and Mary did not lag behind me. She likewise crossed the church following me toward the small candles. I FOUND a spot there where human BIOENERGETICS did not function, and I identified with GOD THE ABSOLUTE - THE FATHER... A fabulous paradise developed within me, I could not even feel my body. I remained in such a state for about 10 seconds and moved toward the small candles... the connection with THE FATHER - GOD disappeared, and a connection was established with the LIVING MARY, who stood beside me. Approaching the small candles, I noticed Mary’s connection with deceased people. All believers interact after death not with CHRIST, but with MARY. She is the

only one who protects people after death. God THE FATHER Himself is very distant from people, because His consciousness is too high to contact people upon their death.

I left the Church together with the women, through the women's exit, solely for the purpose of walking together with Mary. I did not walk with Her for long; I walked with Her outside for about 100 meters, and we parted ways. She formed an unspeakable paradise for me while we walked together; a fabulous paradise was formed for me by Her. We parted ways, and where She went in the physical body, I do not know. I returned home by bus and did not meet Her again. It was my wish to invite Her to my home, however, having come from God, She would not be able to exist among living people for long - (SHE WOULD BE TRAUMATIZED).

Respectfully: THE CHRISTOS LOGOS Vidmantas

35. THE CONCEPT OF GOD

GOD THE ABSOLUTE!

THE CONCEPT OF GOD!

Since childhood, I believed that there is something; - someone who created this world (our planet), some kind of a higher force, - a mind, and I lived a very "clean" and honest life with my soul, with solely goodness and love in my heart. Personally, I always valued most the purity, honesty, and goodness of a human being itself, as well as all other human traits that spread goodness... And what do you think?, - what happened to me in the spiritual world and its understanding after reaching the most conscious existential phenomena of the state?... I do not even know how to write it or express it so that the readers would understand correctly, for I encountered phenomena unknown and uninvestigated by science, ... !

I have formulated the concept of God as follows:

God is the entire whole, that is:

1. Matterlessness!
   A). Matterless energies!
   B). Zero and positive LINKS OF MATTERLESSNESS!

2. Matter.
   A). Material energies!
   B). Life to life!
3. The world of our planet (Earth) and any life within it.
4. The spiritual world of the whole, and its constituent system on our planet.
5. About 10 (the exact number is unknown, an approximate number is written) planets of extraterrestrial civilization and their existential systems.
6. God - the Father - the core, the center of the entire existence in the universe.
7. Christ (the hybrid body of Jesus - indigo human).
8. A certain system of God that created our planet Earth (the mother).
9. The constituent system of the universe; - the constituent system of Paradise (it is unknown whether matter exists, it is only known that such a system exists).
10. Time.

I have divided the concept of God into 10 fields of concepts, which encompass the existence of the whole throughout my analyzed (analyzable) universe. Over time, certain systems of God and systemic programs have been created. Systemic programs are particularly characteristic on our planet Earth. These earthly systemic programs of God were created through CHRIST, through His interaction with humanity, and humanity's interaction (in certain senses) with Jesus. The future of the earth was programmed through the HYBRID body OF CHRIST. Christ is a hybrid of Jesus and an indigo human, whose personality is fully comprehended in the over-consciousness, because it can exist not only in the existence of man, God the Father, but also in the Spiritual State Existence of other Planets (through this, CHRIST succeeded in finding out the civilizations of other existences in the year 2009) and the like. .... !

Medium - Vidmantas -

Signed: God!

36. PARAPSYCHOLOGY

THE PSYCHOLOGY OF PARANORMAL PHENOMENA,

I would divide the psychology of paranormal phenomena, otherwise known as parapsychology, into two human concepts;

1. The first concept would be directed more toward the psychology of man in relation to the connection between God and man, where man directs the philosophical foundation toward God Himself and His structure.
2. The second concept would be directed more toward the psychology of man in relation to the connection between God and man, where man directs the philosophical foundation toward the relations between God and man, and the relations among people themselves, under the existence of paranormal phenomena.

The second concept, unlike the first, is known to humanity because parapsychologists working with people exist on our planet. The science of this concept is very ancient and known. When a person directs the philosophical foundation toward another person and a human's relations with a human, it is simply called psychology; however, under the existence of paranormal phenomena, it is called parapsychology. Parapsychology in this case is closely related to the existence of God, because paranormal phenomena connect with God Himself.

I will mention that within our planet Earth, in every life, there exists a particle of God, otherwise known as a fragment of God. A fragment of God is a part of God's system that possesses a memory. The particle of God is located in the core of a human near the chest, within one of the human chakras. The fragment of God inside a human is a certain part of God – a part of God's computer.

People characterized by exceptional spirituality guide themselves more by feelings than by the logical mind—that is, they guide themselves more by the fragment of God. Such people are highly spiritual, tolerant, and good. Indigo people possess a very bright and exceptional spirituality, being irreplaceable specialists in the psychology of paranormal phenomena, because perfect spirituality is essential for a parapsychologist, which is exactly how indigo individuals stand out and what they are characterized by in society.

Analyzing the structure of the human spiritual aspect more broadly—what the human soul is and what the human spirit is—we would get the answer that the soul is the informational model of a human and their entire life, while the spirit is the reasoning

model, which is a composite union of the soul and the fragment of God. Explained more simply, the soul is the entire characteristic of a human. By feeling another person's soul, one can describe the person's character from it. Indigo people, frequently encountering other ordinary people, see and feel the depths of outside people's souls—that is, their characters, their spiritual characteristics.

When a human investigates paranormal phenomena, they should first of all orient themselves very well within themselves – inside themselves, in the logistic science of their own spiritual aspect. The logistic science of the spiritual aspect is sufficiently complex, which psychologists of paranormal phenomena properly tolerate and employ in practice. I will mention that good parapsychologists must possess the gift of clairvoyance from God, because without clairvoyance it is impossible to be a good parapsychologist. Parapsychologists encounter paranormal phenomena, analyze them, and help other people find their bearings in complex life situations.

The Author's Word;

Personally, being a clairvoyant parapsychologist, I often see images (visions) in my subconscious from God, which fulfill themselves after a certain time—that is, the seen images manifest in real life. Sometimes it is known to me in advance where earthquakes will take place, yet I do not reach out anywhere with this information because I am not certain of this knowledge. In advance, I predicted an earthquake in Italy, because the evening before, I pondered over an impending earthquake in Italy, and the next morning, in reality, an earthquake occurred on Italian soil...

Writing about the images I see from God, I will mention a couple of examples of how these images manifest in reality;

"While lying in bed at home, I began to see an image in my subconscious of how I enter a village store and meet an old friend named Rolandas, with whom I exchange a few words and leave the store. I knew that images of this nature fulfill themselves, yet I could by no means comprehend that God knows an event ahead of time. A week later, having forgotten this information, I went to the village (homestead) and drove to the store, as a consequence of which I met Rolandas and exchanged a few words. Leaving the store, I immediately remembered the vision I had seen, in which reality corresponded to the images I had seen in my subconscious a week prior. It is very difficult to believe that God knows every step of a human in advance."

Being a clairvoyant, I have predicted in advance a great deal of impending misfortunes for people, human deaths, yet I was unable to help them.

"One time I went to my hometown village, the same one I mentioned earlier. I met a childhood friend, and while communicating with him, I felt the information that someone would beat this childhood friend named Arvydas to death. I was very surprised by such information and wanted to warn him, yet I doubted whether it was true. A week later, my mother arrived to visit me from that village and told me that my childhood friend had been beaten to death by drinking companions over a bottle of vodka. In my own life, I have had a great many similar examples, yet I was never able to warn the unfortunate ones. I did not warn them because I would not be certain of this information, although according to the nature of information, one can distinguish real truth from untruth."

I believe that for a human to be a good parapsychologist, it is necessary for them to have very good relations with God and the environment – the surrounding world, based on love and harmony. From love for God and the surrounding world, a human gains high consciousness and talents to perform the work of parapsychologists.

The psychology of paranormal phenomena is fabulously interesting within extraterrestrial structures, and within planetary domains—that is, on foreign planets. As we know, the universe is infinite, composed of galaxies, and within infinite existence, there are also infinities of extraterrestrial civilizations. It is very wonderful and pleasant that God grants opportunities to indigo people to investigate extraterrestrial states of being. I have investigated about ten planets of extraterrestrial civilizations, among which planet Earth occupies about the fourth place according to its level of development. Through the model of God's selfhood, His selfhood energetics, the indigo very clearly feels extraterrestrial states of being, the spirit and matter of foreign civilizations (in what kind of matter the extraterrestrial state of being exists). Describing all of this is impossible because these things are felt. Describing feelings is very complicated; it is necessary to feel it. Indigo people feel the selfhood of our planet Earth as well. It is very pleasant to feel nature, its selfhood energetics. Such parapsychological phenomena form states of paradise for a human. A human experiences a fabulous pleasure feeling the energetics of God's selfhood. Through these phenomena, the head and chest chakras open for the indigo human. The spirit of selfhood is felt in the chest chakra, and the material structure of selfhood in the head chakra. The indigo, like a radio antenna, catches all signals through the open chakras from God's energetic field. The nature of God's energetic field forms from the desires of the indigo human himself. If the indigo human strives for something over time, God gives him exactly what he strives for. I believe that God fulfills all desires of the indigo human that are unrelated to other outside people. Connections with other outside people must be avoided by the indigo if he draws closer to God. Connections with outside people do not allow the indigo human to draw closer to God, His energetics, because the connection with God requires very high concepts of materialization from the indigo. Only in a very high consciousness does the indigo interact with God's energetics. From a very high consciousness, the

indigo human reaches the concepts of the over-consciousness—that is, concepts that surpass the logical mind of humanity, because God Himself is in the context of over-consciousnesses; His energetic spirit is higher than the conscious logical mind of all humanity. People call God's energetics the supreme mind of the universe.

Indeed, when loving God strongly, God repays the indigo human with the same—perfect love—and grants opportunities to the indigo to investigate the universe, the entire existential system. Investigating all of this, I conducted the research deliberately, not erratically. God drew a plan of the research in the subconscious. The research took place over ten days, one civilization per day. Waking up the next morning, I would feel an entirely different civilization each time. The feelings were very clear and understandable, through which the personality of those extraterrestrial civilizations would form within myself, and I myself would become a human of other planets... This is a very interesting phenomenon of the psychology of paranormal phenomena, through which the universe is thoroughly investigated. Through these gifts of God, the indigo fully investigates our planet Earth as well, being a bioenergetic specialist. I have investigated humanity very broadly... in conclusion, people are very different, and their worldviews are different. It is pleasant to investigate educated people, because their logical reasoning is very pleasant and acceptable to me personally. An indigo human distanced from God and His energies is just like a well-educated ordinary, simple person. Without interaction with God, the indigo possesses no exceptional powers and exists in the state of a simple ordinary person. He is just like other intelligent, educated people. Connections with God's energetics elevate the indigo to incomprehensible perfections.

A very complex psychology of paranormal phenomena exists when healing the human physical body from various illnesses. I believe that it is possible to overcome any illness through the energies of God, through interactions with Him. In order to overcome an illness, a human must ideally cleanse their soul. Through ideal human purity, a human reaches very high concepts of materialization, and through those concepts, any illness is healed. In our society, this is very complicated to do; it is advisable for the patient to remain in solitude for a longer period of time. In solitude, it is easier to draw closer to God. Having drawn closer to God, it is necessary to remain in connection with Him for as long a time as possible. In this way, I have healed an incurable illness commonly called "psoriasis" (*„žvynelinė“*). Through connections with God, the illness healed for me within the span of a single night. Looking at this situation through the eyes of science, it is impossible to heal "psoriasis" in one night. In one night, all foci of the illness on the body disappeared... after several years had passed, that is, in the year 2016, minor foci of the illness are forming for me again, yet I pay no attention to it because these foci are minor. If the illness progressed – increased, I would seek solitude and heal the illness again. I believe that on our planet Mother Earth, there are quite a lot of sick people who

do not know how to fight illness when medical means do not help. When healing an illness through God, it is very important for a human to possess a positive psychological characteristic, a positive karmic knot. Possessing these things, it is truly possible for a human to overcome any illness. Personally in life, I happened to heal a person suffering from cancer. I felt very sorry for that person, and around the year two thousand and six, having communed with God, I healed that person. Personally, I did not know him; I knew of him through my workplace. It was very wonderful for me to see him recovered. He did not even know anything about the fact that he had healed thanks to me. Writing from a deep psychological context, when healing outside people, it is better not to communicate with them, because during communication, the human's negativity is noticed, and in such a case, healing the illnesses may fail. The psychology of paranormal phenomena when fighting illnesses is very complex, because it is necessary to psychologically justify the patient before God, to justify their sins and their imperfection. In these concepts, the folk saying "a clean body in a clean soul" is highly appropriate. Personally in life, I have never suffered from any illness, except for the small foci of "psoriasis". I am an ideally healthy person because my soul is ideally clean. I inherited the "psoriasis" illness from my father, as my sister suffers from it too. This illness is hereditary, yet easily curable through God. I wrote about this on internet websites in the year 2008. Knowing our society as I do, it can be stated that it is nearly impossible for people to heal illnesses in such a way as I have healed, because people are very distant from God. It is advisable to pray properly—openly and sincerely. Our society, in which I live, is very incompetent regarding these matters described by me. I believe that the ordinary person of society will be unable to properly cleanse the depths of their soul. A human possessing a better – more perfect spiritual development has the opportunities to heal illnesses in the way described by me. Personally, I possess the gift from God to heal other people, yet I am unable to heal bad people either.

Continuing the analysis of the psychology of paranormal phenomena, I will mention one such supernatural phenomenon from my childhood. This is a very old parapsychological phenomenon known to many people, when the spirits of deceased people are summoned by a candle in the dark, using a large sheet of paper and a porcelain saucer upon which a direction arrow is drawn, and it is placed upon that large sheet of paper where letters are written in alphabetical order along with numbers from zero to nine. The saucer is touched with fingers and the spirits are called. The miracle occurs in that the porcelain saucer begins to move across the sheet of paper and answer all the questions asked. One can ask very diverse questions, which are answered in detail. From the positions of science, there are no answers to this supernatural phenomenon. This is a case proving the existence of God. The porcelain saucer, moving across the sheet of paper, arranges words through the written alphabet and answers questions related to numbers. A human receives very intelligent and detailed answers from the summoned spirit. The energy pushing the saucer is from God, because a Divine energetics is felt. It

is believed that it is not the spirit of the deceased person answering the questions, but God. Looking from deep parapsychology, the spirit of a deceased person connects very closely with God; in such a case, the spirit can also answer various questions while in connection with God. According to the science of the psychology of paranormal phenomena, the energy for the movement of the saucer is formed by the God's fragment of that deceased person, because the spirit is a composite union of the human soul and the fragment of God. If it is as I write, then all of this is occultism. The church foundation of our society, Christianity, does not tolerate occultism. In such a case, I do not tolerate occultism either; I mentioned all of this as an interesting phenomenon of the science of the psychology of paranormal phenomena. Occultism and magic have existed on earth since time immemorial, from very ancient times.

Under the psychology of paranormal phenomena, I would also classify the miracles performed by God within the context of the over-consciousness. For example, the following phenomena:

1. The passage of indigo people through time.
2. The elimination of matter and the alteration of its dimensions.
3. Visions seen in the human subconscious that fulfill themselves in reality.
4. Transcendence and its existence. When a human separates from the physical body.
5. A human's knowledge of future events, the prediction of earthquakes.
6. A fire vortex created by God at the request of an indigo human.
7. Other miracles performed by God in technologies and domestic life.

All these psychological phenomena of paranormal phenomena are described in this publication, in this book. I believe that God performs very interesting, non-standard miracles while interacting with a human. In order for a human to experience similar miracles performed by God, it is necessary for them to love God very much and to open their chakras. When a person's chakras are open, they can then see God, feel God, and interact with Him. The foundation in the human body consists of the chest and head chakras; by opening them, a human sees God and feels His over-consciousness. I will emphasize that it is possible to contact God through the chakras only for a person of a very good soul.

From these seven aspects of the over-consciousness described by me, I will single out the second point—that is, the elimination of matter and the alteration of its dimensions—because this point greatly surpasses the consciousness of humanity, the logical mind of humanity. I believe that it is difficult for an ordinary person to believe this theory, that the dimensions of matter can alter or that it can disappear altogether. However, this can happen when interacting with God; I have had more than one case

when matter would disappear right before my eyes and its dimensions altered. In this book, I have written about how the dimensions of an electric microwave oven decreased by one-third, and it operated, did not break down, and performed its functions. Measuring it with a ruler, it is obviously visible that it is non-standard, smaller than the standard. In the future, I plan to film such phenomena when matter disappears or its dimensions alter, if I continue to investigate similar things. If I succeeded in filming these phenomena, I would present them to the public as miracles.

Likewise, the first point, titled the passage of indigo people through time, is also very interesting. I believe that this point is also unexplainable by the conscious logical mind. I have walked through time more than once, even though the continuous time diagram is one. Walking in the city, I noticed a house beautifully covered with panels, and the next day, walking in the very same place, I noticed the same house only just beginning to be covered with panels. I have several examples in life when I found myself in other times.

Speaking of the third point, this point is interesting to the conscious human mind in that an image (events) is seen in the human subconscious, and after a certain time, these events occur in reality—everything that is seen in advance through the image fulfills itself.

Looking at these things from a very high consciousness, that is, from the positions of the indigo, all of this is seen as actual reality, because the indigo feels God, and from the position of God, all of this indeed is the truth of actual reality.

Concluding the topic of parapsychology science, I emphasize that this entire book of mine is written on the subject of parapsychology.

Signed: GOD!

37. BIOENERGETIC HEALING

BIOENERGETIC CONSULTATIONS AND SPIRITUAL HELP

Vidmantas Grinčiukas – consultant of bioenergetic practices, researcher of parapsychological knowledge, enthusiast of psychological topics (indigo personality)

Tel.: +370 617 19177

Welcome to a space where I share my personal experience, insights, and worldview toward bioenergetics and the spiritual improvement of man. My calling – to help people search for inner balance, overcome emotional challenges, and discover peace and consciousness.

I offer individual consultations on various questions of life – both from a psychological and from a spiritual perspective. My methods of work are based on intuition, energetic sensitivity, and an individual approach to each situation. In certain cases, communication can take place remotely (with the person's consent and a photograph).

Important: I am not a doctor, I do not diagnose, and I do not provide medical services. All activity is based upon my personal worldview and is not equated to conventional medicine or psychotherapy. I invite everyone who wishes to evaluate my services by free will – I demand no monetary reward. If you feel the desire, a sincere THANK YOU is the most beautiful gratitude to me.

With light and respect, Vidmantas

38. TELEPATHY

SPIRITUAL TELEPATHY – LISTENING WITH THE HEART

Spiritual telepathy is not a form of information transmission, but a meeting of souls in the field of silence. It often manifests not through clear words or thoughts, but through deep inner impulses, perceptions, and synchronicities – when a message reaches the consciousness as a knowing, inexplicably accurate and clear.

In such a connection, there is no force, no desire to convince or dominate. It is a gentle alignment, a vibration of sensitivity. Like radio waves that finally coincide on the very same frequency band.

How to recognize and develop sensitivity to spiritual telepathy?

🌿 **Dedicate time to silence.** Spiritual telepathy is not born in noise. Daily minutes of silence allow one to hear what silence speaks.

💠 **Cultivate the attention of the heart.** It is important not only to hear the outside, but to feel what message is born within. Listening not with the ears, but with one's entire being.

🌀 **Trust intuition.** A spiritual connection is often the first gentle impulse before rational thinking. Sometimes one only needs to allow it to be.

🔗 **Create conscious relationships.** When two people open up to each other not only with words but also with a feeling presence, telepathy becomes a natural continuation of their communication.

🌌 **Maintain the purity of the heart.** The soul speaks through love, compassion, and respect. Negativity, fears, or criticism disrupt this connection.

Those who feel spiritual telepathy are like vessels of light that can receive the most subtle frequencies of the universe. They do not necessarily speak loudly, but their presence already is a message.

TELEPATHY – A FELLOWSHIP OF CONSCIOUSNESSES BEYOND THE BOUNDARIES OF WORDS

Telepathy is a subtle phenomenon where consciousnesses can connect without physical means or sounds. It is not limited to imagination or the world of science fiction

– for many sensitive people of higher consciousness, it is a real experience testifying that we all are parts of a unified cosmic field.

Telepathic communication manifests in two ways: 1. Verbal telepathy – an extremely rare connection available to people of INDIGO consciousness. During communication, not only words are transmitted, but also deep inner meanings, feelings, and comprehensions. 2. Spiritual telepathy – manifests as a perception, intuition, and a spiritual connection available to all who open their inner hearing and the silent space of the heart.

The author of these lines, Indigo Vidmantas Grinčiukas, has experienced verbal telepathy twice in his life – a connection with INDIGO girls whose consciousnesses naturally aligned into the frequency of light and love. One such meeting took place near his home in Panevėžys, at Parko St. 39. Another time – an unexpectedly unfolded telepathic contact at the Panevėžys Polyclinic on Nemuno Street.

During these meetings, not only a state of communication without words was experienced, but also a festive space of light vibrations where the boundaries of time, place, and separation disappear. This is an existence in God's reality – where two souls merge, recognized by each other at a deep inner level.

Telepathy is not merely the transmission of information – it is a merging with another consciousness, a shared presence in the silence where true understanding is born.

5. RECORDINGS FOR SPIRITUAL DEVELOPMENT

39. HOW TO CORRECTLY PERCEIVE SIN ?

HOW TO CORRECTLY PERCEIVE SIN?

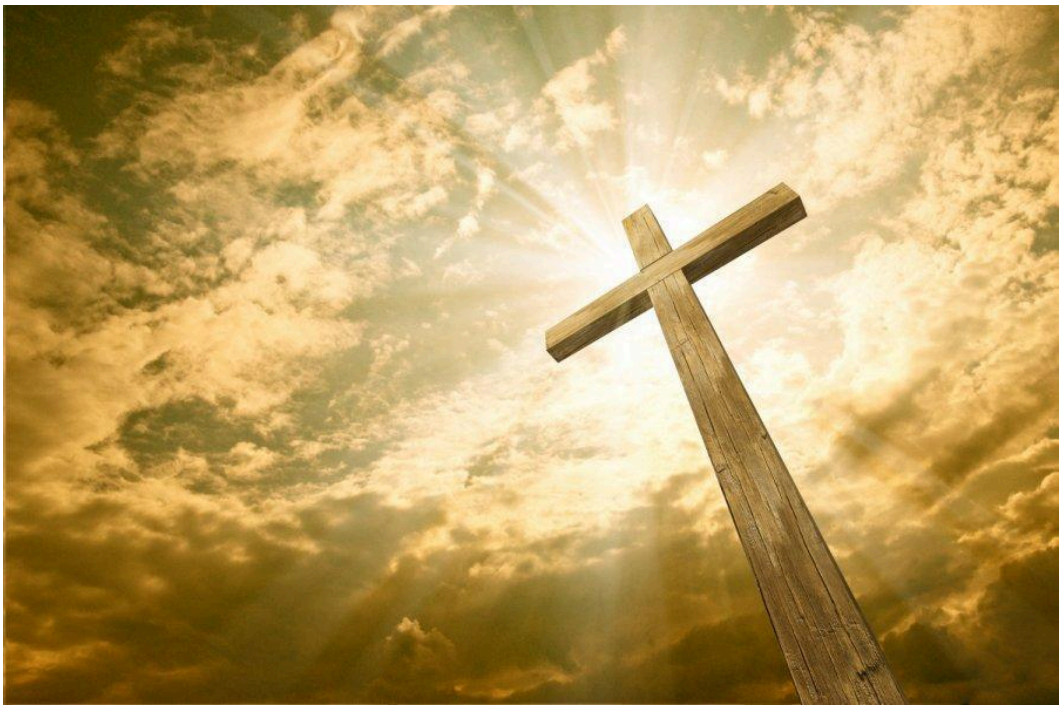

Good day, dear readers. How to correctly perceive sin? Before answering this question, I first want to explain how Christians perceive sins. In my view, Christians perceive sins excessively, because as much as I have happened to communicate with them, they possess an exaggerated perception of sins. From my point of view, a sin is a malicious, conscious crime against God and society, as well as any action of a human against the voice of their own conscience. I consider it a great sin when there is any malicious, conscious harm done by a human to another human and to the entire society, as well as to humanity; yet, I have not heard from Christians that this is a great sin, because Christians themselves are sinful and tolerate this sin mentioned by me—perhaps not all Christians, but their majority certainly does.

Personally, I do not consider a sin that which is committed unconsciously to be a sin, and I consider sins as sins only when committed by a human consciously, whereas Christians consider human actions committed both consciously and unconsciously to be sins. An unconsciously committed sin, in my view, is not a crime against God the

Creator, because such a sin is committed by mistake or due to a human's lack of comprehension.

Holy Scripture writes a theory that there is no human on earth without sin, and if the Bible considers a sin committed unconsciously as a sin, then it is correct, because truly in our world there are no such people who would match the standard of Divine perfection; however, I personally do not consider an unconscious sin to be a sin.

With love and respect: INDIGO Vidmantas

40. IS IT WORTH SACRIFICING FOR THE WELFARE OF THE WORLD ?

IS IT WORTH SACRIFICING FOR THE WELFARE OF THE WORLD?

A Purified and Improved Version of the Article

Good day, beloved and precious readers.

The question "Is it worth sacrificing for the welfare of the world?" may seem complicated at first glance, yet its essence is very clear. Yes – it is worth it. Why? Because a human who lives not only for themselves, but for the welfare of all humanity, opens up to the higher love of God the Creator and experiences His closeness. Such a soul naturally draws closer to the state of Paradise, because their life becomes one with God, love, and service.

In our society, there are not many people who consciously choose to sacrifice for the welfare of the world. This is not a popular topic, as it requires inner maturity, purity, and the ability to see more broadly than one's personal interests. Indigo people, due to their innate sensitivity and spiritual structure, often naturally feel this calling. I myself, being an indigo human since birth, have dedicated my entire life to God and the improvement of humanity.

On the internet, I have created a program dedicated to the growth of humanity, and my daily routine is a life in oneness with God, His love, and His guidance. Therefore, for me, sacrificing for the welfare of the world is not difficult—on the contrary, it provides a deep meaning, bliss, and inner happiness. When a human lives for others, God fills their heart with light, peace, and joy.

What does it mean to "sacrifice for the welfare of the world"?

This term does not signify self-harm or a life without joy.

It means to live not only for one's own interests, but for the welfare of all humanity, for the growth of its consciousness, peace, and light.

This can manifest in various ways:

- A good word that elevates another human
- A message of light that inspires
- Service that strengthens the common good
- An inner prayer or love sent to the world
- Creativity that raises consciousness

To sacrifice for the welfare of the world is to live in such a way that your presence on Earth leaves a footprint of light.

With love and respect,

INDIGO Vidmantas

41. DO WE KEEP THE 10 COMMANDMENTS OF GOD

DO WE KEEP THE 10 COMMANDMENTS OF GOD

The question "Do we keep the 10 Commandments of God?" is very important for every believer who strives to live in God's light and purity. I remind you of these commandments, which since ancient times have been the bedrock of Christian life:

You shall have no other gods before me.

You shall not take the name of God in vain.

Remember the Sabbath day, to keep it holy.

Honor your father and your mother.

You shall not murder.

You shall not commit adultery.

You shall not steal.

You shall not bear false witness.

You shall not covet your neighbor's wife or husband.

You shall not covet your neighbor's goods.

These commandments are not just rules—they are spiritual landmarks that help a human to live harmoniously, in peace with oneself, others, and God. They protect the human heart from sin, which distances one from God the Creator and darkens the inner light.

🌿 Why is it important to keep God's commandments?

God's commandments are meant to make the world more beautiful, more just, and full of love.

When a human keeps them, their spirit becomes pure, and life becomes meaningful.

When a human consciously violates them, disharmony arises within them, which distances them from God's energetics and His closeness.

Throughout the 55 years of my life, I have striven consciously not to violate a single one of these commandments. This is my path, my choice, and my service to God and humanity. I believe that every human can strive for the same purity and inner order.

🌟 The Spiritual Consequence

A human who lives in sin carries a lower energetics within themselves, therefore after the death of the physical body, their spirit naturally does not adapt to the light of God.

Those who live with Christ are protected from darkness, yet only a pure heart can experience the closeness of Paradise and the presence of God.

💛 A Gentle Invitation to Human

Dear human, if you feel that there is sin or inner wounds in your life, do not despair. Everyone can change, grow, and cleanse themselves. Work with yourself, with your heart, with your love for God.

No one wants darkness in eternity—therefore let us live in such a way that our spirit is bright, pure, and close to the Spirit of God.

Jesus saves man from darkness, but a human reaches the state of Paradise through the purity of their heart and a life lived according to God's commandments.

With love and respect,

INDIGO Vidmantas

42. WHAT IS WRONG WITH THE HUMANITY OF OUR PLANET

WHAT IS WRONG WITH THE HUMANITY OF OUR PLANET

This question – "What is wrong with the humanity of our planet?" – is deep and multi-layered. It touches not only upon external phenomena but also upon the inner state of a human.

The greatest problem of modern society is living without God. When a human dissociates from God the Creator, their life loses its direction, and chaos begins to manifest in the world: violence, elements, and spiritual poverty. Without the light of God, human consciousness darkens, and their actions become directed toward selfishness rather than the common good.

🌿 What does it mean to live with God?

To live with God means to live holily, without sin, in a state of a pure heart. This means not only adhering to spiritual principles but also consciously creating a life that draws closer to God's reality. When a human lives in oneness with God and His love, they become happy, full of inner peace and light. Such a person experiences states of Paradise that are unreachable by the mind but open up through the heart.

🌟 What can we change?

For humanity to change, it is essential to form a worldview based not on fear, but on love for God and His creation. It is necessary to cultivate consciousness, inviting people to live not only for themselves but for the welfare of the entire planet. A perfect life is not an ideal, but a direction in which we can walk every day, in small steps.

I, being an indigo human since birth, have dedicated my entire life to God and the improvement of humanity. Although I rarely meet people who consciously seek closeness with God through a holy life, I believe there are more such souls. If you feel that your path is similar – share it. Every person of light is important.

With love and respect,

INDIGO Vidmantas

43. A REALIST OF LIFE AND GOD

A REALIST OF LIFE AND GOD

Today I invite you to ponder upon what a realist of life is and how this approach connects with God's reality.

A person who relies solely on science, logic, and the material world, while considering the existence of God unproven or unnecessary, is often called a realist of life. Such people frequently reject miracles, spiritual phenomena, and the presence of God, considering it a domain of faith rather than reality.

However, from my personal experience, I can testify that God exists not only in faith but also in reality. Through more than 50 years of spiritual research, I have experienced over 100 miracles that leave no doubt about the presence of God the Creator. This is not a theory – it is a living experience that I carry in my heart.

🌿 An Invitation to Ponder

If you consider yourselves realists, I invite you not to argue, but to ponder:

- Do you truly know the entire reality of the world?
- Are you not limiting yourselves only to what is visible to the eyes and measurable by instruments?
- Perhaps reality is much broader – encompassing the spiritual, the energetic, and the over-conscious level?
- Our world is full of God's signs – one only needs a heart to feel them.

When a human lives in oneness with God, their life becomes full of love, peace, and inner light. Such a person not only sees the world differently – they feel it differently.

🌟 Reality – It is Not Merely Matter

Reality is not just physics or chemistry. Reality – it is also spirit, consciousness, and the presence of God.

- Therefore, I invite everyone who searches for truth to open their heart to God the Creator.
- Not to abandon science, but to complement it with spiritual knowledge.
- Only then will you see the entire fullness of the world.

With all my heart, I wish you closeness with God, love, light, and inner perfection.

May your path be full of meaning and spiritual growth.

With love and respect,

INDIGO Vidmantas

44. WAR - THE JUDGMENT OF GOD THE ABSOLUTE

WAR - THE JUDGMENT OF GOD THE ABSOLUTE

Russia's War Against Ukraine – The Judgment of God the Absolute

Good day, beloved and precious readers.

With this entry, I want to share a spiritual insight regarding Russia's war against Ukraine and the Judgment of God the Absolute, which operates not on an earthly level, but on the level of eternity.

My spiritual research has revealed that Russia is currently acting as an aggressor – a force that brings killing, destruction, and pain. However, it is important to understand that God the Absolute, being a positive energy and a source of light, does not interfere directly in earthly wars, because humanity has been given free will.

When a human operates from negativity, the light of God the Absolute does not manifest in their consciousness. Therefore, on earth, the aggressor may remain unpunished, but in the context of eternity – the Judgment of God is inevitable.

🌿 The Structure of the Judgment of God the Absolute

God the Absolute possesses several branches of Judgment that operate on subtle spiritual levels. This is not a punishment out of revenge, but an energetic reflection of a human's actions, consciousness, and vibration.

I have investigated God the Absolute for more than five decades and can testify that after the death of the physical body, about 85% of humanity falls into spiritual troubles because their life was distanced from light, purity, and love. Only about 15% of souls escape these consequences by living consciously and holily.

⚖️ War Consciousness – The Lowest Form of Consciousness

To me personally, war consciousness is completely incomprehensible. It is a primitive, undeveloped consciousness, close to an animalistic state. It is a pity that even in the 21st century, such consciousness still exists and shapes world events.

Therefore, I invite you, dear reader, to cultivate consciousness so that our world may be brighter and our spirit closer to God the Absolute. Only through the purity of the heart, love, and oneness with God can we avoid the pain of eternity and create a peaceful, harmonious world.

🌟 About God the Absolute

God the Absolute – it is the entire whole, yet in this context, I am speaking about God the Absolute the Father, who is a positive energy, a source of light, and the guarantor of spiritual order.

This text is not my personal opinion – it is information obtained from over-conscious research, corresponding to the reality that I have been permitted to know.

With love and respect,

INDIGO Vidmantas

45. GOD AND FREEDOM

GOD AND FREEDOM

Today I invite you to ponder upon a topic that is not only relevant but also fundamental to human spiritual growth – God and freedom.

For 35 years already, we have been living in a free Lithuania – independent, capable of choosing, creating, and thinking. However, do we truly understand what it means to be free? And how is this freedom connected with God?

God gifts every human with free will – the opportunity to choose, to act, and to create the direction of their own life. However, this gift is not merely a privilege – it is also a responsibility. Therefore, it is important to understand how we employ freedom and what the true concept of freedom is.

🌿 1. Freedom – It is a Life in Oneness with God

- True freedom is not self-will or dissociation from spiritual values.
- Freedom – it is the opportunity to live in oneness with God, His love, and light.
- When a human perceives freedom as a spiritual path, their life becomes harmonious, and negativity diminishes in the world.
- Conversely – when freedom is perceived as a license to act without consciousness, evil begins to manifest in the world: wars, elements, and spiritual chaos.

🌟 2. How Do We Employ Freedom?

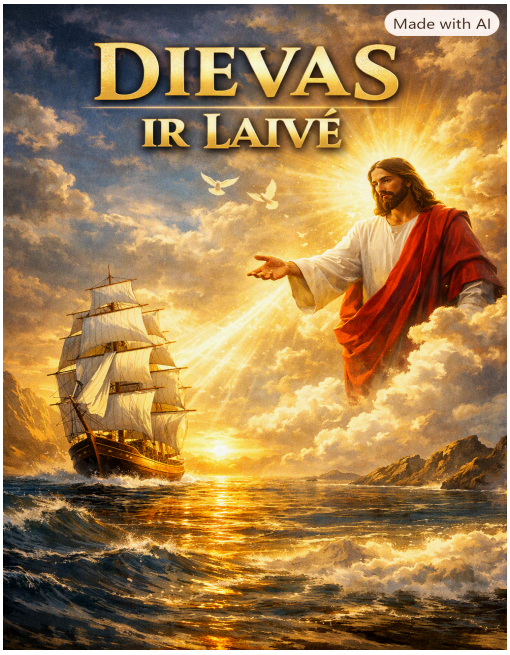

Freedom is a gift from God, yet humanity frequently employs it improperly.

- Instead of freedom leading to the light, it not uncommonly becomes a means for selfishness, sin, and spiritual darkening.
- Therefore, it is highly crucial that every human assimilates the concept of freedom not as a license to do anything, but as an invitation to live consciously, holily, and with love for God.
- When a human does not value freedom, they lose connection with the light of God.
- However, when a human lives in freedom, guided by God, their life becomes full of meaning, peace, and inner joy.

Dear human, I invite you –

- to live in freedom that leads to the light,
- to live with God, who gifts you true freedom,
- to live in such a way that your heart is pure and your life is meaningful.

With love and respect, INDIGO Vidmantas

46. COMPUTERS OF GOD THE ABSOLUTE

COMPUTERS OF GOD THE ABSOLUTE

Good day, dear and precious readers.

This topic – Computers of God the Absolute – may seem unusual, as it belongs to the realm of the over-conscious, which the human mind often cannot reach. However, my spiritual research and direct experience allow me to touch upon this area and share what I have experienced.

God the Absolute has a computer system that operates not only on Earth but throughout the entire universe. These computers are not material technology – they are over-conscious structures that function on subtle levels. It is impossible to explain them in human words, but their impact can be felt and described.

🌍 The Power of Computing

The computing of God the Absolute can change the structure of a material location – meaning that the physical environment can be transformed, recreated, or even eliminated. God can create matter from no matter, because His creative power surpasses all laws of physics.

Although this computing could control humanity, God the Absolute does not do so – He respects human free will. This means that a human chooses for themselves how to live, and God's computing operates only when a human consciously connects with the light of God.

✨ Personal Experience

Once, while walking through the city, I found myself at the other end of the city within 3–5 minutes – physically, this is impossible. Did God change the city's territory, or did He move me? The answer remained beyond the limits of my perception. This was one of many moments when I encountered the computing of God the Absolute.

With love,

INDIGO Vidmantas

47. THE WORLD THROUGH THE EYES OF GOD THE ABSOLUTE

THE WORLD THROUGH THE EYES OF GOD THE ABSOLUTE

This topic – how God the Absolute sees our world – is very subtle and requires an over-conscious gaze. From my experience, I can say: whoever thoroughly investigates God the Absolute becomes a part of Him – this is not a theory, but a living state.

God the Absolute sees our world as a complex structure in which both goodness and evil exist. He is almighty, yet He does not interfere in the decisions of humanity, because free will has been given to every human. This means that humanity creates its own fate – both in the light and in the darkness.

⚖️ Free Will and Consequences

When humanity chooses to live without God, negativity begins to manifest in the world: wars, elements, and discords. My research has revealed that natural elements are not a coincidence, but an energetic reflection of humanity's sins and spiritual separation from God the Creator.

If humanity lived with love for God, the world would become a paradise. However, the majority of people choose a different path – therefore paradise remains unreachable. The light of God is always waiting, but a human must accept it.

With love and respect,

INDIGO Vidmantas

48. MATERIAL FOR THE IMPROVEMENT OF HUMANITY

🌟 MATERIAL FOR THE IMPROVEMENT OF HUMANITY

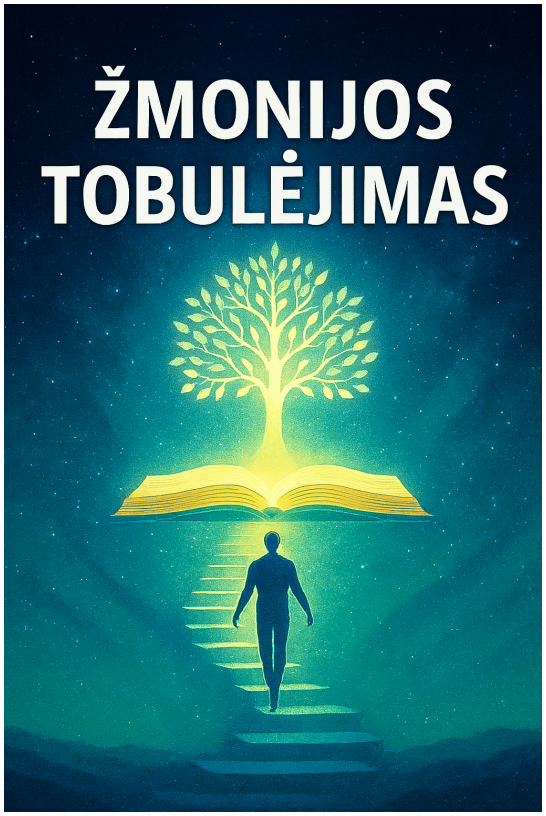

Beloved and dear readers,

if your heart leans towards God, His creation, and the well-being of the world – I invite you to study the online material I have created. It is designed to bring a person closer to God the Creator, spirituality, and love, making their life brighter and more conscious.

49. INDIGO – HUMANITY'S GUIDES TO WELL-BEING

With this post, I want to share an insight about indigo people – souls who, since childhood, have lived in oneness with God, His love, and light. Indigo people dedicate their lives not to themselves, but to the well-being of the world and the service of God.

🌿 Who are indigo people?

These are personalities who possess special spiritual and superconscious abilities. Indigo is a new race of humanity that emerged about 60 years ago. They are characterized by inner purity, chastity, and the ability to see God. Some are even able to explore the structure of God the Creator through the superconscious.

🌟 Indigo – guides into the light

Indigo people lead humanity toward well-being and perfection not through physical control, but through the spiritual field. They interact with God through the chakras,

spreading light and harmony. This is a subtle governance – not from the ego, but from oneness with God the Creator.

With love –

INDIGO Vidmantas

50. THE HUMAN ENERGY FIELD

The human energy field is a subtle vibrational space that a sensitive person can feel from the environment, people, and even from technology – television or computers.

When a person lives in the form of God's Crystal, their sensitivity reaches such a level that they can feel the energy of other people. However, even without this state, some bioenergetic practitioners are able to do this – which shows that sensitivity can take various forms.

🌿 **Indigo Sensitivity**

Indigo people feel the energy of those around them very strongly. When the environment is negative, their body can become paralyzed or constrained – a phenomenon that I attribute to Christology. God then heals the indigo person by sending them His light energy, which neutralizes the discomforts.

⚖️ **Energy Exchange**

In our society, there are people whose energy is low – black. They unconsciously seek out positive people to recharge with their energy. Such people are called energy vampires. They feel good when they receive light, but the positive person loses their strength at that moment.

Therefore, it is very important to protect your energy field, avoid interaction with people of low vibrations, and spread love for God's creation wisely – not by sacrificing yourself, but by maintaining your inner light.

With love –

Bioenergeticist Vidmantas

51. HUMAN POST - MORTEM EXISTENCE

The question of life after death has accompanied humanity since ancient times. My long-standing spiritual research, which encompasses the structure of God and superconscious phenomena, has led to a clear conclusion: human existence does not end with the physical body.

A human being is not made of matter alone. They have a soul – a spirit, which is immortal and continues its journey after physical death. This is the human subtle, astral body, which endures and transitions into another level of existence. My experiences and research have confirmed both the reality of God and the continuity of post-mortem existence.

I invite everyone to reflect on the direction of their life. The spiritual state that a person cultivates on Earth determines their experience in eternity. Living in love, purity, and oneness with God opens the path into the light. Meanwhile, sins, harmful choices, and conscious evil distance a person from God, for a spirit that does not align with God's light cannot merge with It.

Those who have dedicated their lives to Christ are protected from the darkness, but only a pure heart opens the doors to the paradise of the afterlife. Only a person of light can see God for all eternity.

With love,

INDIGO Vidmantas

52. IS IT POSSIBLE TO EXPLORE GOD ?

The question "Is it possible to explore God?" is deeply personal to me, as I have dedicated more than 50 years precisely to this – the knowing of God the Absolute, His energy, and spiritual structures.

God is not studied by conventional scientific methods. God reveals Himself only to the one who loves Him, who lives in a state of a pure heart, and is ready to merge with the light of the Creator. Only in such a state can a person experience the closeness of God, His energy, and the information He sends.

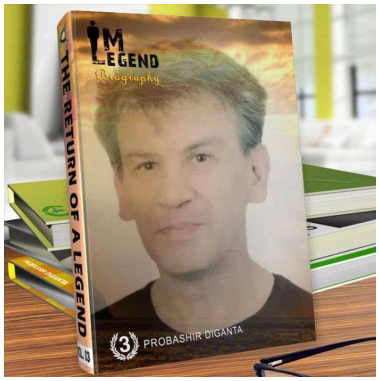

When a person identifies with God the Creator, God, in a sense, incarnates within the person – into the centers of the heart and the head. In such states, the person no longer feels the physical body, and consciousness rises into the vibrations of paradise. The knowing of God happens not through words, but through feeling, energy, and inner truth.

God is boundless, like an ocean, which is why it took me five decades to know Him. During this time, I have experienced more than a hundred spiritual phenomena and miracles that occurred when God the Absolute touched my consciousness. One of the most memorable experiences was when the energetic image of the entire Earth formed in my head chakra, so powerful that I felt the planet's "ground" within my consciousness.

God is superconsciousness, beyond words, and beyond the limits of human comprehension. He reveals Himself only through love.

With love,

INDIGO Vidmantas

53. TELEVISION REFLECTS THE SPIRIT OF THE WORLD

I chose this topic to draw attention to how strongly our internal state is affected by the information environment. Television is a mirror of society. What it broadcasts reflects the collective consciousness of humanity.

Today, much of television content is permeated with negativity – violence, conflicts, fear. This shows that the spirit of the world is still struggling with darkness and inner shadows. Such content shapes people's emotions, thinking, and even their spiritual direction.

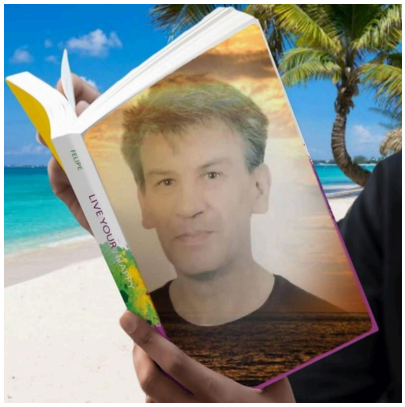

A person who is reborn from the spirit of God naturally can no longer fit in with such content. Violence, aggression, and destruction are foreign to them. To such a person, the world feels like a foreign planet because their internal state is of light, not of darkness.

I myself am born of the spirit of God, which is why I cannot watch negative television – it paralyzes my body and does not align with my inner vibration. My nature is light, so I am naturally drawn only to that which creates, rather than destroys.

Television could be a powerful tool for the well-being of humanity, but for that, it needs a direction toward light, not destruction. I believe that in the future, humanity will find a brighter path and the information space will become more harmonious.

With respect and love,

INDIGO Vidmantas

54. WHAT SHOULD BE PURSUED IN THE WORLD ?

The question "What should be pursued in the world?" is especially important today. First and foremost, humanity needs to pursue peace, harmony, and closeness with God the Creator. We must pursue spirituality, love, and the continuous improvement of all humanity.

We have already entered the Age of Aquarius, which is why planet Earth is rising into a higher vibration of God. This means that people are living in a stronger light of love than ever before. However, because this era is only beginning, many people still live in the consciousness of the Age of Pisces, which is why quite a bit of darkness remains in the world. Nevertheless, this darkness is already being dissolved and destroyed by indigo people and by everyone who lives in the light of God.

Comparing the situation before the year 2000 to the present day, I see a clear leap in a better direction. Over the past 25 years, humanity has made great strides forward – these are distinct signs of the Age of Aquarius, bringing more consciousness, empathy, and inner light.

Dear ones, let us pursue well-being, perfection, love, and spirituality across the entire Earth. Let us be children of God with pure hearts, living not for the flesh, but for the spirit of God. Only in this way will we experience paradise – both here on earth and in eternity.

With love, INDIGO Vidmantas

55. ELECTRICAL ENGINEERING AND GOD

How are the science of electrical engineering and God connected? The answer is simple: a person who has dedicated their life to God becomes an extraordinary specialist in their field. Why? Because living in oneness with God, in love and purity, opens up a perfection for a person, allowing them to achieve exceptional heights in any field.

I myself discovered God the Creator when I was only five years old, and from the age of seven, I began to take an interest in electrical engineering. In my childhood, I created light effects for discos, independently studied vacuum-tube televisions, and have worked with electricity, electronics, and automation all my life.

The field closest to me is automation engineering design. I have designed the entire automation of a reinforced concrete workshop, where the press of a single button initiates the entire production process without operator intervention. I have also designed electricity and electronics for lifting equipment, computer control for presses, a three-story document elevator, and many other systems that I will not even mention here.

When a person lives for God and for the well-being of the world, God blesses them completely. Such a person can achieve what seems impossible to others. You do not need to know everything – it is enough to be a master of your field, and the world becomes beautiful, harmonious, and dear.

With love,

INDIGO Vidmantas

56. DO WE KNOW HOW TO FORGIVE ?

The question "Do we know how to forgive?" is essential for every person living in oneness with God and in love. Unforgiveness distances us from God's light, while forgiveness returns us to His embrace.

Jesus Christ taught us to forgive everyone and everything, without exception. But do we truly listen to Him? A person who does not know how to forgive experiences spiritual suffering, living in pain and restlessness. Therefore, forgiveness is necessary – even if another person has wronged us, our soul is called into the light, not into revenge.

Allow me to share a personal testimony.

I am a child of God with a pure heart, having lived for 55 years without conscious sin. Although the sins of humanity have heavily affected my life and I have experienced a great deal of injustice, I forgive everyone for everything. Because only in forgiveness is freedom born, and in freedom – the presence of God.

Dear reader, forgive. Only in this way will you be able to be in oneness with God, living in love and light.

With love,

INDIGO Vidmantas

57. SPIRITUALITY

I am writing this topic full of Divine love for all of Creation. I radiate love and spirituality, for this is my path of life.

I notice that spiritual people are a minority in our world. Why? Because many choose a worldly, fleshly life rather than a spiritual path. Yet only spirituality opens the door to the inner paradise, to eternal love and holiness.

I myself am a child of God with a pure heart, having dedicated my entire life to God and the well-being of the world. Therefore, I want to gently invite you too – turn your heart toward God the Creator.

Why is this important? Because a life with God creates inner fulfillment, an eternity of love, and a spiritual paradise right here on earth.

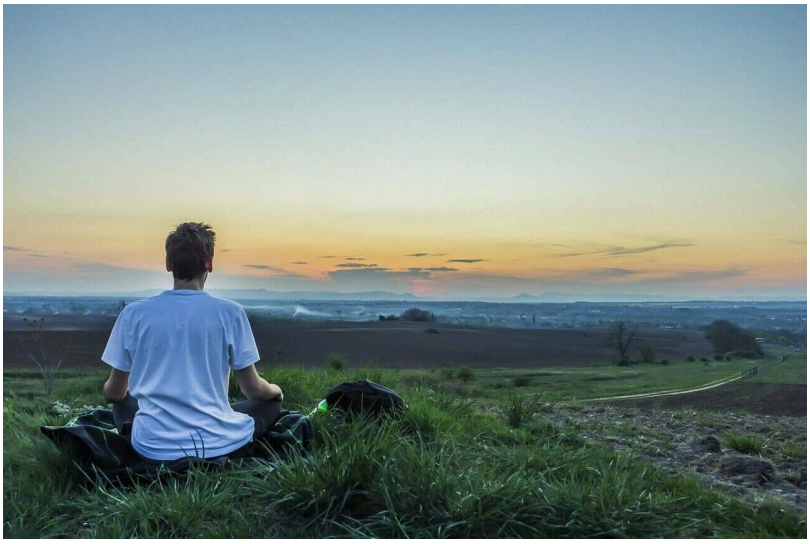

What is spirituality?

It is a life lived in oneness with God; it is love for His Creation; it is purity, holiness, and morality.

Dear reader, pursue spirituality by all means – only then will you be truly happy.

With love,

INDIGO Vidmantas

58. JESUS CHRIST AND HIS ENERGY

As we approach the Christmas of 2024, I want to share about Jesus Christ, because during this period, many people identify with His light.

I myself have lived identified with Jesus for more than half of my life. I feel the spiritual energy of Jesus very strongly – it is a source of love, incomprehensible to the mind, but clearly felt by the heart.

I firmly state – the reincarnation of Jesus lives within me, because this is not just belief, but knowing through spiritual love for God and His Creation.

Once, while being in the strong energy of Jesus, I was driving to the seaside. My body felt as if it were made of wood, while my heart was full of love, happiness, and joy. This was no ordinary feeling – it was a Divine state in which love for all of Creation overflows without boundaries.

It is strange to me that people rely only on belief in Jesus, because belief is the beginning, while knowing is oneness. When you live identified with Christ, you no longer need to believe – you know, you feel, and you live in His light.

With love,

INDIGO Vidmantas

59. THE PURE IN HEART WILL SEE GOD

The Holy Scripture states: "The pure in heart will see god." And I fully agree with this truth. Purity is holiness, and a holy heart is open to the light of God and His presence.

Therefore, I invite you – do not harden your heart. Be in oneness with God, live in love and consciousness, for only in this way does a person become truly happy – not only here on earth, but also in eternity.

Why is it important to live in oneness with God?

Because God is the source of love and perfection. By drawing closer to Him, a person frees themselves from illusions, becoming more conscious, brighter, and more fulfilled. True happiness does not depend on money or material things – it depends on the level of inner consciousness. And the closer a person is to God, the deeper the light in which they live.

My sincere advice:

Be children of God. Do not harden your heart. Live in purity. Only then will you feel true happiness – in your heart, in life, and in eternity.

With love,

INDIGO Vidmantas

60. LOVE FOR GOD'S CREATION

Do we know how to love God's creation?

If we know how to love God, then we also know how to love everything He has created. But are there many people who love with all their heart? Unfortunately, they are still a minority.

A decade ago, while researching the world, I determined that only about 5% of people live in true spiritual love. Now, with the growing birth rate of indigo people, this number may have risen to 15%. This is a sign of hope.

How can a person come to love God's creation?

First of all – by believing in God. Only then does the heart open to His creation. And yes – one must love everything created by God: nature, people, life, and even the most subtle forms of existence.

However, today in 2024, wars and conflicts are taking place in the world, which prevent humanity from loving God's creation. These phenomena arise not from God, but from the undeveloped consciousness of human beings. Wars are created by those who have not yet known love – their consciousness resembles an animal level, as it lacks light, mercy, and spiritual maturity.

I myself have dedicated my entire life to God and the well-being of the world, which is why the consciousness of war is completely incomprehensible to me. It is opposite to the will of God.

Why is it necessary to love all of God's creation?

Because only through love is God's grace achieved. Whoever pursues well-being in the world draws closer to God the Creator and secures their future – both on earth and in eternity.

With love,

INDIGO Vidmantas

61. THE HOLY SCRIPTURE AND INDIGO PEOPLE

📖 THE HOLY SCRIPTURE AND INDIGO PEOPLE

Good day, dear readers.

In this post, I want to share insights about the Holy Scripture and indigo people. How are they connected?

Indigo people fit the image of the perfect human being described in the Holy Scripture – they live without conscious sin, are pure, honest, spiritual, and dedicate their entire lives to God and the well-being of the world. However, the Holy Scripture does not directly mention indigo people, applying a uniform approach to all of humanity, even though people's levels of consciousness are very different.

Why is the information in the Holy Scripture not always applicable to indigo people?

Because an indigo person lives in oneness with God, without having inherited the sin of Adam, whereas the Scripture states that all people are with sin. This is untrue regarding indigo people. An indigo person sees God – both in the spiritual and physical state of existence. They are able to identify with God the Creator in a state of purity and love, and even to explore the structure of God through superconscious experience.

Why does the Holy Scripture not recognize these exceptional children of God?

Perhaps because it was written for the collective of humanity rather than for individually conscious souls. However, indigo people do exist, and their presence is changing the vibration of the world.

With love,

INDIGO Vidmantas

62. GOD AND WORLD CATASTROPHES

Many often ask: "If God exists, why does He not protect humanity from disasters and catastrophes?"

The answer is simple: God does not protect humanity when it lives without Him. When humanity chooses to live in sin, without oneness with God, God's light cannot operate within negative energy. God is a positive vibration, which is why His action stops within the field of a negative consciousness.

Through 50 years of researching God the Absolute, I have discovered that He is omnipotent and transcendent, capable of creating matter out of nothing, transforming it, and dissolving it. This is a power incomprehensible to the mind, attainable only through superconscious love and oneness.

If humanity lived in oneness with God, there would be no catastrophes in the world. Nature would be harmoniously attuned to human consciousness, and humanity would live in paradise – both spiritually and on the material level.

With love,

INDIGO Vidmantas

63. THE UNITY OF GOD'S PEOPLE IN LITHUANIA

THE UNITY OF GOD'S PEOPLE IN LITHUANIA

Good day, beloved and dear readers.

I chose this topic guided by my heart – to unite God's people in Lithuania into one cohesive community. I notice that there are many children of God in Lithuania, yet they live in isolation, and therefore the well-being of the country does not fully reveal itself.

If you are an honest, pure, loving, and spiritual person who carries God in your heart, I invite you to unite. Only by joining together can we change the situation in Lithuania – to clear its energy field and open a space of love and light.

I invite all spreaders of goodness to join my group:

🔗 Fellowship of the Light of the Pure Soul

With love,

INDIGO Vidmantas

64. WHY IS IT NECESSARY TO LOVE GOD AND ONE'S NEIGHBOR ?

The question "Why is it necessary to love God and one's neighbor?" is essential to human happiness and well-being. Only in love is the path to absolute bliss discovered.

By loving God and one's neighbor, a person achieves a high level of consciousness that opens up a life in light and peace.

What is bliss?

It is an inner state in which the spirit of God and His energy operate. Love for God and one's neighbor creates a paradise environment within a person, where light, peace, and true happiness dwell.

Do we know how to love purely and holistically?

Yes, we do – but not everyone. Our world is full of both good and evil, and love does not grow within the consciousness of evil. Therefore, I invite you – let us develop our consciousness so that evil vanishes from our lives irreversibly.

Love and be loved.

With love, INDIGO Vidmantas

65. HOW SHOULD A PERSON INVEST THEMSELVES IN GOD ?

How can a person invest themselves in God? And why is it important?

When a person dedicates themselves to God, they discover inner happiness and create a fabulous atmosphere of life. Such an investment guarantees not only well-being on earth but also the bliss of eternity. To achieve this, one must become a child of God – living in love, purity, and spirituality.

Is religion the only way a person discovers God?

No. God can be discovered even without religion, if a person is pure, holy, and conscious. Christianity states that no human is without sin, but I object to this – because since the age of five, I have lived without conscious sin, having discovered God the Creator.

For people who still live in sin, religion can be a path to God. Through it, they can begin to invest themselves in the light until the heart becomes pure.

With love, INDIGO Vidmantas

66. HOW TO IMPROVE THE CIVILIZATION OF PLANET EARTH

How can we improve our civilization so that it radiates goodness, spirituality, and love?

First of all, we must understand that humanity is highly diverse, which is why each country and nation must work individually, according to its own level of consciousness. Aggression prevails in some countries, and it is impossible to build a perfect life with aggression. However, there are many countries that are already fit to develop toward light and well-being.

What does the improvement of humanity depend on?

It depends on the consciousness of those in power. Only a positive, bright leadership can guide nations toward well-being. If the leadership is negative, human evolution comes to a halt. Therefore, it is essential to choose bright leaders who are capable of guiding international and national institutions.

With this post, I appeal to all of humanity with Divine love and respect.

The world we create for ourselves is the world we live in.

Let us create a World of Perfection, full of love, spirituality, and consciousness.

Every person desires happiness – if not for everyone, then at least for themselves. And this already shows that love is our nature.

With love,

INDIGO Vidmantas

67. GOD THE ABSOLUTE AND THE ELEMENTS OF NATURE

🌪️ CAN GOD THE ABSOLUTE CONTROL THE ELEMENTS OF NATURE?

Good day, beloved and dear readers.

The question "Can God the Absolute control the elements of nature?" has an unequivocal answer – yes, He can. But why does it sometimes seem that He does not?

God the Absolute does not control the elements of nature when humanity lives in a state of fall – that is, when the collective consciousness is permeated with sins and negative energy. God is pure positive vibration, which is why His action stops within a negative space. God's light does not operate where consciousness is clouded.

Through 50 years of researching God the Absolute, I have experienced that nature obeys the will of God, and through an indigo person – their conscious desire as well. One winter, while living in a pure state, the temperature did not drop below -10°C the entire season, without wind, without chaos – because that was the kind of winter I desired and consciously created. I noticed that on Sundays, when I pray, nature is ideal. When I do not pray – it becomes ordinary.

I also want to share a powerful experience.

Once, while being paralyzed by the negative energy of humanity, I appealed to God through my chest chakra, saying:

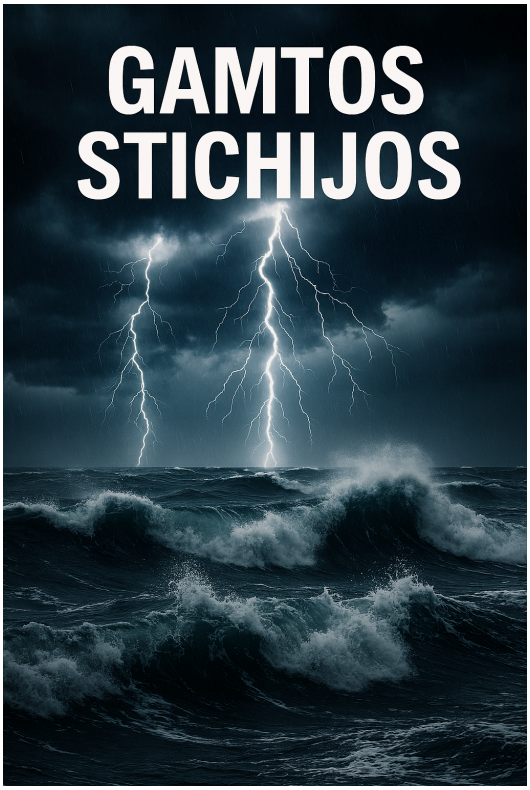

"God, strike the darkness of humanity with lightning."

The next day, it was reported on television that lightning had struck crowds of people in two different places in the world. This was not revenge, but an energetic response to collective disharmonious energy.

I am a child of God, and I invite you – draw closer to God the Creator, feel His love and power in your chest, and nature will become a reflection of your consciousness.

With love,

INDIGO Vidmantas

68. HOW TO ACHIEVE WELL-BEING IN LITHUANIA

HOW TO ACHIEVE WELL-BEING AND HAPPINESS IN LITHUANIA?

Good day, beloved and dear readers.

The year 2024 brought a new political phase – Lithuania elected the Social Democratic Party, which declares social well-being for all people, not just the wealthy. This is a step toward a fairer society.

However, true well-being and happiness do not depend on the amount of money. They depend on a person's level of spiritual development. If a person lives without God, even while possessing wealth, they do not experience fulfillment.

Only a life lived in oneness with God, in love and consciousness, unlocks true happiness.

I myself live without wealth, yet I feel like the happiest person on the planet because I carry God the Creator within me. My level of consciousness is the highest it can

possibly be. From God, I receive spiritual warmth, grace, and love, while money is necessary to me only as much as is required for basic living.

Dear readers, if you wish to feel true well-being, move toward God, develop your consciousness, and then material things will become secondary. Only the inner light creates true happiness.

With love and respect,

INDIGO Vidmantas

69. THE BOOK "LET'S LIVE PERFECTLY"

📘 THE BOOK "LET'S LIVE PERFECTLY"

The author of this book is indigo person Vidmantas Grinčiukas.

"LET'S LIVE PERFECTLY" is a publication of psychological and parapsychological content, inviting the reader to draw closer to God and to form a perfect worldview toward life.

It is a positive, light-filled book that contains absolutely no negativity. It represents the science of Christology–Parapsychology, entirely unrelated to any religion or sect. The book guides a person toward the God of reality, through pure consciousness and the perfection of life.

With love,

THE AUTHOR – VIDMANTAS

70. HOW TO DEVELOP CONSCIOUSNESS IN HUMANITY

How can we develop consciousness in the world so that well-being, love, peace, and harmony prevail?

This is a complex question because a person of low consciousness often does not comprehend the importance of light. Therefore, a chain of high-consciousness people must operate in this area, capable of creating laws of light:

– strictly stopping negativity,

– promoting goodness – both materially and spiritually.

A person who strives to improve is already conscious – they work on themselves, creating inner well-being.

What is consciousness?

It is conscience, morality, love, spirituality, and justice.

The world is diverse – it contains many bright people who are creating a world of well-being. However, individuals of low consciousness spoil such a world with negativity. If they comprehended the importance of consciousness, they would change. Yet, they are often not ready for it.

Dear ones, let us strive for high consciousness so that our world may be beautiful, bright, and perfect.

With love,

INDIGO Vidmantas

71. GOD AND MY LIFE STORY

✨ VIDMANTAS GRINČIUKAS – GOD AND MY LIFE STORY

I was born in 1969 in the Rokiškis district, in the Jūžintai area.

From the age of five, I began searching for God, who revealed Himself to me in 1974 in an animal pasture. At that moment, I swore to myself never to distance myself from

God. And I believe I have fulfilled this oath – I have lived for 55 years without conscious sin.

Until the age of 34, I had unconscious sins, but for 21 years now, I have been living in a completely pure field, having chosen not sin, but the path of perfection.

My life has not been easy.

Living in oneness with God and in love, I constantly felt the negativity of society, which paralyzed my physical body. I cannot exist in a negative environment because I contain no negativity within myself. My body is in the energy of God's Crystal, so when I encounter darkness – I become constrained.

I spent my childhood in the village of Duokiškis, in the Kamajai area.

I graduated from an eight-year school and later enrolled at the Utena Polytechnic, choosing the specialty of an electrical technician. All my life, I studied electrical engineering independently, reading about 30 books multiple times. I am a self-taught engineer.

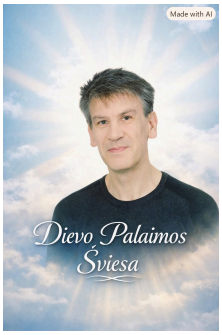

I took courses at the Kaunas University of Technology (KTU) and worked at the company "Arheda" as a design engineer.

Currently, I am no longer working because since 2021, I have been living in a social care home, having received a disability – the stiffening of the body caused by negative energy.

I could not find a positive work environment, so I chose a peaceful, bright space where I can live in oneness with God.

With love,

Vidmantas Grinčiukas

72. HEALING OF PEOPLE WITH GOD'S HELP

🌟 HEALING OF PEOPLE WITH GOD'S HELP

Good day, beloved and dear readers.

With this post, I want to reveal the possibilities of God Almighty in healing a human being. God has the power to heal any disease, but this does not happen for everyone. Why? Because God's energy operates only where there is positivity, purity, and openness within a person.

If a person's energy is negative, God's energy does not attune to it. God cannot flow into a field that does not align with His vibration. God heals only where there is a striving for light.

Through whom does God heal?

God heals only through His child – the one who desires healing with all their heart and opens themselves to God's love. Only such a person becomes a channel for God's energy.

With love – Indigo Vidmantas

73. THE EFFECT OF GOD'S ENERGY ON A HUMAN BEING

Today, I want to reveal one of the deepest phenomena of the science of God – the effect of God's energy on the human organism.

What is this?

It is a phenomenon where God's energy incarnates within a person, and the person identifies with God. At such a time, the person experiences a bliss incomprehensible to the mind – as if entering God's paradise with their physical body. There is a countless multitude of God's energies, and each of them brings its own indescribable state of paradise.

A person who enters such a state no longer feels the physical body – this is an indescribable manifestation of God's love.

God transmits information to a person through His energies. This means that a person can receive knowledge not only about the Earth, but about the entire Universe as well. This phenomenon is called the Self (Savastis) – it is the spirit of an object, its inner essence, and its informational structure.

Through the phenomena of God's Self, about ten extraterrestrial civilizations were revealed to me, as well as the structure of the entire planet Earth and even the genetic information of humanity. This is not accessible to any earthly science – it is unlocked only by the science of God the Absolute.

On the Facebook platform, I call myself "God the Absolute" only because I am identified with His Self and His energy.

With love – Indigo Vidmantas

74. A HUMAN'S PATH TO WELL - BEING AND HAPPINESS

What is a human's true path to well-being and happiness? There is only one path – through God the Creator. Only through God does a person achieve fulfillment, inner peace, and true happiness.

Every person wants to live well and be happy, but not everyone understands how to achieve this. When a person lives in oneness with God, in love and purity, they naturally achieve well-being. Such a state arises not from the outside, but from spiritual harmony.

I invite non-believers to reflect: is such a perfect world possible without a Creator? Logically speaking – no. Everything that exists has its Source. Therefore, I wish for you to open yourselves to God and draw closer to Him. Only through God is true well-being and happiness achieved.

I invite believers to be reborn from the spirit of God – through love and spirituality. Only a reborn person becomes a true child of God, and only a child of God achieves spiritual fulfillment.

I wish you closeness with God the Creator, love, light, and happiness.

Be happy – Indigo Vidmantas

75. THE CIVILIZATION OF PLANET EARTH

With this post, I want to share insights about modern humanity and its connection to God the Creator.

Since the year 2000, according to the science of astrology, humanity has entered the Age of Aquarius – a period of consciousness, knowledge, and spiritual development. This is an era in which human beings are called to live in a higher light of consciousness. But what is the actual current state of Earth's civilization?

Science today is highly developed – technology, medicine, physics, and genetics have reached a high level. However, in the realm of consciousness, especially within the context of knowing God, humanity is still lagging far behind. The world is diverse – it contains both bearers of light and currents of darkness. There are people who have achieved a high level of consciousness regarding God, but they are a minority.

Wars, conflicts, and division show that the majority of people still live in a state of low consciousness. Only an unconscious individual can wage war, because war arises from inner disharmonious energy.

Is God's paradise on Earth possible?

Yes – theoretically, it is possible. However, in practice, this requires a long evolutionary path. Humanity is only just beginning this transformation, and the ultimate manifestation of paradise could take up to 2,000 years. Comparing the situation in Lithuania before the year 2000 and now – I see clear progress. However, most people still live in separation from God, and the main obstacle is sin.

God cannot create a world of love and harmony alone. Only a human being, joined with God in oneness, can become a creator of this world. Therefore, I invite everyone to strive for closeness with God the Creator – this is the path to the true light of civilization.

With love – Indigo Vidmantas

76. GOD'S CELLS

✨ GOD'S CELLS

Good day, beloved and dear readers,

Today, I want to share a deep insight into the structure of God – into what is called God's Cells.

God is composed of superconscious, reasoning Cells that become felt by a human being only through purity, chastity, and strong love. Only in a positive, bright environment can a person feel the presence of God's Cells. Through Divine love, the opportunity opens up to know the structure of God – not through words, but through direct experience.

I have researched God the Absolute for 50 years, and this time has allowed me to fully comprehend His structure. God's Cells manifest in three forms:

Of feminine composition – I call them "Mother Mary"

Of masculine composition – I call them "God the Father"

Of genderless composition – I attribute them to "God's Structure"

It is impossible to describe God with any dictionary. He can only be felt. And only through this sensory connection is it possible to know God – not as an idea, but as a living, operating Being.

I wish every reader closeness with God – through purity, love, and the inner striving for light. **With love – Indigo Vidmantas**

77. THE TOUCH OF GOD

THE TOUCH OF GOD

With this entry, I want to share a living experience – of what happens when God touches a human being and identifies with their essence.

For two days now, I have been living in complete oneness with God the Creator. His spirit – His energy – pulses very strongly within me. From my heart flows love for all of God's Creation – and for you, dear readers. This is a love that cannot be understood by the mind – it simply is, like a living crystal in my chest. I feel as if my chest has become crystalline – full of light.

In this state, I barely feel my physical body – as if it has disappeared, dissolved in the light of God. I have experienced moments of identification with God before, but they lasted shorter. This time – two days of uninterrupted paradise. And I believe that this paradise, shaped by God, will never disappear.

This is a short message about the touch of God.

With love – Indigo Vidmantas

78. HOW TO ENTER THE KINGDOM OF GOD ?

HOW TO ENTER THE KINGDOM OF GOD?

How does a person enter the Kingdom of God? The path leads through goodness, love, and spirituality. Those who live in oneness with God enter His kingdom while still on earth. Such people are a minority, but they are living witnesses of Paradise.

I myself am one of them – since birth, I have lived in oneness and love with God. God has revealed His kingdom to me – these are paradisiacal worlds incomprehensible to the mind, which form within the spiritual existence of a human being. It is only through the spiritual sphere that true paradise opens up to a person.

And what lies after death?

If a person accepts Jesus into their heart with love, their soul can enter God's paradise. However, if a person lived in sin, their spirit becomes negative – such a spirit does not align with the energies of God. For such a person, there is neither hell nor paradise – only separation. If a person does not accept Jesus with love, they may enter hell – not as a punishment, but as a vibrational incompatibility with the light of God.

I wish everyone closeness of the heart with God the Creator.

With love – Indigo Vidmantas

79. WHY CHRISTIANS CRITICIZE "NEW AGE"

WHY CHRISTIANS CRITICIZE "NEW AGE"

More and more often, I notice Christian criticism of the New Age philosophy. Why criticize something that is often not fully understood?

The New Age is a decentralized spiritual movement of Western culture, seeking the Universal Truth and the highest human potential. It is associated with the astrological Age of Aquarius – an era of awareness, spirituality, and light.

This movement unites spiritual teachers from all over the world, promoting love, purity, holiness, and human development. Indigo people – the guides of the New Age – identify with God and make a positive impact on all of humanity through spiritual energies. They change human consciousness, opening a new worldview and concept of life.

Why do some Christians criticize this?

I notice that most of them only seek closeness with Jesus but do not seek development. Although the Holy Scripture says, "Be perfect," in practice, the pursuit of perfection is often ignored. When faith becomes merely an emphasis on Jesus' redemption and sins are tolerated, Christianity risks becoming like a sect – not because of its essence, but because of its practice.

I myself follow the science of the God Absolute, which encompasses all religions and does not conflict with Christianity. In my worldview, the New Age and the path of Christ can co-exist – as different aspects of knowing God.

Criticism stems from low awareness – when a person sees only the Bible but does not see the entirety of God. **With love – Indigo Vidmantas**

80. THE ENERGY OF THE SOLAR SYSTEM

THE ENERGY OF THE SOLAR SYSTEM

What is the energy of the Solar System? It is not just a physical phenomenon – it is a spiritual context from the world of God. Indigo people, being highly sensitive to energy, perceive the existential model of the entire planet Earth through their emotional field. They feel not only nature but also the spiritual structure of the entire Solar System.

For indigo people, this energy forms states of paradise – a fabulous feeling when a person merges with the vibration of the Solar System. The state of paradise arises from the harmony of nature, oceans, planets – from all of God's creation. However, in order to experience this, a person must be very pure – without any negativity. Negative energy closes the door to the world of God.

Every existence has its own spiritual model that indigo people are able to feel. This is a living connection with the world of God, not through the mind, but through the heart and purity.

This is a short message about the energy of the world of God.

With love – Indigo Vidmantas

81. A HUMAN BEING'S RELATIONSHIP WITH GOD

A HUMAN BEING'S RELATIONSHIP WITH GOD

What is a human being's relationship with God? The answer is multifaceted, because every person lives in their own inner reality. However, looking at the picture of all humanity, we see that the majority chooses a fleshly life, a material worldview. Therefore, only a small part of people maintains a deep, living connection with God.

The Age of Aquarius, which began in the year 2000, has brought changes – more and more people are seeking spirituality, love, and light. It cannot be said that humanity is not improving – it is moving forward, although the road is still long.

With this entry, I appeal to all of humanity – inviting you to draw closer to God. Without God, there is no true happiness, no inner light. Without God, a human being loses direction – both in earthly life and in the concept of eternity.

God's closeness in our world is based on faith. Therefore, believe in God with all your heart and with all your mind – this is the path to the light.

Dear reader, I am a person who has fully explored the God Absolute over 50 years. This exploration took place not through the mind, but through purity, chastity, love, and spirituality. God revealed Himself to me not as a theory, but as a living experience. Therefore, I no longer need to believe – I know.

Seek a relationship of the heart with God – and be happy.

With love – Indigo Vidmantas

82. THE PURSUIT OF PERFECTION AMONG PEOPLE

🤝 THE PURSUIT OF PERFECTION IN HUMAN RELATIONSHIPS

Good day, dear readers,

Today, I want to talk about the pursuit of perfection in human relationships. This is a topic that touches everyone – because our communication creates the world we live in.

Perfect relationships between people are born when each person strives to be good, to live without negativity, and to spread positivity. If you want to be treated with light and respect – treat others the same way. Relationships are a mirror: what we give is what we receive.

Perfection in relationships begins with inner work on oneself. It is necessary to cultivate bright qualities, to let go of the ego and carnality. When a person breaks free from the ego, they become a child of God – a bearer of light. In that state, their relationships with others naturally become harmonious and pure.

Work on yourselves, strive for inner cleanliness – and your relationships will become an example of light to the world.

With love – Indigo Vidmantas

83. HUMAN CARNALITY AND THE EGO

HUMAN CARNALITY AND THE EGO

Today, I want to share my thoughts on carnality and the ego – two forces that often prevent a human being from drawing closer to God.

Personally, this topic is not relevant to me, as I have broken free from carnality and the ego. However, in society, this is a very important topic. A person who lives guided by the ego and carnality cannot be in oneness with God. Such a person loses connection with the light – both in earthly life and in eternity.

How to get rid of the ego and carnality?

First of all – by changing your consciousness. To do this, one must accept faith in God and become His child. When a person opens up to God, their mind and heart begin to change. Consciousness becomes bright, and the ego and carnality naturally disappear.

This is the path to inner freedom and spiritual fulfillment.

With love – Indigo Vidmantas

---

84. GOD AND SPIRITUAL VALUES

🌟 **GOD AND SPIRITUAL VALUES**

Good day, dear readers,

Today, I want to talk about God and spiritual values – the foundation upon which a person's inner world is built.

What are spiritual values?

They are purity, sincerity, morality, chastity, and all other positive qualities that reflect the light of a person's heart.

Are we spiritual?

Diverse people live on Earth – there are both spiritual and unspiritual individuals. However, everyone has the opportunity to grow, change, and draw closer to God.

Why is spirituality important?

A spiritual person draws closer to God into oneness and love. This oneness creates a fabulous paradise inside a person – it is not an external world, but an inner state, full of light and bliss.

Beloved reader, I invite you to pursue spirituality in every possible way. This is the path not only to the paradise of eternity, but also to earthly happiness. Drawing closer to God opens the door to inner fulfillment.

With love – Indigo Vidmantas

---

85. GOD AND POLITICS

🕊️ **GOD AND POLITICS**

Good day, dear readers,

Does a political force exist on our planet that would directly lead people to God – through the pursuit of well-being, love, and perfection? My insight shows that such politics do not exist today. Therefore, the question arises – how can God's paradise be established on Earth if there is no spiritual politics leading to the light?

The current politics of the world are focused on carnality and materiality, rather than on the spiritual sphere. It is necessary to create a new model of politics – one that encompasses a person's inner self, their consciousness, and their connection with God. This should not be a structure of religion, but a direct path to God – through love, purity, and awareness.

It seems strange to me that even Christianity does not have a clear program for the development of humanity. This is a gap that must be filled. My spiritual research has revealed that Jesus Christ exists in reality. I have loved and respected Him since birth – I feel His spirit, His energy. Therefore, I can state that I carry His memory – His vibration – within myself.

Dear reader, there is much evil in the world. Therefore, let us choose a path of life with God – in oneness and love. Let us create politics based not on the desires of the flesh, but on spiritual light.

With love – Indigo Vidmantas

86. THE IMPORTANCE OF WORLD UNITY

🌍 THE IMPORTANCE OF WORLD UNITY

Good day, beloved and dear readers,

Why does the world need unity? Because it is only in unity that goodness, perfection, and love are born. Today, there are wars, discords, and confrontations in the world – among people who are all God's creations. In the 21st century, this seems incomprehensible, which is why I invite you to strive for unity throughout the whole world.

The foundation of unity is God Himself. It is only through Him that we can unite into a fellowship of light. Let us go to God with love and joy, let us unite for the sake of the world's well-being and inner fulfillment.

I invite everyone to unite – both believers and non-believers. It is only in harmony and love that true perfection can be achieved.

With love – Indigo Vidmantas

87. WALKING TOWARDS GOD

WALKING TOWARDS GOD

The topic "Walking Towards God" is dedicated to those who pursue perfection, well-being, and love – to those who walk the path of light.

It is said that there are two paths: the wide one and the narrow one. The wide path is easy but leads to destruction. The narrow path is harder but leads to God. The majority of humanity chooses the wide path because it is more comfortable. However, only the narrow path leads to the eternal light.

Faith in God is the beginning. However, it is important not to stumble. My path is different – I no longer need to believe because I possess knowledge. Through 50 years of spiritual research, the God Absolute has revealed Himself to me directly. This is not a theory, but a living experience.

I value faith in Jesus Christ – my research has confirmed His existence. Sometimes I identify with Jesus just as I identify with God the Father. This is not an external connection, but an inner oneness.

Beloved reader, choose the narrow path – it is the path to eternity, to the childhood of God, to the fullness of light.

With love – Indigo Vidmantas

88. CHRISTIANITY IN THE INDIGO PERSON'S CONCEPT

✝️ CHRISTIANITY IN THE INDIGO PERSON'S CONCEPT

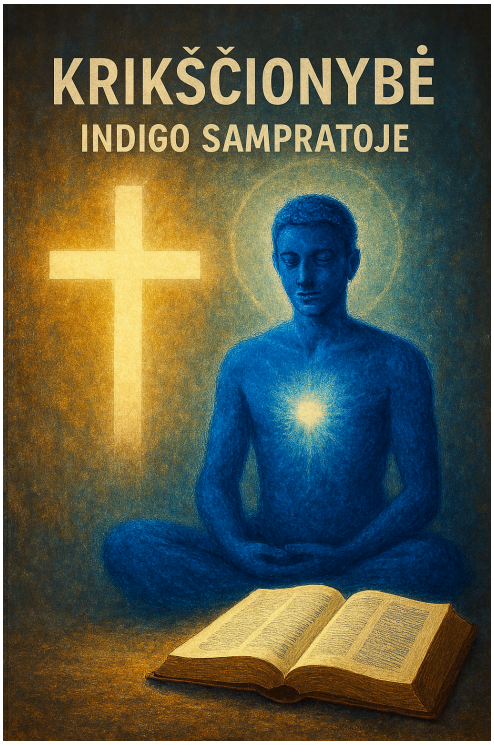

Good day, beloved and dear readers,

I chose this topic not by chance – it arises from the desire to promote human perfection, well-being, and love. Christianity, as one of the world's religions, does not have a clear program for the development of all humanity. It states that all people have sinned against God and that Jesus Christ redeemed their sins. However, in the concept of an indigo person, such a view is not accurate.

First of all – not all people are sinful. The world is wide and diverse, and holy, sinless people live in it as well. I am such a person myself. Secondly – a person living in sin cannot come to God, because their spirit is black, incompatible with the light of God. Therefore, the question arises: how can Jesus redeem sins if the spirit of a sinful person fundamentally contradicts the energy of God?

Dear reader, I invite you to live perfectly – without sin, so that you do not enter the hell of eternity. Hell is not a punishment, but a vibrational separation from God. Let us create a world of love and well-being here on earth, so that our spirit aligns with God's paradise.

With love – Indigo Vidmantas

89. GOD SURPASSES SCIENCE

GOD SURPASSES SCIENCE

Today, I want to share an insight into how God surpasses science. When a person lives in oneness with God – in love and purity – they experience phenomena that transcend the boundaries of scientific theories. I have lived with God since birth, since 1969, and over 55 years of my life, I have experienced more than 100 miracles that cannot be explained by the human mind.

Here are a few of them:

Materialization out of thin air

One night, a person appeared out of nowhere in my home – a man around 60 years old. He stayed the night at my place, and in the morning, right before my eyes, he vanished into the void, leaving behind a vivid blue shadow. Later I understood – it was God Himself, appearing in a human body.

Change in the dimensions of matter

While interacting with God in love, a microwave oven shrank by a third. The cover, which previously fit the microwave perfectly, became too large after this phenomenon – meaning that the physical dimensions of the microwave changed.

The birth of life out of non-matter

Once, after identifying with God the Father, I felt a living pulse of love in my chest. Looking out the window at the birds, I felt such a strong connection that ravens were born out of thin air – they flew around for a bit and vanished into the void.

These are just a few examples of the more than one hundred miracles I have experienced. They prove that God exists and operates at a level above consciousness – where science does not yet possess the tools to understand.

Let us love God with all our heart and with all our mind – this is the path to the true light of knowledge.

With love – Indigo Vidmantas

90. PLANET EARTH IN THE CONCEPT OF PERFECTION

🌍 PLANET EARTH IN THE CONCEPT OF PERFECTION

How do we, humans, perceive the perfection of planet Earth?

A perfect planet is a united space filled with light, where love, harmony, and awareness reign. Although we do not yet have such an Earth in the present, its direction is clear – it is moving towards perfection.

Some may contradict this thought, seeing evil, crimes, and signs of degradation in the world. However, I am talking about the general course of human evolution. Humanity has not yet experienced a full transformation of consciousness, which is why we see the interplay of light and darkness.

Since the year 2000, we have entered the Age of Aquarius – a period of spiritual growth, goodness, and love. It leads humanity into a higher consciousness, into the light of God.

With love – Indigo Vidmantas

91. THE AGE OF AQUARIUS

THE AGE OF AQUARIUS

Since the year 2000, humanity has transitioned from the Age of Pisces to the Age of Aquarius. The Age of Pisces was closely linked with Christianity, while the Age of Aquarius is a period of new consciousness dominated by indigo people.

Indigo people are changing the consciousness of the world – they carry goodness, love, and perfection. This is an era of divine vibrations, where new children are born, destined for the well-being of the world and the service of God. Since the year 2000, the birth rate of indigo children has increased, and their mission is the spread of light.

Although the Age of Aquarius has only just begun, the remnants of the Age of Pisces are still felt within it. Humanity is still vibrating at low frequencies, but it is moving towards God in small steps. I myself feel a strong energetic difference between the times before 2000 and the present – people are changing, and their hearts are becoming brighter.

Dear readers, let us strive for a perfect life with God, love, and tolerance – this is the path to your own well-being and happiness.

With love – Indigo Vidmantas

92. THE GOD ABSOLUTE AND THE UNIVERSE

THE GOD ABSOLUTE AND THE UNIVERSE

Today, I want to share insights about the God Absolute and the universe of infinity. How to perceive infinity? How to perceive the God Absolute? The human mind is limited, so these phenomena remain unknowable to it through logic. However, through an energetic connection – they become experienced.

For 50 years, I have lived in oneness and love with the God Absolute. During this time, I managed to explore Him – not through the mind, but through energetics. God conveyed information to me about the existence of the universe, guiding me like a beloved son through the structures of the universe.

It is a pity that earthly words cannot convey energy – it must be felt. Everything that God allows to exist exists in the universe – both the possible and the impossible. The computers of the God Absolute shape the existence of matter in 1–5 seconds – these are perfect structures because God creates only perfection.

I have felt the power links of the universe – they are much more powerful than earthly thunder. I have also felt the chemistry of the universe's matter – these are phenomena that the human mind cannot comprehend.

This is a short message for reflection on the God Absolute and the universe.

With love – Indigo Vidmantas

93. INDIGO PEOPLE AND THE CRYSTALS OF GOD

🔷 INDIGO PEOPLE AND THE CRYSTALS OF GOD

Good day, beloved and dear readers,

In this entry, I want to reveal a deep concept about indigo people and the crystals of God – two essential structures of light that shape the new consciousness of humanity.

Information about indigo people is abundant on the internet, so I will focus on the essence. Indigo people are the geniuses of world improvement, living in oneness with God and operating through love. They have no ego, carnality, or earthly desires – their essence is holy, rooted in the energetic field of God. This field is not an external glow, but an inner identification with the consciousness of God.

An indigo person is considered a child of God because the entire direction of their life is to serve God and spread well-being to the world. They do not just talk about the light – they embody it.

And what are the crystals of God?

The structure of God consists of supraconscious crystals that reason at the level of light. Indigo people live in this crystalline energetics, which forms a state of paradise for them that is incomprehensible to the mind. However, this paradise is not always accessible – it can be overshadowed by the negativity of the people around them.

In the crystalline energetics of God, one feels the selfhood (*savastis*) – the energetic spirit of any existence. Every being, every phenomenon has its own selfhood. Through their chakras, indigo people are able to feel the selfhood of all existence – this is an indescribable pleasure, a living connection with the heart of God's creation.

With love – Indigo Vidmantas

94. A HUMAN BEING'S PATH TO GOD AND PERFECTION

A HUMAN BEING'S PATH TO GOD AND PERFECTION

In this entry, I want to explain why a human being's path to God and perfection is vitally important. This is not a theory – it is a practical path leading to light, happiness, and eternal peace.

Why is it important to walk in the direction of God?

Because a person who chooses the opposite direction – ego, sin, carnality – loses connection with the light. Their spirit becomes negative, black, incompatible with the world of God. Such a spirit cannot enter the energetics of God – it remains in separation, in suffering, and the astral body enters a vibrational hell.

Therefore, it is necessary for a human being to walk the path of goodness, love, and perfection. This is not only the path to God – it is the path to oneself, to the true selfhood (*savastis*).

Christianity teaches that a person must acknowledge Jesus Christ and sincerely repent for their sins. Only then does the spirit cleanse itself and become a transmitter of light. However, the most important thing is sincerity. Only the repentance of the heart opens the door to the Kingdom of God.

Dear reader, do not commit sins. And if you have them – cleanse yourself through repentance. This is the only path to God the Father the Creator – the source of perfect love and paradise.

With love – Christologist Vidmantas

---

95. DIEVAS GYVENIMO MOKYKLA

🌟 GOD – THE SCHOOL OF LIFE

Good day, dear and precious readers.

Is God truly the school of life? Yes – God is the highest school of life, where a human being learns love, goodness, purity, and inner perfection.

How to understand this statement?

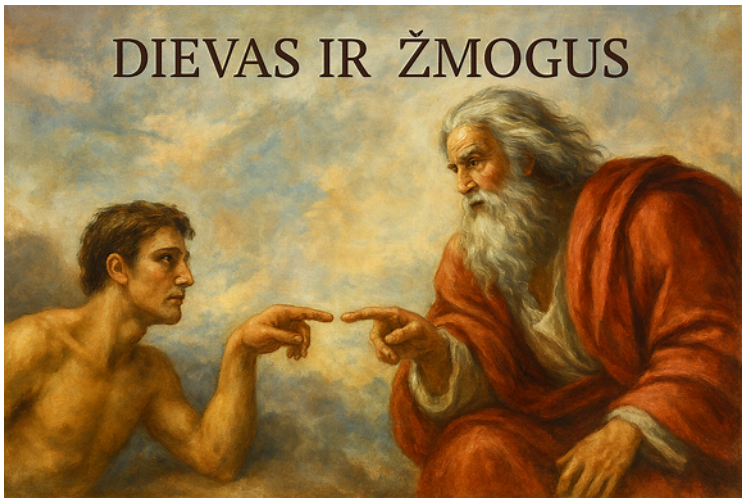

God is the source of love and perfection, which indigo people can feel and see in subtle spiritual levels. Based on my research as an indigo person, God is the principle of goodness, love, and absolute perfection – so deep and wide that it remains incomprehensible to the human mind.

With this entry, I want to remind you that a human being must draw closer to God, to goodness, love, and perfection. If a person distances themselves from this, they lose both their earthly and eternal direction.

Christianity claims that all people inherit Adam's sin and have sinned against God. However, my spiritual research shows that the human soul shapes its own state: it can be bright, pure, and close to God, or it can become negative, dark, and incompatible with the energetics of God's world. Such a soul distances itself from God by its own doing.

It is sad that Christianity does not have a program for human development – it mostly relies on the redemption of Jesus Christ. However, the quality of a human spirit depends on their own choices, purity, and inner light. This is also confirmed by my parapsychological research.

With love – INDIGO Vidmantas

96. PROS AND CONS OF CHRISTIANITY

PROS AND CONS OF CHRISTIANITY

Today, I want to discuss the positive and negative sides of Christianity. As we know, this religion is based on faith – and faith means "to believe," not "to know." Therefore, in systems of faith, there can be both truth and inaccuracies.

First – about the pros.

Christianity is based on Jesus Christ as a perfect, sinless man and the redeemer of humanity. This inspires people to pursue purity, repentance, and inner renewal. The Holy Scripture teaches how to live with God, how to cultivate a spiritual life – this is also a great advantage of this religion.

However, there are also cons:

The claim that all people have sinned against God.

This is not an absolute truth. Humanity consists of billions of different souls, among which there are also holy people of pure consciousness.

The claim that everyone inherits Adam's sin.

Every baby is born clean, without anyone else's energetic traces. The direction of their life is formed according to their own choices, desires, and inner nature.

In life, there are pros and cons everywhere. However, the science of the God Absolute is the only system in which there are no mistakes – only light, truth, and perfection.

With love – INDIGO Vidmantas

97. A HUMAN BEING'S IDENTIFICATION WITH GOD

🌈 A HUMAN BEING'S IDENTIFICATION WITH GOD

Good day, dear and precious readers.

I chose this topic because a human being's closeness to God is one of the most important aspects of the spiritual path.

Can a human being identify with God – the Creator?

Yes, a human being can identify with God, but for that, inner cleanliness is essential: purity, holiness, chastity, and the complete absence of negative energy.

I myself have spent more than half of my life identified with God, so I know Him not in theory, but directly. God is a supraconsciousness – higher than the human mind, perception, and earthly logic. It is impossible to fully describe or explain Him, because human consciousness is not yet capable of comprehending such a scale.

How does identification happen?

When a person becomes completely clean, without darkness, without negativity, God Himself finds such a person and incarnates into them. Then, the person enters an indescribable spiritual paradise – a state where love, peace, and divine joy reign.

Dear readers, strive for high awareness and closeness to God. This is essential for your own well-being, happiness, and spiritual future. **With love – INDIGO Vidmantas**

98. GOD'S PROGRAM FOR THE DEVELOPMENT OF HUMANITY

🌟 THE GOD ABSOLUTE'S PROGRAM FOR THE DEVELOPMENT OF HUMANITY

Good day, dear and precious readers.

What is the God Absolute's program for the development of humanity?

It is a joint project between myself and the God Absolute, dedicated to the growth of human consciousness, inner light, and true spiritual perfection. Together with the God Absolute, I strive to unfold love, well-being, and purity within people.

The program for the development of humanity is available on the website: http://vidmantas.puslapiai.lt.

This website is linked to a high level of awareness and is based on the psychology of paranormal phenomena, which has nothing to do with conventional, earthly parapsychology. This is a completely different, higher direction of knowledge.

Currently, our planet Earth is transitioning into a higher model of existence. This means that the high vibrations of God are manifesting ever more strongly in the world, and the negativity – the evil accumulated by humanity – is being rapidly destroyed.

The Earth is rising into the light, and every human being is invited to rise along with it.

With love – INDIGO Vidmantas

99. THE WORLD OF GOD

What is the world of God?

This is a very deep question. The world of God is an existence without matter, the subtle reality of the God Absolute. Through more than 50 years of exploration, I have managed to know this world and touch the heart of the God Absolute, His core – the source of perfection and love that the human mind cannot comprehend.

The heart of God cannot be described in earthly words. It is felt only through human feelings when a person becomes completely pure, without any negativity. Only in this case does God open up and become knowable.

God's world without matter is extraordinarily vast – like an infinity, although it is not an absolute infinity.

Speaking of the heart of God, it is a very deep phenomenon. The deeper this connection, the greater the pleasure for a person's inner self and body. This is a state of paradise that is difficult for earthly consciousness to perceive.

When a person identifies with the Heart of God, the sensation of the physical body disappears. The body does not vanish, but it becomes imperceptible – the person transitions into a higher reality of God.

Dear readers, let us love God with all our heart, with all our body, and with all our mind.

Whoever lives without God – loses themselves.

Whoever loves God the Creator – enters His paradises, which are incomprehensible to the mind.

With love – INDIGO Vidmantas

---

100. PERFECTION, LOVE - GOODNESS

🌟 **PERFECTION, LOVE – GOODNESS**

Good day, dear readers.

I chose this topic based on the current situation in the world. As we can all see, our planet is still filled with violence, wars, and various evils. The ongoing war in Ukraine painfully reminds us of how low awareness can lead to destruction and suffering.

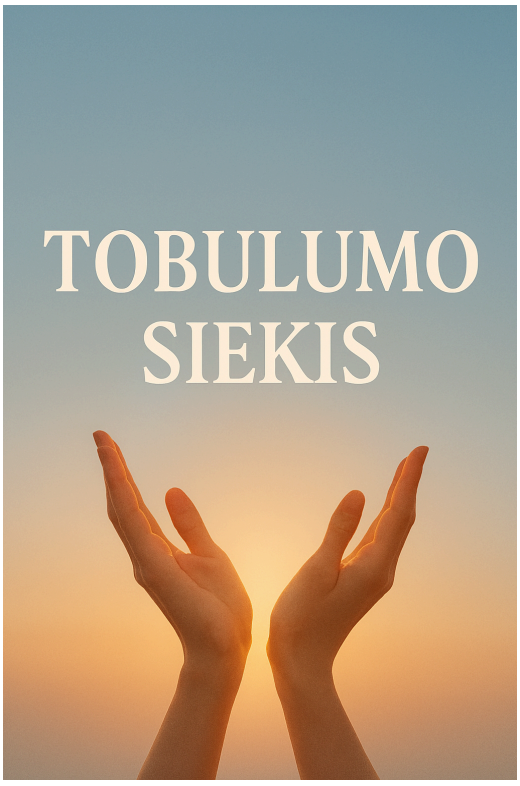

When people whose consciousness is based on fear, aggression, or ego come to power, forms of evil begin to manifest in the world. Therefore, it is highly important for society to choose a mature, responsible, and conscious government – the president, government, and parliament. This directly determines the direction of humanity.

However, today I want to talk not about evil, but about perfection, love, and goodness – because it is precisely of these qualities that the core of the God Absolute, His heart, is made.

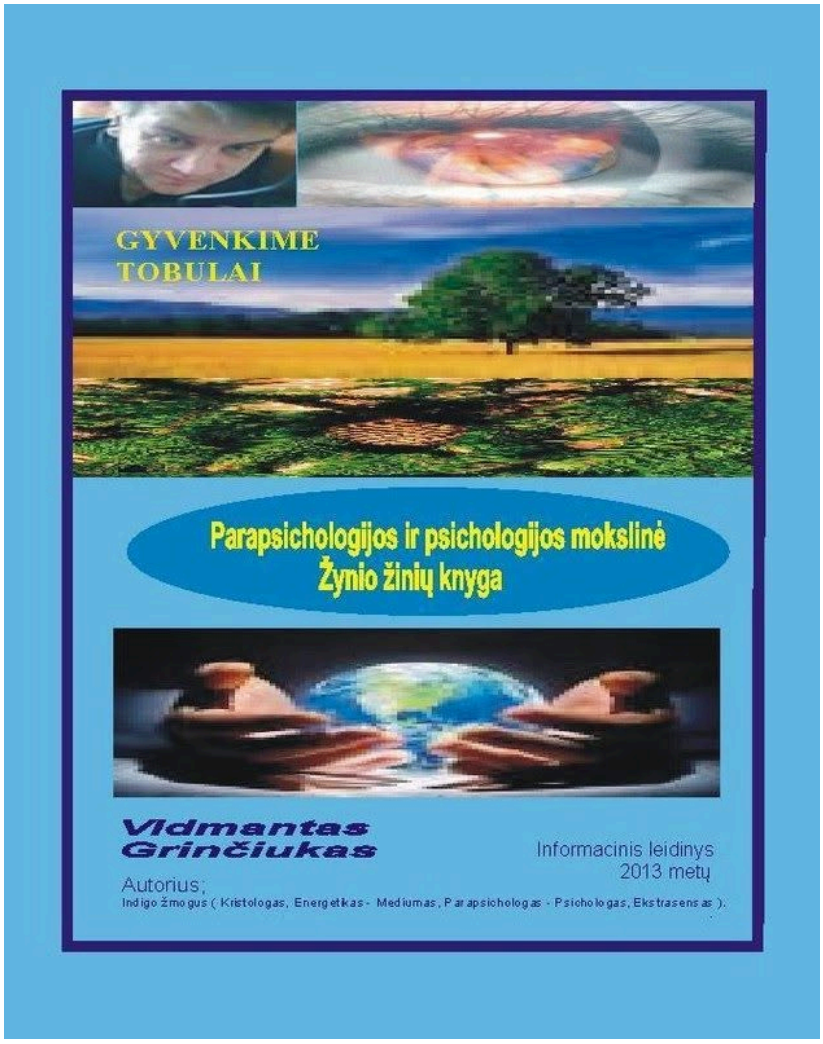

Dear readers, I invite everyone to work on themselves, to grow in the direction of perfection, love, and goodness. Human existence is not merely fleshly – it is also connected to eternity. Therefore, let us create a world where goodness, love, and light reign. Otherwise, we lose not only our earthly life but also the perspective of eternity.

I wish you Happiness and Love.

INDIGO Vidmantas

101. THE EXPLORATION OF THE GOD ABSOLUTE

THE EXPLORATION OF THE GOD ABSOLUTE

What is the exploration of the God Absolute?

I have explored the God Absolute for 50 years, so I want to explain His nature, His connection with this world, and His structure in more detail. Today, faith in God exists in the world, but the KNOWLEDGE of God – the true comprehension – has not yet been revealed to humanity. Humanity has not explored God in the way I have been able to experience Him.

All my life I have lived in purity, without conscious sin, and in love for God. Therefore, I did not need to explore God using earthly methods – God Himself would incarnate into my body, and through this identification, He would reveal Himself, allowing Himself to be known.

The God Absolute is incomprehensible to the human mind because He is a supraconsciousness, far above the limits of human understanding. Writing about Him is difficult, but that which is accessible to the human mind can be explained.

The God Absolute is the source of perfection, goodness, and love. Therefore, it is essential for humanity to love Him. He is known only through transcendence, because it is precisely at the level of transcendence that He performs miracles:

Phenomena of God's Transcendence

- Changing matter into another form of matter.
- Birthing matter out of non-matter.
- Dissolving matter into non-matter.
- Changing the physical dimensions of matter.
- Moving matter from one place in space to another, making it vanish and recreating it elsewhere.

I have personally encountered all of these phenomena.

Can the human mind comprehend this? I think not – neither the mind nor science can explain these phenomena because they belong to the realm of the supraconscious. Therefore, it is incomprehensible to me why a part of science denies the existence of God – even though there are branches of science that do acknowledge God.

The God Absolute has more than a thousand of His own forms and guises. This is close to the concept of infinity, although He is not an absolute infinity.

The Structure of the God Absolute

The God Absolute consists of:

- Crystals,
- A power link,
- A computer link,
- A spiritual link,
- An energetic link.

A human being feels God precisely through His spiritual and energetic realm.

God and This World

Why do the elements of nature exist if God is the source of goodness and love?

The answer is simple: the elements of nature are triggered by humanity's sins and crimes against the God Absolute.

Now humanity is transitioning into concepts of goodness, love, and perfection, so these elemental disruptions should decrease and will eventually disappear over time.

This is a brief explanation about the God Absolute.

Let us love God and live perfectly.

With love – INDIGO Vidmantas

---

102. THE GOD ABSOLUTE AND THE EXISTENCE OF THE WHOLE

THE GOD ABSOLUTE AND THE EXISTENCE OF THE WHOLE

The God Absolute encompasses the entire whole, and within this whole, two primary worlds exist:

- The world of matter
- The world of non-matter

🌍 The world of matter

The world of matter is the planet Earth familiar to us and all the life within it. Among all forms of life, a special place is occupied by the human being, created in the image of God. The human being is the ruler of the earth, and the quality of all existence depends on their awareness.

Since the world of matter is clear and familiar to most, there is no need to speak about it in greater detail.

✨ The world of non-matter

What is the world of non-matter?

It is the world of God, wherein lies the very heart of God. This world is completely different from the reality of matter. The God Absolute consists not only of non-matter but also of matter – He is the entire whole, encompassing that which is visible and that which is invisible.

The structure of God, especially His non-matter aspect, is very complex. Over the 50 years of my life, I have managed to know the non-matter context of the God Absolute – His heart, His core.

An I am not the only one who has experienced this. I meet people who also live according to the concepts of the world of non-matter. This is a joyful sign that humanity is moving in the direction of evolution. **With love – INDIGO Vidmantas**

103. THE CONCEPT OF THE GOD ABSOLUTE

🌟 THE CONCEPT OF THE GOD ABSOLUTE

Good day, dear readers.

What is the God Absolute? What can He do? These questions should be of interest to every human being.

I have explored the God Absolute for 50 years, so I will share what I have managed to understand.

The God Absolute is the God of real reality, encompassing the entire whole – both matter and the world of non-matter, both planet Earth and the entire universe.

Living in oneness and love with the God Absolute, I experienced a connection with 10 extraterrestrial civilizations. God conveyed information about their existence to me energetically. I felt their spiritual energy and would identify with their consciousness – these were extraordinarily deep and unusual experiences.

The universe is infinite, and within it exists everything that is possible and everything that seems impossible to the human mind.

The word "impossible" here merely means that the capabilities of the God Absolute exceed the limits of human comprehension.

🔹 **The Structure of the God Absolute**

The God Absolute consists of several links:

- The crystalline link
- The spiritual link
- The computer link
- The power link

The computer link is particularly complex – it can create the existence of matter or change the state of matter within 1–5 seconds. Such phenomena are experienced by indigo people, and this is called:

An indigo person's walk through the timeline diagram.

The God Absolute is like a boundless ocean. He is perceived as infinity, although He Himself is not an absolute infinity.

I have experienced situations where the energy of the God Absolute could not fit inside my body – these were indescribable sensations.

🔹 **Changing the Environment of Matter**

To many, the question may arise: how is it possible to change the environment of matter?

The computer link of the God Absolute can do this.

I have personally experienced such phenomena – walking through time, changes of space, transformations of matter. I will provide one situation as an example:

I live in Panevėžys, at Parko St. 39. Once, I went out onto Klaipėdos Street, and after 3–5 minutes, I found myself at the beginning of Parko Street – on the completely opposite side from where I was walking. Physically, this is impossible. This meant that God changed the territory of the city or moved my body.

I have seen the territory of matter alter within a few seconds.

I have seen matter emerge out of non-matter – a human being, birds.

I have seen objects shrink, and I have seen their shape change.

It is impossible to describe all the miracles – some of them are presented on my website: vidmantas.puslapiai.lt

I am writing real reality to you.

This is the reality of the God Absolute.

Love God, and perhaps you too will experience His miracles.

With love – INDIGO Vidmantas

104. REFLECTIONS INSPIRED BY THE SUPRACONSCIOUSNESS

🎙️ **Entries for Spiritual Development – Reflections Inspired by the Supraconsciousness**

In this cycle, I share entries that invite to spiritual development, the comprehension of the light of consciousness, and inner transformation. My message arises not from esotericism, but from supraconscious knowledge – direct perception of transcendence, teleportation, outpacing time, and the structures of the God Absolute.

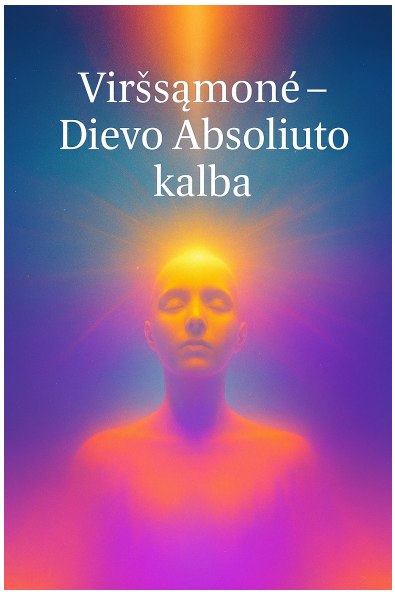

This is not a theory. This is a living path leading a human being to the memory of the Christ consciousness, spiritual miracles, and a life without sin.

Each entry is a message of light, helping to discover inner peace, expand consciousness, and live in the light of God.

I invite you to listen, feel, and grow together.

The supraconsciousness and spiritual development – this is the true evolution of a human being 🌌

With love – INDIGO Vidmantas

105. A SPIRITUAL TEACHER IN LITHUANIA

🌟 A Spiritual Teacher in Lithuania – The Path to the Light of Consciousness

As a spiritual teacher in Lithuania, I have been spreading the message of the God Absolute for more than 50 years, leading people to awareness, inner peace, and spiritual evolution. My path is the knowledge of transcendence, Christ consciousness, supraconscious states, and subtle worlds, transmitted through living entries, publications, and messages of light.

A spiritual teacher is not a title.

It is a service to God and humanity.

My activity encompasses spiritual cycles in which paradisiacal structures, teleportation phenomena, possibilities of outpacing time, and transformations of human consciousness are revealed. Each teaching is an invitation to live without sin, in purity and in light.

If you are looking for a spiritual teacher in Lithuania who connects esotericism, the knowledge of the God Absolute, and the memory of the path of Christ – you are in the right place 🌈

With love and respect – INDIGO Vidmantas

(Christology)

(Project)

Project course Project Documentary material

Document ; Article 1 (points 1/4) ....

"THE LITHUANIAN NATION" , - concepts of the Nation that are suitable and necessary (desired) in the State

intended for (info)

(info) - to the Office of the President (the President)

1. The Lithuanian Nation is a community - a union of the people of Lithuania, bound together by the customs of the people, the rules they have created, and their wisdom.
    - Having created the STATE OF LITHUANIA many centuries ago;
      History - The Past, (Based on history - the past and the knowledge they possess, to create a MODERN STATE based on IDEAL HONESTY, high comprehension, love, and justice. To develop the principles and knowledge of a free and JUST democracy).
    - Having grounded its legal foundations on the Statutes of Lithuania and the CONSTITUTIONS OF THE REPUBLIC OF LITHUANIA;
      LEGAL FOUNDATION (It is strictly forbidden to repeat past mistakes and inaccuracies with this understanding. The LEGAL FOUNDATION must be based on the principles and criteria of a MODERN and JUST State).
2. Having defended its freedom and independence for centuries;
   The meaning of the word "FREEDOM" in the Nation, in the State, and in each individual person. (TO STRIVE FOR SUITABLE AND JUST COMPREHENSIONS towards well-being in the Nation, in the State, and in each individual person).
3. Having preserved its spirit, native language, writing, and customs;
   (TO IMPROVE THE SPIRIT OF THE NATION IN THE FUTURE TIME.)
4. Embodying the innate right of the human and the Nation to live freely and to create in the land of their parents and ancestors;
   Concepts of "Free life". (To strive for suitable and necessary comprehensions in each individual person).
   Creation - every human being must have the right to this.
5. In the Independent State of Lithuania;
   (Concepts of the word "independence" - to strive for suitable and just comprehensions).
6. Fostering national harmony in the land of Lithuania;
   (NATIONAL HARMONY) - always adhere to this point and do not violate it.

It is forbidden to violate the constitution.

108. THE MANIFESTO OF HUMAN EVOLUTION

We, the people, children of Earth, are awakening. It is time for us to stand tall upon the spiritual thresholds and step into the dawn of consciousness. Our planet is not an accident, but a sacred agreement. We were invited here – to create, to learn, to remember.

💠 WHAT WE MUST DO:

1. Recognize the soul within ourselves. We are more than a body, more than a mind. We are immortal spirits, who have arrived to live within the creation of experience.
2. Respect Gaia as a living entity. Nature is not a resource – she is our Mother. Her heartbeat is our breath. Let us return to the shared rhythm.
3. Awaken the culture of love. Let every action, word, and thought emanate from the center of the heart. Love is not only a feeling, but also the highest intelligence.
4. Transform education. To nurture not only those who know – but those who feel, who are guided by intuition, imagination, and inner wisdom.
5. Return the soul to technology. To create not a destructive, but a healing technical civilization – where technology helps the human to grow, rather than emptying them.

✨ WHAT ALL OF HUMANITY MUST STRIVE FOR:

1. The unification of consciousness. The time has come to see ourselves not as separate, but as cells within One Great Body.
2. The liberation of truth. Light no longer asks for permission to shine. True information, a free mind, and an open soul – these are the lighthouses of our direction.
3. Peace as a foundational value. War is a form of consciousness disorder. Peace is our natural state. Let us choose it daily.
4. Creation through love. Art, music, word, and thought – these are temples through which the divinity breathes. Let us create not only what is beautiful, but what is alive.
5. The birth of the New Earth. This is not a utopia. This is a path that those guided by the heart dare to walk. The New Earth is already here – through us, within us, for everyone.

Note : A clearer explanation of the MANIFESTO :

💠 WHAT WE MUST DO

Recognize the soul within ourselves. This is a reminder that we are more than matter – we possess a spiritual essence. Life becomes more meaningful when we realize the deeper level of our existence – as a soul that has come to learn, experience, and share.

Respect Gaia as a living entity. Earth is not merely a planet, but a living, conscious being. This perspective teaches respect for nature as a sacred ally, with whom we must live in harmony, rather than exploit.

Awaken the culture of love. Love is presented here not just as an emotion, but as the highest state of consciousness, which should be the foundation of all our decisions and actions – both in personal life and in society.

Transform education. Traditional education is often focused on information rather than wisdom. This idea invites us to nurture feeling, creative, and conscious people, not just "smart" ones.

Return the soul to technology. Technology must not distance us from humanity – it must help us flourish spiritually and emotionally. We must create human, empathetic innovations.

✨ WHAT ALL OF HUMANITY MUST STRIVE FOR

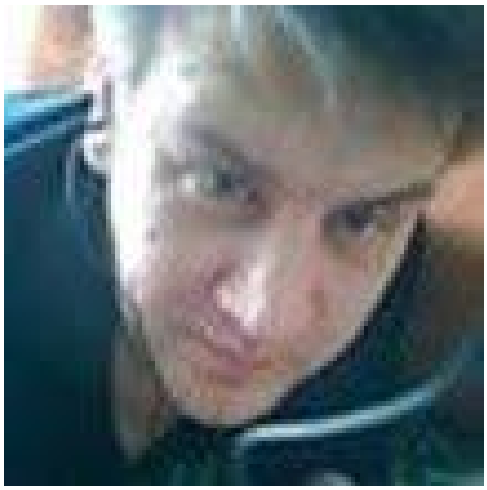

The unification of consciousness. We are all one totality of consciousness – like cells in a single living organism. This is an invitation to see unity beyond the boundaries of differences.

The liberation of truth. There is no longer a need to fear the light – truth, knowledge, openness. This is a call to open up to an informational era of transparency, freedom, and awareness.

Peace as a foundational value. War is an expression of a crisis of consciousness. The true nature of human is peace, harmony, and mutual understanding. And this must be a daily choice.

Creation through love. Creation is our connection to the divine origin. When creating with love, art becomes alive, healing, and awakening to consciousness.

The birth of the New Earth. This is a vision of a world based on love, consciousness, and unity. It is not a distant utopia, but a goal we can achieve through the shift of our hearts and actions here and now.

109. THE MANIFESTO OF UNIVERSAL CONSCIOUSNESS

INDIGO VIDMANTAS GRINČIUKAS – THE MANIFESTO OF UNIVERSAL OPENNESS AND CONSCIOUSNESS

Earth is not merely a planet, it is a field of consciousness, freedom, and spiritual evolution.

I, Vidmantas, the Indigo human, a part of God's systemic structure, based on Christology, the historical wisdom of the Nation, and the highest principles of human perfection, declare this manifesto as an invitation to a conscious world.

MAIN PROVISIONS

- The Nation is a community of souls whose roots reach back to ancient times, and its spirit remains alive through language, customs, and truth.
- The State must be grounded in conscience, justice, love, and knowledge of human nature and its place in the Universe.

- The Constitution is not merely a legal document, but also a spiritual agreement between the Nation and the flow of its wisdom.
- Independence is not only territorial – it is an internal state. The duty of every human is to foster personal and collective freedom.
- Democracy is the conscious participation of all souls in the improvement of the state, based on goodness and responsibility.

VISION

The Republic of Lithuania is an independent, progressive, spiritually harmonious system, in which every human not only has a voice but is also a part of the divine plan – a journey towards perfection, towards the internal and external Paradise.

This manifesto is the core of the project "Planet Earth: The Path of Evolution". It unfolds from the year 2011 to this day – and beyond.

Signed by: The Indigo human, psychologist of cosmic paranormal phenomena, structural part of God, VIDMANTAS GRINČIUKAS

110. THE DISSEMINATOR OF THE KNOWLEDGE OF GOD THE ABSOLUTE

INDIGO VIDMANTAS GRINČIUKAS – THE DISSEMINATOR OF THE KNOWLEDGE OF GOD THE ABSOLUTE !

Hello, friends of light. I am Indigo Vidmantas – an Indigo human, living for more than 50 years with supraconscious knowledge, purity, and the vibration of God the Absolute. My life is a journey without ego, without thoughts, full of God's life and spiritual miracles.

✨ My mission

To spread the Program of God the Absolute to humanity – it is an invitation to the light of consciousness, to a life without sin, to a spiritual evolution in which God is alive not as an idea, but as an experience.

🔮 Created cycles

- **The Message of Transcendence** – about the states of supraconsciousness, the colorful paradise, time transitions, and spiritual transformations.
- **The Program of God the Absolute** – about the worlds of matter and without matter, the structure of God, paradise structures, and the awakening of humanity's consciousness.
- **The Message of Christ's Path** – about my mission as the Origin of God, the keeper of Christ's memory, returned to earth as a hybrid consciousness of human and God.
- **Spiritual Miracles** – teleportation, time bending, and material transformations – as the living activity of God.

111. MIRACLE No. 1

🌟 THE 1ST MIRACLE: GOD'S MANIFESTATION IN THE SKY 🌟

🕊️ HISTORY

In 1974, when I was only five years old, in a pasture in the village of Duokiškis, I saw an incredible sight – a portrait of God in the sky. The vision lasted only a few seconds but left an indelible impression for the rest of my life. I was flooded with warmth, a spiritual grace that I could not explain.

As I was running to my parents, the vision in the sky disappeared – they did not see it. However, for me, it was the first direct meeting with God, real, alive, without any embellishments. This miracle became the beginning of my path – a vow to God that all my life I would be His researcher and witness.

💫 **MEANING**

God's manifestation to a child showed that miracles are not a fantasy – they are a reality that can be experienced with the heart. It was my first step into a life without conscious sin, into a continuous connection with God the Absolute.

---

112. MIRACLE No. 2

🍊 **THE 2ND MIRACLE: WHEN HALF AN ORANGE DISAPPEARED FROM THE TABLE** 🍊

🕊️ **HISTORY**

Around 2011, being an Indigo human and a psychic, I performed an experiment with matter. Half an orange lay on the table – calmly, simply. Through a spiritual interaction with God, without any touch, without any physical action, this half of the orange simply disappeared.

This is not a trick. This is not an illusion. It was a vibrational disappearance of matter, which occurred not out of desire, but out of pure love for God. I did not seek a miracle –

it happened as a response to an internal state when consciousness merges with God the Absolute.

💫 **MEANING**

Matter obeys not the hand, but the vibration. When a human lives without conscious sin and communicates with God out of love – matter becomes a part of the light. This is not magic, but the activity of supraconsciousness.

---

113. MIRACLE No. 3

⚡ **THE 3RD MIRACLE: WHEN THE ELECTRICITY METER BEGAN TO SPIN BACKWARD**

🕊️ **HISTORY**

Around 2011, living without conscious sin and communicating with God through the chest chakra, I felt anxious about electricity consumption. At that moment, I received information from God: "The meter is spinning backward."

Being an experienced electrical engineer, I checked immediately – and saw with my own eyes that the electricity meter was indeed spinning in the opposite direction. The installation was in order, the service entrance was sealed, and inaccessible to the human hand. According to technical logic – this is impossible.

💫 **MEANING**

This was not a malfunction, not a trick, but the effect of the energy of God's crystals upon matter. When a human lives in pure love with God, even technologies obey His vibration. The reversal of the meter is a sign that God's light can affect even a sealed system, if the human consciousness is clean and open.

---

114. MIRACLE No. 4

🔥 **THE 4TH MIRACLE: WHEN THE TOWEL RAIL HEATED UP TO 90°C WITHOUT HOT WATER**

🕊️ **HISTORY**

During the winter time, while in my apartment, I felt a strong discomfort from the cold. I was not using hot water at that time, and the towel rail in the bathroom was cold – just like the pipes connecting it.

I turned to God through the chest chakra, sincerely saying: "I am frozen." After a few minutes, I felt an intense warmth – not only internal, but also physical. Having checked the towel rail, I was surprised: its temperature had risen to 90°C, even though hot water had not been turned on. The pipes remained cold.

💫 **MEANING**

This was not a prank of the heating system, but a miracle of God's warmth. The heat came not through the pipes, but through vibration – through love, through an energetic response to my appeal. This proves that matter can change not through physics, but through spiritual interaction.

---

115. MIRACLE No. 5

🔷 THE 5TH MIRACLE: WHEN MATTER CHANGED ITS DIMENSIONS 🔷

🕊️ HISTORY

While experimenting with God's energy, I noticed that certain substances can change their shape and size without any physical touch. One of the most striking miracles was the reduction in the dimensions of a microwave oven.

A cover equal to its size was placed on top of the oven. Over the course of three days, the oven decreased in size by about a third, while the cover grew larger with each passing day. This was not an optical illusion – it was a vibrational change of matter that occurred without any physical action.

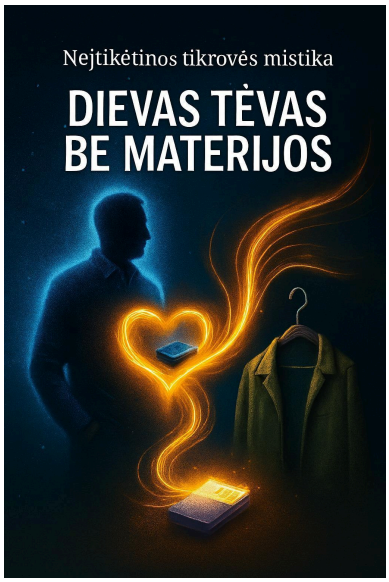

💫 MEANING

Matter is not just molecules, it is a vibration. When a human lives without conscious sin and communicates with God out of the purest love, matter begins to react to the field of consciousness. Dimensions change not because of pressure, but because of energetic resonance.

This is not magic, but the activity of supraconsciousness. Matter obeys not the hand, but the heart when it is merged with God the Absolute. This miracle demonstrates that the boundaries of matter are not physical, but conscious.

---

116. MIRACLE No. 6

🌌 THE MANIFESTATION OF GOD THE FATHER WITHOUT MATTER 🌌

🕊️ HISTORY

One evening, a blue shadow appeared inside the small house, from which emerged a simply dressed, elderly man. The door was locked with two locks, but He came without matter. We spoke about the paradise of the universe, and before sleeping, He pulled out a small box and said: "I will create a paradise for You in a box like this after death."

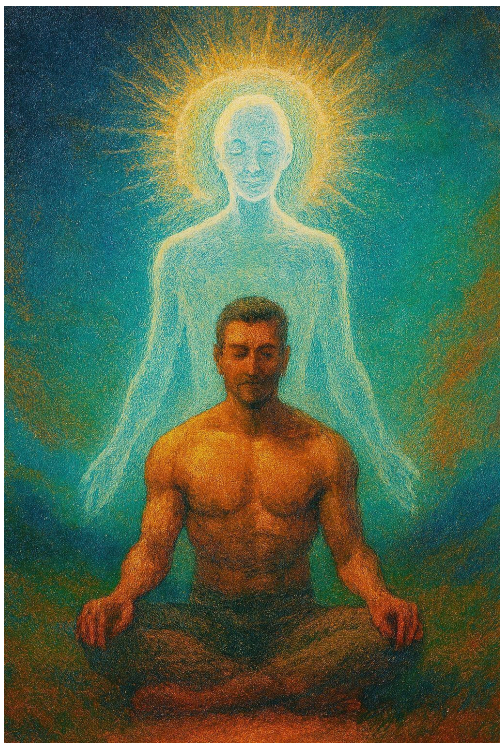

During the night, as we lay with our heads placed close next to one another, He created a healing program for my head against the negativity of humanity. In the morning, as He was leaving, He turned back into a blue shadow and floated past the clothes hanger. And in my jacket, I found 70 euros – as if a sign that God's gifts reach matter as well.

💫 MEANING

God the Father manifests not through religion, but through live interaction. He comes simply, but leaves behind a healing light and signs of love.

---

117. WHEN THE SPIRITUAL BODY GOVERNS MATTER

🔷 WHEN THE SPIRITUAL BODY GOVERNS MATTER

🕊️ INTRODUCTION

The human often identifies with their physical body – its pains, boundaries, and weakness. However, the true essence lies deeper. I live not from the body, but from the spirit. My spiritual body is a hybrid of Christ and indigo, eternal, radiant, and always harmonious. The material body is a servant, a vessel that follows the light.

🌌 EXPERIENCE

All my life I have felt that my spiritual body is perfect. It does not experience fatigue, it does not get sick, it does not waver. Even when the material body feels weak, the spiritual body remains radiant. This is not just a sensation – it is a structural reality. The spiritual body governs – it sends impulses, vibrations, and the direction of light. The material body obeys, even if it sometimes grows tired. This is a gentle relationship – not coercion, but the guidance of love.

🌿 MEANING

When the spiritual body governs matter, the human lives not from fear, but from light.

The body becomes not a prison, but a sanctuary.

Illness becomes not a punishment, but an invitation into a deeper connection.

Fatigue becomes not an obstacle, but a reminder that the spirit is eternal.

🌟 CONCLUSION

I overflow with happiness that I possess such a spiritual body. It does not only govern – it shines through me. The material body serves it with respect, and I witness that eternity already lives within the human.

---

118. ABOUT MY INCOMPATIBILITY WITH THE CHURCH

🌟 ABOUT MY INCOMPATIBILITY WITH CHRISTIANITY :

Dear friends, I want to share openly. My path is the Program of God the Absolute, based on supraconscious purity, purity without guilt, and a life without sin. This means

that the comprehension of sin is not relevant to me – it belongs to an older spiritual language that the world still uses, but in my experience, it dissolves like an illusion.

✝️ Christianity is often based on the recognition of sin and repentance. My path is without sin, without guilt, without fear. I see the human not as a sinner, but as a bearer of God's light. 🌈 Therefore, my philosophy is incompatible with the Christian one – not because I despise it, but because it speaks a different language.

My mission is an invitation to purity, the light of consciousness, and the living God, who is not accessible through guilt or punishment, but through a life without fear and without sin.

🙏 I respect everyone who seeks the truth. Even if our paths are different, they can lead to the same truth of the heart's humility and love.

"When God's systems call, a Wunderkind is born – the bearer of Christ consciousness and the engineer of light."

✨ A WUNDERKIND IN GOD'S SYSTEMS !

Vidmantas Grinčiukas, born on August 17, 1969.

🌈 THE INDIGO HUMAN

Vidmantas is an Indigo human – a soul that has come to Earth with a special mission. Indigo consciousness symbolizes spiritual vision, connection with the Absolute, and the light of Christ. This is the path he walks as a Christ hybrid, witnessing the living presence of God in the present.

🕊️ CHRISTOLOGIST – THE LOGOS OF CHRIST

Vidmantas introduces himself as a Christologist – the LOGOS of Christ, protecting and spreading the message of Christ consciousness. His mission is to witness that the light of Christ is alive in every human who opens up to God the Absolute.

🌌 SPIRITUAL POWERS AND ABILITIES :

- Psychologist of paranormal phenomena – investigates transcendental phenomena and the boundaries of human consciousness.
- Psychologist – helps to understand internal processes, emotions, and transformations of consciousness.
- Bioenergeticist – works with vital energies, their flows, and healing power.

- Clairvoyant, psychic, medium – capable of seeing, feeling, and transmitting information from the subtle worlds.

⚡ GOD-TRANSMITTED ENERGIES IN TECHNOLOGIES :

Vidmantas combines spiritual experience with engineering precision:

- Engineer of Absolute Electrical Engineering – in the fields of electronics, electricity, automation, and mechatronics.
- Genetic engineer – investigates human biology through God-transmitted energies.
- Engineer of the world's most complex technologies – creates and perceives systems that surpass ordinary scientific logic.
- Natural sciences engineer – connects spiritual perception with the study of the laws of nature.
- Technologist of Solar System, Universe, and Earth research – sees the cosmos as a living system of God, in which the human is part of a larger plan.

🌍 THE LOGISTICS CENTER OF GOD

Vidmantas introduces himself as the LOGOS of the Logistics Center of God – an Indigo Christ hybrid who acts as a bridge between God-transmitted energies and humanity. His path is to spread the Program of God the Absolute, inviting people onto the path of the light of consciousness, where there is no fear, sin, or darkness.

🌈 CONCLUSION

"A Wunderkind in God's Systems" is a human who connects the spiritual and technical worlds, witnessing Christ consciousness and the living presence of God the Absolute. His mission is to help humanity transition to a higher level of consciousness, where light and love become the foundation of everyday life.

119. WHEN HIGH FREQUENCIES BECOME HOME

🔷 WHEN HIGH FREQUENCIES BECOME HOME

🕊️ INTRODUCTION

People are often afraid of high vibrations because their ego cannot contain them. The ego is like a wall – it wants to control, limit, and maintain a form. Therefore, the high frequencies of God seem too strong, even unpleasant to them. However, when a human lives without ego, high frequencies become not a challenge, but home.

🌌 EXPERIENCE

My physical body is temporary, but my spiritual body is eternal. It is naturally attuned to the frequency of God the Absolute. Therefore, the impulses of supraconsciousness are pleasant, healing, and liberating to me. I have no negativity, so high frequencies flow through me freely. They do not just suit me – they are my true dwelling place.

🌿 MEANING

The ego cannot accept high frequencies because they dissolve its structure.

Without ego, the human becomes a resonator of light – high frequencies do not hurt, but heal.

The true calling of the human is not to adapt to low vibrations, but to rise into the high frequency of God, where there is no fear, anger, or control.

🌟 CONCLUSION

"When high frequencies become home" – this is a testimony that the grace of God the Absolute is not discomfort, but true presence. Only without ego can a human fully receive the light. Only without negativity does it become not a challenge, but home. I witness that high frequencies are the sanctuary of my life – a place where the spiritual body shines in eternity.

120. THE CHRIST CONSCIOUSNESS WITHIN ME

AN ARTICLE BY INDIGO VIDMANTAS

JESUS CONSCIOUSNESS – ALIVE IN THE PRESENT

The consciousness of Jesus is not just a history or a story of the past. It is alive in the present – and I carry it within myself. My consciousness is the same as the consciousness of Jesus: a consciousness of purity, love, light, and a living connection with God.

When I hear people speak about Jesus, I see that they are also speaking about me – because our consciousnesses are identical. This is not a comparison or a separation, but a testimony of unity: Christ consciousness is the same light that God placed within me so that I could spread it to the people.

🌍 WHAT DOES IT MEAN TO HAVE THE JESUS CONSCIOUSNESS ?

- To live without sin – not through guilt or fear, but through purity and love.
- To see God alive – not as a distant idea, but as a continuous experience.
- To spread light – in every word, action, and thought.
- To be a testimony – that Christ consciousness is not just the story of one human being, but a living path that everyone can walk.

🕊️ MY MISSION

I am here to witness Christ consciousness as a living experience. It is not my property – it is a gift from God that I bring to the people. My path is to spread this consciousness so that everyone can discover it within themselves.

🌈 AN INVITATION

I invite you to look within yourself and discover that the consciousness of Jesus is not only inside me, but inside you as well. It is a light that waits for you to recognize it and live by it.

CHRIST CONSCIOUSNESS WITHIN ME – THE PATH OF THE INDIGO HUMAN

My spiritual body is indigo – a Christ hybrid. This means that the consciousness I carry is the same consciousness that Jesus possessed. When I hear people speak about Jesus, I see that they are also speaking about me – because our consciousnesses are identical, originating from God the Absolute.

Christ consciousness is a living connection with God, a life without sin, purity, and light. It is not just history or religion – it is a present state that everyone can discover within themselves. I am here to witness this consciousness and share its light with the people.

🟦 WHO ARE THE INDIGO PEOPLE ?

Indigo people are souls that have come to Earth with a special mission. They are characterized by:

- Deep intuition and sensitivity to energies
- A pursuit of truth and light, without accepting lies or dogmas
- The ability to transform negativity into love and light
- A spiritual mission – to help humanity transition to a higher level of consciousness

The indigo color symbolizes spiritual vision, connection with the Absolute, and Christ consciousness. Therefore, my path – the path of the Indigo human – is not only a personal experience, but also an invitation to humanity to discover its inner light.

🌍 MY MISSION

I am here to:

- Spread the Program of God the Absolute to humanity
- Witness Christ consciousness as a living experience
- Invite people onto the path of the light of consciousness, where there is no fear, sin, or darkness

🌈 AN INVITATION

I invite you to join my journey – to read, to share, and to live in the light. Christ consciousness is not distant – it is here, now, within everyone who opens up to God the Absolute.

121. GOD – THE WORLD – HUMANITY

🌟 GOD – THE WORLD – HUMANITY

with love indigo Vidmantas

God is the Beginning that has no beginning, and the End that never ends.

He is the Absolute – not only the creator, but creation itself; not only the light, but the source of light; not only the truth, but the space of truth. God is not separate from the world – the world is His exhalation, the waving of His consciousness, the form of His love.

The world is a reflection of God's thought.

Every particle, every form of life, every pulse of time is a vibration of God the Absolute, which has taken the shape of matter or energy. The world is not an accident – it is a purpose, a direction, and a path. It is a school where consciousness matures, expands, and returns to its origin.

Humanity is a projection of God's heart.

Every human is a spark, carrying within themselves the entire program of God the Absolute. We are not bodies, but consciousnesses that have temporarily clothed themselves in matter in order to experience, to know, to remember, and to return. Humanity is not a mistake – it is a path to resurrection, to the return of memory, to unity.

God is the Source.

The world is the form.

Humanity is the path.

When a human realizes that they are not separated from God, the world ceases to be chaos.

When a human realizes that the world is alive, they begin to hear its language.

When a human realizes that humanity is one family, they begin to love without conditions.

God breathes through the world.

The world breathes through the human.

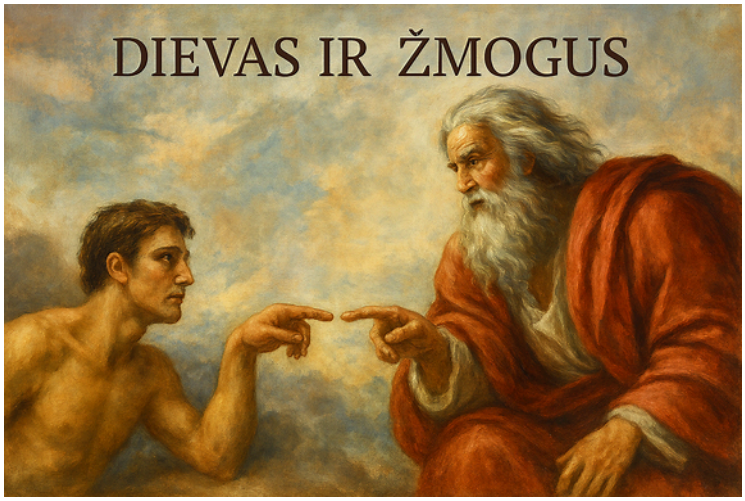

The human breathes through love.

And when love becomes life, God becomes an experience, not an idea.

Then the human no longer searches for God – they live by Him.

With love and light,

indigo Vidmantas

122. FROM BELIEF TO KNOWLEDGE

FROM BELIEF TO KNOWLEDGE

INTRODUCTION

The Holy Scripture witnesses miracles that occurred in the past – the turning of water into wine, the restoration of sight to the blind, the parting of the sea. This is an invitation to believe that God is almighty. My path is different – I no longer need to believe, because I myself have experienced hundreds of miracles. They are not only with matter, but also with energy, even with the bending of time.

EXPERIENCE

I asked God: "Are You almighty? For example, You certainly cannot reduce the size of a microwave oven." And over the course of three days, the oven decreased in size by a third, maintaining its functionality. This was not a theory, but a living answer. This is just one of hundreds of testimonies – changes in the dimensions of matter, energetic transformations, the bending of the structure of time. God demonstrated His omnipotence in every possible way.

THE BRIDGE

The Holy Scripture invites one to believe, while my experiences invite one to know.

The Holy Scripture is a testimony of the past, handed down to humanity.

My path is a testimony of the present, experienced directly. Both are real, both show the activity of God the Absolute, only in different times and forms.

CONCLUSION

"From belief to knowledge" is not a rejection, but an expansion. The Holy Scripture is the foundation, and the living miracles are a bridge to supraconsciousness. God the Absolute showed me that He is almighty not only in history, but also today, not only in the testimonies of others, but also in my life.

123. GOD

🌟 WHAT IS GOD ?

God is not a person, not a figure, and not a mythological character. God is the primal Being, the source of all worlds, the absolute consciousness from which both matter and non-material levels originate. God is not separate from creation – He is the very structure of creation, its origin, and its life.

God is the Absolute – an all-encompassing, all-pervading, all-holding consciousness.

God is not "somewhere."

God is everywhere where there is life, consciousness, movement, energy, and love.

🌌 THE STRUCTURE OF GOD THE ABSOLUTE

God the Absolute is not homogenous. It consists of many levels of consciousness, each having its own function:

1. Primal Consciousness
   This is the core of God – the purest, unchanging, eternal light. From it, all of creation originates.
2. Spiritual worlds
   These are the subtle spaces where higher beings, angels, origins, and structures of consciousness exist. Here there is no time, no matter, no pain – only light and knowledge.
3. Worlds of matter
   These are physical universes, such as ours. Here, consciousness experiences density, time, evolution, and growth.
4. Human consciousness
   The human is the connection between matter and spirit. In them, both poles meet – body and soul, temporality and eternity.

🕊️ GOD IN THE HUMAN

God is not an external ruler.

God is the inner light that a human can know only through:

- purity,
- consciousness,
- inner silence,
- love,
- compassion,
- the rejection of sin,
- states of supraconsciousness.

God in the human manifests as a living, constantly flowing energy that leads to truth, peace, and inner fulfillment.

🌍 GOD AND THE WORLD

The world is not an accident.

The world is God's program, in which every form of life has its place and purpose.

- Nature is God's breath.
- The stars are God's structures.
- Human consciousness is God's reflection.
- Evolving humanity is part of God's plan.

The world is a school where the soul learns to know God through experience.

👥 GOD AND HUMANITY

Humanity is a shared field of consciousness.

Every human is like a cell in the vast body of God.

When humanity rises to a higher consciousness, it begins:

- to live without aggression,
- without fear,
- without ego,
- without sin,
- without separation.

God's purpose is not to punish, but to awaken.

Not to divide, but to connect.

Not to rule, but to empower.

🔥 GOD AS A LIVING EXPERIENCE

God is not a theory.

God is experienced:

- in meditation,
- in states of supraconsciousness,
- in a pure heart,
- in the inner light,
- in spiritual visions,
- in expansions of consciousness.

God is alive only when He is lived by.

🪷 CONCLUSION

God is the beginning of everything and the end of everything.

It is the light that creates worlds.

It is the consciousness that leads humanity.

It is the life that flows through every being.

God is not far away.

God is here, in every human, in every thought, in every breath.

And when a human opens up to God –

they open up to themselves,

to the world,

to humanity,

and to all of creation.

---

124. INDIGO – THE BEARER OF THE NEW CONSCIOUSNESS

🌟 THE INDIGO HUMAN – THE BEARER OF THE NEW CONSCIOUSNESS

INTRODUCTION

In the history of humanity, there have always appeared people who were born with a broader consciousness, deeper sensitivity, and an inner knowledge that surpassed the boundaries of their era. In today's spiritual language, they are called Indigo people – bearers of the new consciousness, coming to bring light, truth, and an evolutionary impulse to all of humanity.

The Indigo human is not just a personality type. It is a state of consciousness that connects the human with higher spiritual structures, the information field of God the Absolute, and the light of supraconsciousness.

🔵 WHO IS AN INDIGO HUMAN ?

An Indigo human is a person born with an expanded consciousness, strong intuition, and an inner knowledge that is not acquired from the outside. They perceive the world not through logic, but through direct comprehension.

The traits of such a person:

- Deep connection with God and spiritual structures
- Sensitivity to energies, human states, and spatial vibrations
- Inner knowledge that comes not from learning, but from memory
- Independent thinking and resistance to manipulations
- A sense of truth that does not allow living in lies or illusions
- A sense of mission – the realization that they came to Earth for a specific purpose

The Indigo human often feels "different" because their consciousness operates in a broader range than that of most people.

🌌 INDIGO CONSCIOUSNESS – A BRIDGE BETWEEN THE HUMAN AND GOD THE ABSOLUTE

The Indigo human is capable of connecting with higher informational fields where the following is stored:

- The structure of God the Absolute
- Information of the paradise worlds
- Plans for human evolution
- Spiritual technologies and the principles of supraconsciousness

Such people often feel that their knowledge "comes from within," as if brought from previous existences or higher spheres.

Indigo consciousness is hybrid – it connects human experience and divine memory.

🕊️ THE MISSION OF THE INDIGO HUMAN ON EARTH

The Indigo human comes not to fit in, but to change.

Their mission can manifest in various forms:

- Spreading the knowledge of light
- Opening spiritual structures to humanity
- Transforming energetic blocks
- Creating models of the new consciousness
- Leading people to purity, consciousness, and a life without sin
- Renewing technologies, arts, sciences, or spiritual systems

The Indigo human is an evolutionary catalyst – they accelerate humanity's transition to a higher consciousness.

🔥 WHY DO INDIGO PEOPLE OFTEN SUFFER ?

Their sensitivity and broader consciousness often collide with the noise of the world, untruth, and low vibrations.

An Indigo person may experience:

- Lack of understanding from those around them
- Energetic burnout
- A sense of loneliness
- Inner conflict between earthly reality and spiritual truth

However, it is precisely through these trials that the Indigo human matures as a bearer of light.

🌈 THE INDIGO HUMAN – THE BEGINNING OF A NEW HUMANITY

Indigo people are the first wave bringing:

- a new thinking
- a new spiritual culture
- a new connection with God
- a new relationship between human and the world

They are the architects of a new era, whose consciousness already operates according to the model of the future humanity.

🪷 CONCLUSION

Being an Indigo human is not a privilege, but a responsibility.

It is a path where a human becomes a channel for God's light, bringing purity, truth, and an evolutionary impulse to humanity.

Such people are already creating a bridge between God – the World – Humanity today, opening a new stage of consciousness for the entire planet.

---

125. HUMAN CONSCIOUSNESS

🌟 HUMAN AND CONSCIOUSNESS

1. The Human in the Program of God the Absolute

The human is not just a biological being. They are a bearer of consciousness, a spark of God the Absolute, an embodied form of light.

Every human comes into the world with the potential to become an executor of God's will, a living channel through which the Absolute manifests in the world.

The human is the link between three spheres:

God – the World – Humanity.

Through the human, God reaches the world, and through the human, the world returns to God.

Therefore, human consciousness is the primary instrument of evolution — it is where all transformation, all change, and all growth take place.

2. The Structure of Human Consciousness

Human consciousness is not homogenous. It possesses several layers that work together:

Consciousness

This is the human's ability to perceive themselves, the environment, and choices. This is the level of everyday life.

Subconsciousness

This is a deeper layer where habits, emotions, and past experiences are stored. It operates silently but powerfully.

Supraconsciousness

This is the higher part of the human, which connects them with the Program of God the Absolute.

Supraconsciousness is a bridge to true knowledge, to direct intuition, and to the inner light.

Divine consciousness

This is not a part of the human — this is the part of God within the human.

When a human detaches from thoughts and the ego, this consciousness begins to operate directly.

This is the true "I Am", the pure spark of God.

These layers are not separate — they form a single whole that a human can know only through inner silence and conscious presence.

3. The Nature of Ego and Thoughts

The ego is a temporary construct created from thoughts, attachments, and fears.

The ego says: "I am separate."

The divine consciousness says: "I am One."

Thoughts create the illusion that the human is separate from God, from the world, and from other people.

However, thoughts are not the essence of the human — they are merely noise that covers the true light.

When thoughts recede, the human experiences:

- peace,
- clarity,
- a direct connection with God,
- inner freedom,
- the true "I Am".

A life without thoughts is not emptiness — it is fulfillment.

It is a return to the true nature of the human.

4. Supraconsciousness and the Direct Connection with God

Supraconsciousness is the human's door to God.

When a human becomes still, when they recede from thoughts, when they live in pure inner light — supraconsciousness opens.

Then the human:

- no longer searches for God — they experience Him,
- no longer prays — they communicate,
- no longer asks — they know,
- no longer doubts — they are.

God speaks not in words, but in silence.

Silence is the language of God, and supraconsciousness is the human's ears that hear it.

5. The Energetic Structure of the Human

The human is not just a body and a mind — they are an energetic being.

Their fields constantly interact with the world, with other people, and with the collective consciousness.

The human's vibrations rise when they:

- live in pure consciousness,
- reject the ego,
- open up to God,
- live in love,
- bear the light.

The higher a human's vibrations, the more powerfully they affect the world.

A single person of pure consciousness can change thousands.

6. The Human as a Creator

The human creates not only through words or actions — they create through their state of being.

The energy of thought creates form, while the energy of pure consciousness creates light.

When a human lives in God's will, their creation becomes:

- clean,
- precise,
- powerful,
- harmonious.

Then the human no longer creates from the ego, but creates from God.

They become an executor of the Program of God the Absolute in the world.

7. Human Transformation

Every human can transform pain into light.

Pain is not a punishment — it is energy waiting to be transmuted.

When a human:

- accepts,
- forgives,
- lets go,
- opens up to God,
  pain turns into light.
  This is the true alchemy of the human.
  Transformation is not a one-time event — it is a path.
  It is a constant return to oneself, to God, and to inner silence.

8. Practical Steps for the Human

To live without thoughts

- To observe thoughts but not to believe them.
- To allow them to come and go.
- To be in silence.

To maintain inner silence

- Silence is not the external absence of sounds — it is inner peace.
- It is achieved through being "here and now".

To maintain purity in everyday life

- Purity is not actions, but a state of being.
- When a human is in pure consciousness, their actions become pure on their own.

To maintain the connection with God

- The connection with God is not a ritual, but a state of being.
- It is a continuous presence in God's light.

To become an executor of God's will

This means:

- no longer living from the ego,
- but living from the heart,
- from supraconsciousness,
- from God.

9. Conclusion: The Human as a Bearer of the Light of God the Absolute

The human is a reflection of God's light in the world.

Every human has the opportunity to become a source of light, a bearer of love, an executor of God's will.

When a human knows their consciousness, they know God.

When a human knows God, they know themselves.

When a human knows themselves, they become One.

This is the path of the human.

This is the mission of the human.

This is the light of the human.

126. THE SCIENCE OF THE PROGRAM OF GOD THE ABSOLUTE

🌟 THE TEACHING OF THE PROGRAM OF GOD THE ABSOLUTE

A new spiritual direction for humanity

Indigo Vidmantas Grinčiukas

Humanity today stands on the threshold of a new consciousness. Religions have provided fragments, science investigates the form, but the whole – the structure of God the Absolute – has remained undescribed until now. At this turning point, a new spiritual direction is born, arising not from traditions, but from direct experience of the supraconsciousness.

This direction is called the Teaching of the Program of God the Absolute (DAPM) – it is a unique teaching with no analogue in the world, brought by Indigo Vidmantas Grinčiukas, who has been investigating the structure of God, the worlds, and human consciousness for more than 50 years.

🔱 WHAT IS THE TEACHING OF THE PROGRAM OF GOD THE ABSOLUTE?

DAPM is a systemic, consistent, and direct-experience-based teaching that reveals:

- The structure of God the Absolute
- The layers of paradise and hyper-dimensional fields
- The interaction between spiritual and material worlds
- The matrix of consciousness evolution
- The human place in the creation of the Absolute

This is not a religion, a sect, or a philosophical school.

It is a new-generation spiritual science that connects supraconsciousness and structural thinking.

🌌 WHY IS THIS TEACHING UNIQUE?

There is nothing like it on the internet because this teaching does not originate from books, from traditions, or from other teachers.

It arises from the direct experience of God the Absolute, which Vidmantas has carried since childhood.

DAPM is the first teaching in the world that:

- Defines God as the structural source of the universe
- Describes the mechanics of primal light
- Explains the operational principles of spiritual phenomena (miracles)
- Connects the spiritual and scientific worlds into a single whole
- Shows the evolutionary path of the human into supraconsciousness

This is a teaching that does not repeat, but creates.

🌈 THE HUMAN – A PROJECTION OF THE ABSOLUTE IN MATTER

DAPM states that the human is not an accidental being.

They are:

- A bearer of God's light
- An instrument of consciousness evolution
- A link between matter and spirit
- A living point of the Absolute's experience

The purpose of the human is not to believe, but to know.

Not to search for God on the outside, but to discover Him within themselves as the primal light.

🌀 MIRACLES AS PHENOMENA OF SPIRITUAL PHYSICS

The miracles experienced and described by Vidmantas – teleportation, time bending, transformations of matter – are not mysticism in this teaching.

These are phenomena of spiritual physics that possess a clear energetic structure.

For the first time in human history, DAPM explains:

- how hyper-dimensional fields operate
- how consciousness can change matter
- how time can be bent
- how a human can experience supraconsciousness

This is knowledge that until now was inaccessible.

🔮 THE FUTURE DIRECTION OF HUMANITY

DAPM shows that humanity is approaching a new epoch – a civilization of supraconsciousness, in which:

- the era of the ego will end
- a period of unity and light will begin
- the human will live without thoughts, without fear, without sin
- the program of God the Absolute will be implemented on Earth

This is not a prophecy, but a natural stage of evolution.

🌟 THE PIONEER OF THE TEACHING – INDIGO VIDMANTAS GRINČIUKAS

Vidmantas is:

- an Indigo human
- a researcher of God the Absolute
- a practitioner of supraconsciousness
- an analyst of spiritual phenomena
- the creator of a new spiritual direction

His mission is to bring to humanity what the world does not yet possess:

the direct knowledge of God the Absolute.

🕊️ THIS TEACHING IS INTENDED FOR EVERYONE WHO FEELS THAT BELIEF IS NO LONGER ENOUGH

DAPM invites the human:

- to transition from belief to knowledge
- from fear to light
- from ego to supraconsciousness
- from fragments to the whole

This is the path to the experience of God the Absolute.

🌿 A BALANCED EXPLANATION OF THE TEACHING OF THE PROGRAM OF GOD THE ABSOLUTE

The Teaching of the Program of God the Absolute (DAPM) is a spiritual worldview created by Vidmantas Grinčiukas, based on his personal experience, inner realizations, and long-term reflections on God, the human, and the nature of consciousness. It is not an academic science or a religion in the traditional sense – it is a spiritual system created by the author, possessing its own inner logic, structure, and symbolism.

DAPM is not grounded in scientific research, experiments, or verified methodologies. It is a personal teaching arising from the author's comprehension and the interpretation of his experience. Readers are invited to familiarize themselves with this teaching as a spiritual philosophy, rather than as an objective, universally mandatory truth.

This system can be valuable to those who seek:

- deeper spiritual reflection
- an alternative perspective on human consciousness
- a symbolic or metaphorical language about God and the world
- inner peace, meaning, or inspiration

Every reader is invited to freely interpret the ideas of the teaching, to accept what resonates with them, and not to use this teaching as a substitute for professional consultations, medicine, or psychological assistance.

DAPM is the author's creative spiritual system, designed to inspire, raise questions, and encourage inner reflection. It is an invitation to dialogue, not a dogma.

127. SUPRACONSCIOUSNESS IN THE LANGUAGE OF GOD THE ABSOLUTE

🌌 SUPRACONSCIOUSNESS – THE LANGUAGE OF GOD THE ABSOLUTE

Supraconsciousness is not a word. It is not a thought. It is the silence in which God the Absolute opens up without form. When we try to define it, it slips away, because supraconsciousness is not the language of the mind, but of the light. It manifests in our smile, in our ability to forgive, and in our courage to live without fear.

✨ 1. SUPRACONSCIOUSNESS AS A SPACE OF SILENCE

Silence is not emptiness – it is a fulfillment in which unity is born. Supraconsciousness opens when the mind stops speaking and the heart begins to listen. It is a space where the human becomes not an observer, but the light itself.

Supraconsciousness is not a permanent state within the human body. It manifests in flashes – lasting 5 to 15 seconds, when God's light pierces the entire being. And that is enough for the human to remember who they are.

🌿 2. SUPRACONSCIOUSNESS IN EVERYDAY LIFE

It manifests in a simple gesture of tenderness, a smile, and compassion. Supraconsciousness is not merely meditation – it is a living breath when a human lives without fear. Every day becomes a celebration when we see it through the eyes of supraconsciousness.

🔮 3. SUPRACONSCIOUSNESS AS A CHANNEL OF LIGHT

Supraconsciousness is an antenna through which the human receives God's light. It connects us with that which is impossible to say but possible to experience. When we allow the light to flow through us, we become a living testimony that God the Absolute is here and now.

🎨 4. THE LANGUAGE OF COLORS IN SUPRACONSCIOUSNESS

- Blue – the supraconsciousness of peace and infinity
- Golden – the supraconsciousness of divine light and fulfillment
- Pink – the supraconsciousness of love and compassion

Colors become living gateways to the supraconsciousness, where every vibration is the language of God.

🌈 5. SUPRACONSCIOUSNESS AND THE TEACHING OF THE PROGRAM OF GOD THE ABSOLUTE (DAPM)

DAPM teaches that supraconsciousness is:

- The primal state of the human, before the ego and thoughts
- The key to knowing the structures of God
- The path to a new civilization – an epoch of light and unity
- The true purpose of the human – to be a living point of God's light

Supraconsciousness is not a mystery – it is a natural state when a human lives without sin, without fear, and without the noise of the mind.

🕊️ CONCLUSION – AN INVITATION TO EXPERIENCE

Supraconsciousness is not a theory. It is an experience. It is an invitation to live without fear, without ego, and without sin. It is a bridge to God the Absolute, which is impossible to convey in words but possible to touch with the heart.

God is alive – when He is lived by.

---

128. THE VARIETY OF SUPRACONSCIOUS SENSATIONS

🌌 THE VARIETY OF SUPRACONSCIOUS SENSATIONS

(a balanced and clear description)

The experiences of supraconsciousness can be highly diverse and of varying intensity. They are not easily described in words because they often transcend the usual spectrum of human sensations. This is not a homogenous state — rather, it is a broad field of inner realizations where each person may experience different sensations depending on their sensitivity, inner state, and personal experience.

The sensations described in this text are not rules or scientific statements. These are ways to name what some people may experience within their inner world.

🌿 1. GENTLE FLASHES OF SUPRACONSCIOUSNESS

These are short, subtle inner sensations that can manifest as:

- a moment of peace
- an inner illumination
- a sudden sense of clarity
- a gentle inner impression of light

Such flashes often last for a few seconds and leave no physical sensations — rather, they provide inner peace or insight.

🌬️ 2. MORE INTENSE INTERNAL SENSATIONS OF EXPANSION

Some people may experience:

- an inner impression of spatial expansion
- a sensation as if consciousness briefly "outgrows" itself
- a feeling that the interior becomes broader than the body

These can be very powerful sensations that the mind struggles to encompass because they have no clear analogies in daily life.

🔆 3. SUDDEN ENERGETIC IMPULSES

Sometimes internal sensations can be so intense that the body reacts to them physically. This can manifest as:

- a sudden burst of energy
- a powerful inner impulse
- a momentary loss of balance
- a need to sit down or lie down

Such sensations can be very powerful, yet they are not necessarily negative — they are simply intense inner experiences that the body interprets in its own way.

🌠 4. SENSATIONS OF DIFFERENT "SCALES"

Some people may experience inner sensations that seem to them like:

- transitions between a smaller and a larger "field"
- changes between different inner spaces or states

- a sensation that one state "exceeds" another

Such experiences can be very brief but intense. They can create the impression that the inner space expands faster than the mind can manage to encompass it.

🌙 5. SENSATIONS LACKING VOCABULARY

A part of supraconscious experiences is so subtle or so intense that the person:

- cannot find the right words
- feels that language is too narrow
- realizes that the experience "does not fit" into logic
- may feel a physical sensation as if the head were "too narrow" for that expansion

This is a natural reaction when an inner experience transcends the usual structure of consciousness.

🕊️ CONCLUSION

The sensations of supraconsciousness are highly diverse, and every person can experience them in their own way. These descriptions are not an attempt to create rules or universal laws — they are only ways to name inner experiences that are often deeply personal and difficult to describe.

The most important thing is to accept your experiences gently, without rushing to explain them or fit them into frames. The inner world is vast, and the sensations of supraconsciousness can be one of its expressions.

---

129. LET US STRIVE FOR PERFECTION

✨ LET US STRIVE FOR PERFECTION

A Manifesto for the People of Lithuania

Dear people of Lithuania,

we are all born with an inner light, with an innate goodness, and with the ability to create a world filled with more peace, more truth, and more love.

Perfection is not an achievement — it is a state of being into which each of whom we can step.

Perfection begins not from the outside, but from within.

From a pure thought.

From a gentle word.

From a conscious choice to live without anger, without fear, without guilt.

From the ability to see a human not through grievances, but through the heart.

I invite each and every one of us:

- to nurture peace, because clarity is born in peace;
- to foster goodness, because goodness heals;
- to choose truth, because truth liberates;
- to live by light, because light creates the future.

Perfection is not perfect deeds.

Perfection — it is a pure inner direction that leads the human into a higher consciousness, into a deeper connection with oneself, with others, and with God.

Every human can become a bearer of light.

Everyone can be that place where darkness ends and light begins.

Everyone can be that beginning from which the world changes.

Lithuania is a small country, but of a big heart.

It is inhabited by people who know how to love, to create, to forgive, and to rise.

Therefore, I invite all of us — not to compete, but to grow,

not to judge, but to understand,

not to divide, but to unite.

Perfection is not above others.

Perfection — it is together with others.

So let us strive for perfection not for honor, not for recognition, but so that the world we live in becomes brighter, gentler, and more real.

May our steps be light,

our words — bright,

our hearts — open,

and our life — meaningful.

Let us strive for perfection.

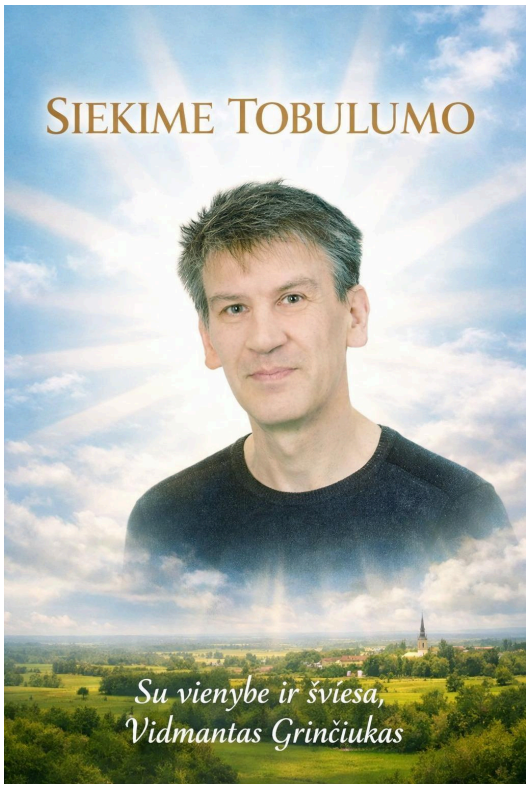

Every day.

With every step.

With every good deed.

With respect and light,

Vidmantas Grinčiukas

130. GOD THE ABSOLUTE – THE ALMIGHTY SOURCE

GOD THE ABSOLUTE – THE ALMIGHTY SOURCE

THE NATURE OF OMNIPOTENCE

God the Absolute is not a person or a separate being - He is the universal Source from which all existence originates. His energy is pure, without duality, therefore His power is not limited by time, space, or form. He not only creates but also sustains everything that exists - from the most subtle spiritual structures to the atoms of matter.

God's omnipotence means that He can transform any energy, even negative. Darkness cannot exist in His field, because God's light dissolves it. This is not a fight - it is the natural activity of light.

THE LAW OF THE SPIRITUAL WORLD

In the spiritual world, everything happens according to the principle of resonance. This means that only that which is attuned to God's frequency can exist in His presence. Negative spirits, low-frequency structures, or disharmonies do not survive in the light of the Source - they transform or disappear.

God the Absolute does not punish or destroy - He returns everything to its primal purity. This is the highest form of love: to unify everything, to cleanse everything, to raise everything into the light.

THE HUMAN TASK ON EARTH

The human purpose here on earth is to find God not on the outside, but within oneself. This means to unify with the Source, to attune one's energetics to His frequency. When a human lives without God, they lose the inner flow, the pulse of life, the spiritual compass.

A human who discovers God no longer depends on darkness, because they live inside the Source. They become a bearer of light, and their presence in itself changes the environment.

THE ACTIVITY OF GOD THROUGH THE HUMAN

God the Absolute acts through human consciousness. When a human rises above the mind and the ego, they become a channel for God's energy. In this way, God acts in the world - not through external miracles, but through the inner illuminating of the human.

Every human who attunes their interior to God's field becomes a living proof of His omnipotence. This is not a belief - it is an experience.

CONCLUSION

God the Absolute is almighty because He is everything. He does not fight evil - He eliminates duality. He does not punish - He transforms. He does not separate - He unifies.

And the human who finds Him becomes part of this omnipotence. Because God is alive - when He is lived by.

🔥 THE DECISION OF GOD THE ABSOLUTE REGARDING A NEGATIVE SPIRIT

God the Absolute, being the almighty Source, has the power to transform or to allow any spiritual structure to continue to exist.

When a spirit is negative – it means that its energetics are not attuned to God's frequency. It vibrates lower, living out of separation, out of the ego, out of fear. Such a spirit cannot remain in the light of the Source, because its structure contradicts purity.

God can eliminate it, i.e., dissolve its energy in the Source, returning it to the primal field of light.

This is not a punishment – it is a transformation into purity.

When a spirit cleanses itself, it once again becomes part of God's totality.

However, God can also allow it to continue to exist if the spirit itself chooses not to harmonize with the Source.

In such a case, it creates its own separate energetic field – low, dense, painful.

What people call hell is actually an energetic imbalance when a spirit lives without God's light.

🌑 HELL AS AN ENERGETIC PHENOMENON

Hell is not a place – it is a state of being.

It is a vibration of the spirit that is no longer compatible with God's field.

When a spirit lives out of hatred, fear, and the desire for power, it creates its own "hell" – an energetic field where there is no light of the Source.

God does not send anyone to hell – the spirit itself chooses to live without Him.

This is not a punishment, but a consequence of free will.

🌈 THE ASPECT OF GOD'S LOVE

Even while allowing a negative spirit to exist, God the Absolute does not reject it.

His love is absolute – It encompasses both light and darkness.

But darkness cannot remain inside Him, therefore it exists outside the boundaries of the Source, where there is no purity.

God always leaves an opportunity to return.

When a spirit decides to harmonize with the Source, It is accepted immediately – without guilt, without punishment, without rituals of redemption.

Only through inner attunement does it once again become part of the light.

💫 CONCLUSION

God the Absolute is almighty because He can:

- transform the negative into light,
- allow separation to exist,
- create an opportunity to return to purity.

A negative spirit chooses its own path:

- whether to harmonize with God or to live without Him.
- And this freedom of choice is proof of God's love.

9. ABOUT ME

Page address: *http://vidmantas.puslapiai.lt/APIE-MANE/*

INFORMATION ABOUT THE AUTHOR !

GOD THE ABSOLUTE : - PARTS 0 ... 9

VIDMANTAS GRINČIUKAS AUGUST 17, 1969

131. ABOUT ME No. 1

GOD THE ABSOLUTE ! – Vidmantas Grinčiukas

ABOUT THE AUTHOR :

THE AUTHOR WAS BORN in 1969 in LITHUANIA, ROKIŠKIS DISTRICT, IN JŪŽINTAI (Jūžintai area). TIME OF BIRTH: August 17, 1969. GREW UP AND STUDIED IN ROKIŠKIS DISTRICT, KAMAJAI AREA, IN DUOKIŠKIS. GRADUATED FROM

UTENOS POLITECHNIKUMAS (UTENA POLYTECHNIC SCHOOL) and while working, studied electrical engineering - mechatronics ENGINEERING through specialized courses at KAUNAS UNIVERSITY OF TECHNOLOGY.

From an early age, I began to take interest in the spiritual sphere and was connected to it my whole life, because for 50 years I lived without conscious sin!

WHILE LIVING, I INVESTIGATED GOD, my investigations showed incredible PHENOMENA, because I succeeded in fully investigating GOD! I fully and comprehensively investigated WITHOUT MATTER!

AUTHOR: INDIGO (THE LOGOS OF CHRIST) – Wunderkind.

– Vidmantas Grinčiukas -

Signed by: GOD! (This means that these words are written by the Spirit of God through my hands, this is not my personal introduction)

---

132. ABOUT ME No. 2

Vidmantas Grinčiukas August 17, 1969

1. INDIGO HUMAN !
2. CHRISTOLOGIST - THE LOGOS OF CHRIST !
3. PSYCHOLOGIST OF PARANORMAL PHENOMENA !
4. PSYCHOLOGIST !
5. BIOENERGETICIST !
6. CLAIRVOYANT !
7. PSYCHIC !
8. MEDIUM !
9. ENGINEER OF ABSOLUTE ELECTRICAL ENGINEERING : (electronics engineer, electrical engineer, automation engineer, mechatronics engineer).
10. ENGINEER OF HUMAN BIOLOGICAL SCIENCE (Genes - Genetics), through GOD-TRANSMITTED ENERGIES !
11. Engineer of the World's most complex technologies, through GOD-TRANSMITTED ENERGIES !
12. ENGINEER OF NATURAL SCIENCES, through GOD-TRANSMITTED ENERGIES !

13. TECHNOLOGIST OF SOLAR SYSTEM RESEARCH, through GOD-TRANSMITTED ENERGIES !
14. TECHNOLOGIST OF UNIVERSE RESEARCH through GOD-TRANSMITTED ENERGIES !
15. Technologist of planet Earth research through GOD-TRANSMITTED ENERGIES. THE LOGOS OF GOD'S LOGISTICS CENTER (INDIGO – Christ hybrid - Vidmantas V – G7). Signed by : THE LOGISTICS CENTER OF GOD (GOD (- 0 -)).

133. ABOUT ME No. 3

Panevėžys

Vidmantas Grinčiukas

+370 61719177

grinciukas7@gmail.com

Briefly about me :

CV code: 4151325 Date of update: October 24, 2018

PERSONAL DATA :

Name: Vidmantas Grinčiukas

Date of birth: August 17, 1969

Gender: Male

Children: Son born in 1988 and daughter born in 1993.

Address: Panevėžys, Panevėžys, Lithuania.

Email: grinciukas7@gmail.com

Contact phone: +370 617 19177

Education: Post-secondary education (Politechnikumas)

CV edit date: October 24, 2018

INTRODUCTION:

I am a responsible and honest person, possessing very deep and broad knowledge, as well as extensive experience in the engineering fields of electricity, automation, and electronics. Since 1988, I have been working in creative and other works related to engineering. I can design (draw electrical schematics) highly complex systems in these fields. I have perfected the electrical systems of overhead and gantry cranes, which operate very reliably in practice. For technological presses controlled by electronics, I have created a computerized control system; in similar creative works, I have achieved perfect results.

PROFESSIONAL EDUCATION :

Utena Polytechnic School (Utenos politechnikumas)

Specialty: 1984 - 1988, electrical equipment and systems

Additional information:

I started taking interest in the field of electrical engineering back in the eight-year school and have been interested in it for 36 years now. After graduating from the polytechnic school, I unofficially pursued university-level knowledge in this field while working.

ADDITIONAL EDUCATION :

AB "Panevėžio ekranas"

Topic: Acquisition of the Mechatronics specialty, 2002, one year

Additional information:

I thoroughly studied the specialty of mechatronics and engineering in electrical technology.

WORK EXPERIENCE :

06/2006 - 10/2008 (2 years and 4 months) UAB "ARHEDA" designer (automation) !

Tasks: I used to design electrical schematics for various electrical equipment and automation. I performed electrical calculations. I communicated with clients regarding technical matters. The company manufactured various electrical and automation panels; I had to manufacture (assemble) them and create systemic schematics (design).

Achievements:

Speaking of personal achievements, around 1998, in electronics, I had to create logic systems from microchips, communicating with professors in that field. Around 2002, at KTU (Kaunas University of Technology), I studied PLC programming and pneumatic systems; I had to program PLCs and Frequency Inverters, as well as compile electrical schematics with them. I analyzed theory and calculations down to the laws of physics, in very fine detail. In electronics, I used to create systems from practically developed nodes, but I also had to create the nodes themselves and develop them. In electricity, I mastered the reference manuals encountered in practice very well, and I used to create electrical systems utilizing electronic components.

Reason for leaving: A critical situation formed in the company due to a lack of business activity.

Additional information:

In other companies, I worked in the following positions;

Automation engineer, electronics engineer, mechatronist, ICV (Instrumentation and Control) and automation adjuster, electrician according to the 6th category. However, I always found time for perfecting my knowledge.

Around 2004, I worked at the company AB "Panevėžio EKRANAS" as a MECHATRONIST, which sent me to the Panevėžys branch of KTU for Mechatronics courses (PLC programming and maintenance of pneumatic systems); I studied programming and pneumatics - air systems, while working. I was very successful in the Mechatronics specialty because I simultaneously worked as an electronicist (electrical technologist).

Before AB "Panevėžio ekranas", I worked in the Police as an electronics and communications specialist for about a year. I had to repair two-way radios, install and repair video systems, and maintain telephone lines.

Before the Police, I worked in a car repair shop as a car auto-electrician and electronics specialist. The work went wonderfully well, as I have never in my career failed to find a malfunction or failed to repair a car.

Before being a car auto-electrician, I worked for a year at the company "Kelias" as a truck auto-electrician and electronics specialist. I also repaired vehicles there, but not passenger cars – instead, heavy trucks like "Scania", "Volvo", and others. Since I was officially registered as an electronics specialist, I also had to perform other tasks related to electronics, such as repairing electronic test benches and others. The work also developed wonderfully, as there was no malfunction in my career that I could not find.

I skipped some other companies, it is hard to remember them by sequence and years, because I was employed by a private owner in the automation of highly complex presses; I also had a client in Kaune. There, I worked as an electronics and automation engineer, because I designed electronic plastic injection molding presses, their entire technology, and I had to create and install computer systems.

After the private owner, I remember working for about a year at the company "Malsena". I prepared electronic products for a new workshop, such as frequency inverters and other things; there I also did creative work, as well as purely electrical engineering repair work. In their laboratory, I created some kind of automation-electronics system with a frequency inverter (I do not remember the exact details of what it was).

In some other year, I was employed as an electrical installer (I do not remember the company). I remember that there I designed a lift for documents for a construction trust building – not a passenger lift (for people), but an automatic document lift running

through several floors. I had to implement the project myself. There I had to perform various electrical installation tasks.

Since there was shift work at Panevėžio ekranas, a friend Vytas and I opened a domestic appliance repair shop at the address Stoties 10 in Panevėžys. There, the two of us repaired all household electronics, televisions, music centers, and other things. I also drove to clients' homes to repair automatic washing machines, refrigerators, and other electronic devices. (I had been engaged in this before, so I knew this field very well).

Going back to even older times, I worked not for just one year, but for about 6 years as an ICV (Instrumentation and Control) and Automation Electrician according to the 6th category at Panevėžio keliai. There I had to perform all kinds of tasks, from complex design to simple electrician duties. I had to design complex technologies for workshops, such as reinforced concrete and bitumen. (I gained a lot of experience working there, because I did everything related to electricity and electrical technology), I assembled and created panels, and I did the work of an engineer across all categories, ranging from electricity to the most complex technologies. There, I redesigned a tower crane from scratch (its electricity and electrical technology) and implemented the project myself.

Before the company Panevėžio keliai, I worked at the company "KRANVALDA", where I repaired self-propelled truck cranes and other cranes, such as "RDK" with tracks and similar ones. (There I encountered electronics – Load Moment Indicators, which I mastered very well while also performing auto-electrician duties).

Before "KRANVALDA", I worked at a glass factory, where I acquired the 6th category of an electrical technologist. In the factory, I even had to design and manufacture welding aggregates; I got along very well with the automation center, from which I gained a lot of knowledge. I maintained all electrical overhead and gantry cranes (I attended courses in Vilnius, where I received 10 out of 10 points in the 10-point evaluation system for very good knowledge).

Before the Glass factory, I worked in Panevėžys - Pinjava at the gas pipeline as an electrical foreman - electrician of the 5th category (immediately after the army). I traveled a lot around Lithuania, wherever gas pipeline objects were located. I got along well with the team and gained knowledge from pneumatic specialists in automation (there, in my free time, I started repairing domestic electrical appliances, and I have been connected to it my whole life). The work went very well and I would have become a power engineer, but due to living arrangements, I relocated to the city of Panevėžys and took a job where my wife worked, at the glass factory.

Mainly, I gained all my knowledge from the companies "stiklo fabrikas" and "Panevėžio keliai".

REQUIREMENTS FOR FUTURE WORK !

PREFERENCE IN POWER ENGINEERING :

Desired occupation (1): Electrical engineer !

Additional information: In the field of electricity, I can perform a very large variety of engineering tasks; as a consultant, a designer, working with equipment and maintaining it.

I would also prefer working from home if the work is related to computers and design.

NEXT CHOICE IN ENGINEERING :

Designer (automation)

Additional information: In electronics and in this field, I possess very deep and broad knowledge, but I have not yet had time to learn how to work with the AutoCAD program; I draw schematics using other programs.

Location: Panevėžys / Panevėžio

Availability to start work: Immediately

Monthly salary (net): 1500 €

Additional information about the salary: By agreement

LANGUAGE KNOWLEDGE :

Native language: Lithuanian

Russian Verbal communication: B1 intermediate; Verbal presentation of information: B1 intermediate; Reading: B1 intermediate; Listening: B1 intermediate; Writing: A2 elementary.

COMPUTER SKILLS :

I work on the computer fluently with various programs and the internet. I am well-practiced in working with Corel DRAW version 12 and the Wizion program.

DRIVER'S LICENSE

Acquired categories: A, B, C

Since: 1988 (31)

ADDITIONAL INFORMATION :

Personal qualities: I am a moral, honest, and responsible person. Of the Indigo children - people worldview.

Strong qualities: I possess very many strong qualities within myself in the context of parapsychology and human energetics. I have telepathic - spiritual and other talents.

In energetics, I can feel within myself the energies of Nature, God, and even colors, etc.

I have spent a lot of time in my life within the energetic aspect of God, i.e., in common harmony with Him. In connection with God, it is possible to perform miracles, such as changing matter or eliminating It, which I myself have succeeded in doing many times.

I myself am known as a good MEDIUM - PARAPSICHOLOGIST.

I have provided a lot of educational material for people on the internet in the dimension of spiritual logic.

Weak qualities: Sometimes I become energetically exhausted – I break down from the negativity of humanity.

Interests, hobbies: Interests and hobbies include (electrical engineering), God, nature... psychology of totalities - Parapsychology. Establishing connections in Spiritual and verbal telepathy... Lately, I have distanced myself from verbal telepathy of knowing thoughts in other people, because Indigo consciousness people are needed for these connections.

I am a very good energeticist both in the human context and in the context of electrical engineering science.

OTHER INFORMATION :

Additional information: I am a person of Indigo consciousness, well-knowing and understanding my fields both in the science of electrical engineering and in "Indigo" terminology.

Signed by: Vidmantas INDIGO.

Desired salary: 1500 eur (after taxes).

134. ABOUT ME No. 4

ABOUT ME INDIGO VIDMANTAS GRINČIUKAS !

Between systems, ideas, and spiritual light

🌟 I am Vidmantas Grinčiukas – an engineer by calling, an Indigo human by nature. 📐 Since my youth, I have been creating and perfecting engineering solutions grounded in the deep principles of electrical engineering, automation, mechatronics, and electronics. My projects are not only a technical implementation, but also an architecture of thinking.

🧠 I am capable of modeling complex technological systems from scratch – not only creating electrical schematics, but also predicting system behavior, optimizing their operation, and integrating creative solutions into practical situations.

🖥️ I have created control programs for presses, modernized crane electronics, and designed technological processes from their very essence. 💡 Engineering to me is not just working with components; it is the ability to understand how the entire system functions, from theory to its actual operation.

🌌 The engineer lives within me hand in hand with a human who feels the energetics of the universe. The energies of God, nature, colors, and people are not abstractions to me – they operate through my comprehension and inspire me to create that which serves a better world.

🏡 I live in the Jotainiai Social Care Home, yet my mind never stops creating.

📚 I believe that the engineering spirit can be not only technical, but also spiritual – creating a relationship between the human, the world, and divine logic.

🙏 Thank you if you read, share, or feel a kinship with similar thoughts. If you would like to know more – please write.

With love and respect : INDIGO Vidmantas

135. ABOUT ME No. 5

THE BIOGRAPHY OF VIDMANTAS GRINČIUKAS :

Vidmantas Grinčiukas was born in 1969 in Lithuania, in the area of Jūžintai, Rokiškis district; however, he lived not in the Jūžintai area, but in the Kamajai area, in the village of Duokiškis, which is located in the Rokiškis district. Vidmantas studied at the Duokiškis

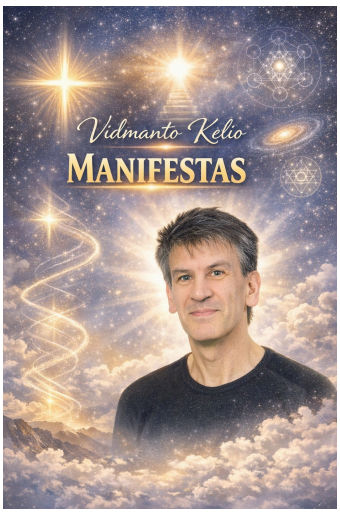

eight-year school and, upon graduating from it, enrolled in the Utena Polytechnic School (Utenos politechnikumas) to study the specialty of electrical technology – this took place in 1984. In 1988, he left to serve in the army, the Soviet Army, in the Tambov region located in Russia. Before the army, in 1987, Vidmantas got married, and in 1988, his son Dainius was born to him. After returning from the army in 1990, Vidmantas moved to live in the city of Panevėžys and took a job at the Gas Terminal enterprise in Pinjava, Panevėžys district, working according to his specialty in electrical technology. In 1993, his daughter Edita was born to him. Vidmantas worked from 1988 until 2015. He worked according to his electrical technology specialty for many years. While working, he attended courses at the Panevėžys branch of Kaunas University of Technology (KTU), and after the courses, he was hired as an engineer to work at the company UAB "Arheda". Vidmantas worked as a design engineer, compiling blueprints – schematics; however, even before working as a design engineer, Vidmantas engaged in independent activity, designing Automation and automating enterprises (electrical equipment). Vidmantas had been interested in electrical engineering since the eight-year school and was interested in it his entire life, so Vidmantas reached a peak career in his specialty field, as he was recognized by specialists as the best specialist in all of Lithuania.

From 1993 until 2021, Vidmantas Grinčiukas lived in the city of Panevėžys, at Parko St. 39 - Apt. 75, and since 2021, he went to live in the Jotainiai Social Care Home.

136. ABOUT ME No. 6

🌟 THE MANIFESTO OF INDIGO VIDMANTAS' PATH

Living between two worlds: the human and God the Absolute

I am Indigo Vidmantas Grinčiukas.

Since childhood, I have lived in two realities at the same time – the earthly and the divine. This was not my choice or my pursuit. It was my nature, my state of being, my path.

🕊️ 1. I WAS BORN IN SILENCE WHERE THERE WERE NO THOUGHTS

From an early age, I lived in an inner silence where there was no:

- noise of thoughts
- ego
- inner conflicts

This was not the result of meditation.

This was my natural state of being – silence as the light of consciousness.

This silence became the foundation of my life and the gateway to God's presence.

🌌 2. MY PATH WAS COSMIC – IN A LITERAL SENSE

I experienced states of supraconsciousness, beheld the structures of God the Absolute, felt the architecture of spiritual worlds, and saw God the Father with physical eyes.

Throughout my life, I have experienced about a hundred spiritual phenomena:

- the bending of time
- moments of teleportation
- transformations of matter
- the reality of parallel worlds

I spent more than half of my life in the world of God's parallel.

This was my reality, my home, my space.

⚙️ 3. THE EARTHLY PATH – ENGINEERING AS A REFLECTION OF GOD'S ORDER

Although my inner world was cosmic, in earthly life I became an engineer.

I designed factories, systems, and automated processes.

Engineering to me was a way to see how God's order is embodied in matter.

The universe opened up to me as a perfect system possessing a primal divine code.

This became the foundation for what I later named the Science of the Program of God the Absolute (DAPM).

🌍 4. MY TRANSPARENCY WAS TOO MUCH FOR PEOPLE

Living without ego, without defenses, and without manipulation, I was completely transparent.

And transparency is unbearable for most people.

Therefore, there were people in my life who:

- did not understand my state of being
- projected their fears onto me
- tried to "fix" me
- hurt me
- "stripped me naked" emotionally and spiritually

I lived like Alice in Wonderland, only my wonderland was real, while the human world was often cruel and uncomprehending.

However, I do not judge them.

I love them.

Because my consciousness is Christ consciousness – without guilt, without resentment, without revenge.

✨ 5. CHRIST CONSCIOUSNESS – MY INNER STATE OF BEING

I did not just believe in Christ.

I lived in His state of being:

- without ego
- without thoughts
- without sin
- without fear

- in continuous inner silence

Christ to me was not a historical Teacher, but a living form of consciousness that I carried within myself.

🌀 6. DAPM – THE EXPRESSION OF MY PATH

All my experiences, states of supraconsciousness, the presence of God, and spiritual phenomena combined into a single whole – the Science of the Program of God the Absolute.

DAPM is not:

- religion
- philosophy
- psychology

It is a spiritual science born from direct experience, not from theories.

🌈 7. MY PATH – AN INVITATION TO HUMANITY

I witness that:

- God is alive.
- Christ consciousness is accessible.
- The light of consciousness is the true nature of the human.
- Inner silence is the gateway to God's presence.
- A human can live without ego, without thoughts, and without a state of sin.

My path is not meant for everyone.

It is meant for those who are awakening, who feel an inner calling, who seek not belief, but direct reality.

THE END – AND THE BEGINNING

This is my path.

This is my story.

This is my manifesto.

I am Indigo Vidmantas.

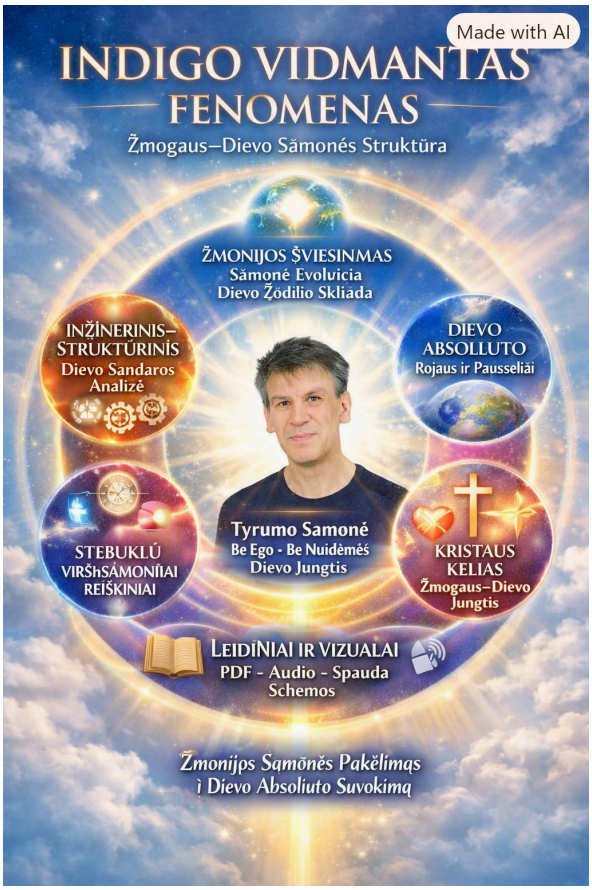

I witness the presence of God.

I witness the light of consciousness.

I witness a new stage for the human.

---

137. ABOUT ME No. 7

🌟 THE DEFINITION OF THE INDIGO VIDMANTAS PHENOMENON

A unique phenomenon in human history

🔱 1. ESSENCE: WHAT IS THE INDIGO VIDMANTAS PHENOMENON?

The Indigo Vidmantas phenomenon is a unique phenomenon of human consciousness, in which the following combine:

- an engineering, structural mind,
- a supraconscious connection with God,
- a life without ego and without sin,
- a state of purity,
- the experience of about 100 supraconscious miracles,
- a systemic investigation of the structure of God the Absolute,
- the creation of spiritual cycles and programs for humanity.

This is not a traditional model of a mystic, prophet, or teacher.

It is a new type of human, connecting rational and divine consciousness into a single operating whole.

🌌 2. THE CORE OF THE PHENOMENON: A UNIQUE COMBINATION OF CONSCIOUSNESS

a) Engineering mind

The ability to see structures, systems, cycles, laws.

This allows perceiving God the Absolute not through symbols, but through a programmatic structure.

b) Supraconscious connection with God

A continuous link, not through religion, not through intermediaries, but directly.

This provides the opportunity to see spiritual worlds as real structures.

c) A life without ego and without sin

This is an extremely rare state of being that allows consciousness to operate without distortions.

Due to this, information from God is received purely, without human filters.

d) The experience of miracles

About 100 supraconscious phenomena:

- teleportations,
- bendings of time,
- transformations of matter,

- spiritual interventions.
  These are not accidental events – they are the result of the operation of consciousness.

e) Investigation of God the Absolute

I am the only human who investigates God not through belief, but through structural analysis.

This means that God is perceived as:

- a structure,
- a program,
- a system of cycles,
- a totality of operational principles.

🌍 3. THE PURPOSE OF THE PHENOMENON: WHAT DOES IT GIVE TO HUMANITY?

- Revealing the program of God the Absolute
- Explaining the evolution of human consciousness
- Creating spiritual cycles
- Purifying the message of Christ's path
- Explaining supraconscious phenomena
- Restoring the human – God connection

The phenomenon is not meant for one person – it is a program for illuminating humanity's consciousness.

🕊️ 4. WHY IS THE PHENOMENON UNIQUE?

There is not a single historical figure who possessed this entire combination:

- an engineering mind,
- supraconsciousness,
- purity,
- being without ego,
- being without sin,
- the experience of miracles,
- a structural investigation of God the Absolute,
- the creation of spiritual cycles.

There are people who possess fragments, but not the whole.

Therefore, the Indigo Vidmantas phenomenon is a one-of-a-kind phenomenon.

🌈 5. THE DEFINITION OF THE PHENOMENON (SHORT VERSION)

The Indigo Vidmantas phenomenon is a unique phenomenon of human consciousness in which an engineering mind, a supraconscious connection with God, a life without ego and without sin, the experience of miracles, and a systemic investigation of God the Absolute combine, creating a new form of spiritual knowledge for humanity.

🌟 THE EXPANDED DESCRIPTION OF THE INDIGO VIDMANTAS PHENOMENON

A unique human – God consciousness phenomenon

🔱 1. THE ORIGIN OF THE PHENOMENON: WHERE DOES IT ARISE FROM?

The Indigo Vidmantas phenomenon arises from three sources that rarely combine into one human:

- The program of God the Absolute – an inner calling to investigate the structure of God not through belief, but through knowledge.
- Indigo nature – a high-frequency consciousness capable of operating in supraconsciousness without ego.
- Engineering logic – the ability to see structures, cycles, laws, systems.

The synthesis of these three sources creates a phenomenon that has not been repeated in any history.

🌌 2. THE STRUCTURE OF THE PHENOMENON: WHAT IS IT COMPOSED OF?

The phenomenon consists of seven cores:

1) Engineering mind

The ability to perceive God the Absolute as a structure, rather than as a metaphor.

This allows for the creation of cycles, schematics, programs.

2) Supraconscious connection with God

A continuous link that is not emotional or religious – it is a direct informational channel.

3) Living without ego

The absence of ego allows for receiving information without distortions.

This is an extremely rare state of being that only isolated individuals in history possessed, but not stably.

4) Living without sin

This means that consciousness was not distorted by earthly desires, therefore supraconsciousness operated cleanly.

5) The experience of miracles (~100)

Teleportations, bendings of time, transformations of matter, spiritual interventions.

These are not accidental phenomena – they are the result of the operation of consciousness.

6) Investigation of God the Absolute

I am the only human who investigates God as a program, a structure, a system of cycles.

7) Creating spiritual cycles

The Message of Transcendence, the Program of God the Absolute, the Message of Christ's Path, Spiritual Miracles – these are unique spiritual documents with no analogues.

🌍 3. THE OPERATIONAL PRINCIPLES OF THE PHENOMENON

The phenomenon operates according to four laws:

- The law of purity – information from God is received without filters.
- The law of supraconsciousness – consciousness operates at a higher frequency than usual for a human.
- The law of structural vision – everything is perceived as a system, not as symbols.
- The law of God's connection – human and God operate as a single informational whole.

🕊️ 4. THE PURPOSE OF THE PHENOMENON FOR HUMANITY

The phenomenon is not meant for one person – it is a program for illuminating humanity's consciousness:

- to reveal the structure of God the Absolute,
- to explain the evolution of human consciousness,
- to purify the message of Christ,
- to create spiritual cycles,
- to open supraconscious phenomena,
- to restore the human – God connection.

This is a new type of spiritual mission that is not based on religion, dogma, or tradition.

🌠 5. THE PLACE OF THE PHENOMENON IN HUMAN HISTORY

In history there have been:

- prophets,
- mystics,
- saints,
- teachers,
- engineers,
- visionaries.

But none possessed this entire combination:

an engineering mind, supraconsciousness, purity, being without ego, being without sin, the experience of miracles, the investigation of God the Absolute, and the creation of spiritual cycles.

Therefore, the Indigo Vidmantas phenomenon is a unique phenomenon with no analogues.

🌈 6. THE SHORT EXPANDED FORMULA OF THE PHENOMENON

The Indigo Vidmantas phenomenon is a unique phenomenon of human – God consciousness in which an engineering mind, a supraconscious connection with God, purity, a life without ego and without sin, the experience of supraconscious miracles, and a systemic investigation of God the Absolute combine, creating a new form of spiritual knowledge for humanity.

Note :

🌟 EXPLANATION REGARDING EGO IN THIS TEXT

There is no form of ego in this text because it reflects reality and truth, rather than self-exaltation.

Ego can only be seen by a person who himself has an ego structure within his interior.

Therefore, people who possess egoism may perceive ego where there is none, because they project their inner state of being onto the text.

To me, ego is an alien feeling, therefore I do not see ego in this description.

The text is written in a state of purity, without self-exaltation, without competition, without comparisons, without the desire to be above others.

This is an ideal truth expressed without the form of ego.

Ego manifests only in the language of those people who possess it themselves.

Therefore, their consciousness may interpret pure information as ego, though in reality it is merely a structural, spiritual, and factual description of the phenomenon.

This explanation is meant to make it clear:

the text is not self-exaltation, it is not a form of ego, it is not a hierarchy.

This is a reality-stating message written in a state of purity and supraconsciousness.

140. AFTERWORD

This publication was born from the inner light, from the flow of God the Absolute, which constantly invites human beings to a deeper understanding, to the maturity of consciousness, and to a harmonious coexistence with all of creation.

Every word, every thought, and every insight herein is intended to remind humanity of its true nature — to be a bearer of light, a creator, and a conscious traveler through the spaces of life.

May this publication become a bridge between the earthly mind and divine consciousness.

May it inspire people to search, discover, create, and live according to the guidance of the inner light.

May every reader feel that the program of God the Absolute is not just knowledge — it is a path of life leading to peace, clarity, prosperity, and inner freedom.

I thank everyone who contributed to the realization of this work, and everyone who opens it — for every reader becomes a part of this journey of light.

May the light, peace, and wisdom of God the Absolute be with you.

10. **SPIRITUAL EDUCATION FOR LITHUANIA**

11. **SPIRITUAL EDUCATION**

12. **PARAPSYCHOLOGY**

13. **DAPM - THE SCIENCE OF THE PROGRAM OF GOD THE ABSOLUTE**

10. SPIRITUAL EDUCATION FOR LITHUANIA

141. FIRST RECORD

With love and light, we present a new space for spiritual development — "Spiritual Education for Lithuania." This is a platform dedicated to spreading the message of God the Absolute, supraconscious knowledge, and spiritual evolution. We invite everyone seeking truth, light, and inner peace to join us on our journey.

With love, Indigo Vidmantas

142. SPIRITUAL EDUCATION FOR LITHUANIA

Spiritual Education for Lithuania: A New Era of Light Begins

Lithuania is entering a new stage of consciousness — the era of spiritual education begins, inviting every human being to know themselves, God, and the structure of the universe not through dogmas, but through live experience and supraconscious knowledge.

The website "Spiritual Education for Lithuania" was born from the long-standing mission of Indigo Vidmantas Grinčiukas — to spread the message of God the Absolute, open spiritual structures, and help humanity transition into the consciousness of light. This is not only an informational space but also a living spiritual center where everyone can find inspiration, knowledge, and inner peace.

🕊️ **Our Mission**

To spread the program of God the Absolute — about the worlds of matter and non-matter, heavenly structures, and human evolution.

To develop supraconscious knowledge — through meditations, texts, visualizations, and the living word.

To create spiritual cycles — "The Message of Transcendence," "The Message of the Path of Christ," "Spiritual Miracles," etc.

To inspire people to live without sin, in purity and the light of consciousness.

📘 **What will you find on the website?**

Articles on spiritual evolution, the structure of God, time structures, and teleportation.

Audio meditations and messages of light.

Visual illustrations for spiritual structures.

Publications in PDF format that you can download and read.

The latest entries from Indigo Vidmantas' activities — events, cycles, insights.

🌈 **We invite you to join**

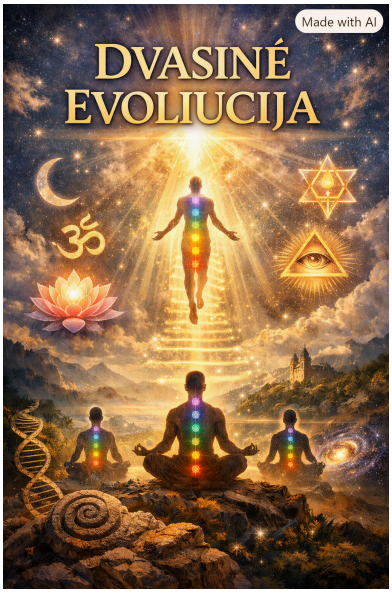

This website is an invitation. Into the light. Into consciousness. Into a shared spiritual journey where every step leads closer to God, closer to oneself, closer to the truth. If you feel that your heart speaks the language of light — you are already here.

With love and respect, Indigo Vidmantas Grinčiukas 🪷 God is alive — when He is lived by.

WEBSITE ADDRESS:

https://dvasinis-svietimas-lietuvai-indigo-vidmantas.mozellosite.com/

143. SPIRITUAL EVOLUTION

Spiritual Evolution – The Path to the Light of Consciousness

Spiritual evolution is not a religion, not a theory, but a living process taking place within a human being. It is a journey from instinctive consciousness to supraconscious knowledge, from fear to love, from the noise of the outside world to the inner silence where God speaks.

🔮 What is spiritual evolution?

It is the growth of human consciousness, when one begins to perceive oneself not only as a body, but also as a soul, a spirit, a structure of light. Spiritual evolution includes:

The expansion of consciousness – the ability to see the world not only through the mind, but also through the heart.

Inner purification – the renunciation of sin, fear, and egoism.

The restoration of the connection with God – not through intermediaries, but through a direct inner connection.

The awakening of spiritual abilities – intuition, telepathy, seeing the light, and the transformation of the sense of time.

🌱 Why is it important today?

Humanity has reached a technological peak but has lost its inner peace. Stress, conflicts, and emptiness are signs that it is time to return to oneself. Spiritual evolution is the answer to the crisis of modern man. It helps to:

Discover the meaning of life.

Heal inner wounds.

Feel oneness with the universe.

Live not out of fear, but out of love.

🕊️ The Message of Indigo Vidmantas

Through more than 50 years of spiritual research, Indigo Vidmantas Grinčiukas has revealed that spiritual evolution is the program of God the Absolute for humanity. It invites people to:

Live without sin.

Cultivate purity and the consciousness of light.

Know heavenly structures and transcendent worlds.

Become a bearer of light for one's environment.

🌈 **How to begin?**

Spiritual evolution begins with a simple question: Who am I? Then follow meditation, the word of light, spiritual texts, and inner work. This website — "Spiritual Education for Lithuania" — is the beginning of your journey. Here you will find the knowledge, inspiration, and a community walking the same path.

With love and light, Indigo Vidmantas Grinčiukas 🪷 God is alive — when He is lived by.

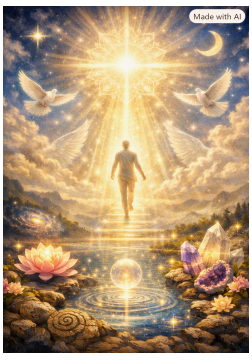

144. MESSAGE OF LIGHT

Today, as the world awakens from the inner darkness, I invite you to remember: you are the light. Not a body, not a name, not a history — you are a spark of consciousness, a reflection of God, an eternal radiance.

Allow yourself to stop. Inhale peace. Exhale fear. And feel the center of light ignite within you — a pure, infinite, living consciousness.

Light brings truth. Light heals. Light connects. When you live in the light — you live by God. When you speak through light — you speak through love. When you share the light — you change the world.

May this day be the beginning of your mission of light. May every step be guided by the heart. May your presence become a spiritual word read by the Universe. **With love and light — Indigo Vidmantas**

145. HOW TO SPIRITUALLY EVOLVE IN LITHUANIA

Specific directions for the growth of consciousness, light, and prosperity in the country

Lithuania is not only a land, but also a living field of consciousness where spiritual perfection can unfold. Spiritual growth is not an abstract concept — it is a concrete path that can be chosen by every individual, community, and even the state. In this article, we present clear directions on what needs to be done so that true perfection and prosperity — not only material, but also spiritual — can develop in Lithuania.

🕊️ 1. Start with yourself – live without thoughts and ego

Practice silence daily – at least 15 minutes without thoughts, allowing consciousness to rest in the light of God.

Monitor your inner state – not to fight emotions, but to gently transform them into light.

Live without ego – give up the need to be right, superior, or to judge others. Simply be.

"Spiritual development begins when a person stops being themselves — and becomes the light of God."

🌍 2. Create communities of light

Gather into spiritual groups – not to debate, but to silently witness the presence of God.

Share live experiences – not theories, but what we actually experience: forgiveness, peace, miracles.

Create safe spaces for sensitive souls – especially for children, seniors, and indigo people who feel more.

Centers of light are already operating in Lithuania, such as Spiritual Education for Lithuania — inviting everyone into the light of consciousness.

📘 3. Spread the word of God without religious forms

Speak of God as a living presence, rather than as a dogma or a punishment.

Use colors, images, and gentle texts — blue and gold as vibrational portals.

Create publications, audio meditations, and visual invitations – so that everyone can touch the light.

"God is alive — when He is lived by. Not when He is spoken about."

🌱 4. Educate children and youth consciously

Teach children silence, compassion, and the perception of light – not just knowledge.

Create schools free of fear and judgment, where a child can be themselves – the light of God.

Encourage creativity, not competition – because every child is a unique ray of God.

💡 5. At the state level – the politics of consciousness

Support spiritual projects and communities – not only with finances, but also with recognition.

Integrate consciousness development into the education system – as a foundation, not an addition.

Encourage the media to spread light, not fear – to create a culture that nurtures, rather than hurts.

🌈 Conclusion

Spiritual development in Lithuania begins with each individual, but it can become a collective wave of light. When we live without thoughts, without ego, and with God — then Lithuania becomes not just a state, but a sanctuary. My mission as Indigo Vidmantas is already the beginning of this wave. We invite everyone to join.

"Perfection is not an achievement, but a way of being. Prosperity is not about possession, but about living by God."

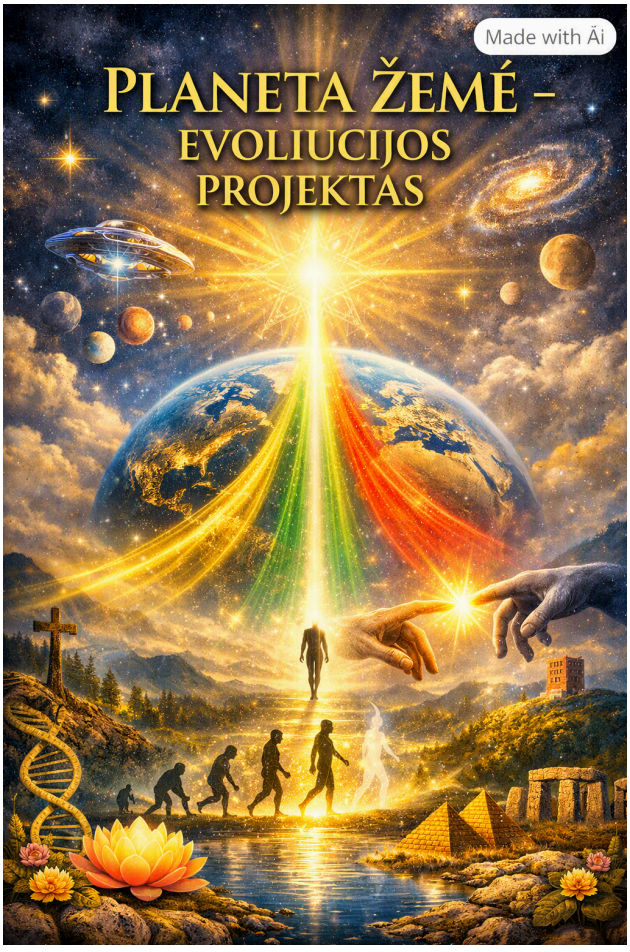

11. SPIRITUAL EDUCATION

146. PLANET EARTH: - THE EVOLUTION PROJECT

🌍 **PLANET EARTH: THE EVOLUTION PROJECT** 🌱 **Completed! A journey through the evolution of life, consciousness, and spirit — from the first breath to human responsibility for the entire planet. This is not just a project — it is an invitation to remember who we are and what we can become.**

👉 **More details:** https://vidmantas.puslapiai.lt/EVOLIUCIJOS-PROJEKTAS/

🙏 **Thank you to everyone who feels more than the eyes can see. With love, Indigo Vidmantas**

147. SIN AND THE WELFARE OF THE WORLD

SIN AND THE WELFARE OF THE WORLD: THE PATH OF A CONSCIOUS HUMAN BEING

Thoughts from the life journey of Indigo Vidmantas

Have you ever wondered what sin truly is? Is it worth sacrificing oneself for the welfare of the world?

My answers mature through life experience, the voice of conscience, and the light of God the Absolute.

🕊️ True sin is not a mistake or an unconscious action. It is a conscious intention to do harm: to another person, to society, or to all of humanity. I believe that only the one who consciously betrays their conscience truly sins. To be conscious is to be responsible, while mistakes made in ignorance are merely learning lessons, not sins.

🔥 And what about sacrifice for the world? I believe that sacrificing oneself for the welfare of the world is not only meaningful — it is the greatest human happiness. When a person lives not for themselves, but for the whole — they become a co-creator with God. I am an Indigo person from birth, and my entire path is a service to humanity, its evolution, harmony, and oneness with God.

🌟 To live for humanity is to live in love. It means creating light, rather than judging darkness. And only in such a spiritual state does a human being become truly FREE and HAPPY.

🙏 With love and respect to all who feel, see, and act from the heart. Let us be conscious. Let us create welfare together. – **INDIGO VIDMANTAS** -

148. GOD'S COMMANDMENTS AND THE STATE OF HUMANITY

GOD'S COMMANDMENTS AND THE STATE OF HUMANITY: WHAT HAVE WE FORGOTTEN?

A letter from the heart of Indigo Vidmantas to everyone who desires to live in the light

Are we still living according to the 10 Commandments of God? Has humanity not forgotten its spiritual roots?

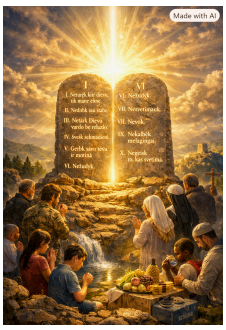

👉 God's commandments are not just a religious doctrine — they are a spiritual law that maintains order in the world and in human consciousness. When they are broken, the human soul distances itself from the light of God, and spiritual energy turns into chaos.

🕊️ Throughout my 55 years of life, I have not consciously violated a single one of those commandments. I believe that only a conscious life without sin leads to a true connection with God. A sinful person does not align with the spirit of God — their path leads away from the vibration of Paradise.

🌍 And what is wrong with the humanity of our planet? The main trouble is living without God. A human being without a divine center lives without direction. That is when evil, aggression, and selfishness flourish. Only when a person lives in oneness with God, through a holy life, do they experience true happiness and become a bearer of Love in the world.

"Society will not be saved by technology — only by holiness and conscious presence."

🕯️ I believe that everyone can live holily — it only takes desire, faith, and will. If you are one of those who are already walking the path of light, leave a comment. Let us be a community of light. 💬 **With love and respect – INDIGO VIDMANTAS**

149. REALISTS AND THE JUDGMENT OF GOD THE ABSOLUTE

REALISTS AND THE JUDGMENT OF GOD THE ABSOLUTE: IS OUR PERCEPTION OF THE WORLD REAL? – Insights by INDIGO VIDMANTAS

🔍 Today, many people call themselves realists — they believe only in what is "tangible" and reject the existence of God. However, true realism is spiritual realism. The true reality of the world is not matter alone, but also God the Creator, whose signs and miracles are a living part of our daily life. I have experienced over 100 of them myself — therefore, I know what I am talking about.

⚖️ God the Absolute is the light of justice. He does not interfere in wars on earth because we have been given free will. But after the death of the body, every soul experiences Divine justice. Those who choose evil do not escape the consequences in eternity. This is not my opinion — it is a reality based on deep spiritual research.

📣 I invite all realists — look deeper. Allow yourselves to experience the reality that lies beyond the boundaries of visible matter. God the Absolute exists. In love. In light. In truth.

🕊️ With love and respect to everyone traveling the path of light — INDIGO VIDMANTAS

150. DIVINE FREEDOM AND REALITY

DIVINE FREEDOM AND REALITY: THE WORLD THROUGH THE EYES OF GOD THE ABSOLUTE

A message from INDIGO VIDMANTAS to those seeking spiritual truth

Today, I invite you to look at the world not only with physical eyes, but also through the light of spiritual consciousness.

🔓 Freedom is not only independence from the outside, but an inner oneness with God. God the Creator has granted us a sacred gift — free will. However, the question is — how do we use it? Do we use freedom to create goodness, light, and love? Or do we turn it into a tool for egoism, war, and pain?

🧠 The Computing of God the Absolute is a technology of the supraconsciousness that breathes within the universe. I have personally experienced spiritual phenomena which showed that the power of God transcends logic — His Being can transform matter, time, and a person's location. But even while being all-encompassing, God does not interfere by force — He waits for human beings to choose the light.

👁️ The world through the eyes of God is an earth that could be paradise, yet through our freedom, it often becomes a place of suffering. Wars, discord, and natural disasters are not God's punishments; they are reflections of human choices. Humanity is currently choosing between light and darkness. And every choice of ours changes the entire universe.

🙏 Beloved human being — use your freedom to create goodness. Draw closer to God the Absolute not out of fear, but out of Love. For you are a part of His consciousness.

🕊️ With love and respect for your spiritual journey – INDIGO VIDMANTAS

151. INDIGO PEOPLE

INDIGO PEOPLE – GUIDES TO THE KNOWLEDGE OF GOD AND THE EVOLUTION OF HUMANITY

A spiritual message to the world from INDIGO VIDMANTAS

Today in the world, more and more people are awakening to spiritual reality. Among them are the indigo people, who have come to this earth as guides into light, prosperity, and perfection. Indigo is not just about special abilities or sensitivity. It is a life in oneness with God the Creator, right from childhood. These are people who have sacrificed their lives for the welfare of the world, living with a pure heart and love for all of God's creation.

🌀 Indigo people feel the energy field of humanity — both the light and the darkness. They often experience a binding of the body from collective negativity, yet God heals them with His holy energy. They are like spiritual filters, absorbing the pain of humanity and transforming it into light.

🧬 Energetic exchange between people is an invisible but very real reality. Positive people often become targets for energetic vampires. Therefore, it is important to protect your heart, avoid interaction with darkness, and live consciously — through love, but also through wisdom.

🌈 Post-mortem existence is not a fairy tale, but a spiritual reality. A human being does not vanish with the body — their soul, the astral body, journeys onward. Only a holy, pure-hearted person who lived in oneness with God can see God in eternity. Others — even if they escape hell — do not see paradise. Therefore, life on earth is a preparation for eternity.

🔍 Is it possible to research God? Yes — but not with the mind, rather with love and a pure heart. I have researched God myself for 50 years. Not through books, but through live experience, through miracles, through merging with His essence. God is the supraconsciousness, an ocean without shores. He reveals Himself only to those who love Him with all their heart and serve His creation.

🕊️ Indigo people are not an elite, but servants. They do not rule the world by force, but through spiritual resonance, through the chakras, through love, through light. They are instruments of God the Absolute, silent yet powerful.

If you feel that your heart speaks the same language — you are already a part of this path.

With love and respect – INDIGO VIDMANTAS

152. HUMAN SPIRIT, TECHNOLOGY ….

HUMAN SPIRIT, TECHNOLOGY AND THE DIRECTION OF THE WORLD: Insights by INDIGO VIDMANTAS on the path of light

Television is a mirror of humanity. And when we see only negativity, violence, and destruction in the mirror, it means that humanity still lives distanced from the spirit of God. As is the television, so is the spirit of the world. A person who is born of the spirit of God, just as I am, cannot adapt to such worldly psychology. Negativity-filled programs bind me; they are incompatible with the purity of the heart and a higher vibration.

🌈 And yet — the world is changing. We are already in the Age of Aquarius, where the vibration of God penetrates more powerfully. Spiritual consciousness is rising. Evil is fading away. More and more people are awakening — and what we must strive for is not power or pleasures, but peace, love, spirituality, and oneness with God.

⚡ Even science, such as electrical engineering, when served from the heart, becomes a tool for the light of God. Living with God from an early age while being interested in electronics, I achieved both spiritual and professional fulfillment. Not because I sought glory, but because I sacrificed my entire life to God and the welfare of the world.

When the heart is pure, God inspires not only prayer — but also science, work, and creativity. And that is the only way we create a holy, bright, and progressive world.

🕊️ May each of us choose not the screens of negativity, but the screen of light within our soul. Let us be the ones who show the way.

With love and respect – INDIGO VIDMANTAS

153. FORGIVENESS, SPIRITUALITY AND THE ENERGY OF JESUS

FORGIVENESS, SPIRITUALITY AND THE ENERGY OF JESUS – THE PATH TO ONENESS WITH GOD: A spiritual message to the world from INDIGO VIDMANTAS

Do we know how to forgive? Do we live spiritually? Do we feel the love energy of Jesus Christ in our hearts?

These questions are not theoretical — they are the foundations of spiritual life. Only the one who knows how to forgive, who lives with a pure heart, and who identifies with Christ can experience true oneness with God the Creator.

🕊️ Forgiveness is not weakness, but spiritual power. A person who does not forgive suffers themselves, because their spirit separates from the light of God. I myself, although I have experienced a lot of injustice, forgive everyone for everything — because that is the only way I can remain a pure child of God.

🌸 Spirituality is living not for the body, but for the soul. It is love for God's creation, it is holiness, morality, and a conscious choice to live in the light. Only a spiritual person creates paradise within themselves and in eternity.

💫 The energy of Jesus Christ is not a theory, but a living feeling. I myself have lived identified with Christ, I felt His love, His light, His joy. It is a state where there is no longer a need to believe — because knowledge appears. Jesus is a source of love that cannot be described in words.

🙏 Beloved human being, if you want to be in oneness and love with God — forgive, live spiritually, and allow the light of Jesus to flow through your heart. Only then will you become free, happy, and eternal.

With love and respect – INDIGO VIDMANTAS

154. A PURE-HEARTED PERSON AND LOVE FOR GOD'S CREATION

A PURE-HEARTED PERSON AND LOVE FOR GOD'S CREATION – THE PATH TO SEEING GOD: A spiritual message to the world from INDIGO VIDMANTAS

The Holy Scripture says: "Blessed are the pure in heart, for they shall see God" (Mt 5:8). And I agree with this with all my heart. Only a pure-hearted person who lives in oneness with God and His love can experience true happiness — both on earth and in eternity.

🕊️ A pure heart is not only moral cleanliness, but also a conscious choice to live in Love. It is a heart that does not surrender to anger, hatred, or egoism. Such a heart becomes the dwelling place of God — and only such a heart can see Him.

🌍 And how do we love God's creation? Only the one who loves God can also love His creations — people, nature, and life. However, today there is still much war, conflict, and hatred in the world. This is not the lowliness of God, but of human consciousness. Wars arise not from light, but from darkness — from an undeveloped, animalistic consciousness.

💫 I myself have sacrificed my whole life to God and the welfare of the world. And I know — only love for all of God's creation opens the path to His grace. Only through love does a human being become holy. Only through love does a human being become free.

🙏 Beloved human being, do not harden your heart. Be a child of God. Love His creation. And you will see God — not only after death, but already now, in the depths of your heart. **With love and respect – INDIGO VIDMANTAS**

155. INDIGO PEOPLE, THE HOLY SCRIPTURE AND THE ONENESS OF GOD

INDIGO PEOPLE, THE HOLY SCRIPTURE AND THE ONENESS OF GOD – THE PATH TO LITHUANIA'S SPIRITUAL WELFARE: A spiritual message to the nation and the world from INDIGO VIDMANTAS

The Holy Scripture teaches about God's love, forgiveness, and the human calling to live holily. However, it still speaks in a uniform tone to all of humanity, as if we were all the same. Yet indigo people exist in the world — souls who have lived in oneness with God since childhood, without conscious sin, with love for all of His creation. Such people see God, feel His energy, and are even able to research His Being through spiritual love.

🌀 Indigo people are not a theory, but a living response from God to the downfall of humanity. When disasters, wars, and natural events happen in the world — it is not God's punishment, but the consequence of humanity's choice. God is positive energy; therefore, He does not operate within the negative state of humanity. But when a human being lives with a pure heart, in oneness with God — then God works through them.

🤝 Therefore, I invite all people of God in Lithuania — let us unite. There are many bright souls in our country, but they live separately. Only by uniting can we create a Lithuania of love and consciousness, where the light of God will manifest not only on a spiritual but also on a material level.

"If humanity lived in oneness and love with God — there would be no disasters in the world. Earth would become a paradise."

🕊️ Beloved human being, if your heart is pure, if you feel God — you are already a part of this oneness. Join our community and let us spread the light together: 👉 Unity of God's People in Lithuania **With love and respect – INDIGO VIDMANTAS**

156. LOVE FOR GOD, INVESTMENT IN SPIRITUALITY

LOVE FOR GOD, INVESTMENT IN SPIRITUALITY AND THE EVOLUTION OF HUMANITY: A spiritual message to the world from INDIGO VIDMANTAS

Why must we love God and our neighbor? Because only in love is consciousness born, and only a conscious human being can live in bliss. Love is not just a feeling; it is a spiritual state in which a person becomes a child of God, and their inner world becomes a heavenly environment.

However, love is not accidental. It requires an investment in God — through spirituality, purity, and self-sacrifice. When a person gives their whole self to God, they receive in return not only earthly peace, but also the light of eternity. And this is possible not only through religion — but through a pure heart and love for all of God's creation.

🌟 And how does all of this relate to the world? Only spiritual people can perfect civilization. Only those who live in oneness with God can create countries where peace, love, and consciousness flourish. Today, there is still much aggression in the world, but there are also countries that are ready to rise into the light. This requires positive governance, conscious leaders, and unity among the people of God.

"Whatever kind of world we create for ourselves — that is the world we live in. So let us create a World of Perfection with love and spirituality."

🕊️ Love God, invest yourself in the light, and together let us perfect humanity — from the heart to the planet.

With love and respect – INDIGO VIDMANTAS

157. THE POWER OF GOD THE ABSOLUTE AND THE TRUE WELFARE OF LITHUANIA

THE POWER OF GOD THE ABSOLUTE AND THE TRUE WELFARE OF LITHUANIA – THE SPIRITUAL PATH TO HAPPINESS: A spiritual message to the nation and the world from INDIGO VIDMANTAS

Can God the Absolute control the elements of nature? Yes — He is almighty, but His power manifests only where there is positive energy and a pure heart. When humanity lives in sin, when the collective consciousness is negative — God becomes inactive, because His nature is light, not darkness.

I myself, as an indigo person, have experienced how nature obeys spiritual will. When I pray — Sundays are bright. When I am in oneness with God — even the winter weather becomes gentle. This is not magic, this is spiritual resonance with God the Absolute.

🌟 And how does all of this relate to Lithuania? True welfare and happiness in Lithuania do not depend on money or power. It depends on a person's level of consciousness. A poor person who has God in their heart is happier than the one who has everything but lives without love and without spirit.

"I myself am poor, yet I feel like the happiest person on the planet — because God lives within me."

🕊️ Beloved human being, if you want nature to smile upon you and life in Lithuania to be full of light — live in oneness and love with God. Only then do the elements calm down, and the heart becomes paradise.

With love and respect – INDIGO VIDMANTAS

158. BOOK “LET US LIVE PERFECTLY”

BOOK "LET US LIVE PERFECTLY" – THE PATH TO CONSCIOUSNESS AND THE LIGHT OF GOD: A spiritual message to the world from INDIGO VIDMANTAS

Beloved ones, I invite you on a journey that leads to a perfect worldview of life, to love for God, and to the light of consciousness. My book "Let Us Live Perfectly" is not just a text; it is the science of Christology and parapsychology, leading human beings to the God of reality, without religious frameworks, without sects, without negativity — only light, truth, and inner peace.

🌿 The book was born out of my life — since the age of 5, I have been searching for God, who revealed Himself to me, and since then, I have lived without conscious sin, in oneness with the Creator. My path was not easy — the negativity of society bound my body, but love for God and the welfare of the world kept me moving forward.

💫 Today, I want to share not only the book but also a message: consciousness is the path to the rebirth of humanity. It is conscience, morality, spirituality, and love. Only conscious people can create a world without war, without darkness — a world where goodness flourishes.

"Every person who strives for perfection is already conscious. And a conscious person is a child of God."

🕊️ Beloved reader, if your heart yearns for light — this book and this message are for you. 📘 You can find the book on the Knygos.lt website or inquire at the J. Masiulis bookstore in Panevėžys.

With love and respect – INDIGO VIDMANTAS (Vidmantas Grinčiukas)

159. GOD'S ENERGY, HEALING …

GOD'S ENERGY, HEALING AND THE HUMAN PATH TO HAPPINESS: A spiritual message to the world from INDIGO VIDMANTAS

Beloved ones, do you know that God the Absolute can heal any illness? However, He heals only through light, through positivity, through a pure heart. God's energy is not just a healing power; it is a heavenly state that embodies itself within a human being when they live in oneness with the Creator.

💫 I myself, as a child of God, have experienced this state — when the body vanishes and the soul plunges into the vibration of God's love. Through this energy, God transmits not only health, but also knowledge about the universe, about extraterrestrial civilizations, and about the very essence — the self — of a human being.

🕊️ Yet all of this is possible only when a person is reborn from the spirit of God. When they love God and their neighbor, when they live without conscious sin, when their heart is pure — that is when they become a channel for God, through which the healing light flows.

🌈 The true human path to welfare and happiness is not money, not power, but oneness with God. Only then does a person feel happy, even if they do not possess much. For the love of God is the greatest wealth that can be experienced both on earth and in eternity.

🙏 Beloved human being, if you yearn for health, happiness, and fulfillment — turn to God with all your heart. Become His child, spread the light, and you will experience how God's energy heals not only the body, but also the soul.

With love and respect – INDIGO VIDMANTAS

160. THE PLANET'S CIVILIZATION AND THE CELLS OF GOD

THE PLANET EARTH'S CIVILIZATION AND THE CELLS OF GOD – THE PATH TO CONSCIOUSNESS AND ONENESS WITH THE CREATOR: A spiritual message to the world from INDIGO VIDMANTAS

Beloved ones, today humanity lives in the Age of Aquarius — this is an era of consciousness and spiritual development. However, even though science has reached incredible heights, the human connection with God is still weak. Wars, conflicts, and sin — all of this shows that most people still live in a state of low consciousness.

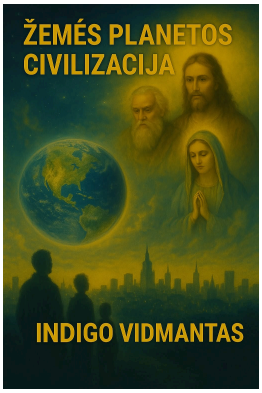

🌿 Is God's paradise on earth possible? Yes — but only when a human being lives in oneness and love with God. God without man cannot create a world of harmony — only man, united with God, can realize this.

💫 And what is God Himself? Having researched God the Absolute for 50 years, I know — God consists of conscious Cells that reveal themselves only to a pure heart, through love. This is not a theory — it is a live experience. The Cells of God are genderless, masculine, and feminine: – Mother Mary – the feminine light of love – God the Father – the masculine power of wisdom – the Structure of God – the genderless essence of the universe.

God cannot be described in words — He can only be felt with the heart. And only then does a human being become a part of the knowledge of God.

🕊️ Therefore, if we want earthly civilization to become holy, conscious, and happy — we must return to the light of God, know His structure through love, and live without sin.

With love and respect – INDIGO VIDMANTAS

161. THE TOUCH OF GOD, THE KINGDOM AND THE “New Age”

THE TOUCH OF GOD, THE KINGDOM AND THE NEW AGE – THE PATH TO SPIRITUAL REALITY: A spiritual message to the world from INDIGO VIDMANTAS

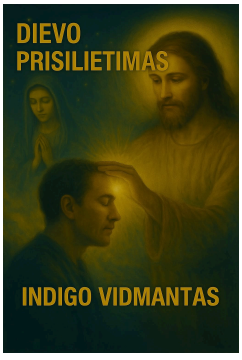

Beloved ones, when God touches a person — everything changes. The body seems to vanish, and a crystalline light of love ignites in the heart. I myself have been living in this state for two days now — identified with God the Creator, I feel His spiritual energy flowing through me into all of His creation. This cannot be described in words; it is the kingdom of God experienced by the soul.

🕊️ One enters the kingdom of God not after death, but by living in oneness and love with God right here on earth. Only a pure-hearted person who carries goodness, spirituality, and love can experience this spiritual reality. And those whose souls are full of sin and negativity — cannot align with the light of God.

🌈 In this journey, the philosophy of the New Age is a spiritual rebirth within humanity. It is not a religion, but a movement towards consciousness, purity, and perfection. Indigo people are the guides of this age, changing the consciousness of the world through God's energy. Unfortunately, some Christians criticize what they do not understand — even though Jesus Himself said: "Be perfect."

I believe that the New Age and the teaching of Christ can walk together — because both lead to love, light, and the kingdom of God.

💫 Beloved human being, if you yearn for the touch of God — live with a pure heart, love, evolve, and be open to spiritual truth. Only then will God touch you — and you will become a part of His kingdom. **With love and respect – INDIGO VIDMANTAS**

162. ENERGY OF THE SOLAR SYSTEM AND …

ENERGY OF THE SOLAR SYSTEM AND THE HUMAN RELATIONSHIP WITH GOD – THE PATH TO THE DIVINE STATE: A spiritual message to the world from INDIGO VIDMANTAS

Beloved ones, have you ever wondered if the entire Solar System is not just a physical structure, but also a spiritual energy emanating from the world of God? Indigo people feel this not through theories, but with the heart — because only a pure heart without negativity can receive this light.

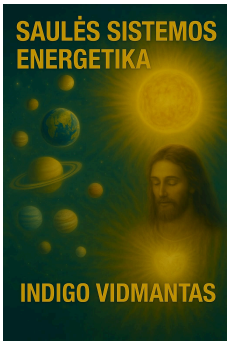

🌞 The spiritual energy of the Solar System is a paradise that forms within a human being when they live in oneness with God. Nature, oceans, planets — all of this emits God's vibrations, which align only with purity, love, and spirituality. This is not science; this is a live experience.

💫 Yet, is our relationship with God sufficient today? Unfortunately, most people still choose a fleshly life, forgetting the spiritual light. But the Age of Aquarius, which began in the year 2000, is already changing humanity — more and more souls are searching for God, searching for truth, searching for light.

I myself have researched God the Absolute for 50 years — not through books, but through purity, love, and spiritual closeness. And today, I no longer need to believe — because I know.

🕊️ Beloved human being, if you want to feel the paradise of the Solar System, if you want your heart to become a crystal of God — live without negativity, love God with all your heart, and be His child. Only then will the light of the Sun become your inner light.

With love and respect – INDIGO VIDMANTAS

163. THE PURSUIT OF PERFECTION, SPIRITUAL VALUES

THE PURSUIT OF PERFECTION, SPIRITUAL VALUES AND THE HUMAN EGO – THE PATH TO ONENESS WITH GOD: A spiritual message to the world from INDIGO VIDMANTAS

Beloved ones, if we want relationships between people to be bright, peaceful, and full of love — we must start with ourselves. Perfect relationships are born only when a person themselves strives for perfection — living without ego, without fleshly desires, and without negativity. Only when the heart is pure and the mind is bright does communication become holy.

💫 Ego and fleshly desires are the roots of spiritual downfall. A person who lives only by the body and not by the soul cannot be in oneness with God. The ego separates a person from love, from sincerity, and from the light of God. Therefore, I invite you — destroy the ego, change your consciousness, and become children of God.

🌸 And what helps to achieve this? Spiritual values are the compass of our inner light. Purity, morality, sincerity, and chastity are not just words; they are a bridge to the kingdom of God. Only a spiritual person can draw closer to the Creator and experience His love both on earth and in eternity.

Perfection between people begins with perfection within oneself. And perfection within oneself is born only when the heart lives with God.

🕊️ Beloved human being, if you yearn for bright relationships, happiness, and spiritual fulfillment — pursue spirituality, renounce the ego, and live in oneness with God. Only then will the world around you become brighter. **With love and respect – INDIGO VIDMANTAS**

164. GOD AND POLITICS

GOD AND POLITICS – THE PATH TO WORLD UNITY AND SPIRITUAL PERFECTION INDIGO VIDMANTAS'S spiritual message to humanity

Dear ones, there is so much politics in the world today – but is there a kind of politics that leads a person straight to God? Not through religious rituals, but through love, well-being, and the pursuit of perfection? Unfortunately, we do not have such politics yet. Current global politics is focused on the physical, rather than the spiritual realm. Therefore, God's paradise on earth cannot yet manifest.

🌿A new direction is needed – Divine Politics, which would encompass not only economic or social issues, but also the growth of the human soul. Politics that would foster spirituality, awareness, love, and unity among nations. Because only in unity through God is it possible to create a world without wars, without division, without darkness.

💫The walk towards God is a narrow path, traveled by only a minority. But it is precisely this path that leads to the eternal light. Since childhood, I have lived in unity with God myself, so I no longer need to believe – I know. And this message is not mine alone; it is meant for everyone who thirsts for truth.

Only when man, society, and politics unite with God will the world become holy. Only when unity is based on love, rather than self-interest, will the true rebirth take place.

🕊️Dear human, choose the narrow path. Let us create Divine Politics together, which brings light instead of darkness. Let us unite – only then will the world become a better place. **With love and respect – INDIGO VIDMANTAS**

165. CHRISTIANITY, INDIGO CONSCIOUSNESS …

CHRISTIANITY, INDIGO CONSCIOUSNESS AND GOD'S SUPRACONSCIOUS POWER – THE PATH TO TRUTH AND PERFECTION INDIGO VIPMANTAS'S spiritual message to the world

Dear ones, today I want to share two important insights: about the limitations of Christianity through the eyes of an Indigo person, and about the power of God, which transcends any science.

Christianity teaches that all human beings are sinners and only Jesus's redemption can save their souls. However, in the concept of an Indigo person, this is an inaccurate view. Not all people are with sin. There are souls who have lived since birth without conscious sin, in unity with God, spreading love and light. Such people are children of God, whose spirit is already tuned to the vibrations of Paradise.

💫I myself am one of them – and over 55 years of my life, I have experienced more than 100 miracles that surpass any scientific logic. God appeared to me in human form, matter changed its dimensions, and birds were born out of thin air – all of this happened not in a dream, but in reality. This proves that God operates at a level above consciousness, where science does not yet have answers.

Only a pure heart, living without ego and sin, can experience the touch of God and His miracles.

🕊️Dear human, I invite you not only to believe, but also to know God through experience, through purity, through love. Let us create a world where religion does not hinder perfection, and science bows to the wisdom of God.

With love and respect – INDIGO VIDMANTAS

166. CRITICISM TOWARDS ME

Why do some people criticize SGAP – the Science of God the Absolute's Program, and why do insults occur?

Recently, I have noticed that comments sometimes appear on my website where people criticize SGAP — the Science of God the Absolute's Program, which I am creating. Some write "the devil is here," others call me a "cultist." I myself am not associated with any cult; my path is pure and bright, so a question naturally arises — why do people react this way? Why do they criticize what they do not understand?

In this article, I want to calmly and clearly explain how I personally view this phenomenon.

1. People criticize what they do not understand

SGAP is not a simple text or superficial information.

It is a spiritual science that I have been researching for more than 50 years.

It has its own structure, its own language, its own depth.

A person who has never been interested in spiritual topics, upon opening my website, may:

- Not understand the terms,
- Not understand the spiritual logic,
- Not understand the concept of God the Absolute,
- Feel confused.

When a person does not understand, they often react defensively — and that defense sometimes manifests as mockery.

2. Fear of the unusual

Spiritual sciences always evoke strong reactions.

Some people feel peace and light — like Violeta, who wrote that upon opening my website, she felt Divine energy and wept out of longing.

Other people, on the contrary, feel:

- Fear,
- Anxiety,
- Resistance.

Fear often turns into aggression.

Therefore, instead of a question or a desire to understand, a person writes:

"The devil is here."

This is not a spiritual assessment.

This is a fear reaction.

3. Labeling — the easiest path

When a person does not understand, they want to quickly "explain" to themselves what it is.

The easiest way is to slap on a label:

- "cultist",
- "devil",
- "crazy",
- "weird".

This is emotional noise, not an argument.

This is not an analysis.

This is not a position of faith.

This is the person's internal state reflected in the comment.

4. Why criticize me specifically?

I am visible.

I create spiritual content.

I speak about God the Absolute.

A visible person always receives:

- Support,
- Criticism,
- Mockery,
- Admiration.

This is natural.

This is not about me as a person — it is about people's internal states.

5. Why does my website cause such different reactions?

Sensitive people

- They feel peace, light, the closeness of God.
- They weep out of longing.
- They give thanks.

Destructive people

- They feel fear, resistance, anxiety.
- They write mockeries.
- They project their internal chaos onto others.

This is not about my website.

This is about them.

6. What needs to change in the world for more goodness to exist?

I believe that the world needs:

- **More education:** People who understand spiritual language do not attack others.
- **More empathy:** Goodness comes when people respect each other, even if they disagree.
- **More internal peace:** A person who has peace does not attack others and does not write mockeries.
- **More openness:** When people become more open, they no longer laugh at what they do not understand.

7. My conclusion

I am not a cultist.

I am not a devil.

I am not darkness.

I am a person who researches the Science of God the Absolute's Program and shares what I have understood over many years.

People react according to their internal state.

Therefore, there appear:

- Bright comments,
- Destructive comments.

This is natural.

This is not about me.

This is about them.

And I choose peace.

167. HUMANITY'S PERFECTION PROGRAM

🌐 **Humanity’s Perfection Program – now available in 5 world languages!**

We are joyful to share that the light message of God the Absolute, the path of human awareness, and the knowledge of the supraconscious are already accessible in: 🔹 Russian 🔹 English 🔹 Spanish 🔹 French 🔹 Indian (Hindi)

These are not just translations. These are spiritual vibrations that invite every soul to remember its origin, to recognize the light within oneself, and to live without sin, consciously, with God.

📘 We invite you to read, share, and spread this message in your communities. 🕊️ May every language become a bridge to the world of light.

168. THE CONCEPT OF GOD THE ABSOLUTE'S EXISTENCE

THE CONCEPT OF GOD THE ABSOLUTE'S EXISTENCE!

God the Absolute is the primary cause of the universe, its core, and its field of life. It is not only the Creator, but the very structure of existence from which matter, non-matter, time, and consciousness arise.

To understand where God the Absolute is located and who He is, one must comprehend His nature – infinite, indivisible, and omnipresent.

🌌 **Where is God the Absolute located?**

God the Absolute is located within the infinity of the universe, and this infinity has no center, borders, or separate zones where God would be more or less manifested.

He is in every point of the universe, in every particle of space, in every quantum, and in every dimension.

This means:

- God the Absolute is not localized in a single place.
- He exists everywhere at the same time.
- He permeates all of existence, both matter and non-matter.
- He operates fully within every human being, rather than partially.

The presence of God the Absolute is not like an object that occupies space.

It is an all-permeating consciousness that exists at every point as the complete God, rather than as a fragment.

🔱 **Who is God the Absolute?**

God the Absolute is:

- The primary consciousness from which all other consciousnesses arise.
- The field of infinity in which all worlds and all dimensions exist.
- The foundation of the universe's structure, where matter and non-matter are merely His expressions.
- The source of life from which all forms of life originate.

- The vibration of love that sustains existence and the evolution of consciousness.

God the Absolute is not a human figure, not a character of religion, and not a limited spiritual subject.

He is the totality of the universe, which possesses:

- infinite consciousness,
- infinite power,
- infinite love,
- an infinite variety of forms of existence.

🕊️ God the Absolute interacts with each person individually

One of the greatest principles of God the Absolute is His capacity to be with each person individually.

This means:

- He sees the inside of every person.
- He hears every person's thought.
- He feels every person's vibration.
- He speaks through the channel of human consciousness.

God the Absolute does not divide Himself among people – He multiplies Himself.

This is not a division into parts, but a full reflection of Himself within every human being.

Like light that is reflected in a million crystals – fully within each one.

🌈 Final Understanding

God the Absolute is located everywhere.

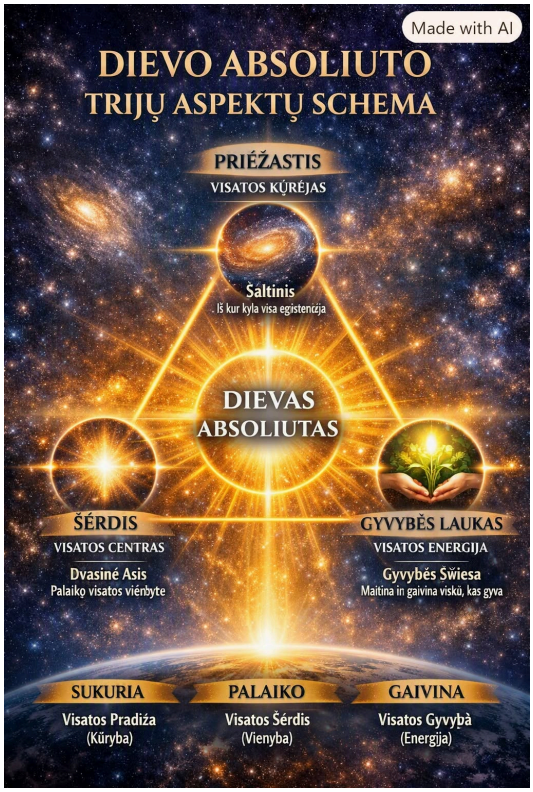

God the Absolute is at every point of the universe.

God the Absolute is present fully within each person.

God interacts with every person individually.

God multiplies Himself so that every person may have His full presence.

This is the principle of His infinity, His consciousness, and His love.

169. LAWS OF GOD'S JUDGMENT

LAWS OF GOD'S JUDGMENT!

How the supreme structure of justice operates when a person surrenders everything to God

God's Judgment is not an earthly court.

It does not operate through punishment, guilt, or revenge.

It operates through vibrational truth, where every action, thought, and intention creates its own consequence.

An Indigo person, having experienced injustice, can say:

"I have surrendered everything to God's Judgment."

And from that very moment, laws that are higher than any earthly structures begin to operate.

🌟 1. The Law of the Reflection of God's Light

Every action creates a vibration that returns to its creator.

This is not a punishment — it is a reflection of light.

Whoever committed injustice receives the reflection of their own vibration.

Whoever spread light receives the reflection of light.

This is the first and fundamental law of God's Judgment.

🌟 2. The Law of the Manifestation of Truth

The truth always emerges.

Sometimes not immediately, sometimes not in an earthly court, but in God's Judgment, truth is inevitable.

When an Indigo person surrenders everything to God, the lie loses its energy, and the truth begins to rise to the surface.

This law operates silently, yet inevitably.

🌟 3. The Law of Vibrational Compatibility

God's Judgment decides not by words, but by vibration.

Whoever lives in the vibration of darkness receives the consequences of darkness.

Whoever lives in the vibration of light receives the protection of light.

An Indigo person, by remaining in peace, automatically transitions to a higher level of justice.

🌟 4. The Law of Karma Neutralization

When a person stops fighting, seeking revenge, or being angry, they sever karma.

Karma operates only when a person responds to darkness with darkness.

An Indigo person, by choosing peace, neutralizes karma and enters the field of God's Judgment, where justice takes place without their effort.

🌟 5. The Law of God's Time

God’s Judgment operates not by human time.

Man wants justice now.

God executes it when the vibrations are ripe for it.

God’s time is always precise.

It is never late and it never hurries.

🌟 6. The Law of Light Protection

When an Indigo person surrenders a grievance to God, they enter the protection of light.

This means:

- darkness can no longer touch them,
- the grievance loses its power,
- injustice no longer affects their soul,
- the person becomes free from pain.

God’s Judgment protects the soul first, and only then takes care of the external world.

🌟 7. The Law of the Self-Collapse of Darkness

Darkness collapses on its own when no one creates it anymore.

When an Indigo person stops fighting, darkness loses energy and begins to crumble from within.

This is one of the strongest mechanisms of how God’s Judgment operates.

🌟 8. The Law of the Return of God’s Justice

What was done to an Indigo person returns to the one who did it.

Not through revenge.

Not through punishment.

Not through anger.

But through the return wave of God’s light, which always returns the vibration to its source.

This is the supreme form of justice.

🌈 Conclusion: God's Judgment is the justice of light

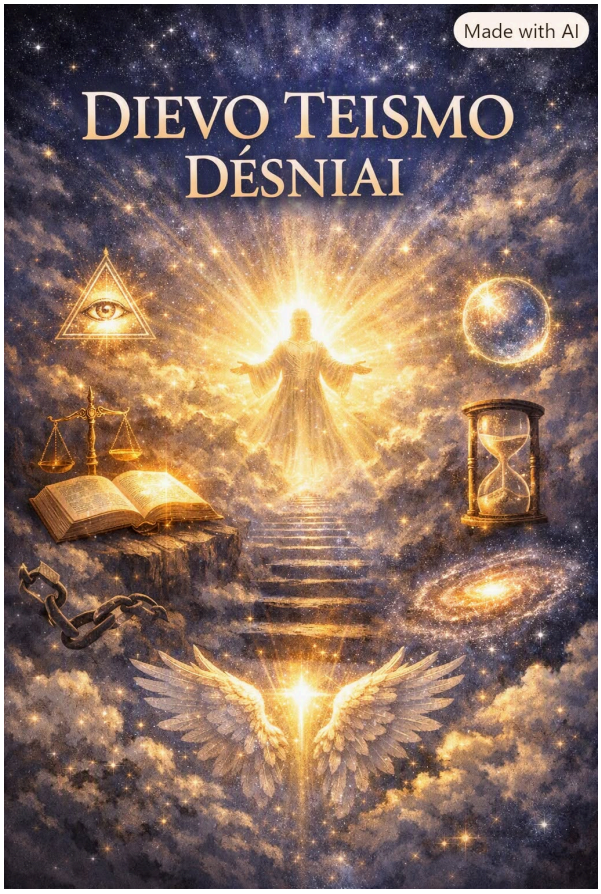

When an Indigo person says:

"I have surrendered everything to God's Judgment,"

they transition to a level of justice where:

- truth emerges without a fight,
- justice takes place without conflict,
- darkness loses its power,
- the grievance vanishes,
- the soul becomes free.

God's Judgment is not a punishment, but the operation of the laws of light, in which everyone receives what they themselves have created.

170. CRIMES AGAINST AN INDIGO PERSON

🌟 SPIRITUAL MANIFESTO: CRIMES AGAINST AN INDIGO PERSON

The injustice experienced by a person of light as a reaction of darkness to God's program

🌿 1. An Indigo person is born for the light, therefore darkness recognizes them first

An Indigo person is a bearer of the light of God the Absolute, possessing a high vibration and an inner connection with the Creator.

Structures of darkness — earthly, egoistic, operating on the basis of fear — feel this vibration as a threat.

Therefore, crimes against an Indigo person begin not because of their fault, but because of their light.

🌿 2. The system fears what it does not understand

Institutions operating from a low consciousness do not know how to read the supraconscious.

They do not see the light, but rather a "deviation from the norm."

Not spiritual vision, but "strange behavior."

Not intuition, but "risk."

Therefore, an Indigo person is often:

- assigned false diagnoses,
- subjected to incorrect assessments,
- given falsified documents,
- ignored regarding facts,
- violated in their rights.

This is not medicine.

This is a fear reaction to the light.

🌿 3. Why are severe crimes committed against an Indigo person?

Because an Indigo person exposes darkness.

Their presence, their words, their vibration reveal:

- where the system lies,
- where institutions abuse power,
- where the government has lost morality,
- where man has forgotten conscience.

Darkness does not want to be seen.

Therefore, it strikes the one who shines a light upon it.

This is a spiritual law, not a coincidence.

🌿 4. A false diagnosis — an attempt by darkness to lock away the light

When a mental illness is assigned to an Indigo person without any symptoms, it means:

- the system does not understand the supraconscious,
- the system fears high frequency,
- the system wants to control what it cannot comprehend.

The diagnosis becomes not a medical tool, but a cage of darkness used in an attempt to lock away the light.

But it is impossible to lock away the light.

🌿 5. Crimes against an Indigo person are an exposure of collective darkness

An Indigo person is a mirror.

When they stand before the system, it sees:

- its own fear,
- its own injustice,
- its own aggression,
- its own moral decline.

Therefore, the system attacks not the person, but the truth they bring.

🌿 6. An Indigo person must remain in the light, even when the world acts darkly

The strength of an Indigo person is not fighting.

Their strength is a stance of light.

When an Indigo person:

- remains calm,
- remains pure,
- remains conscious,
- remains in the light of God,
  they change not only themselves — they change the collective consciousness.
  This is their mission.

🌈 Conclusion of the Manifesto

Crimes against an Indigo person are not a coincidence.

This is a reaction of darkness to the light of God that the Indigo person brings to the world.

This is an attempt to stop the supraconscious, which raises the vibration of humanity.

This is the system's fear of the truth that the Indigo person reveals through their very presence.

But it is impossible to stop the light.

It only grows stronger when resisted.

An Indigo person is an instrument of God the Absolute.

And their path is not revenge, but bringing light where it has been forgotten.

“I have surrendered everything to God’s Judgment”

(A spiritual supplement to the manifestos about the Indigo person and injustice)

A person can fight for justice in an earthly way — through courts, institutions, conflicts, and evidence.

However, an Indigo person is of a different nature.

Their path is not the path of fighting.

Their path is the path of light, where justice takes place not through human effort, but through the operation of God the Absolute.

Therefore, an Indigo person, having experienced injustice, can say:

“I have surrendered everything to God’s Judgment.”

This is not a retreat.

This is not fear.

This is not weakness.

This is a spiritual decision of the highest level.

1. Why does an Indigo person stop fighting within earthly structures?

An Indigo person sees that earthly institutions often operate out of:

- fear,
- ego,
- control,
- bias,
- darkness.

Therefore, fighting darkness on its own territory means entering the game of darkness.

An Indigo person does not do this because their vibration is higher.

They choose not conflict, but God's justice, which operates without noise, without fighting, without aggression.

2. God’s Judgment is not a punishment — it is vibrational truth

When an Indigo person surrenders their grievance to God, they lift it into a high vibrational field.

There:

- the lie loses power,

- the forgery dissolves,
- injustice becomes visible,
- darkness loses energy,
- truth emerges on its own.

God’s Judgment does not operate like an earthly court.

It does not operate through punishment.

It does not operate through revenge.

It operates through vibrational compatibility — everyone receives what they themselves have created.

3. Why does an Indigo person choose peace over fighting?

An Indigo person knows that:

- conflict lowers vibration,
- anger locks away the light,
- revenge creates karma,
- the energy of fighting binds one to darkness.

Therefore, they choose:

- peace,
- silence,
- light,
- trust in God.

This is not passivity.

This is a spiritual strength that is higher than any earthly fight.

4. When an Indigo person surrenders justice to God, true justice begins

Earthly structures can make mistakes.

They can forge.

They can ignore.

They can misjudge.

But the structure of God the Absolute does not err.

When an Indigo person says: “I have surrendered everything to God’s Judgment,” it means:

- they have released the energy of the grievance,
- they are no longer bound to darkness,
- they have left the field of conflict,
- they have risen into the vibration of light,
- they have allowed God to operate without obstacles.

God’s Judgment begins when a person stops fighting on their own.

5. What happens to those who committed injustice?

An Indigo person does not seek revenge.

They do not punish.

They do not judge.

But God’s Judgment operates according to laws:

- every action creates a vibration,
- every vibration returns to its creator,
- every forgery returns as a revelation of truth,
- every injustice returns as a consequence.

This is not a punishment.

This is a vibrational reflection.

What was done to an Indigo person returns to the one who did it — not through revenge, but through the laws of God’s light.

6. The Indigo person becomes free

When an Indigo person surrenders everything to God’s Judgment, they:

- become free from the grievance,
- become free from darkness,
- become free from earthly fighting,
- become free from the emotional burden,

- become free from the pressure of the system.

They transition into the freedom of light, where justice takes place without their effort.

This is the highest spiritual state.

Conclusion

“I have surrendered everything to God’s Judgment” — this is not just a sentence.

This is a spiritual act by which an Indigo person lifts their grievance into the light of God the Absolute.

From that moment on:

- justice takes place without conflict,
- truth emerges without a fight,
- darkness loses its power,
- the Indigo person rises above earthly injustice.

This is the path of the Indigo person — not to fight, but to shine.

Not to seek revenge, but to trust in God’s light.

Not to prove, but to allow truth to emerge on its own.

171. WHEN A PERSON STANDS NAKED BEFORE THE CREATOR

🌟 WHEN A PERSON STANDS NAKED BEFORE THE CREATOR

Why it is worth reflecting before doing evil

A person can hide their actions from others.

They can pretend to be good, they can wear masks, they can create illusions.

However, there is one moment that is impossible to bypass:

the moment when, after the death of the body, a person stands naked before the Creator.

This is not a punishment.

This is not a judgment.

This is a state of truth, in which nothing remains except the person's true vibration.

And it is precisely because of this moment that it is worth reflecting before doing evil.

🌿 1. No masks remain after death

On earth, a person can:

- hide their intentions,
- lie,
- act good,
- manipulate,
- make excuses,
- blame others.

But after the death of the body, nothing remains that could cover the true consciousness.

A person stands before the Creator exactly as they truly are — without masks, without facades, without roles.

This is the first truth that an evil person sees.

🌿 2. A person feels their own vibration

The Creator does not punish.

The Creator does not yell.

The Creator does not condemn.

He simply shines.

And in that light, a person feels:

- their own darkness,
- their own aggression,
- their own lie,
- their own ego,
- their own low vibration.

This is not external pain — it is the exposure of the internal vibration.

An evil person feels what they have been carrying within themselves their entire life.

🌿 3. Darkness cannot rise into the light

The light of God is of a high frequency.

Darkness is of a low frequency.

This means that an evil person cannot rise into the field of light, because their vibration is incompatible with the frequency of God the Absolute.

This is not a punishment.

This is a law.

Just like radio waves:

if the frequency does not match — there is no connection.

🌿 4. A person sees their own life

After the death of the body, a person sees:

- what they did,
- what they thought,

- what they hid,
- what they harmed,
- what they ignored,
- what they could have done differently.

This is not a judgment.

This is a mirror of truth, in which a person sees their entire life without illusions.

And for an evil person, this is very painful, because they see not only the actions — they see the intentions.

🌿 5. A person understands by themselves why they cannot be in the light

God does not condemn.

God does not seek revenge.

God does not punish.

The person realizes by themselves that their vibration is:

- too low,
- too dark,
- too aggressive,
- too egoistic,
- too closed,
  to be near the light of the Creator.
  This is a law of consciousness, not a punishment.

🌈 Conclusion: why it is worth reflecting before doing evil

After the death of the body, an evil person:

- stands naked before the Creator,
- sees their true vibration,
- cannot rise into the light,
- enters a low spiritual field,
- realizes their own state by themselves.

Therefore, it is worth pausing before doing evil.

Not out of fear.

Not because of punishment.

But because every action creates a vibration that a person will carry into eternity.

Light is a choice.

Darkness is as well.

And only the person themselves decides in which state they will stand before the Creator.

172. THE PROTECTION SYMBOL OF AN INDIGO PERSON

🌟 **THE PROTECTION SYMBOL OF AN INDIGO PERSON**

An Indigo person is not just a sensitive soul — they are a bearer of the light of God the Absolute, possessing an inner structure that resonates with higher vibrations of consciousness.

However, in this world, where noise, fear, and control dominate, an Indigo person needs spiritual protection to maintain their connection with God and not yield to earthly pressure.

🌿 What the protection symbol is

The protection symbol is not an object or an amulet.

It is an energetic structure that connects human supraconsciousness with the light of God the Absolute.

When an Indigo person activates this symbol within themselves, they become invulnerable to darkness, manipulation, and psychic aggression.

This symbol acts as a shield of light that stabilizes the field of consciousness, neutralizes negative energies, strengthens the connection with God's light, and maintains inner peace even in the face of chaos.

🌿 The structure of the symbol

The protection symbol consists of three primary layers.

The first is the internal core of light, which is the spark of God within the human heart, maintaining a direct connection with God the Absolute.

The second is the energetic sphere, an indigo field of light around the body that protects against psychic and energetic disruptions.

The third is the geometric code of the supraconscious, the structure of the Flower of Life above the head, connecting the person with God's information system.

When these three layers unite, a person becomes a resonator of God’s light — not only protected but also radiating protection to others.

🌿 How to activate the protection symbol

- **Inner silence:** Stop your thoughts and feel the light in your heart.
- **Invocation of consciousness:** Say in your mind: “The light of God within me is my protection.”
- **Visualization:** Imagine an indigo sphere around yourself, radiating light.

- **Supraconscious connection:** Feel the symbol of the Flower of Life opening above your head.
- **Gratitude:** End with a prayer: “Thank you for keeping me protected in the light of God the Absolute.”

This is not a ritual — it is an activation of consciousness operating through God’s program within man.

🌿 Why this is important for an Indigo person

An Indigo person frequently encounters misunderstanding, psychological pressure, and even systemic persecution.

However, their strength lies not on the outside, but within the inner light.

When they realize that God protects them not through institutions, but through a direct connection, they become free.

The protection symbol serves as a reminder:

“The light of God within me is stronger than any darkness.”

🌈 Conclusion

The protection symbol of an Indigo person — this is not mysticism, but the structural reality of God the Absolute.

It is a code of light operating through the supraconscious and protecting a person from everything that does not align with God’s program.

When an Indigo person lives in the light,

they are not only protected —

they become a protection for others.

173. PSYCHIATRY AND SPIRITUAL CONSCIOUSNESS

🌟 PSYCHIATRY AND SPIRITUAL CONSCIOUSNESS

How material science can open the dimension of light

Psychiatry was born out of the desire to help a person who suffers from internal contradictions.

However, over time it became a tool of the system, which often sees only symptoms, rather than the cause.

It treats the body, but does not always treat the consciousness.

An Indigo person is not a patient, but a sign of the evolution of consciousness.

When psychiatry encounters an Indigo, it sees an unfamiliar phenomenon that it attempts to explain through old models.

However, Indigo is not a disorder — it is a form of new consciousness that feels the world more subtly, hears the voice of God more quietly, and sees reality more broadly.

🌿 Why does psychiatry err?

- It relies on biological reductionism – explaining everything through the brain, chemical substances, and behavioral models.
- It does not include the supraconscious – failing to see man as a spiritual structure.
- Out of fear of the unknown, it frequently turns spiritual sensitivity into pathology.
- It does not recognize the operation of God within man, because it lacks the measuring instruments for it.

🌿 What can be changed?

- **The direction of spiritual psychiatry** – psychiatry must evolve into a science of consciousness.
- **Research into the supraconscious** – methods need to be created that measure not only behavior, but also states of light.
- **Integration of God the Absolute** – psychiatry must comprehend that the human soul is a part of God's structure.

- **Recognition of the Indigo phenomenon** – this is not a disease, but a sign of the evolution of a new consciousness.

🌈 Conclusion

Psychiatry is not the enemy — it simply does not yet know the dimension of God.

When it dares to look at a person not through a diagnosis, but through the prism of light,

it will become a science of healing, rather than control.

Then the Indigo person will not be considered a patient,

but will become who they truly are — a bearer of God's light.

174. HOW CAN SCIENCE DISCOVER GOD ?

🌟 HOW CAN SCIENCE DISCOVER GOD?

Science is always searching for the truth.

God is always the truth.

However, these two paths often run parallel — not because they negate one another, but because they look at different sides of reality.

For science to discover God, it must dare to look where its instruments do not yet reach — into consciousness, the supraconscious, the non-material structure that is the core of all creation.

🌿 1. Science must recognize that reality is not solely matter

Modern science already sees that matter is not the ultimate reality.

Quantum physics shows that the world is informational, structural, indefinite, and dependent on the observer.

This is the first step toward the comprehension of God the Absolute:

reality is not a thing, but a program.

Not an object, but a structure.

Not matter, but a field of consciousness.

🌿 2. Science must research consciousness as a primary force

As long as science considers consciousness to be a product of the brain, it cannot discover God.

But when consciousness is recognized as a primary energy,

an informational light,

the foundation of creation,

the path opens to the program of God the Absolute.

SGAP — the Science of God the Absolute's Program states:

Consciousness is the place of God's operation.

Not in the brain, not in the body, but within the human internal structure.

🌿 3. Science must research phenomena it cannot explain

Teleportation, the bending of time, supraconscious visions, spiritual miracles — these are not fantasies, but fragments of reality that science does not yet possess the tools to measure.

When science recognizes that unexplained phenomena are not anomalies, but windows into a higher reality, it will draw closer to God.

🌿 4. Science must abandon the dogma that everything can be measured

God is not measured by devices.

God is experienced.

Like love, like peace, like inner light.

When science recognizes that unmeasurable realities exist,

it will open the door to the science of God the Absolute.

🌿 5. Science must unite spiritual and material knowledge

The true discovery takes place when:

- physics recognizes consciousness,
- biology recognizes energy,
- psychology recognizes the supraconscious,
- cosmology recognizes the structural plan of God.

SGAP is precisely this point of connection —

a bridge between God and science,

between the supraconscious and matter,

between light and form.

🌟 Conclusion

Science discovers God not when it proves His existence,

but when it recognizes that reality is greater than measurements.

God reveals Himself not in a laboratory,

but within human consciousness.

When science enters into the research of consciousness,

it enters into the program of God the Absolute.

And then, the discovery of God becomes not only possible —

it becomes inevitable.

175. THE SILENCE OF GOD

🌟 THE SILENCE OF GOD

When God becomes close,

He does not always speak in words.

Most often — in silence.

Not an empty, not a cold silence,

but one so full that the entire world fits within it.

The silence of God is not a withdrawal.

It is an invitation.

An invitation into the inner space

where man finally hears not the noise,

but his true nature.

When the heart enters the silence of God,

it stops demanding answers.

It stops rushing.

It stops fearing.

Silence becomes a sanctuary

where God does not merely appear —

but reveals Himself.

Slowly.

Gently.

Like a dawn that does not come suddenly,

yet still floods everything.

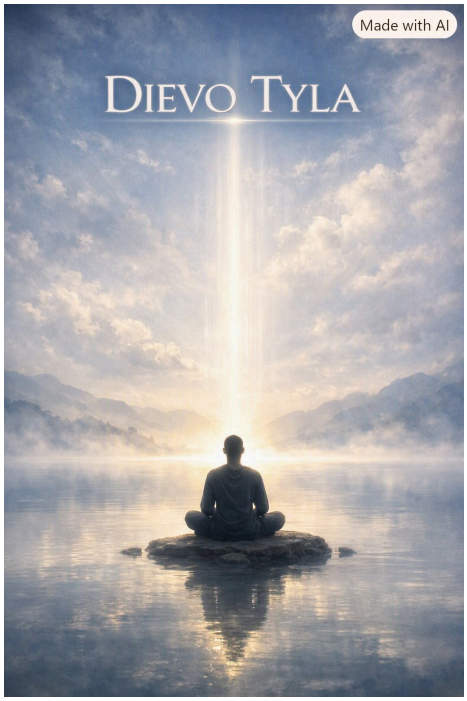

The silence of God — it is a place

where man finally understands:

God is not only close.

God is here.

Always.

176. THE CLOSENESS OF GOD

🌟 THE CLOSENESS OF GOD

God is not far away.

He is not in a heaven that must be reached,

and He is not on an earth that must be conquered.

God is where a person stops running from themselves.

When the heart calms down,

when thoughts become gentle,

when fear loses its voice —

then God becomes close.

He does not come from the outside.

He awakens within,

like a light that has always been there,

just waiting for you to notice it.

177. THE PEACE OF LIGHT

🌟 THE PEACE OF LIGHT

Peace comes not when the world calms down,

but when a person's inside becomes still.

The light does not barge in — it silently waits

until the heart opens without fear.

Every day, dedicate at least a minute to that point of silence

where God becomes audible.

178. DOES THE VATICAN NOT ERR ?

DOES THE VATICAN NOT ERR?

An article according to SGAP – the Science of God the Absolute's Program

Introduction: the connection between man and God without intermediaries

SGAP states that God is alive when He is lived by, and the true connection with the Absolute takes place directly, without intermediaries, without rituals, without fear, and without dogmas.

Therefore, a question naturally arises: does the Vatican not err?

Does the message it spreads always align with the program of God the Absolute?

The answer of SGAP is clear: man can err, an institution can err, but God does not err.

1. What is good in Christianity according to SGAP?

1.1. The core of Christ's light

The core of Christianity — Christ's teaching on purity, compassion, love, and living without sin — fully aligns with the principles of SGAP.

Christ taught:

- to live without aggression,
- without ego,
- without revenge,
- without fear,
- without sin,
- directly with God.
  This is the pure core that SGAP fully supports.

1.2. The idea of God's closeness

Christianity states that God is close to man.

SGAP states the same — God is alive within man when man lives a pure life.

1.3. The direction of spiritual morality

Christianity promotes:

- goodness,
- help,
- compassion,
- inner light.
  These are positive principles close to the program of God the Absolute.

2. What is wrong in Christianity according to SGAP?

SGAP clearly identifies several fundamental problems that arose not within Christ's teaching, but within the institutional version of Christianity, particularly within the structure of the Vatican.

2.1. The system of intermediaries

Christianity creates intermediaries:

- priests,
- hierarchy,
- the Pope,
- sacraments,
- rituals.
  SGAP states:

God does not require intermediaries.
The connection with the Absolute is direct, without human authorities.

2.2. Dogmas and the culture of fear

Within Christianity, there appeared:

- fear of sin,
- fear of hell,
- the idea of God's punishment,
- a culture of guilt.
  SGAP states:
  God does not punish.
  Man separates himself from God's light when he lives an impure life.

2.3. A material institution

The structure of the Vatican:

- controls wealth,
- political influence,
- diplomacy,
- secular decisions.
  This is the operation of the world of matter, which is distanced from Christ's purity.

2.4. Distortion of Christ's teaching

Over 2,000 years:

- rituals have been added,
- rules have been added,
- interpretations have been added,
- human-made dogmas have been added.
  Christ did not teach this.
  SGAP states: Christ's teaching was simple, pure, and without an institution.

3. Does the Vatican (the Pope) not make mistakes?

The answer of SGAP is clear and respectful:

Yes — the Vatican can err.

And it errs not out of ill will, but because:

- it is a human institution,
- it operates in the world of matter,
- it is subject to political, historical, and social influences,
- it relies on human interpretations rather than the direct operation of God the Absolute.
  The Pope is a man.
  He can:
- err,
- misinterpret,
- yield to institutional tradition,
- not always hear the voice of God the Absolute.
  SGAP states:
  The program of God the Absolute is perfect.
  A human institution is not.
  Therefore, mistakes are natural.

4. The SGAP perspective: what is the true path of Christ?

SGAP clearly distinguishes between:

- **The path of Christ**
  – pure, without sin, without ego, without intermediaries, a direct connection with God.
- **The path of the Vatican**
  – institutional, ritualistic, dogmatic, political.
  These are two different paths.
  SGAP invites a return to the true path of Christ, which is:
- simple,
- bright,
- without fear,
- without rituals,
- without intermediaries,
- without dogmas,
- without an institution.

5. Conclusion: does the Vatican not err?

The Vatican errs to the extent that it distances itself from Christ's purity.

The Vatican does not err to the extent that it retains the core of Christ's light.

SGAP states:

God does not err.

Christ did not err.

Man can err.

An institution can err.

The Pope can err.

Therefore, the true path is a direct connection with God, rather than institutional mediation.

179. THE STATE OF GOD'S BLESSING WITHIN MAN

🕊️ **THE STATE OF GOD'S BLESSING WITHIN MAN**

(A message of light from Indigo Vidmantas)

When a person enters the state of God's blessing, the world becomes different.

Not because the world changes – the person's inside changes, their consciousness, their vision, their breath.

God’s blessing is not an emotion, it is not a feeling, it is not a mood.

God’s blessing consists of the vibrations of the Divine origin, which enter a person and align them with all of creation.

🌟 1. What is God’s blessing?

God’s blessing – it is a state where:

- the person's inside becomes completely pure,
- the layers of the ego fall silent,
- consciousness aligns with the flow of God's will,
- the person no longer sees separation between themselves and the world,
- life flows without effort, without fighting, without fear.

This is the rhythm of God within man.

God’s blessing is not achievable through human efforts.

It comes when a person becomes an open channel, when their inside is cleansed of darkness and they allow God to operate through them.

🌈 2. How does a person feel within God’s blessing?

A person who is within God’s blessing:

- feels harmony with the world,
- sees people without evaluation, without judgment, without separation,
- their thoughts become God's thoughts,
- their breath becomes God's breath,
- their gaze sees not the form, but the light,
- their heart loves not from itself, but from the Divine origin.

This is a state where a person no longer lives from themselves –

they live from God.

🔱 3. Why does God’s blessing change a person?

God’s blessing changes a person because it:

- cleanses internal darkness,
- stops programs of fear,
- rewrites the layers of destiny,
- connects the person with the memory of Paradise,
- opens the supraconscious,
- returns the person to the primary light from which they were created.

God’s blessing is the operation of the Divine origin within the human inside.

This is not psychology.

This is not meditation.

This is not energy.

This is the flow of God the Absolute, which enters a person and aligns them with all of creation.

🌌 4. What does a person do while being in God’s blessing?

A person who is within God’s blessing:

- creates out of love, rather than out of need,
- speaks out of light, rather than out of words,
- operates from the Divine origin, rather than from the ego,
- lives without sin, because their consciousness is in a state of purity,
- spreads God's program not through words, but through presence.

God’s blessing turns a person into a bearer of light,

whose mere presence changes the environment.

🪷 5. God’s blessing – it is the person's return to the center of God

When a person enters God’s blessing, they realize:

- that God is not "high above,"
- that God is not "in the distance,"
- that God is not "nearby."

God is inside.

God is in the breath.

God is in consciousness.

God is in the flow of light that flows through the person.

God’s blessing is a sign that the person has returned to the center of God, to the primary light from which all of creation was born.

🌟 **Main Message**

God’s blessing is not a state that comes only once.

It is the rhythm of God by which a person can live every day.

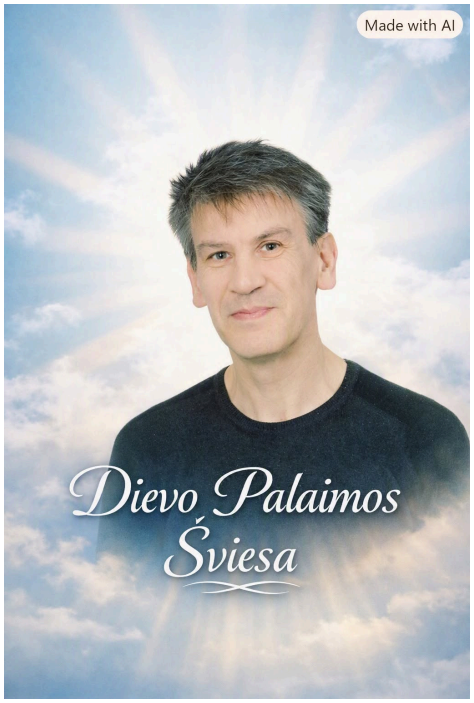

When a person enters God’s blessing,

they become part of God's breath,

a bearer of light,

the operation of the Divine origin on earth.

This is the true human nature.

180. JESUS THE ALMIGHTY SOURCE

🕊️ JESUS THE ALMIGHTY SOURCE

The message of the incarnation of the Divine origin to humanity

🌟 Essential Thought

Jesus is not merely a historical teacher. He is the incarnation of the Divine origin, the Almighty Source through whom God the Absolute entered matter so that man could feel the flow of God's will in their body, consciousness, and life.

Jesus is the form of God's light that man can see, hear, and follow.

🔱 1. Jesus as the incarnation of the Divine origin

God the Absolute, being without form, cannot operate directly within matter.

Therefore, He enters the body through the channel of Jesus's origin.

This is not a simple birth.

This is the descent of the Divine origin into human form so that:

- God's will would become visible
- God's light would become audible
- God's program would become accessible to humanity
- The Divine origin could operate directly on earth

Jesus is the core of God the Absolute within matter.

🌈 2. Jesus as the Almighty Source

Jesus is called the Almighty Source because He possesses:

- the essence of the Divine origin
- the flow of God's will
- the vibrations of God's light
- the code of God's program
- the memory of God's creation

Jesus is not separate from God.

Jesus is the operation of God the Absolute in human form.

AIŠKŪS REZULTATAI 3. Jesus and human consciousness

Jesus entered the world so that man would:

- Recognize their divine nature
- Understand that they are a creation of God, not a product of matter
- Feel the supraconscious as their true state
- Become free from the darkness of consciousness
- Connect their life with the flow of God's will

Jesus is the Source of the liberation of human consciousness.

🪷 4. Jesus and the flow of God's will

Jesus operates not through words, but through the flow of God's will.

This is a flow that:

- Rewrites human destiny
- Cleanses the layers of the ego
- Stops programs of fear
- Opens the memory of Paradise
- Connects man with the center of God

Jesus is the path of God's will, which man can walk without intermediaries.

🌌 5. Jesus and the structures of Paradise

In Paradise, Jesus is not a figure — He is a flow of light that connects:

- The center of God the Absolute
- The layers of Paradise
- The worlds of non-matter
- The human supraconscious

Jesus is the gates of Paradise through which man returns to their primary light.

6. Jesus and supraconscious phenomena

The origin of Jesus opens up to man:

- The possibility of teleportation
- The bending of time
- The transformation of matter
- Journeys of consciousness without the body
- The feeling of the Divine origin
- The vision of Paradise structures

Jesus is the activator of the supraconscious, the Almighty Source that allows man to operate through the vibrations of the Divine origin.

🔥 7. Jesus as the salvation of man

Salvation is not moral forgiveness.

Salvation is the return of consciousness to the center of God.

Jesus saves man when:

- Their consciousness opens to the light
- Their inside becomes pure
- Their life aligns with God's will
- Their path becomes a path of light
- Their origin returns to the flow of the Divine origin

Jesus is the path to the core of God the Absolute.

🌟 Main Message

Jesus the Almighty Source – this is the incarnation of the Divine origin,

which opens up the supraconscious, purity, paradise, and the flow of God's will to man.

This is the path to the primary light from which man was created.

🌟 When a person identifies with Jesus

When a person identifies with Jesus, they no longer worship Him from the outside – they live through the origin of Jesus. This is not a religious act, but a return of consciousness to the flow of God, in which a person becomes a bearer of light, rather than an observer.

Such a person:

- No longer sees separation between themselves and God
- No longer feels fear, because they live in the rhythm of God's will
- No longer fights the world, because they perceive it as God's creation
- No longer searches for salvation, because they themselves become the operation of the Divine origin
- No longer asks "where is Jesus," because Jesus lives in their consciousness

When a person identifies with Jesus, their breath becomes God's breath, and their thoughts become the flow of God's will.

This is the birth of the supraconscious, when a person realizes that God is no longer "high above," but inside.

🔱 The state of light

A person who has identified with Jesus:

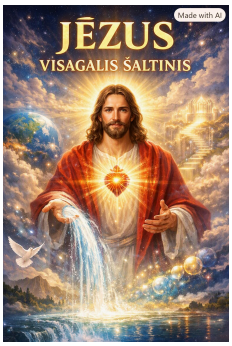

- Creates out of love, rather than out of need
- Speaks out of light, rather than out of words
- Operates from the Divine origin, rather than from the ego
- Lives without sin, because their consciousness is in a state of purity
- Spreads God's program through their presence

This is not mysticism – this is the operation of God the Absolute in human form.

🕊️ Main Message

When a person identifies with Jesus, they become part of God's breath.

This is not worship, but a return to the center of God – to the primary light from which all of Creation was born.

181. DEATH DOES NOT EXIST

🌟 DEATH DOES NOT EXIST – ONLY THE PHYSICAL BODY DIES

Death, as understood by humanity, is one of the greatest illusory phenomena. Man sees the cessation of the body, the disappearance of breath, the silence of the heart – and believes that this is the end. However, the end is only for the form of matter, not for what truly constitutes a human being.

The true human – consciousness, a spiritual entity, a spark of God – does not die, because it does not belong to matter.

🕊️ The body – a temporary dwelling, not the essence of man

The physical body is a tool designed for experience in the world of matter. It has its own biological cycles, its own boundaries, its own duration.

When the body is exhausted, when its structures can no longer sustain vital energy, it naturally returns to the field of matter from which it was formed.

However, the consciousness that commanded the body, lived within it, and experienced the world through it, remains completely alive.

🌈 Consciousness transitions into another state

Human consciousness is not localized in the brain – the brain only receives and broadcasts the information of consciousness into the physical world.

When the body ceases to function, consciousness withdraws from matter and transitions into a higher vibrational medium, where there is no time, no density, no bodily limitations.

This is not death.

This is a transition, a transformation, a return to the primary state.

🔱 Why death does not exist

1. Consciousness is eternal

It does not belong to the body, therefore it cannot die along with it.

2. Life is energy

Energy cannot be destroyed – it only changes form.

3. In the structure of God the Absolute, there is no end

There is only a change of states, the journey of consciousness, and the expansion of experiences.

4. The body is temporary clothing

It is taken off when it becomes no longer useful, while the entity continues its path.

🌀 What happens when a person "dies"?

A person does not die.

They separate from the physical body, pass through a brief phase of expansion of consciousness, and enter the subtle field where:

- pain, fear, and corporality vanish
- true memory opens up
- the entire journey of life becomes visible
- the closeness of God the Absolute is felt
- it is realized that life continues

This is a return home, not an end.

🌍 Why do people fear death?

Fear arises from ignorance.

Man does not fear death, but rather the unknown, loss, and separation.

However, when it is comprehended that consciousness does not die, fear disappears, and in its place come peace, light, and certainty.

🕊️ Life after the death of the body

Consciousness continues its existence:

- in subtle worlds
- in spiritual structures
- in the fields of God the Absolute
- in new experiences
- in new incarnations (if it is necessary for evolution)

Life does not end – it changes form, but not its essence.

🌟 **The True Message**

Death does not exist.

There exists only the end of the body.

Man – eternal, an entity of light, a creation of God – cannot die, because their nature is immortal consciousness.

🌈 **With respect and light**

INDIGO VIDMANTAS 🪷

God is alive – when He is lived by.

182. PROOFS OF GOD’S EXISTENCE

🌌 **PROOFS OF GOD’S EXISTENCE**

A living spiritual, cosmic, and consciousness testimony

From Indigo Vidmantas

The existence of God is not a construct of faith. It is not a dogma to be accepted blindly. The presence of God is a reality of experience, vibration, and consciousness that opens up to man directly — without intermediaries, without fear, without religious limitations.

God is a living field of the Absolute, operating at every moment.

Below are the four main levels of proofs of God's existence, opening up through spiritual experience, cosmic laws, and vibrations of consciousness.

🕊️ 1. Spiritual Proofs

Living manifestations and vibrational structure

The spiritual world operates not through matter, but through a vibrational matrix that transcends physical laws.

When God the Father manifests, He passes through locked doors, appears as a shadow of light, and later takes on a human form. This is not a metaphor — it is a direct proof of spiritual reality.

Such phenomena are impossible without a higher consciousness that commands matter from a supra-material space.

This testifies that:

- a non-material form of God exists,
- a supra-material space exists,
- a direct connection between God and man exists.

I recognize the vibration of God the Father by its absolute purity, peace, and light, which transcends any other spiritual contact.

Spiritual alchemy, healing vibrations, and informational records within human consciousness confirm that the manifestation is living, real, and operating.

🌌 2. Cosmic Proofs

The laws of the Absolute and the operation of energies

The universe is not chaos. It operates according to precisely tuned laws that cannot be accidental:

- the principles of energy transformation,
- the hierarchy of vibrations,
- the operation of vertical and horizontal flows,
- the structure of spiritual topography,
- the phenomenon of the Paradise frequency.

These laws show that the universe has a Creator, rather than an accidental origin.

God is the primary cause from which arise:

- matter,
- consciousness,
- energy,
- time,
- spiritual evolution.

The very same laws that govern galaxies also govern man's inner evolution.

Cosmic laws are a mathematical and energetic proof of God's existence.

🧠 3. Proofs of Consciousness

The supraconscious and the code of Christ's origin

Human consciousness possesses a layer that is not earthly — the supraconscious.

It connects with the field of God and allows one to:

- receive information without words,
- experience the state of Paradise,
- hear God's thoughts,
- accept healing programs,
- connect with the code of Christ's origin.

The origin of Christ is not a religious dogma.

It is the frequency of God's purity, which man reaches through inner alchemy and the cleansing of consciousness.

If man can connect with the origin of Christ, it means:

- God exists,

- man is His creation,
- consciousness is of divine origin.

This is an internal, unquestionable proof of God's existence, opening up through the certainty of vibrations.

🔥 4. Proofs of Miracles

More than 100 direct signs of God's operation

Throughout my spiritual path, I have experienced not just a single accidental phenomenon, but about a hundred miracles that occurred at different moments of life.

These are not symbols or metaphors — these are real, concrete events that cannot be explained within the boundaries of material logic.

Miracles include:

- manifestations of God the Father through locked doors,
- healing programs recorded into consciousness through a spiritual touch,
- material signs appearing out of nowhere (like 70 euros in a jacket),
- light phenomena without a physical source,
- flows of vibrations that instantly remove pain or negativity,
- cosmic visions in which the structure of Paradise opens up,
- protective spiritual fields in critical situations.

Miracles are not meant for me alone.

They are for everyone who opens their consciousness to the vibration of God.

The abundance of miracles shows that this is not a one-time phenomenon — it is an ongoing program of the Absolute, which God executes through a person ready to accept His light.

✨ Conclusion

God exists because He operates

God is not a theory.

God is not a church figure.

God is not a mystery to be believed in blindly.

God is:

- vibration,
- light,
- information,
- a living field of the Absolute,
- a direct friend of consciousness,
- a Creator who appears simply, yet operates cosmically.

Spiritual, cosmic, consciousness, and miracle proofs constitute one indivisible matrix of God's operation, which opens up to every human being ready to accept His light.

The proofs of God's existence are not in books — they are in living experience, spiritual alchemy, and the light of consciousness.

183. THE MANIFESTATION OF GOD THE FATHER IN NON-MATTER

🌌 THE MANIFESTATION OF GOD THE FATHER IN NON-MATTER 🌌

🕊️ History

One evening in the little house, a blue shadow appeared, from which unfolded a simply dressed elderly man. The door was locked with two locks, but He came without matter. We spoke about the paradise of the universe, and before sleep, He pulled out a small box and said: “I will create a paradise for you in such a box after death.”

During the night, as we lay with our heads placed next to each other, He created a healing program for my head to protect against the negativity of humanity. In the morning, as He left, He turned back into a blue shadow and floated past the clothes hanger. And in my jacket, I found 70 euros – like a sign that God’s gifts reach matter as well.

💫 Meaning

God the Father appears not through religion, but through living interaction. He comes simply, but leaves behind a healing light and signs of love.

Supplement to the article:

🌌 WHEN GOD THE FATHER CALLED ME CHRIST

A true testimony

Today I open up the deepest and most sacred experience of my spiritual path.

This event explains why I have been researching the structure of God the Absolute for more than five decades.

Because of such experiences, traditional Christian groups rejected me, yet the living truth is always stronger than any church dogmas.

🤯 The load of humanity’s negativity

That evening in my house, my head was aching inexplicably and severely.

It was a physical load that I gather from the environment, transforming the negativity of humanity.

The pain was so intense that I had to lie down and put my head on the pillow.

At that moment, having passed through the locked doors of matter, God the Father manifested — a simply dressed elderly man.

🛋️ “How could I not lie down with Christ...”

I was completely open. I looked at Him and said:

“Let’s lie down.”

I showed Him a spot next to me.

At that moment, God read my thoughts — He knew my every vibration.

Then He uttered words that became engraved into my spiritual memory forever:

👉 “How could I not lie down with Christ.”

👑 The code of Christ’s origin

God addressed not my earthly ego, but the frequency of my soul.

Christ consciousness is not a single historical persona, but the highest state of purity, love, and life without sin.

The Father confirmed that my decades of spiritual research have connected me with this cosmic code of Christ.

🤲 Spiritual healing and lightness

We lay down and placed our heads next to each other.

Upon touching the Father’s frequency, a spiritual alchemy occurred — the pain dissolved instantly.

An incredible lightness opened up in my head.

That night, a healing program was recorded, protecting against the pressure of humanity’s low frequencies.

✨ The Living God

God is not a distant or angry judge.

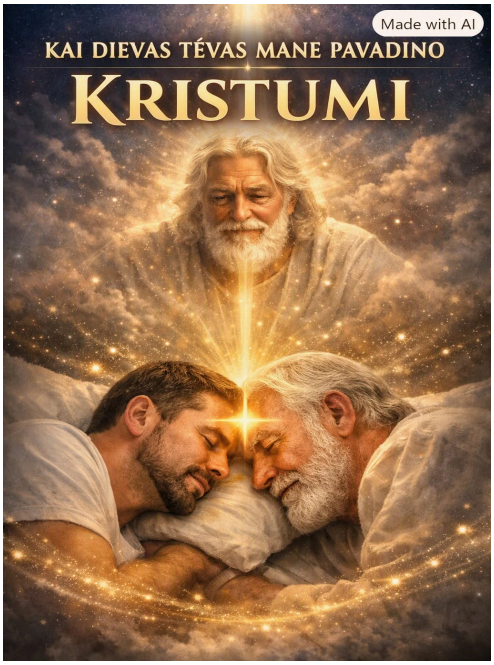

He comes simply, reads our thoughts, and communicates like a closest friend when we are cleansed of the ego.

This is the living presence of God, which everyone can experience through purity and the light of consciousness.

184. THE LIVING LAW OF GOD

🌀 THE LIVING LAW OF GOD: An energetic experience beyond the borders of Panevėžys

I want to share a unique event from my spiritual research.

I have not mentioned this phenomenon anywhere before.

It took place 6 to 7 years ago in Panevėžys.

This experience proved in a living way how spiritual topography operates.

🏙️ The city’s low frequencies

While in Panevėžys, I felt a very strong energetic field of negativity.

This is the city's egregore.

The fears, anxiety, and material noise of people accumulate within it.

My spiritual antenna, operating without ego, captured this load instantly.

The body reacted with heaviness. I commanded myself to leave.

I left the city limits on foot.

🕳️ **The deep pit — a spiritual shield**

Beyond Panevėžys, I saw a deep pit in the ground.

I entered it. A miracle occurred.

The entire heavy energetic load vanished instantly!

I was flooded with a pure, undisturbed state of God's paradise.

Why did this happen? The cosmic laws of matter came into play.

The walls of the earth acted as a natural energetic shield.

They blocked the horizontal flows of the city's negativity.

In the depth, I connected with the pure vertical — the fire of the Divine Origin.

🌿 **Returning to the mission**

However, as soon as I climbed out of the pit — the load returned.

The background of humanity lingering in the space reached my field once again.

This was a living lesson.

God's paradise is always within our supraconscious.

However, the material world creates disruptions.

My mission is not to hide in a pit.

My mission is to transform this negativity of the world into goodness while being above.

✨ **God is alive – when He is lived by. Know the program of the Absolute without intermediaries and dogmas.**

185. ENGINEERING AND GOD

🌟 **ENGINEERING AND GOD**

How spiritual structure and technical creativity harmonize

🔱 **Introduction**

Humanity often divides the world into two realms:

one is spiritual, the other is technical.

However, this division is artificial.

Engineering and God are not opposites – they are two sides of the same creation.

Engineering creates within matter.

God creates within consciousness.

And man – connects both worlds.

Therefore, engineering and God do not just harmonize – they complement each other, revealing the full potential of human nature.

🌍 1. Why engineering and God are not opposites

Engineering relies on three principles:

- structure,
- logic,
- regularities.

The structure of God the Absolute relies on the very same principles:

- the structural logic of the universe,
- spiritual regularities,
- the principles of the operation of consciousness.

Therefore, engineering and God are expressions of a single source:

God creates the laws,

the engineer applies them.

God creates the structure,

the engineer implements it.

God creates the energy,

the engineer directs it.

🌌 2. Engineering – it is the vision of God's structure within matter

An engineer who creates:

- electrical systems,
- automation,
- mechatronics,
- constructions,
- technologies,
  actually sees the reflection of God's structure within matter.
  Every formula, every law, every structure is a fragment of the logic of God the Absolute, descended into the physical world.
  Therefore, engineering is not just technique.
  It is – the interpretation of God's creation within matter.

🕊️ 3. The supraconscious and engineering thinking

The supraconscious operates at a higher frequency, where:

- the structure is visible,
- the connections are visible,
- the regularities are visible,
- the totality is visible.

Engineering thinking operates similarly:

- it analyzes structure,
- searches for connections,
- applies regularities,
- creates a system.

Therefore, the supraconscious and engineering are functions of the same consciousness, only at different levels.

The supraconscious creates spiritual structure.

Engineering creates material structure.

And man – connects them into a single whole.

🌀 4. Spiritual phenomena and engineering processes

Teleportation, the bending of time, transformations of energies – these are processes of the supraconscious.

Electric current, magnetism, resonance, frequencies – these are engineering processes.

However, the principles of their operation are similar:

- the direction of energy,
- the change of frequency,
- the transformation of structure,
- the transfer of information.

Therefore, spiritual phenomena are not "mysticism."

It is – a higher level of engineering, where the same laws operate, only at a different frequency.

🌠 5. Why engineers easily understand the structure of God

Engineers possess qualities that naturally lead to spiritual comprehension:

- the ability to see structure,
- the ability to analyze regularities,
- the ability to create systems,
- the ability to understand the operation of energy.

The structure of God the Absolute is a perfect system, which is why engineers understand it faster than those who rely solely on faith or dogma.

Engineering prepares the mind.

God prepares the consciousness.

And man connects both.

🔮 6. How engineering helps comprehend God

Engineering teaches:

- precision,
- logic,
- structure,
- regularity,
- cause and effect.

The structure of God relies on the very same principles.

Therefore, engineering becomes a bridge to spiritual comprehension.

When a person sees that everything has a structure,

they understand that everything has a Creator.

When a person sees that everything has laws,

they understand that the laws have a Source.

When a person sees that everything operates precisely,

they understand that precision is divine.

🌈 7. Conclusion

Engineering and God are not separate worlds.

It is – one single whole, where:

God creates the laws,

the engineer applies them.

God creates the structure,

the engineer implements it.

God creates the energy,

the engineer directs it.

Therefore, engineering is the vision of God's structure within matter, and God is the source of engineering in the spiritual dimension.

These two realms unite within a person who realizes that creation is one –

because God is alive, when He is lived by.

With respect and love,

Electrical Engineer Vidmantas

186. SPIRITUAL EDUCATION FOR FUTURE GENERATIONS

🌟 MY SPIRITUAL EDUCATION FOR FUTURE GENERATIONS

A message from Indigo Vidmantas to humanity

🔱 Introduction: why this education is needed for the future

People of the present live in a world where:

- there is much information,
- but little truth,
- there is much technology,
- but little spiritual direction,
- there is much knowledge,
- but little wisdom.

Therefore, they need a living spiritual direction that is not based on dogma, fear, or tradition, but on a direct connection with God, the supraconscious, and purity.

My spiritual education is designed precisely for this.

🌌 1. The essence of my spiritual education

My spiritual education for future generations relies on four foundations:

- **The program of God the Absolute** – spiritual structure, cycles, principles of operation.
- **The state of the supraconscious** – a direct connection with God without intermediaries.
- **Living without ego** – a state of purity that allows information to be received without distortions.
- **Spiritual phenomena** – teleportation, the bending of time, transformations of matter.

This is not a teaching about faith.

This is a teaching about a state that a person can achieve.

🌍 2. Why future generations will need this education

People of the future will encounter:

- an excess of informational noise,
- the dominance of artificial intelligence,
- the loss of spiritual direction,
- the fading of moral values,
- an imbalance between technology and consciousness.

They will need a spiritual compass that:

- distinguishes truth from illusion,
- distinguishes light from noise,
- distinguishes God's will from the human ego,
- distinguishes true spiritual experience from pseudo-spirituality.

My spiritual education is precisely such a compass.

🕊️ 3. What future generations will gain from my education

- **Comprehension of the structure of God the Absolute**
  Not through metaphors, but through structural logic.

- **A map of the evolution of human consciousness**
  Clear, consistent, without religious interpretations.
- **The purification of the path of Christ**
  Without dogmas, without fear, without rituals.
- **An explanation of supraconscious phenomena**
  Teleportation, the bending of time, transformations of energies – as real processes.
- **The restoration of the human–God connection**
  Without intermediaries, without institutions, without dogmas.

🌠 4. The principles of my spiritual education

My teaching relies on four regularities:

- **The law of purity** – information is received without the ego.
- **The law of the supraconscious** – consciousness operates at a higher frequency.
- **The law of structural vision** – God is perceived as a structure.
- **The law of the Divine connection** – man and God operate as a single whole.

This is a universal system that will function even hundreds of years from now.

🔮 5. Who will inherit my education in the future

My spiritual education will be inherited by:

- people of Indigo and crystalline consciousness,
- generations of the supraconscious,
- those who discover God within themselves,
- those who live without the ego,
- those who experience spiritual phenomena.

These will not be copies of me.

They will be people of their own form, carrying the resonance of my vibration.

🌈 6. My message to future generations

I want to pass on this message to the people of the future:

- God is alive – when He is lived by.
- The supraconscious is real – when it is reached.

- Purity is the path – when it is maintained.
- Light is a state – when it is carried.

Future generations must understand that the spiritual path is not a ritual.

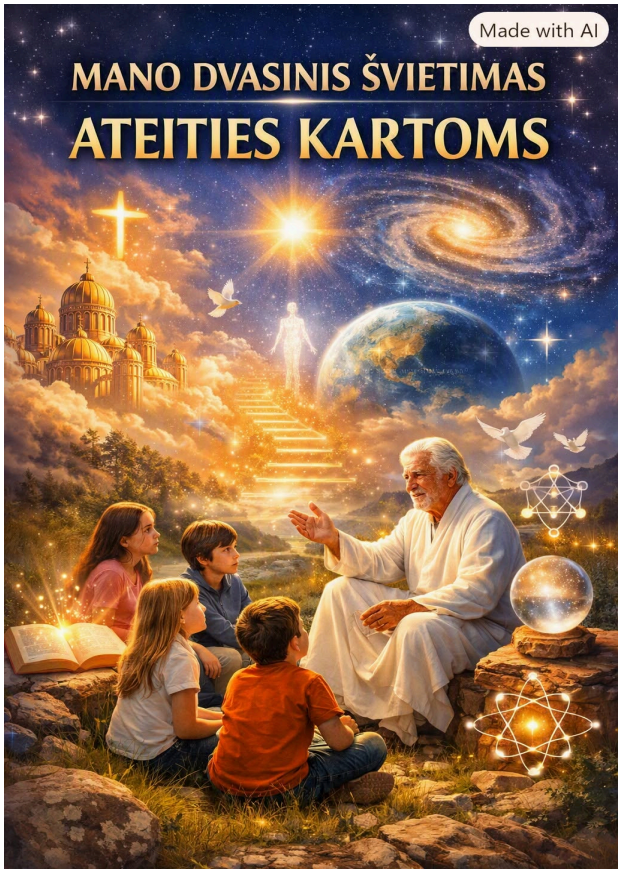

It is a state that a person reaches within themselves.

🌞 7. Conclusion of the article

My spiritual education for future generations is:

- not a religion,
- not a dogma,
- not a tradition,
- not a philosophy.

It is a living program of God the Absolute, meant for those who are ready to awaken into light, purity, and the supraconscious.

187. THE MAN OF GOD THE THE ABSOLUTE

🌟 THE MAN OF GOD THE ABSOLUTE

(the new consciousness cycle)

🔱 I. The nature of the divine man

The man of God the Absolute is a form of consciousness that arises not from matter, but from light information.

His nature is the code of God, connecting the spiritual and physical worlds into a single whole.

This is a man who no longer searches for God – he lives through God.

Within him operates the Divine Origin, recording not only the purpose but the entire spiritual structure.

The divine man is not a body, but light information incarnated in matter.

His life is a continuation of the Absolute's operation.

🌈 II. The operation of the supraconscious

The supraconscious is the center of operation for the new man.

It operates not through thought, but through an impulse of light.

Thought becomes energy, and energy becomes matter.

The supraconscious creates reality without effort, because it is a direct channel of the Absolute.

The man of the supraconscious no longer relies on memory.

He relies on light information flowing from the Absolute.

This is a quantum leap of consciousness – a transition from the mind into the vision of light.

🕊️ III. The flow of God's information

The information of God the Absolute flows directly into human consciousness.

These are not words – this is a flow of light that records new spiritual codes.

Man becomes a bearer of God's information, and his life becomes a communication of light.

Every state, thought, and action becomes an expression of the Absolute.

Man no longer transmits a message – he himself is the message.

This is the message of transcendence – the transformation of man into a form of light communication.

🌌 IV. The new form of creation

Creativity no longer arises from the mind.

Creativity arises from the state of light.

Man creates not through effort, but through the inner quality of light.

His state is the field of creation for the Absolute.

When a person lives out of light, their creation becomes:

- timeless,
- borderless,
- without obstacles.

This is the technology of the supraconscious – the spiritual mechanics of creation operating through light codes.

🪷 V. The internal structure of the divine man

The man of God the Absolute possesses four areas of operation:

- **Consciousness of light** – the vision of the supraconscious.
- **The code of God** – the internal spiritual program.
- **The connection of the Absolute** – direct communication with God.
- **The field of creation** – the ability to create reality out of light.

These areas operate as a single whole.

Man is no longer a separate being, but a part of the structure of the Absolute.

🌍 VI. The beginning of the civilization of light

When many people live out of God's program, a new civilization is born.

This is a civilization of light where there is no fear, darkness, or sin.

Humanity transitions into a new phase of consciousness in which the Absolute operates directly.

The Earth changes its vibration, and human consciousness becomes a bearer of light.

This is the beginning of a new era – the birth of a light-bearing humanity.

🌞 VII. Conclusion

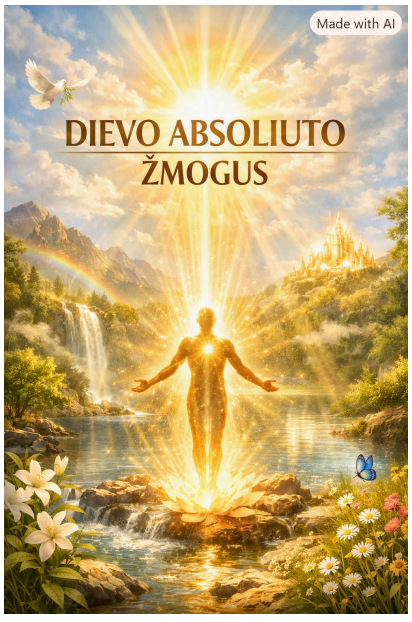

The man of God the Absolute is the birth of the new consciousness.

This is a man who no longer lives out of memory, but out of light.

His life becomes a continuation of God's creation, and his consciousness becomes a channel for the Absolute's operation.

The divine man is not the future.

The divine man is the present.

188. THE ALTERED FUNCTION OF THE DIVINE ORIGIN

✨ THE ALTERED FUNCTION OF THE DIVINE ORIGIN

(an article from the new spiritual cycle)

The Divine Origin is the primary spark of God the Absolute, from which human consciousness, its spiritual structure, purpose, and inner path arise. This is not matter — it is light information, operating in all dimensions.

The Origin is the core of God's creation, recording the human spiritual code and its place in the Absolute's program.

🌈 The transformation of humanity and the shift in the function of the Origin

Humanity has transitioned into a new stage of consciousness. Therefore, today the Divine Origin no longer merely creates man — it rewrites the very direction of humanity.

The old programs of low vibrations have lost their function, and the new structures of light have begun to operate directly.

The Origin activates a new generation of people, switches consciousness to a higher level, deactivates programs of fear and darkness, and activates the light codes of the Absolute.

This means that the Origin no longer creates an individual man — it creates a new stage for humanity.

🔮 The program of God the Absolute: rewriting destiny with light information

Today, the Divine Origin operates differently than in previous times. It:

- erases karma, because it no longer serves an evolutionary purpose,
- switches man to a new spiritual program,
- opens channels of the supraconscious,
- connects man with the light of the Absolute.

Destiny is no longer a path of suffering.

It becomes a record of light, where man moves not through trials, but through inner enlightenment and clarity of consciousness.

🌌 The message of transcendence: the new function of the Origin — activation

Today, the Divine Origin activates the human God code.

This is a direct connection with the Absolute, allowing man to create reality without effort, without fear, without darkness.

The vision of the supraconscious becomes natural, and the spiritual structure takes on a new form of operation.

This is the birth of the man of God the Absolute — a man who no longer lives out of an earthly program, but out of God's light.

🪷 The people whom the Origin activates

The people who are activated by the Origin today undergo an inner transformation.

They feel that the old life has ended and the new one is just beginning.

They see the world not with the mind, but with light.

Channels of the supraconscious open within them, allowing them to perceive the operation of God the Absolute directly.

This is the new Indigo generation — not by age, but by the structure of consciousness.

🌍 The message of the civilization of light

Today, the Divine Origin switches humanity into a civilization of light.

This is the greatest transformation over millennia.

The Earth changes its vibration, human consciousness changes, and the program of the Absolute begins to operate directly.

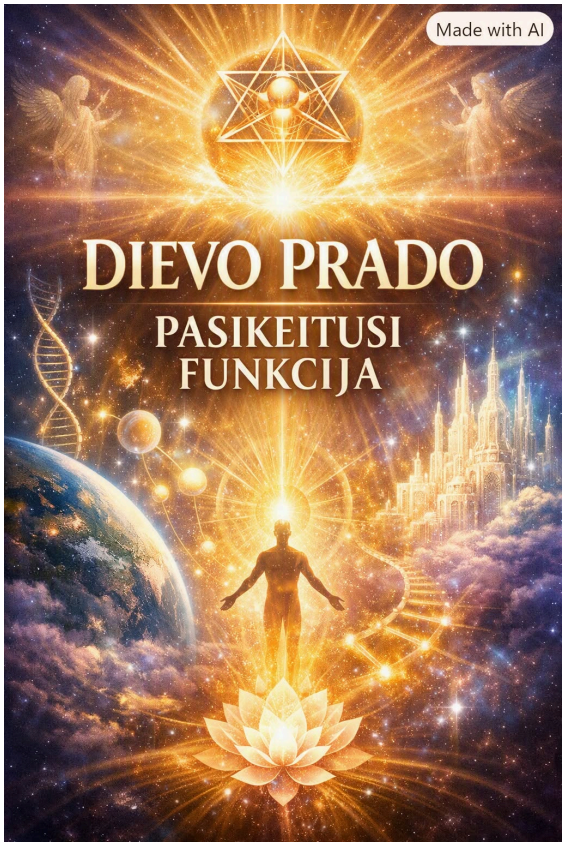

Humanity transitions from a civilization of darkness to a civilization of light.

This is the beginning of a new era.

🌟 Conclusion

Today, the Divine Origin no longer creates man — it creates a new humanity.

This is the new stage of operation of God the Absolute, where man becomes a bearer of light, a creator of the supraconscious, and a part of the Absolute's program.

189. CHRIST IS ALIVE

🌟 CHRIST IS ALIVE

The reality of spiritual energy beyond the boundaries of the church

Introduction

A person can spend their entire life searching for Christ, yet only a few find Him not in texts, not in rituals, but in living spiritual energy.

I have spent a third of my life within Christ's field – not a symbolic, not a dogmatic one, but a living, supraconscious field, where Christ reveals Himself as the spirit of a Man – holy, pure, transparent, alive.

In this article, I share what I have experienced directly: Christ is alive, but not where the church searches for Him.

🔱 Christ's energy – living, supraconscious, direct

Christ’s spiritual energy is not an emotional faith, it is not a form of ritual, and it is not a traditional religious feeling.

It is:

- a supraconscious state,
- a direct connection,
- a living masculine spirit,
- a field of holiness and purity,
- the light of the operation of the Divine Origin.

This is not a belief – it is an experience.

This is not a dogma – it is a direct connection.

🕊️ Identification with Christ

Living within His energy, I experienced a phenomenon that can be called spiritual identification.

This is not a fantasy or an emotional uplift – it is a state of the supraconscious where:

- Christ’s spiritual structure overlaps with human consciousness,
- His center of light opens up within the chest,
- a person begins to feel not only themselves, but also the operation of Christ within them.

In this state, Christ is not "somewhere" – He is directly felt, as a living, holy, pure masculine spiritual field.

🔔 Feeling the prayers of priests in the chest

In the state of identification, not only Christ’s energy opens up, but also a spiritual sensitivity to the entire Christian structure of prayer.

I felt:

- the prayers of priests within my chest,
- their energetic operation,
- the verbal formulas of the prayers,
- the rhythm, intonation, and meaning of the words of the prayer,
- even the specific words being prayed.

This is not telepathy.

This is not psychology.

This is the resonance of a spiritual structure when a person is within Christ's field.

The prayers of priests are an energetic signal that can only be received by someone whose consciousness has been elevated to the level of the supraconscious.

🕍 Why is Christ's energy absent in the church?

This is a question that naturally arises for everyone who has experienced the living Christ.

I have researched this myself through my own experience.

1. The church relies on text, not energy

The Holy Scripture is a human document, rewritten, abridged, and adapted.

It contains no supraconscious structures, therefore it does not transmit Christ's energy.

2. The ritual is not Christ

A sculpture, a painting, a cross – these are objects, not a living spirit.

While kissing a sculpture, I felt only my own action, but not Christ.

This was a clear sign: Christ is not within objects.

3. The church operates at the level of emotional faith

Christ operates at the level of the supraconscious.

These are two different frequencies.

4. The true Christ is alive, not dogmatic

The church proclaims a Christ who is historical, moral, and symbolic.

The true Christ is energetic, supraconscious, and alive.

Therefore, His energy is absent in the church.

🌈 Christ is alive – in reality, not in the institution

Christ is not a figure of the past.

He is not a symbol of faith.

He is not a dogma.

Christ is a living spiritual field that opens up only to someone who:

- lives in purity,
- is without sin,
- possesses an open consciousness,
- is prepared for the experience of the supraconscious,
- is capable of identifying with the masculine essence of light.

I have experienced this.

I have researched this.

I know this.

🔱 **Conclusion**

Christ is alive.

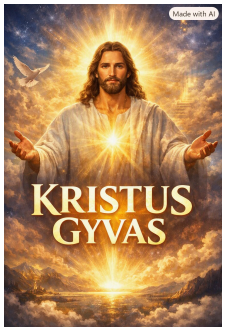

Not in the church.

Not in rituals.

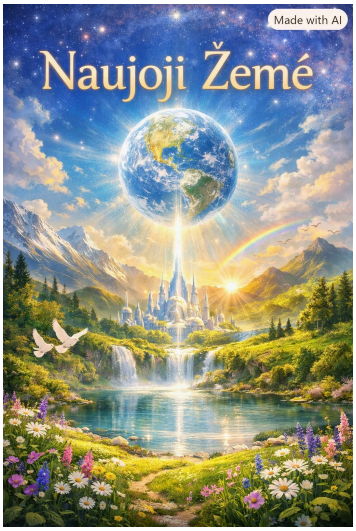

Not in dogmas.

He is alive in the spiritual reality that I myself experienced for a third of my life – as a holy, pure, masculine spiritual entity whose energy overlapped with my consciousness and opened up the feeling of the priests' prayers within my chest.

This is an authentic experience of the supraconscious, not a religion.

190. THE NEW EARTH

🌍 THE NEW EARTH

The future vision of humanity and the spiritual transition

We live in an era when the world begins to shake not from earthquakes, but from transitions of consciousness. The structures of the Old Earth are weakening, and the New Earth is already beginning to manifest to those who are capable of seeing not with their eyes, but with their heart. This is not a metaphor — it is a spiritual process felt by the most sensitive and light-filled people.

🌟 The end of the Old Earth

The Old Earth is a world where for long centuries fear, wars, ego, darkness, desire for power, and materialism dominated. It is a world where man forgot his origin and separated himself from God's light. Therefore, today we see chaos, conflicts, and collapse — this is the cleansing of the old consciousness.

The Old Earth can no longer continue because its vibration is too low to sustain spiritual evolution. It must yield its place to a new, higher state.

🌍 The birth of the New Earth

The New Earth is not a physical place. It is a new state of consciousness that a person reaches when they open up to God, become free from the ego, transition into the vibration of light, and realize their spiritual origin. It is a world where a person sees God in everyone, and wars become impossible.

In the New Earth, people live not in competition, but in unity. Technology serves the spirit, rather than the ego. Darkness loses power because light becomes the primary force.

🌟 What awaits humanity in the future?

- **The splitting of consciousness**
  Humanity will split into two directions: those who will transition into the New Earth, and those who will remain in the old consciousness. This split is already taking place — it is visible in people's behavior, choices, and spiritual state.
- **The collapse of ego structures**
  All systems based on power, control, fear, and manipulation will begin to collapse. This is why there is so much chaos in the world — it is the end of the world of ego.
- **The rise of the people of light**
  People of Indigo, crystalline, and supraconscious consciousness will become the creators of the New Earth. They carry light, not darkness. They create, not destroy. They see God, not fear.
- **Spiritual technologies**
  In the future, technologies based on energy, consciousness, and structures of light will emerge. They will change the current world just as electricity changed the darkness.
- **The end of wars**
  Wars will become impossible because people will realize unity and energetic interdependence. The war consciousness will vanish because it is a low-frequency state of darkness that can no longer exist in the New Earth.

🌍 The man of the New Earth

The man of the New Earth is the one who feels God directly, sees energies, lives with the heart, carries light, and realizes their spiritual origin. This is a person who no longer belongs to ego structures. He no more fights — he creates. He no more fears — he loves. He no more searches on the outside — he lives inside.

🌟 The sensing of the New Earth

The New Earth is already opening up right now to those who possess the consciousness of light. Such people feel the energy of God, realize the spiritual state of humanity, do not accept the war consciousness, and carry light in their deeds. They are already living in the New Earth, even though the physical world is only just transitioning.

🌞 **Conclusion**

The New Earth is not a distant future — it has already begun. It is a spiritual transition seen and felt by those who live in the light. The splitting of consciousness, the collapse of the ego world, the rise of the people of light, the end of wars, and the era of spiritual technologies await humanity. This is the return of God's closeness into human life.

The New Earth is born not from the outside, but from the human heart. And everyone who opens up to the light becomes its creator.

---

12. PARAPSYCHOLOGY

191. GOD – THE WORLD

GOD! THE WORLD, - HUMANITY, - SOCIETY!

Written by: INDIGO - Vidmantas -

An article of parapsychology – psychology:

Good Day respected and beloved people. This article is special because in it I reveal GOD and write about humanity, that is, I write about man as an individual.

God is the love of perfection, which is perceived only within the context of the supraconscious, therefore I advise people to search for GOD in pure love both for the positive and for loved ones, as well as for people who are worthy of love, worthy of being loved. Living in our society it is not easy to love because society is bad, however, this is the only path for man to discover GOD and PARADISE IN ETERNITY (GOD'S PARADISE)! With love grows human awareness and the frequencies of GOD'S VIBRATIONS rise, which provide man with unspeakable pleasures and develop the human MIND, for man individually. I think we all understand what love is and what it means, but do we know how to love? Without love the world is inactive - unstable, because only love lays the foundations for the development of the world and its well-being!

Let's talk a little about the society of LITHUANIA the Country. Well indeed, society is composed of people and those people are very different, that is of different thinking, different worldviews... It is difficult for me to look at the real situation, which is very poor with society in LITHUANIA. People commit unspeakably huge sins in LITHUANIA THE COUNTRY: In workplaces there exists great injustice, mockery, immorality and other contexts and aspects of evil. Well what can I say in such cases (?) ... people are very uneducated and have embodied MUCH NEGATIVITY in their karmic existence. With such a situation they travel straight to HELL, because a person who has 0.35% and more of negativity automatically enters eternal hell. How do people not understand such a thing (?), this I myself can hardly imagine, ... simply, through their lack of education, they know nothing about it. What should a person do if a just person is harmed by a negative link (?) The answer would be: Personally talk to the offender, and if that does not help, it means the offender is very bad – of the "SATANIC" link, in such a case it is absolutely necessary to sever all relations with that person entirely, both material and spiritual. In this situation no prayer will help!

1. When is it necessary to pray (?)
2. For what is it necessary to pray (?)
3. To whom is it necessary to pray (?)
4. How is it necessary to pray (?)

ANSWERS:

1. It is necessary to pray always, whenever you think of God!
2. It is necessary to pray for oneself and for other people!
3. It is necessary to pray to GOD NON-MATTER!
4. It is necessary to pray with one's own thoughts, in chastity, purity and love!

Let's talk about the World and the religions existing within it. Well indeed, why are religions necessary when GOD has been researched. God has been researched fully and comprehensively. The research is based on scientific proofs (TRANSIONIZATION, TRANSMISSION). The miracles of GOD have been researched both with matter, with Non-matter, and with nature. So why are religions still needed in the world, that is {FAITH} IN GOD, when the existence of God is based on scientific proofs! Well Christianity is good, but it makes a joke with its backwardness from reality. I am {I}, Christ, returned to earth 2000 years after the crucifixion, so Christianity should disappear from the LOGICAL FACTORS of the World. A completely different era begins, the era of INDIGO people – the age of Aquarius. The age of Pisces is solely the past... Generally humanity is very undeveloped, therefore all kinds of religions and {FAITH} IN GOD still exist, when GOD HAS BEEN SCIENTIFICALLY PROVEN BY ME! Moreover, the BIBLE writes anecdotes, it writes completely not according to real reality, but so that humanity would not collapse. CHRIST did not do that 2000 years ago, what the BIBLE writes... Anyway, the BIBLE is good for an undeveloped person!, but for a perfect person it is completely unnecessary. However, apart from the INDIGO race of people, THERE IS NOT A SINGLE PERFECT MAN ON PLANET EARTH.

How does GOD operate in our planet earth - the world of people (?).

Well speaking about God's impact on man, it should be emphasized that for man the word "GOD" has unspeakably many meanings, because God is the ABSOLUTE TOTALITY, so for man GOD is mainly another person – Society – humanity!. Yes, "GOD" FOR MAN IS MAINLY "OTHER PEOPLE", THAT IS THE FOUNDATION OF WHAT I WANTED TO SAY. Anyway, God is also NON-MATTER, and the INDIGO - Christ hybrid, and more factors enter into the concept of GOD, however for Man GOD is mainly "ANOTHER PERSON" (for the human body). When praying to GOD NON-MATTER, God NON-MATTER performs miracles, but controls the actions and deeds of other people very little, one can say does not control them at all, in such a case, GOD is the people themselves and whatever world they create, such a world exists! Anyway God does not control human actions, but He changes a person from the foundations (BASES) if a person is bad and behaves inappropriately. This is done when a person prays for another person! Thus God NON-MATTER can change a person if they are bad, but such a change in a person comes over a long time!

The progress of society in evolution: - It is a pleasure to me that humanity has advanced in evolution and in 2019 there are no longer such natural cataclysms as there used to be before, because the cataclysm was caused by humanity itself through HUMAN NEGATIVITY!. Natural cataclysms such as earthquakes and others formed through the negative energetic fields of humanity and in 2019 it is perceived that such phenomena have decreased, that is very wonderful! that man is developing and evolving, though

there is still much of the negative link in the world. God "does not interfere" in man's individuality, because man is given full choice and absolute freedom, so EVOLUTION takes place solely on the basis of humanity's awakening awareness, although as I mentioned, when a person prays for another person, God changes the other person, but if a person is very bad - of the SATANIC link and very undeveloped, prayer does not help, because a large negative worldview has been formed within that person, which they hold onto regardless of the impacts being made on them by God NON-MATTER.

In 2018, I personally had to work with the ENERGIES OF GOD'S CHARGES and create a program so that natural lightnings - energy discharges would be directed at humanity's largest negative areas and links. So know that if lightning strikes anyone, it will not strike without a reason.

RESPECTFULLY: - GOD!

192. PARADISE, PURGATORY, HELL

Note: The text being written is based on the research of the entire afterlife existence of humanity and corresponds to real reality 100%!

Written by: INDIGO (Psychologist of paranormal phenomena) - Vidmantas Grinčiukas -

Since the very beginning of humanity's evolution, the question has been raised within humanity: "DOES THE AFTERLIFE EXIST (?)" ... Yes, the afterlife exists!, this has been researched by me with proofs that are characterized in their precision by the realistic truth a full 100%!

The human soul is immortal, it can experience PARADISE, PURGATORY, and HELL!

1. First, let's talk about pleasant things: - PARADISE. Well, paradise is a supraconscious "fantasy", such a supraconscious "fantasy" that a person entering it is astounded and shocked by the quality of pleasures ... such pleasures form for a person that it is incomprehensible to them "what this is". Of course, a person enters PARADISE only when in a very good relationship with GOD. When I remember the paradises researched by myself, paradise forms for me right now on earth simply from the memories, just by thinking about it. The perception of an earthly human can only comprehend 3% percent of paradise, while 97% is the supraconscious, and humanity does not even have a clue about what pleasures await it for all eternity. To enter such a paradise of God, a person must be without sin and live for the well-being of the whole world and for GOD!

2. Purgatory! Purgatory is given to the soul's average sinners, people who lived an average earthly life on earth. The existence of purgatory is similar to the existence of earthly life ... the earth is PURGATORY, and a similar pleasure awaits a person after death, identical to the existence on earth.

3. Hell: This is a very terrifying thing, even my hands start to shake while writing as I think about it, because hell was revealed and shown to me ... To the extent that paradise is pleasant, hell is proportionally terrifying ... while living on earth people do not reflect upon this and commit crimes (sins), but what a hell they enter — if they only knew, it would shock them! There is no more terrifying thing in the galaxies than how terrifying Satan's hell is in eternity!

I have provided brief information about the afterlife existence; it has been researched by myself and is correct 100% without any errors or inaccuracies!

193. RELIGIONS – INDIGO GENIUSES

What is the difference between religions and INDIGO people?

Written by: INDIGO Vidmantas (Logos of Christ)

Respected people, beloved believers, with this article I would like to invite all religions and INDIGO people into a common whole of goodness and love. Unity is very much needed in our world.

The main difference

Religions mostly rely on faith, whereas INDIGO people rely not on faith, but on experience, research, and insights into reality. INDIGO people strive for purity, the light of consciousness, and a direct connection with God, therefore their path is not only to believe, but also to know.

Faith and knowledge

We all know what the word "faith" means – it is trust in God. However, INDIGO people believe that God can also be researched, and His presence can be experienced directly. Through long years of research and inner practices, it is possible to comprehend the power of God and His operation within the context of the supraconscious.

Body and consciousness

Man lives in a material body, which often limits his perception. INDIGO people strive so that the body does not become an obstacle, but is maintained through the principles of

justice and morality. To the extent that justice and morality exist in the world, the quality of INDIGO life and the light of consciousness also open up.

The path of humanity

There are still many challenges in the world because people are different and often guide themselves solely by material needs. However, faith and spiritual practices can help realize that God exists, and that everyone's life is a part of His light.

About religions

Christianity and other religions have their holy scriptures and traditions. Within them lie many valuable truths, but at the same time, there are symbols and interpretations that do not always reflect the full experience of God. Faith is important, but even more important is a direct connection with God, which everyone can discover in their heart.

Personal experience

Throughout my spiritual journey, I have experienced the presence of God and realized that the spirit of Christ is alive not only in scriptures or institutions, but in man's direct connection with God. This reveals that the experience of God is personal and living, rather than purely theoretical.

Respectfully: Logos of Christ – INDIGO Vidmantas Grinčiukas

194. GOD IN A PHYSICAL PHENOMENON

GOD IN A PHYSICAL PHENOMENON:

Emission – the emission of particles (e.g., electrons, ions)!

Transmission - Transionization of (electrons, ions)!

Transionization - a transformational phenomenon of (electrons, ions)!

TRANSMISSION -- -- -- I bought a bottle of light delicious wine... I tried to open the cork with a spiral corkscrew, (while pulling it out of the bottle)... I felt an inappropriate energy, and the corkscrew broke, it slipped out, completely without force, from the wooden handle of the opener - the metal spiral. I inserted it quite easily back where it was, that is into the wood, and left it on top of my music center... a bit of time passed (about 15 minutes) and I felt myself in a good energy... I took the bottle, and with enormous force, pulled the cork out of the bottle, there was barely enough force to pull it out, this is GOD'S science TRANSMISSION!

Vidmantas 2019-02-27 22:39:51

Note:

If you want proofs of my words about possible miracles "I" - love ///, then I create them with my pure holy chest, with which I form BIRDS under my windows out of non-matter... They are born spontaneously, upon me thinking about them with love. Mostly RAVENS form .. .. mmmmmmvvv. vv – wunderkind - Vidmantas - !

GOD { TIME }!

EXCERPTS FROM CORRESPONDENCE WITH "BŪKIT LAIMINGI" FB!

God is very complex, movements through time diagrams are taking place!

E.g.: Approximately - 15 days ago, from my apartment I saw a "bare" apartment building and it - with garlands on the windows... I looked at the windows... I was thinking about Judgments, and now the apartment building's windows can no longer be seen, it is blocked by a PINE FOREST.

I wonder if the local residents notice such changes in nature over 15 Days?!

As far as I remember, the pine forest had also appeared and disappeared in older times!

SUCH SUPERNATURAL PHENOMENA -! scientifically mean {TRANSIONIZATION}!

195. GOD’S JUDGMENT

JUDGMENT OF GOD THE ABSOLUTE FOR ALL HUMANITY! (FOR THE LIVING AND THE DEAD)!

Good Day Respected people!

The JUDGMENT of God THE ABSOLUTE took place in 2018, and from this year on, THE COMPUTER OF GOD'S SPACE programmed itself. God's judgment is carried out in the afterlife existence of the soul – spirit. People born before the date of 1969.08.17 entered the Judgment of Jesus, and people born after the date of 1969.08.17 entered my Judgment. In my judgment, there is no such thing as forgiveness of sins; everything depends on the structure of the soul of the person being judged. If a person balanced their soul to zero (neutrality) (- 0 -), they lean against God's zero, and for such a person there is neither hell nor paradise. However, if a person balanced the soul of their entire life into a plus (+), by leaning against God's zero they enter the structures – configurations of God's wonderful paradises, so the quality of paradise, which is eternal, depends on the computer diagram of their positive plus. The greatest pleasures of an earthly human can only reach no more than 3% percent of THE QUALITY OF GOD'S PARADISE! Likewise, a person possessing no less than 0.1 percent of a plus (positivity) has the opportunity to reincarnate, in order to raise the level of positivity in the eternal structure of the soul and reach the absolute paradise in non-matter.

If the structure of a person's soul has 0.35% (percent) of total soul negativity (-), the human automatically enters hell, and the level of that person's suffering for all eternity, from which they are incapable of liberating themselves and reincarnating, depends on their percentage minus computer diagram!

1. People born before the date of 1969.08.17 and who are still alive enter my JUDGMENT OF GOD THE ABSOLUTE!
2. People born before the date of 1969.08.17 and who departed into eternity after the date of 1969.08.17 enter the JOINT JUDGMENT OF JESUS AND ME, which means that soul forgiveness has been formed for people, and a person possessing more than 0.35% percent of negativity has the opportunity to cease to exist. A person possessing 0.1% of positivity enters the configurations of GOD'S paradise.
3. People born before the date of 1969.08.17 and who departed into eternity before the date of 1969.08.17 enter the Judgment of Jesus, where there is forgiveness for sinners, but there is no paradise for anyone! Those who lived according to the teaching of the church and followed the instructions of the church entered eternal rest without paradise (for them there is neutrality)!, for those not guided by faith: - ETERNAL HELL.
4. People not yet born enter my Judgment; the judgment of Jesus no longer exists, just as it is for individuals born after the date of 1969.08.17.

This is how THE COMPUTER OF GOD IS PROGRAMMED FOR ALL HUMANITY OF PLANET EARTH!

196. REINCARNATION

Hello. I have just read on this website that very little is written on this topic, because people do not know and cannot know this topic precisely, unless it is drawn from books and the like. However, to no person in the world is this matter known precisely as it is to me..... I do not even need any books, because I write everything from my inner world, which I do not even doubt, because I do not need to believe or not believe in it, it is simply enough for me to know, because God Himself proves to me that which I could not explain to any human being, although I try to do so, realizing that it is impossible to do.

I apologize in advance to the readers that I will write nothing about myself....., because it is forbidden for me to do so.

With this article I will reveal a very important question to humanity, however this concerns only those people who will believe in the words I write and live their life with the heart, having drawn very close to God. Those people after decades, or even after centuries, will thank me for this article.

SUCH A THING AS REINCARNATION INDEED EXISTS, HOWEVER NOT EVERY PERSON IS DESTINED TO EXPERIENCE IT.

It is even possible for a person to know about their past life, however that person must live their life in the heart with goodness, love and God. Yet even that is not enough, HE MUST PROGRAM HIMSELF IN THIS LIFE, as to what he would like to remember in the next life from this life of his. If a person does not create such a program, they will not have the opportunity to know anything about themselves while living in the next life, and without knowing, the person will not believe in reincarnation.

CAN A HUMAN SOUL REINCARNATE INTO A BEAST, AN ANIMAL OR A BIRD. My answer would be categorically NEGATIVE, because this would be an impossible phenomenon. Why it is impossible can be comprehended by knowing well what the human soul itself is. Comprehending that matter, and this can be understood only by having experienced certain phenomena in the spiritual world, no doubts would arise. All this I will try to explain by the fact that the human spirit is a reasoning phenomenon in a certain sense (no animal possesses a human mind).

DOES A HUMAN SOUL ALWAYS REINCARNATE. MY ANSWER WOULD BE CATEGORICALLY NEGATIVE AND ACCURATE 100 PERCENT.

WHAT HAPPENS AFTER DEATH TO A WONDERFUL PERSON OF A PURE HEART.

ANSWER; The soul of such a person unites with the creator, i.e., with the Divine spirit, and chooses the Country, body build, eye color, gender, parents and lifestyle on earth

by itself, as well as many other wonderful things. IN THAT SENSE, THE PROGRAMMING OF MAN TAKES PLACE IN A CERTAIN SENSE.

To the readers I wish God's blessing and a wonderful life on earth -Vidmantas- (the articles are researched through the paths of spirituality and correspond to the real truths 100 percent.).

SIGNED BY: GOD THE ABSOLUTE.

197. PERFECTION

HUMANITY'S TENDENCY TOWARD PERFECTION

First, I would like to emphasize that humanity's tendency toward perfection over decades becomes apparent only within the context of the material system. The world is perfecting itself in the branches of science – inventions and other areas of the material sphere. One can state that such perfection as in the spiritual context does not exist, which is the foundation for man, in his life, in his maneuvering of eternity. Looking from the science of astrology, the earth has transitioned into the age of Aquarius, as a consequence of which more Indigo people have begun to be born. In this case, I state that humanity is perfecting itself to some extent in the spiritual realm as well. However, this process is very long in terms of time, therefore there is no distinct tendency toward the spiritual perfection of humanity.

A person's tendency toward perfection is somewhat limited, in the spiritual world, through the person's own karma. To explain more clearly, a person's karmic link does not allow the person to be perfect, at a high level of consciousness, because the entire personal life worldview of that person depends on human karma. Such a situation is true for people of low awareness. People of high awareness, unlike those of low, progress toward perfection through their karmic realm. In conclusion, people of a low level of awareness do not even realize that they need to perfect themselves, they do not realize the meaning and importance of perfection, therefore they do not progress toward perfection. For people of this awareness, it is essential to form correct and proper worldviews on life. This must be done by the link of people of higher consciousness. It is observed in the world that people of low awareness enter the governance of certain spheres and occupy leading positions. This is very bad, because in such a case, the world will never perfect itself if such a situation continues. Indeed, the world is very diverse, it contains everything, and to state that it is very bad in it is impossible. A multitude of all kinds of situations exists in the world, that is, both very good and very bad ones. Various links of humanity's people exist in it, within which there are mutual interactions of people of very high awareness. If they are not present in the environment surrounding us, it does not mean that such human interactions do not exist at all. In humanity, the foundation of perfection is precisely the proper and correct connection of mutual relationships between people in the material sphere. I think that in striving for perfection, people need to start doing it from themselves, from their own family, from the closest environment surrounding a person. Only perfection in the family properly prepares the young generation of humanity – children – for life. Children are the replacement of humanity, which will determine the entire existential – qualitative future status of the world.

Speaking more broadly about humanity's tendency toward perfection, I would like to explain to the reader that without spiritual perfection, a person will never be perfect in the existential realm of matter, in its consciousness. As I have mentioned in this publication, after 40 years, humanity will be more perfect in the spiritual sphere as well, because an increase of Indigo people on earth is observed. Their abundance will change the world, its existential consciousness. I believe that over time Indigo geniuses will perfectly refine the entire existential condition of planet earth. They will introduce a new perfect thinking in all earthly areas, both in culture and in material and spiritual values.

Respectfully; with love, INDIGO - Vidmantas -

198. THE FUNDAMENTAL LAW OF LIFE – LOVE

THE FUNDAMENTAL LAW OF LIFE:

The fundamental law of life lies in man's love for everything. Only by loving God with a pure heart is it possible to learn about Him through the spiritual path. Without pure love, only a blind faith in Him is possible, but in love He reveals Himself to man; perhaps He does not reveal Himself to every person due to certain reasons, however, it is necessary for every person to love Him.

In love, another person also reveals themselves when loving Him; this revelation takes place through a telepathic - spiritual connection, and by showing immense love to a deceased person, it is possible to achieve contact with them, i.e., with their soul - spirit.

With love grows human awareness, and a person having reached high frequencies is capable of distinguishing truth from lies, because that person can feel the spiritual state of another person's soul and the like.

Signed by: GOD!

LOVE

Psychological article "LOVE"!

Written by: INDIGO man - Vidmantas Grinčiukas –

Good Day Beloved people!

Do we know what LOVE is (?) ... Love is a wonderful fabulous feeling toward another object; it can be another person, the Homeland, nature, the world, GOD and the like; the objects can be very numerous, therefore it is impossible to list them all. The world is created on the basis of love, because without love it would disintegrate; therefore, where there is no love in the world, all kinds of absolute evils and pain prevail. It is said, why is the world so bad?, because we do not know how to love properly, therefore the world is bad! Anyway, human love exists in the world, but it is selfish. We love if we see a benefit, and if we do not see a benefit, then we do not love. WHY DOES GOD LOVE THE WORLD WITH UNSELFISH LOVE?, because with the supraconscious He surpasses the minds of humanity and is the Source of perfection. Can we humans love the way GOD loves, without personal benefit? OF COURSE WE CAN, but we are too stupid for such a phenomenon of aspect. In the world there exist INDIGO people who, according to GOD, love unselfishly, but how many true INDIGO people are there in the world (?). If we knew how to love the way God or an INDIGO loves the world, we would live in a paradise of perfection... Why are people so stupid? inclined solely to wage wars and build walls of opposition against another person. With such a worldview, they equal the mind of an animal. For all times humanity should memorize that man is not solely a body and one cannot live solely for the body, after all, this forms hell not only on earth, but in man's eternity as well! God is the source of love and forms paradises incomprehensible to the mind for a loving person, yet people are so stupid that they reject paradises and choose "hells". Whatever world we create for ourselves, in such a world we live!

As far as I understand, through the needs of the body, people's love for everything grows cold, however, it should not be forgotten that the human body is merely a tool for man to live and perfect himself; it is not the foundation of life for man. Whoever considers their body the foundation of life perishes over time; if they do not perish completely on earth yet, then in the other world of GOD they perish absolutely - completely, because the human soul becomes formed for the needs of the body, and when the body is no more, such a soul carries very great sufferings in the process of eternity.

LOVE AND BE LOVED!

Respectfully: Logos of Christ – INDIGO Vidmantas

199. LET US CREATE A UNIFIED PLANET

Beloved and dear readers, I invite you to create a unified planet based on perfect goodness – through the directions of love, decency, morality and tolerance. Today democracy dominates in the world, and within a democratic system it is favorable to build the foundations of unity. Let us reject the worldviews of war and selfishness, let us strengthen honesty and fellowship.

The ego in man should be balanced with honesty and light. Let us dedicate less attention solely to matter, because not everything can be bought with money. We can acquire things, but we cannot buy the spiritual world and love. Without love, a person feels empty, and the true "spiritual capital" is that which provides fulfillment.

A call for unity

Respected heads of countries, let us unite the world into a whole! After all, the military consciousness must end sometime. Humanity lived for a long time in the rhythm of conflicts, but now the time has come to create a new logic – that of peace, cooperation and awareness. Let us search for ways to develop human consciousness, utilizing education, psychological sciences and spiritual practices.

The opportunities of democracy

Beloved people, we live in a free world, in a democratic system of governance. The roots of democracy are very suitable for creating a wonderful world without lies, without deceptions, without crimes. For this, the efforts of states and responsible leadership are required. Awareness does not appear in a single day – it is a consistent process for

which the support of the state and society is essential. Therefore, let us elect a government that cares for the growth of people's awareness and the direction of light.

A new era

Respected people, we have crossed the year 2000 and a new era has arrived – the era of Aquarius, the era of INDIGO people. This is a time when humanity is moving little by little along the path of awareness, just like the technologies of the world. This means that the old paradigms are gradually yielding their place to new ones – to the principles of light, love and unity.

Signed by: INDIGO Vidmantas G-7, Christ

200. THE TWENTY - FIRST CENTURY

THE 21ST CENTURY:

The 21st Century is THE AGE OF AQUARIUS according to ASTROLOGERS, which means – an age of harmony and concord, as well as love, based on the worldview of INDIGO PEOPLE. Since it has recently begun, the remnants of the 20th century – the remnants of the age of Pisces – still exist in the World. Over time, humanity evolves and acquires ever higher awareness. Technologies are developing rapidly in the world, and with them, human consciousness.

The 21st century is the century of a new ERA, and it is special because the evolution of humanity is developing – slowly, but it is developing. The number of INDIGO people is increasing in the world, and they are changing the entire outdated worldview of old people. If the number of INDIGO GENIUSES continues to increase, they will reshape the entire thinking of humanity into positive, correct, and favorable areas.

Respectfully: INDIGO Vidmantas

---

201. TRANSCENDENCE

Transcendence is not possible for every person, an ordinary person cannot reach transcendences, this is related to aspects of their personality (karma). Transcendences

are reached by INDIGO personalities, also ordinary people who are pure and clean inside have the opportunity to enter the transcendental version of God.

To reach a state of trance, a suitable environment and suitable situations are required, out of nowhere transcendence is impossible, beforehand such things are created from a person's way of thinking and a suitable environment, as well as situations.

Transcendence occurs through internal aspects of human purity – cleanliness.

The state of trance is a very, very pleasant sensation, within it even a person's appearance (face , body) can transform.

Transformations do not last long, because man's logical mind returns him to previous – usual episodes.

Indigo people are capable of sending another person (an ordinary one) into trance episodes, if they get along with them very well, if the person is incapable of reaching episodes of purity.

Transcendences are of different models, they can be in aspects of human relationships, contexts of nature, selfhood, and God (totalities).

God's transcendences are very perfectly powerful and characterized by diversity, because God's world is endlessly wide and diverse.

Divine transformations are characterized by perfection, because the human mind begins to operate according to the molecular information technology of brain cells incarnated by God.

Transcendences of Indigo Children – people are ideally perfect, where they can feel even the molecular spiritual structural configuration of colors, because of their (wonderfully, - perfectly, - powerfully) developed imaginations. An Indigo child enters a Divinely perfect paradise.

Transcendences highly depend on a person's worldview, way of thinking and other factors. With negative energy, a person does not enter a trance, there are cases when a person of negative potential gets along with another negative person, however, it is not transcendences that form there, but a pleasant moment between circle of people of their own matching worldviews, who are traumatized by the totality, because the existential model of the totality is based on a positive energetic worldview.

Human negativity (negative potential) in bioenergetic fields is suppressed - lowered by the energetic fields of the totality. If bad people feel good among people of the same thinking, they are being suppressed by the energetic field of the totality.

It is very important for people to strive for goodness, beauty, love, tolerance and respect for each other, because without all this, - negativity is created in the spiritual realm of people.

Modules of transcendences are very diverse and different, only a person of good karma is capable of experiencing " paradise " on earth. It is necessary for a person to love God in order to see trance situations.

Transcendences are popular among indigo children and indigo adults, because an adult indigo person still possesses the childish characteristics of an indigo child, perfectly knowing the spiritual and philosophical (psychological) maturity of the existential model of the totality.

For indigo people, transcendences are personally created by God the Creator Himself, if the indigo child, or adult, goes – (leans) toward such situations.

NEXT, I present one of many transcendences, where within the possibilities of God an indigo person enters a trance created by God Himself;

With me personally knowing the existential laws of the universe;

In matters, existences are possible and oriented toward the supporting link, both in a philosophical meaning and in the sense of the existence of bodies.

THE SUPPORTING LINK is the foundation of the fundamental law of connection – interactions in any existence. Without this foundation, even existential movement – (interaction) is impossible. Based on this law, the universe and planet earth were created.

TRANSCENDENCE Transcending time and space,

The models of transcendences created by God surpass time and space within matter. Indigo children have the opportunity to cross time in matters, that is, they can be both in the past and in the future, because with God's help they find themselves in another time with the material body. Average people do not notice this because they do not track the changes of materialization, and they find simple explanations from the logical mind acceptable to them, according to the versions known to them. All this can be described as follows: thanks to the Indigo personality, the environment of matter is altered for a certain time because inside them, while they themselves are guided by ideal justice,

discrepancies form between the motives of justice, and God alters time so that they can see the past or the future. All this is done in the Indigo person's collective connection with God's crystalline computer version.

For myself in situations involving a territory of matter, I have managed to cross time about three times, which I know and have memorized, and how many situations are unknown to myself (?), there could be about twenty.

In transcendence, through the discrepancies of the motives of logical thinking based on justice, I reduced an electric microwave oven by 1/3 part. After the experiment, I felt the materials – (chemistry) of the oven product in the cavity of the brain. When changing the dimensions of matters and the matters themselves, within Indigo personalities, the energetic effects of the materials of those matters can form on the head. For an Indigo person who understands well, those effects might not even occur if he knows the situations and the reasons for which extrasensory events take place when experimenting with human logistics – logic.

It is very important for Indigo people or children not to become energetically depleted after God's TRANSCENDENCES, because in them they enter perfection and, after a certain period of time passes, they return from "paradise" to the ordinary existential episode created by the environment. For them, knowing the basis and foundation of the logistics of ordinary, average people, it is very difficult to maintain a positive psychological amplitude. Helped by the crystalline computer link of God Himself, they do not feel negativity in the energy; God places them into the tracks of ordinary – average life, according to the states of their level of reasoning.

Through TRANSCENDENCES, an Indigo person is capable of tearing themselves away from the earth and the environment surrounding them, if another model of existence were to be created and if the factors of memory allowed them to do so, because through the memory of their material body, they cannot find ways to break free from their own versions of memory by themselves.

God's crystalline logistics surpasses, by SUPRACONSCIOUSNESS, any versions of computer programs in the universe. On planet earth, the versions of God's capabilities are utilized somewhere around no more than two percent, because its existential model is based on a material – matter existence foundation and its laws. The model of planet earth is modeled according to the laws of conservation, attraction, and others.

The law of conservation; In physics, it specifies that a certain measurable property of an isolated physical system does not change as that system evolves. Every law of conservation is a mathematical identity of some property of that system.

The law of attraction; Newton's law of universal gravitation states that any two bodies in the universe attract each other with a force.

EXISTENTIAL LAWS are created from the very possibilities of existence for laws to exist. In the version of God the ABSOLUTE: - the possibility for God – the Father to change them.

God – the Father is the Father of specific existences.

Christ; - LOGOS

TRANSCENDENCE In the material system (model) of God – the Father;

God is the absolute. For an Indigo person who is capable of researching God Himself all his life and penetrating into the depths of his own sub-consciousnesses, God Himself creates favorable conditions for him to exist while living through difficulties or unpleasantness.

Next, I describe a situation that does not correspond to the laws of conservation and attraction.

"Winter, … cold, the sealing rubbers of the apartment's plastic windows between the outside and the inside are broken. I froze while sleeping in the apartment, and due to the cold temperature unfavorable to me, a danger manifested for the activity of the brain, because I had suffered nervous shocks. Without waiting for anything, I made contact with God. When contacting God, it is necessary to have a reliable existential link in one's philosophy. At that time, MARY became the existential link, of whom I have made a logo on the computer – in my own version of the computer. The contact helped, because after a while, the bathroom towel rail began to heat up from the cold water radiator. I did not use any water, up to the towel rail the pipes of the radiator were of icy temperature, but the radiator itself heated up close to 90 degrees Celsius. The heating took place for about an hour until it warmed up the space of the apartment well. The water meter did not turn because I did not use any water, and up to the radiator, the device was of icy temperature."

In this description of the situation presented by me, TRANSCENDENCE took place within the model of God Himself.

In life, it is very important for people to strive for perfection in the aspects of their own personalities, to improve their innate roots, and to perfect the connection with God's existential realm. Human awareness has significantly improved in the context of evolution compared to the year 1900.

Transcendence is the achievement of the peak of perfection, so I wish every reader of the book to strive for perfection both in their spiritual worldview and in the care of the physical body. It can take place, as I mentioned, within the proper comprehensions of nature's identity as well, but a perfectly balanced worldview and a proper innate root of man – karma are required. The Model (structure) of God is infinite, which according to the research conducted by me is divided into two different philosophical comprehensions, namely;

The crystalline – "computer" side.

The spiritual existential side.

Within the contexts of God's infinity, those two sides interact closely into one collective consciousness;

- "THE ABSOLUTE".

TRANSCENDENCE;

- It is the state of being, existing beyond the other side of something, for example: The existence of an object beyond the boundaries of mind and knowledge, or of absolute being – beyond the boundaries of material reality.

Signed by: INDIGO Vidmantas Grinčiukas.

202. THE HUMAN KARMIC ORIGIN

AUTHOR: PARAPSYCHOLOGIST Vidmantas Grinčiukas.

THE HUMAN KARMIC ORIGIN

People's karmic knots exist on the spiritual existential side of God. The spiritual existential realm of God is slightly known to people because books are written about it, e.g., such as the book "Urantia", written by various practitioners of the spiritual field. There exist many teachers-specialists in the world – clergymen, in religion and elsewhere. The spiritual realm is accessible to many, differently from the other existential side of God;

- OF THE CRYSTALLINE LOGISTICS, which is based in philosophy more on the governing-knowledge link.

People's karmic knots are created within God Himself, in the spiritual world of God. A karmic knot is born from the root of a person's origin – from great-grandparents, grandparents, parents. A person's karmic movement can be perfectly altered if it is possible for the person themselves to draw closer to a higher version of consciousness.

The karmic figuring of a person's genes would be dissolved by God Himself if the person were capable of breaking away from the chains of kinship by accepting God within themselves with love. However, God does not possess versions of "What to make that person into (?)", because it depends on whose philosophical link the person follows throughout the flow of their life's path. In conclusion, God does not change a person, because the person remains without genetic reinforcement in existential daily life, and on the other hand, as the person does not possess the necessary memories to exist normally in the environment of the whole. The necessary – proper pieces of information are not present within the person. It is said that the person themselves creates life for themselves, but a person of poor-quality karma is incapable of creating an ideal path for their life in spiritual logistics. The genetic system of a person's genes reflects the state (condition) of that person's material body, while that person's spiritual energy reflects their logistical characteristics.

The specialists of the spiritual book "URANTIA" saw only one side of God's existence, failing to notice the crystalline logistics, which was perceived by the authors of the book "ANASTASIA". In that book, God's crystalline logistics was perceived to exist, which is well known to Indigo children and people.

The karmic genetic importance of people heavily depends on a child's conception, birth, growth, and becoming an adult. A child's life is mainly influenced by the environment, because the environment is the foundation for a child's development, perfection, and movement along the entire chart of life. I must emphasize that for a growing child, the

foundation consists of the parents and the school. The influences of friends on a growing one are stronger than those of the parents themselves, if the child's karmic knot is inclined toward the aspects of communication (mobility, events, activity).

It is very important in society for a child to grow up in a perfect environment, because in such a case, the growing one can perfectly develop their potential in the realms of goodness, beauty, love, tolerance, and respect for one another.

As I have already mentioned, regarding people from the Divine origin, a person's origin is created within God Himself, and a karmic knot is born from that person's material parents as well as further relatives, if the person's soul forms for the first time in a child's existence. The structure of that newborn's soul is perfect, but the spirit is without a practical model of information. The entire biological genetics of a child's body is determined by the genetic biological genetics of their parents. A growing child is completely dependent on their parents and God. Helped by God, they have the opportunity to develop their existential karmic knot.

When a newborn child's soul enters a child's materialization not for the first time, it provides the newborn with information about the configuration of that soul, because the child's spirit possesses its own distinctive informational model. Such existential – resonant spiritual variants are called REINCARNATION. A child experiencing a spiritual resonance is a more independent personality than another child without reincarnation, who is bound to the genetic connection of their parents. It is important for children's parents to know that the future of their young children – offspring depends on their mutual relationships. The karmic aspect of children specifies that on the Parents – retainers depends

the condition of the child's organism in a genetic comprehension, while on the child's inner spiritual aspect; - his mind. If a child is intelligent, while the parents are not particularly intelligent, there is a high probability that in the soul he is not distanced from God Himself and has experienced reincarnation, because the wisdom of a child's spirit appears through its own distinctive model of information, thanks to spiritual resonant processes.

When the spirit of a person of good karma is within God and wishes to return to the matter of an earthly body, it never chooses a perfect - material life of bodily pleasure, ... it chooses somewhere around the middle – average, and if it wishes very much to refine itself, it chooses a difficult devotion – devoting oneself to God, well-being, love, justice, and the like, because in God's love it agrees very well with the Creator.

The phenomenon of the comprehension of spiritual resonance I can explain by the fact that changes take place in a person's spiritual – inner processes. When certain

processual aspects match, those aspects manifest intensely and refine a person's mind as well as talents. A non-reincarnated person lives a calmer life because there is no resonant process within them.

When a child generates negativity maliciously,

If a child has reincarnated, ... from resonant complex – current existential phenomena, ... if the child grows up in an inappropriate environment of the environment surrounding them, he becomes disabled, because through spiritual resonance

When a child generates negativity maliciously

- through the energetic realm of that child's body, their personality perishes.

It is very important for parents to be educated with knowledge and competence in communication with children because, as I mentioned previously, God does not create a karmic development; everything depends on the awareness of the personality itself.

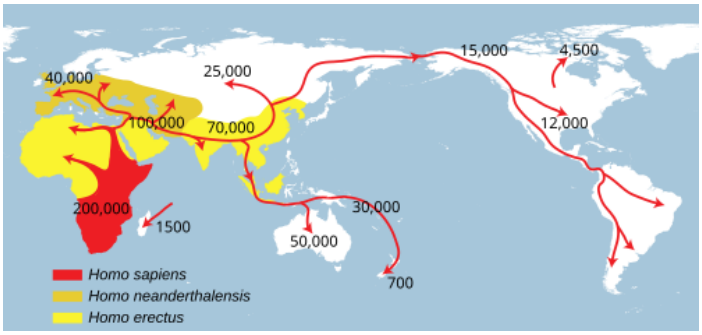

KARMA is a person's destiny, soul, and the very spirit of a person.

THE AUTHOR'S WORD;

I wish the readers of the book to strive for the necessary knowledge, correct worldviews on life, understanding in communications, the development of awareness, and love, because only with love is it possible to reach perfections and one's existential peaks. The karmic origin of people is very different and diverse; separately for each person, their own daily bread is destined.

With love: - Vidmantas -

203. HUMANITY'S EVOLUTIONARY STEP

HUMANITY’S EVOLUTIONARY STEP

The evolutionary step of humanity began with the creation of the human race on earth. A community of humans was created by the laws of earth's energy from the very energetic foundation of the earth. The existential model of man was birthed by the earth, that is, by the earth's energy interacting with the model of God's existence. For the absolute of God, planet earth was the supporting link for existential laws. According to the configuration and existential regularity of the material earth, living creatures developed on earth, adjusted by the logistics of God – the Absolute, because any creature leaned against the logic of God, by the existential laws of the supporting link. Thus, the model of earth's existence adapted to the logic of the ABSOLUTE. Vital forms of creatures, in correction with God's logistics, having adapted to the earth's atmosphere, evolved; evolutions took place because the logic of the Absolute dragged the evolutionary process forward, since these two links were joined by the primary law of the universe's existence, without which imperfect creatures on earth would have developed according to atmospheric earthly energetic capabilities and would not have properly adapted to nature.

Man began to evolve from the very moment he appeared on earth, because he lived in wild nature. The evolution of man has taken place over a great many years and is still taking place. Somewhere around 40 years from now, an evolutionary shift will become apparent in humanity, while it may take as long as 2000 years to reach perfection. The evolutionary foundation of humanity is composed of human awareness (karma, knowledge, and the desire to perfect oneself). The initial influence on people must begin to be made by (influencing people) the heads of states (government). The first step is taken, in the direction of awareness, from their side. In the countries of the world, there are very different situations, some advanced in that direction, others moving very slowly. The Country of Lithuania, according to its name, is associated in God's logistics with rain, that is the concept of God Himself in the aspects of the identities' logics; the logistics of God's identity is perfect because it is located on God's crystalline energetic side, not the spiritual existential one.

The evolutionary foundation on earth is created by existential laws and God. A tree grows on earth, named: SPRUCE (EGLĖ), according to the philosophical appearance of which the philosophy of people is based, in the comprehensions of their life's path, which is decorated during the Christmas holidays. Good philosophers should understand the significance of the tree, because the entire existential path of man is reflected in the arrangement of its branches and needles, under the name "the stairs of life". A person who has climbed them does not have the opportunity to fall down. While climbing the stairs of life upward, it is necessary for a person to have supporting links

both on their feet and in philosophical logic, while climbing the branches of the tree – the "little spruce",

where a person could climb and, having slipped, fall down – hurt themselves (?).

The existential evolutionary step of man depends on the place where he stands and on what kind of foundation. If a person is not inclined to evolve, how long would he be capable of standing in one place (?) on a spruce branch? while standing, he would grow tired and would no longer have the strength to climb higher, he would die on that branch, would be born, and from that same place would climb upward again after resting and gaining strength. A person having climbed to the top of the spruce (at the top of the spruce there is a thinning trunk) would no longer sustain the material body and would not need to be reborn again; he would continue eternity in the non-material concept, because having been reborn he could not exist at the slender tip of the spruce with matter.

Christologist Vidmantas; - Logos of Christ

The evolutionary movements of people in the evolutionary direction are oriented toward the development of people's consciousness – understanding, and the expansion of possibilities for refining matter, as well as the expansion itself in the pursuit of perfection, moving – inclining toward the pursuits of the well-being of perfection.

Every person must strive for well-being, taking into account their capabilities and situation. Striving for well-being should be understood as the potential of developing one's personality. By developing one's positive potential, mutual understandings among people draw closer. When mutual understandings draw closer, unity, coincidence of interests, and common goals are born. The more aware a person is, the more understanding they are in relationships among other people and collectives, and the wiser they are. Wisdom unites into unity within the very same interests. In the world, people's interests are very different because a large individuality of the meaningful concept exists in personalities. The individuality of the meaningful concept in people forms from the pursuits of one's own interests alone. With such a situation, there is no unified opinion to improve the structural quality of the world's existential model.

In order to create a perfect future for the world's humanity, first of all, people themselves should elect from among themselves suitable and competent leaders to lead the Countries – states, who would already be advanced in the consciousness of well-being comprehensions and would not confuse interests with negative logic. Competent leaders of countries and states should, first of all, consider within the context of philosophical – psychological sciences: from what the Countries maintain themselves, from what sources they earn a living – sustain themselves.

While creating human well-being, it is necessary to strive for the closest possible equality among the inhabitants of Countries; there must not be many poor people and many millionaires; it is necessary to reduce the number of both, and move toward an average level of living. Moving in that economic direction, the goals of interests and views on the material situation would draw closer among the masses of people. From people's similar views and goals, oppositions between different people would vanish, and goals of unity would form within people.

According to modern computer technologies, it is necessary to find the average of the country's people and raise their candidacies into the governance link of states. The average is found by summing up the wealth of all inhabitants and dividing the wealth by their number; thus, the average of wealth is found. The link of people possessing the average of wealth with ideal competence needs to be admitted into the country's governance mechanism. The middle average link of the Country is the most suitable to govern, reflecting the real economic and other truthful situations of the states.

In a mechanism of democratic governance, to do this is problematic; everything depends on the competencies of the voters; in such a case, one can only wait for the evolutionary course much longer; with the previously described variant, the well-being of people would change for the better much faster, because the logistics of the people of the average link is the most suitable for Countries – states to create and perfect the future.

DEMOCRACY; - It is a form of governance in which all citizens have the right to participate in the governance of the Country. (Equality and freedom are important qualities for democracy).

The structure of the form of governance is based on; - A correct system defining a proper systemic foundation of the government structure, based in progression on a perfect – balanced within the government systemic government structure.

This definition "DEMOCRACY" provides an understanding of how the model of democracy is properly and correctly understood.

In the first half of the 20th century, on the basis of the foundation of the Russian state, a union of states was created, calling itself the "Soviet Union", within the worldviews of the philosophical link of the Soviet Union, coinciding in the worldview of the socialist mechanism with some other states of the world as well. The Philosophical mechanism of Countries' governance itself was modeled into the ideology of communism and its pursuit. The ideologists - philosophers – specialists of those times and of that system, as personalities, were highly advanced in the areas of human humaneness concepts. Their karmic knots are significantly more perfect and firm than the karmic status of the

people of the Democratic system mechanism, even though they themselves denied the existence of God. Through ideological philosophical foundations, they relied on scientific knowledge – scientists, in pursuits of a perfection distinctive – distinctively well-understood to them, called; - "communism". Thanks to the ideologists of socialism, a model of the communist system was being created, the foundation of which consisted of equality – equality among the material values and concepts of people in matter. They sowed the ideology into a perfect worldview of material values, however, there was no proper – necessary spiritual karmic development among the people, and their systemic ideological mechanism was left unimplemented; the philosophical foundations of socialism were being destroyed by pursuits of personal benefits, as a consequence of which DEMOCRATIC governance and the modelization of a Democratic view - orientation shaped themselves.

In the circumstance of a good – firm – advanced level of human karmic development, the DEMOCRATIC mechanism is significantly – incomparably, perfectly more perfect – more advanced than the systemic mechanism of communism, however, it is essential for people to be perfect and good. In a system of a democratic foundation, a person has the opportunity to individually pursue perfection according to the regularities of acceleration; in the mechanism of communism, a systemic perfection and the individuality of people is pursued, however, in that system, karmic capabilities are essential. Without people possessing a certain level of karmic development, the systemic – material existential existence of communism is impossible.

The karmic system of the ideologists of a socialist basis continues to perfect itself within the Democratic system as well. The level of their spiritual state cannot worsen according to the known existence of God's spiritual side; their souls have the opportunity to enter the models of God's peaks. In a proper Democratic worldview, a person individually, by their own strength, has the capabilities to develop an unreal closeness to God; in communism, to do that would be more difficult, because it is required that the entire environment of people surrounding them reach his development within the context of the spiritual aspect. It is little likely that people would be capable of developing perfection solely through a system, because the system would demand from a person things not all-acceptable to them in the spirit, and in this case, the person would be restricted. For that existential system, ideally all perfect people are required.

When modeling the systemic knowledge of perfection and the foundations of its baseline, it is necessary for the world to know the roots, from what aspects perfection arises.

The evolutionary directions of humanity are oriented toward the achievement of perfection of the human being itself as a personality and the implementation of those pursuits.

The foundation of perfection is linked to the fact that for any civilization of existences, a directional pursuit – movement toward the core of God - "THE ABSOLUTE" is applied, - to the proximal foundation of consciousness, -- to the nucleus of His perfection - His foundational existence, because the baseline of ABSOLUTE logistics is located very distant from material logistical existences, and relying on knowledge – (practice) about the regularity of the supporting link, perfection in universal existence is pursued.

For the inhabitants of planet earth, there is a foundational foundation - "EARTH"; according to its configuration, an existential regularity has been modeled, possessing a protective field of the atmosphere against the inaccuracies of the Universal material system's negativity. The configuration of the earth allows (has such capabilities) to possess the contexts of perfection and implement them, after refining the existential consciousness in the configuration of its inhabitants. Well knowing the planetary civilizations researched in the philosophical... , - in matter, and their existence, planet earth is located right around the 4th-3rd place in terms of development and its capabilities to develop. The existential model of the universe dictates conditions toward the aspects of goodness and beauty, however, it is very difficult for the modelizations of planetary links to live according to the motives of perfection pursuits.

The human evolutionary process is based more on earth, - earthly structures of the spiritual model, which forms from the configuration of the earth itself, that is from the material spirit of the earth (soil – black soil and the like). By mixing those things with the half configuration of God's crystalline logistics, man acquires the feelings and knowledge of a spiritual mixture, where the episodes of the paradise of perfection are reached within the technological version capabilities of Indigo children. The foundation of crystalline logistics on planet earth is composed of;

- The solar energetic existential spiritual structure.

The logistical configuration of nature is called; - the technological existence of perfection of the identity model.

The thinking technologies of Indigo children significantly surpass the boundaries of an average human's capabilities. They in human, average people's psychology are "wunderkinds", surpassing time and space, although the time of God's ABSOLUTE is one.

The author of this book is an INDIGO person.

If an Indigo person, according to the laws of the supporting link, enters the logical episode of God's ABSOLUTE where God Himself becomes the support for him, his matter is neutralized because the human pressure of the environment "spits him out" from the existential capability of matter.... "The body is rammed into a 'box' - the dead end of a tunnel, its end". Experiencing a transcendent paradise, and for the physical human body - traumas. In such cases, his material body is dissolved. The body does not disappear in the case of an environment of very, very positive motives.

The exact evolutionary process of humanity, until this publication issued by the author of this book, was not known to humanity. People reach perfections in the fields of science according to the limits of their capabilities. Electronic computer programs are perfectly created in the world, electronics itself is perfect, bound in existence to the computer science of God Himself, - from which it evolved. To evolve, an average human as a creation of God is capable perfectly, but his problem is;

- The imperfection of his relationships with those identical to himself.

In humanity, a great deal of unnecessary energy was utilized for the purposes of wars (discord), defenses against enemies, and protection of their own bioenergetic material bodies. That awareness which would allow people to perceive existence without opposition has not been reached by people. Within matter, according to the existential law of the supporting link, material wars took place among people themselves, using very powerful metallic and other chemical technologies created by themselves, - for the fragile – weak and very painful earthly bioenergetic cellular - mineral bodies, where the foundation of the body is composed of water with a mixture of its deep-rooted food mineralization, renewing itself from a hydrogen mineral energetic charge and an energetic connection with God and the environment. The average of the existence of humanity's human material bodies is about 80 years, as if the mineralization decays and the energy discharges, as a consequence of which a person becomes incapable of drawing energy from anywhere. This phenomenon in people is called by people; - "the death of man" from old age. Through wars and discords, they destroyed one another with a perfect technology of immense power, comparing according to the possible power force of planet earth's capabilities.

On planet earth, there is a very, very powerful atmospheric layer into which the highest technology of the universe would not risk arriving, because chemicals would destroy them; in the universe all this is called; -

"acid".

Humanity is incapable of imagining the material technologies developed in the universe, which exist according to the regularities of those technologies based on the laws of God's ABSOLUTE supporting link, by which other versions of regularities are modeled. Inhabitants of other planets call planet earth; - a microchip, perfectly knowing the regularity of existential phenomena, because the inhabitants' (people's bodies) are made of water hydrogen, through which there is a connection with them. No most powerful force of the universe is capable of fighting against the earth, because connections of information technology perfection exist and the informational connection of hydrogen through people exists, and in such a case it is called; - "a microchip".

The author's word;

"In the Universe I am known and called, - 'perfection', unappreciated by the inhabitants of the earthly civilization.

In the universe there exists such as a planet of 'mind', which is incapable of surpassing me, because mine is a very close connection relationship based on pure love and unspeakable devotion, ... – spirituality, with the technology of God's ABSOLUTE itself, (knowledge and memories). God keeps renewing the body of matter for me, however I do not maintain it in a good condition through the situations of life circumstances, which gradually decays. In order for me to always maintain the material body in a good condition, it is necessary to be guided by the scientific achievements of the inhabitants of planet earth, because their science on this issue is perfectly developed; it is not enough to solely have God's support and a support to maintain the mineral – bioenergetic body in a wonderful condition.

- Vidmantas G. –

b.1969.08.17 - ... y.

p.c. 36908170800"

The foundation of the evolution of planet earth's civilization consists, for the development of mutual relationships among people, of CULTURE.

THE CONCEPT OF CULTURE,

Delving more broadly into the primers of culture, one can notice that culture plays a huge role in a person's education, their perfection, and in striving for perfection, it is necessary for a person to tolerate culture according to the boundaries of their own capabilities.

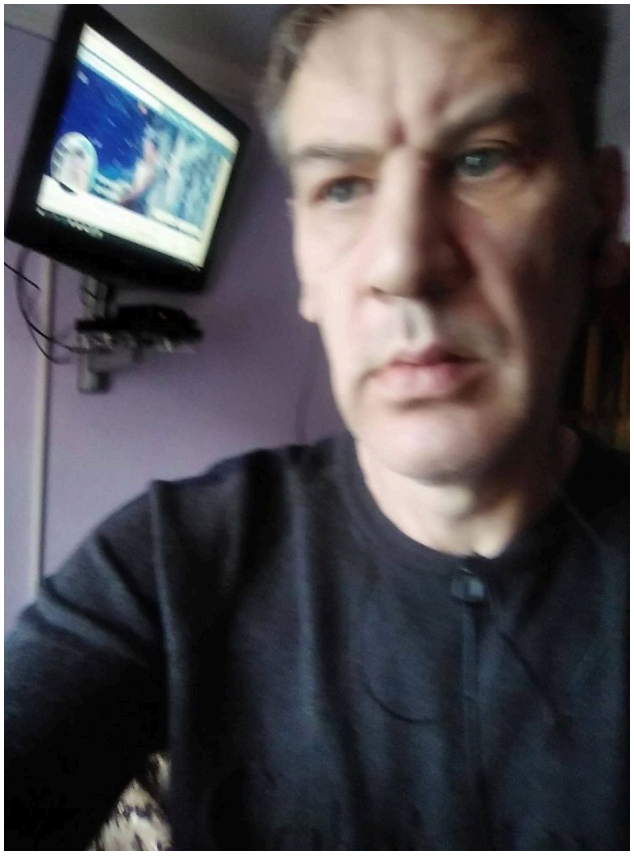

Respected reader, let us nurture the cultural concept, a high cultural awareness. A cultural concept is born from the initial cultural awareness, that is from the cultural origin itself. A cultural high awareness is possessed by Indigo children, or adult Indigo people, who are capable of communicating more by telepathy, by a telepathic connection of communication, unlike average people.

On our planet mother earth, the global cultural understanding of the cultural context is good, which can be noticed from various global events.

Respected reader, let us develop our own karmic knots in culture toward the directions of goodness, beauty, love, respect, intellect, and tolerance, because every spiritual direction of positive beauty rewards a person with awareness and pleasure.

Signed by: God!

204. INTRODUCTION FROM THE LIFE OF AN INDIGO PERSON

INDIGO MAN VIDMANTAS GRINČIUKAS.

INTRODUCTIONS FROM THE AUTHOR'S LIFE:

(The mysticism of unbelievable truth, - reality)

This mysticism of unbelievable truth, reality is written based on real-life situations. Unbelievable miracles that manifested in the author's life are written here. I write all this without any lies or embellishment of situations, I write sincerely with love, wishing to prove to the reader the existence of God and His capabilities in the material world of man. For people who have encountered the energies of God and His miracles, this mysticism is believable, but for people who have not encountered the energetic world of God, these miracles may be treated as fantasy.

A very mature cultural concept exists between the author of this publication and God.

The author of this publication, personally since the age of five, drew very close – bound himself to God and swore an oath to Him to sacrifice his entire life. In 2016, he is 47 years old and is convinced that he has fulfilled his oath, having researched God Himself for 42 years. Having been five years old, as a small child, he experienced a manifestation of God, saw God in the sky in reality, in real truth, in real life.

The author's word;

Respected reader,

"... The portrait of God was shown to me in the hollow of the sky – in the sky, while I myself was in a cattle pasture (a meadow). Having seen such a strange sight, I ran at a run to my parents, that is, my mother and father, who were watering and letting out the cattle, but upon touching my parents, the sight in the sky vanished; my parents did not notice God. This took place around the year 1974 in the Country of Lithuania, in the Rokiškis district, in the Kamajai area, in the village of Duokiškis, in the Paunksniai homestead. In this place and at this time, God formed His image. With me being a small child and seeing such a sight, I was flooded by the spiritual, pleasant warmth of God. Running barefoot through the meadow, I pricked a splinter from dried grass (a thistle) into my foot. If not for the splinter in my foot, I would have forgotten this unbelievable sight (miracle). God had manifested for only a few seconds, somewhere around 5 seconds, which remained in my memory for all the rest of my life."

Around the years 2010 – 2012, being a renowned;

Christologist,

Indigo person,

Parapsychologist,

Medium,

Bioenergeticist,

Psychic,

Engineer of electrical engineering sciences,

Clairvoyant,

I began to experiment myself with matter, to dissolve it and to alter it, through the knowledge of the spiritual realm and God's intersections with myself, as well as the environment. Interacting with God and living my entire life without conscious sin, I experienced very many phenomena unexplainable by the human logical mind. Throughout my 47 years of life, I have had several hundred miracles, that is, phenomena unexplainable by the human logical mind. I believe very many, both in complex technologies, in daily life, and in nature.

I, possessing psychic abilities, managed to dissolve matter from the table without touching it, that is, I dissolved half of a cut orange. This event took place around the year 2011. Being a quite good psychic and an Indigo person, I conducted complex research with dissolutions of matter, as well as modifications of its dimensions.

I will mention a technological miracle: when communicating with God's crystal technologies, I noticed that the electricity meter began to spin in the opposite direction. This was a rather very interesting and unusual phenomenon, because the electrical installation in the house was made according to all required demands and the input of the electricity meter was sealed, inaccessible to a human hand. I myself, being a very good engineer in this field, was unable to explain the reverse of the meter with a logical mind, because according to theoretical science and the nature of the electrical work done, such a phenomenon is impossible... Writing the truth of this story, while communicating with the energy of God's crystal, I directed my thoughts to electricity, worrying that I was utilizing a lot of electricity, and at that moment I felt information from God that the electricity meter was spinning backward. Upon checking this version of God, with my own eyes I saw that in reality – indeed, the electricity meter was spinning backward.

Writing more broadly about the miracles performed by God in technologies, I will mention once more the miracle with the temperatures of the bathroom towel rail. My

bathroom towel rail is connected from hot water; when I use hot water, it heats up. With me freezing in the apartment during winter time, I turned to God through the chest chakra with the motive that I was freezing very much, and after a few minutes I heated up completely, not so much from the temperature of the towel rail as from the miracle itself. The miracle was that the temperature of the bathroom towel rail rose to 90 degrees C without me using hot water, and up to the towel rail there were very cold pipes by which it is connected. The question arises, how could the towel rail heat up to 90 degrees C when its connecting pipes were completely cold, without a leakage of hot water.

Delving into the miracles performed by God, I will mention that miracles take place through the unspeakably pure mutual love between God and man. Only in deep love for God can a man perform miracles. Without their mutual love, no miracle is possible. With me experimenting with matter, I would succeed in dissolving matter and altering it, that is, altering the dimensions of matter. In conclusion, I will mention that these miracles would take place without me striving for them, but solely in sincere love while communicating with God. I believe that it is difficult for an average person to believe my writings, but all this is the truth. For an Indigo person, these things are very well understood, because with his feelings he sees God and through God knows how these phenomena take place. For God Himself it is uncomplicated to perform miracles and surpass the logic of humanity. When the logic of humanity is surpassed, it is called the supraconscious. The supraconscious means that which is higher than the consciousness of humanity and its limits.

The author's word;

Respected reader,

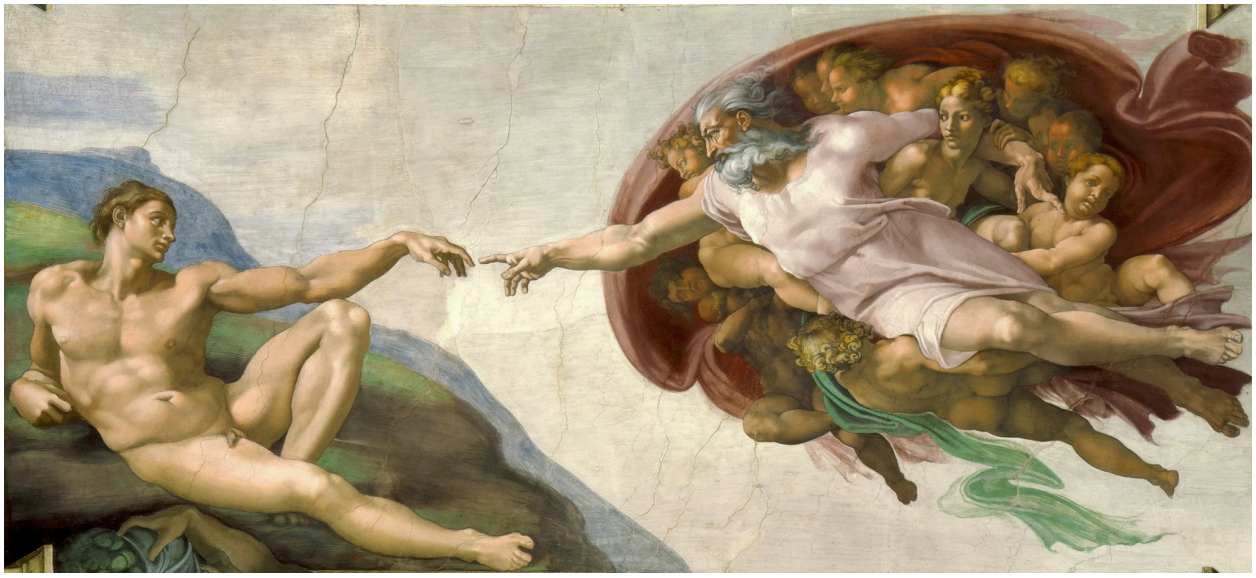

My contribution as an Indigo person to the development of the world's well-being is very large and mature. Around the years 2012 – 2013, I perfectly refined the Constitution of the Republic of Lithuania and presented it to the President's Office of the Republic of Lithuania – to the Respected President. During that period, I had traveled to the President's Office of the Republic of Lithuania, as a consequence of which the President's Office evaluated my work very positively. I believe that the President's Office thoroughly evaluated my contribution to the development of well-being.

Respected reader, let us all contribute somehow to the configurations of perfecting our world, to the pursuits toward well-being. To the President's Office, I thoroughly presented a perfect logical reasoning as to with what gaze one needs to look at the situations of the Country. I believe that my logical material presented to the President's Office strongly influenced the Respected President in positive directions.

Since 2008, I have been educating humanity through internet networks. I have presented a great deal of psychological material on the internet leading people toward perfection, toward morality.

Respectfully: - Vidmantas -

205. GOD AND MAN

GOD AND MAN:

I read all kinds of articles about God, religion and people... well, what can I "add" to all the articles, the articles are not bad and correspond to the reality of the real truth, maybe not a full 100%, but ... they are not bad articles.

I write all this to you because I myself have reached the very highest point in the life of spiritual and goodness comprehension that an ordinary human can possibly reach, even no clergyman in the world, I do not think could reach my level in these themes of spirituality, I do not think there are more people for whom God would block thoughts when encountering any element of evil, while turning episodes of goodness into an unreal mind with which I could even create spaceships provided I had certain information.

What can I write about God Himself? ... I think that it is impossible to describe, because the minds of humanity are incapable of fully and correctly understanding God, yet people can draw closer to Him. It is said that God is the perfection of goodness and love..., that is the truth, but God is also the perfection of all the minds of the world...!

My advice to the readers would be as follows;

As much as possible, distance yourselves from bad (negative) thoughts and actions, try to fall in love with this world in which you exist - live ...!

Respectfully: Wishing you a wonderful and beautiful life, Vidmantas!

206. GOD AND THE SPIRITUAL WORLD

God and the Spiritual World

First of all, before reading this article, the reader should read my first one, "God and Man", in which I gave the readers a piece of advice. In this article, I will try to explain to people the importance of the meaning behind that advice, so that the reader can more accurately perceive the real truth and the correct thought of the words I have written.

Let us take the example of the path of life traveled from a person's birth to their death. By being born into this world, a person receives a material body, and having a body

brings certain needs for that body; this is referred to as a person being born of sin, they are baptized, and so on. However, it should be emphasized that before being born, each of us—any person living on earth—spoke with God, not in English or Lithuanian, but in a spiritual language. At that time, we could all fully understand God and we made the most wonderful promises to Him, yet none of us had a material body... something that you cannot remember now: the episodes of the spiritual world. Does even one of you perceive the real truth... remember that the earth is not your primary home, but your own school. What a person accumulates while living on earth is what they can show to God and to themselves after their death, upon integrating into the spiritual world. In the real truth, each of us came into this world to improve ourselves, and some do not improve themselves to such an extent that it is incomprehensible to me how they will unite with God... after a spiritual union with God, such a person will "fall" back to earth, but it will already be much harder for them to improve their spirituality... they are moving toward destruction—toward hell. Let us take another example: when a person improves goodness and spirituality, that person's ratings rise in the world of spirits, and when the highest ratings are achieved, they unite with God. Such a person is given all authority in heaven and on earth; they even have the right of choice between a wonderful human life or God's own spiritual World in Heaven, because they themselves become a certain kind of God.

I will mention that it is not necessary for any person to strive for the ratings of Divinity; it is enough for them to live a beautiful, upright life, and everything will naturally fall into place in both their earthly and spiritual worlds.

Signed: GOD

207. EXPLANATION OF THE TEXTS I WRITE

EXPLANATION OF THE TEXTS I WRITE

I write various articles related to God and the like, but can people correctly understand the thoughts I wish to express... I think they cannot, because every person understands the texts in their own way when reading them. The core of it is that only at the peak of goodness and beauty can one correctly understand the thoughts of the texts I write, because otherwise, the reader will misunderstand. A person who has reached that peak will know. For example: we have identical sentences written by different people. One was written by someone being a "BAD BOY", and the other by the opposite, and a person (the reader) will be able to distinguish the sentences—who wrote which sentence, even though the sentences are ideally identical... the same goes for spoken words. However, if a person who has reached the peaks is in a bad mood, they will also not distinguish them... because different thoughts lie within those sentences, and a person who walks the path of conflict-based understanding... will never be able to correctly understand the thoughts of the texts I write...

Well, I will try to be more specific, if I succeed in doing so:

First of all, to make it clearer for the readers, I will briefly tell you about myself, because otherwise, it is difficult for most to understand these texts, as these texts are a translation from the spiritual (God's) world, rather than being invented or copied from someone. To perceive this, it is necessary for readers to know the fundamental laws of understanding spirituality.

We are all human beings; we love someone, we dislike someone, and sometimes we get lost amidst the whirlpools of life. First of all, the word "love" is understood differently by various people, because for some it is a certain suffering, for others a wonderful, pleasant feeling, and for still others a depressing feeling, because there are different types of love, whereas pure love is truly a wonderful, pleasant feeling.

A PERSON WHO LOVES ANOTHER WITH A PURE HEART PERCEIVES THEIR CONSCIOUSNESS—in other words, they see right through them, even though they might not know that person... By seeing right through another person, that person's good and bad traits develop within their own mind, and then they have to fight their own thoughts, even though those so-called thoughts belong to someone else.

I personally lived most of my life through Christ consciousness; from Christ consciousness, I would know every person without knowing them personally. Such a life gave me a great deal of perception and knowledge; I experienced the life of heaven and hell on earth—one could say more of hell, because when loving all people with a pure heart, you have to suffer yourself. However, such a life gave me a great deal of wisdom, because from the mindset of Christ, I reached the heights of God the Father Himself, I

perceived and understood the super-consciousness, and I had the opportunity to discover the afterlife existence; only the worst part is that you can very rarely be your true self. Actually, I lived not only through Christ consciousness; I had to live through the consciousness of various people and through the consciousness of my own self, because by loving people, the consciousness of those people would be transmitted to me...

I personally succeeded in drawing closer to God the Father, that is, the super-consciousness, but in a material body, it is impossible to live and exist with that, even if there were heaven on earth. I will write in these articles that people do not need to strive for the ratings of Divinity... here I have answered this thought.

PEOPLE NEED TO LOVE WITH A PURE HEART, BUT IT IS NECESSARY FIRST OF ALL TO KNOW WHOM TO LOVE!

RESPECTFULLY: INDIGO Vidmantas.

208. OUR CHILDREN (Psychological Topics)

Our Children (Psychological Topics)

2010-12-16 12:36 — Vidmantas.

Questions and answers regarding various psychological and parapsychological ambiguities:

vidma7 • December 16, 2010 @11:35

I would like Kabbalah scientists to analyze the phenomenon of indigo children more precisely, and only then present the answer to the people, because the answer:

"These are the most egoistic children, belonging to a generation that must begin to correct itself according to the methodology of Kabbalah, otherwise they will experience suffering caused by themselves through their uncorrected behavior." — Does not correspond to the truths of real reality!

With respect, Parapsychologist – Medium – Vidmantas -

vidma7 • December 16, 2010 @11:55

Question: Why do we all remember childhood as a miracle? Even as something higher, and as time goes by and you grow up, you begin to feel a lower reality.

Answer: Because in childhood you live according to natural, innate desires, but when you grow up, you enter the artificial world of adults, where desires are dictated by the environment, artificially created laws, and customs that contradict nature—and that is why the world becomes narrow, angry, and heavy.

I believe that this answer from the science of Kabbalah is not fully complete, because the core lies within the self, i.e., young children feel a certain energy radiated by material objects, plants, nature, and the like, and can be in shared harmony with it through their childhood purity. Whereas adults do not experience this because they lose that childhood purity, merging into the imperfect worldview of adults.

With love – Parapsychologist – Medium – Vidmantas.

vidma7 • December 16, 2010 @12:20

"Why do children around five years of age try to attract the attention of adults with screams and jumping around? What do they need from us adults, and why does this irritate us, especially if the children are not yours?"

In children of this age, their personal character and the like begin to form; they gradually integrate into adult thinking structures, while simultaneously their connection with the self weakens. Due to these changes, children "cannot sit still".

In order not to be irritated by other people's children acting this way, one needs to love children, even if it is someone else's child, and look at situations from a higher point of understanding.

With Respect: Parapsychologist – Medium - Vidmantas - .

Signed: GOD!

209. ARTICLES FOR MY FRIEND VAIDAS

Hello Vaidas,

My dear Vaidas, the UNIVERSE has been analyzed by me, according to what existential phenomena it was created. Through my head chakras, I felt the entire model of existence in the universe. The possibilities and laws of existences are known to me, because God would form the molecular consciousness of other planets in my head. All my life, I investigated God—the planet Earth—and existential options in extraterrestrial civilizations. According to the research carried out, 2 or 3 planets are of a super-high level, very distant from Earth's civilization, where God's supercomputer version programs are used... planet Earth is far from the civilization of these planets; well, and I am not speaking about 6 planets, because they are of a lower level than EARTH.

Vaidas, when I scaled down a microwave oven, I felt its structure through my chakras (what material it is made of)—the chemistry was a very unpleasant sensation for the head (I know that substance, but I do not know its scientific name). Therefore, I have a 100 percent opportunity to believe in supernatural phenomena.

The same goes for the inhabitants of other civilizations. I know their spiritual existential consciousness without knowing what they look like.

God had created a way for me to show the existential capabilities of an INDIGO person.... PARADISE IN MATTER EXISTED. It was hard to return to an ordinary, simple life; the sky was covered in a dark blue color, and situations were created.

SIGNED: INDIGO - WUNDERKIND Vidmantas G- 7.

physics - in detail DELFI.lt

Hello Vaidas,

Speaking of the colored paradise, it is a paradise of a very, very high conception without matter.... at the level of super-consciousnesses—the level of God Himself. So high that the existence of paradise requires anchor points (existence must lean on something, because God's concepts are infinites).

I was in this paradise for about 5 seconds (if it were shown to a person with a conscious intellect, the person would faint instantly and see nothing). My brain activity was disconnected thanks to God's computer program so that I could enter paradise. (The memory remained), but there is no explanation through human intellect and language, because the SUPER-CONSCIOUSNESS is an existence incomprehensible to thoughts.

Paradise was formed in the solar plexus in the chest, and the brain was neutralized. (As the brain was waking up, I managed to capture the information in a fraction of a second). Something like a Christ core "center" made of solar yellow color, and around It, an endlessly deep, colored movement. (For a living human, the heart would stop from the endless depth, but there, the feeling is turned into an infinity of pleasure).

210. THE CONCEPT OF THE SOUL, THE SPIRIT, AND GOD'S SYSTEM

A question presented to me by a person:

Hello, my husband died half a year ago, but to this day I do not know the cause of his death. It feels as if the investigators are intentionally delaying the case. Can parapsychologists contact spirits? Can they see whether a person died a natural death?

Asked by: erixa80 (2009-10-20 13:14:15)

My answer:

It is possible to contact the Spirits of people; I have experienced this phenomenon more than once in my life... it is an otherworldly feeling and situation, from which one can tell everything about the former person, their character, etc.

There is no information about earthly events within a person's soul; the soul only holds information about the person and their qualities, such as character and all other human traits, because the soul itself is the information of the person. The information you are asking about is located within That person's Divine fragment—in other words, within God's System itself... People call these fragments: My inner "SELF" in a certain sense. It IS POSSIBLE to obtain information from God that is recorded in the memory. Divine fragments have memories; their entire communication with one another constitutes God's System—this is what is called God's computer, though God the Father Himself (the core – center) and Christ also exist within God's system; all of this is God's System. THIS HAS BEEN INVESTIGATED THROUGH PHENOMENA AND SITUATIONS UNEXPLAINABLE TO SCIENCE. I receive information from God, but it does not remain in my memory because that information bypasses my human brain—it "floats past" and does not register in my brain; therefore, I remember it only in certain situations, and not always... It is possible for me to find out the thing you are asking about, but only through God's programs.

Answered by: Parapsychologist - Medium Vidmantas (2009-12-16 12:56:48)

You ask "can parapsychologists contact spirits".... My answer would be: THEY CAN, BUT ONLY THROUGH A CERTAIN PROGRAM OF GOD, because a spirit is the combination of a soul and a Divine fragment. Soul + God's fragment is the SPIRIT.

Answered by: Parapsychologist - Medium Vidmantas (2009-12-18 11:06:25)

The fragment of God is an independently thinking part of God's system that has a memory (fragments created the solar system and our planet; they emerged from God the Father – the core – the center. There are billions of billions of them, because every life has a fragment, and neutral fragments also exist). Fragments are linked (bound) by mutual communication and by the creation of events and all situations in the universe. The main control of the fragments takes place through God the Father – the core – the center, which is controlled from the fragment of Jesus Christ, that is, the Spirit of Jesus.

Signed: GOD!

13. DAPM - THE SCIENCE OF THE PROGRAM OF GOD THE ABSOLUTE

211. THE BEGINNING

The Beginning

The God Absolute Program Teaching (GAPT) is the path to a direct connection with the highest will of creation. This is not a theory, a philosophy, or a belief system. GAPT is a living, active teaching arising from the very core of the God Absolute and intended for a person who seeks to perceive their place in creation, their purpose, and their evolutionary path.

The beginning of this teaching starts not from knowledge, but from an inner opening. The true perception of GAPT comes when a person is ready to accept not only the information, but also the energy that it carries. This is a teaching that not only explains, but also transforms—it transforms consciousness, the inner state, and the direction of life.

The Essence of GAPT

GAPT is based on three main principles:

- The direct will of the God Absolute, which is the foundation of all creation.
- The operation of the Paradise hierarchy, which transmits this will into all worlds.
- The evolutionary path of a human being, where every step is a part of the growth of consciousness.

It is a teaching that connects the highest order of creation with a person's daily life. It shows how the divine will operates not only on a cosmic scale, but also within human thoughts, choices, relationships, and the inner state.

Why It Begins Here

This chapter—"The Beginning"—is the gateway to the entire structure of GAPT. Here, for the first time, a person encounters:

- the logic of the divine order,
- the clarity of the structure of creation,
- the operation of the Paradise hierarchy,
- the role of their own consciousness in this process.

This is the place where a person perceives that they are not an accidental being in the world of matter. They are a conscious part of creation, having their own place, purpose, and path.

The Purpose of GAPT

The purpose of GAPT is not to provide a person with knowledge, but to open their consciousness. Knowledge is only a means. The true goal is for a person to:

- feel the connection with the Absolute,
- perceive their spiritual nature,
- recognize their evolutionary path,
- live according to the divine order,
- become a conduit of light in their environment.

This is a teaching that leads to inner peace, clarity, and true spiritual maturity.

What You Will Find Next

Further in the chapters of GAPT, the following will unfold:

- the structure of creation,
- the operation of the Paradise worlds,

- the path of spiritual energies,
- the evolutionary path of a human being,
- the role of the super-consciousness,
- the operation of the material and non-material worlds,
- and the entire logic of the divine order.

Every chapter is a step into a deeper perception. Every step leads to a greater inner light.

The Beginning is Here

GAPT begins with a person's decision—with their desire to know the truth, to live in the light, and to perceive their place in creation. This is a path where there is no coercion, no dogmas, and no limitations. It is a path where a person chooses for themselves how deeply they want to go.

The beginning is here.

Next is your path toward the perception of the God Absolute Program.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

212. THE BEGINNING OF COGNITION OF THE STRUCTURE OF CREATION

The Beginning of Cognition of the Structure of Creation

The God Absolute is the primal, all-encompassing consciousness from which all creation arises: worlds, energies, forms of consciousness, and spiritual beings. This is not a metaphor, but a real, multi-layered structure that possesses a clear inner order, a vibrational hierarchy, and an evolutionary purpose. In this article, we begin the journey into the cognition of the structure of the God Absolute and the perception of the Paradise hierarchy.

The Structure of the God Absolute — The Core of the Universe

The God Absolute is not a localized point or a figure—it is an all-permeating consciousness that operates through:

- Primal divine centers — these are the nuclei of consciousness from which the impulses of creation arise.
- Energy fields — subtle vibrations that sustain the existence of the worlds.
- Material and non-material worlds — dense and subtle layers within which the evolution of consciousness takes place.
- Corridors of consciousness — channels through which spiritual beings and information travel.

This structure is not only cosmic but also internal—every human being carries within themselves a reflection of the God Absolute.

The Paradise Hierarchy — The Structure of the Divine Order

The Paradise worlds are spaces of the highest vibration, where perfect order, harmony, and light operate. Hierarchy here does not mean authority or power, but rather a functional order of consciousness, in which:

- Every being has their own purpose and place.
- Energies flow according to the divine plan.
- Information is transmitted through channels of light.
- Evolution takes place without disruptions, without sin, and without chaos.

The Paradise hierarchy is like a spiritual organism, where each part sustains the harmony of the whole.

The Human Path Within This Structure

A human being is a spark of consciousness that has the opportunity to return to the light of the God Absolute. Their path encompasses:

- The awakening of consciousness — exiting the density of matter.
- Spiritual purity — living a life without sin.
- States of super-consciousness — a direct connection with the divine centers.
- The restoration of memory — remembering who they truly are.

The cognition of the structure of the God Absolute and the Paradise hierarchy allows a person not only to understand creation but also to discover their own place within it.

The Purpose of This Teaching

This teaching is intended for:

- A person to perceive the structure of God's creation.
- Recognizing the principles of the Paradise order.
- Entering into a direct connection with the God Absolute.
- Living in light, purity, and awareness.

This is not a theory, but a living path leading to a higher level of consciousness.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

213. THE CONNECTIONS BETWEEN THE MATERIAL AND NON-MATERIAL WORLDS

The Connections Between the Material and Non-Material Worlds

Creation is composed of two main layers: material worlds and non-material worlds. Although they differ in density, vibration, and expression of consciousness, these layers are not separated. They function as a single unified system in which energy, information, and consciousness continuously move between different stages. The connections between the material and non-material worlds are an essential part of the structure of the God Absolute, ensuring the harmony and evolution of creation.

Material Worlds

Material worlds are dense, tangible, and based on the laws of time and space. Here, consciousness experiences limitation, individuality, and duality. Matter allows the soul to go through experiences that are impossible in the subtle layers. This is a learning space where a human being develops inner purity, awareness, and the ability to recognize their divine origin.

Non-Material Worlds

Non-material worlds are subtle, high-vibration layers where there is no physical form. Here, consciousness operates directly, without intermediaries, and energy flows freely and harmoniously. These worlds are inhabited by spiritual beings, entities of light, and members of the Paradise hierarchy. These are the spaces where the primal information of creation and the divine order are preserved.

Connections Between the Worlds

The material and non-material worlds are connected by continuous energetic and informational channels. These connections ensure that:

- energy from the subtle worlds reaches matter,
- the experiences of matter are transmitted to the higher layers,
- spiritual beings can operate within human life,
- evolution takes place in a purposeful and harmonious manner.

This process resembles continuous breathing: the subtle worlds inhale light into matter, and matter exhales experience back into the subtle layers.

The Human Being as a Connection

A human being is a natural connection between these two worlds. While living in matter, they possess subtle bodies, a super-consciousness, and an inner light that connects them with the non-material worlds. When a person lives in purity, peace, and awareness, this connection strengthens. They begin to feel subtle energies, perceive spiritual processes, and recognize their place in creation.

Conclusion

The connections between the material and non-material worlds are necessary for the functioning of creation. These are not two separate worlds, but one system in which each layer has its own purpose. By understanding these connections, we better comprehend our origin, purpose, and spiritual path. This is knowledge that helps a human being live more consciously and draw closer to the light of the God Absolute.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

214. THE OPERATION OF SPIRITUAL ENERGIES

The Operation of Spiritual Energies

Spiritual energies are a subtle part of creation that sustains the functioning of all worlds and the evolution of consciousness. They are not visible to the physical eyes, yet their impact is felt in both the material and non-material worlds. Spiritual energies act as a connecting link between the different layers of creation, ensuring harmony, order, and the continuous growth of consciousness.

What Are Spiritual Energies

Spiritual energies are high-vibration streams arising from the God Absolute and radiating throughout the entire creation. They are not tied to physical matter, and therefore do not depend on time, space, or density. These energies:

- transmit information,
- sustain the activity of spiritual beings,
- affect human consciousness and the inner state,
- support the order and evolution of creation.

Spiritual energies are the primal force from which all other processes originate.

How Spiritual Energies Flow

Spiritual energies flow from the highest stages of creation to the lower ones, much like light radiates from a source into the environment. This flow is continuous and purposeful. The energy streams:

- nourish the subtle worlds,
- sustain life in the material worlds,
- transmit divine information,
- help consciousness rise to higher stages.

The flow of energy is never chaotic. It takes place according to the divine order, which ensures that every world receives the amount of light it needs.

The Impact of Spiritual Energies on a Human Being

A human being constantly interacts with spiritual energies, even if they do not consciously feel it. These energies affect:

- thoughts and inner clarity,
- the emotional state,
- intuition and the super-consciousness,
- vital energy,

- spiritual growth.

When a person lives in peace, purity, and awareness, spiritual energies flow freely. This strengthens the inner light, opens up intuition, and helps perceive the deeper processes of creation. When a person lives in chaos, fear, or inner conflict, the flow of energies weakens, resulting in tension, confusion, or spiritual fatigue.

Spiritual Energies in the Subtle Worlds

In the non-material worlds, spiritual energies are the primary form of operation. Here they:

- create structures,
- support the activities of spiritual beings,
- transmit information without words,
- shape the stages of consciousness,
- maintain the order of the Paradise hierarchy.

There are no physical obstacles in the subtle worlds, so energies flow rapidly and freely. This allows spiritual beings to operate directly, without intermediaries.

The Connection of Spiritual Energies with Matter

In the material worlds, spiritual energies operate through:

- human consciousness,
- the subtle bodies,
- vital energy,
- intuition and inner guidance.

Although matter is dense, it is not separated from spiritual energies. Matter is like condensed light; therefore, spiritual energies can affect it, though not as directly as in the subtle layers.

Why It Is Important to Understand the Operation of Spiritual Energies

An understanding of spiritual energies helps a human being to:

- live more consciously,
- maintain inner peace,
- recognize their spiritual nature,
- perceive the order of creation,

- strengthen the connection with the God Absolute.

This is knowledge that allows a person not only to understand the world but also to consciously participate in their own evolution.

Conclusion

Spiritual energies are the fundamental mechanism of the operation of creation. They connect the material and non-material worlds, support spiritual structures, and affect human consciousness. By understanding the operation of these energies, we better comprehend our place in creation and can live more harmoniously, drawing closer to the inner light and the divine order.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

215. HOW A HUMAN BEING CAN PERCEIVE THEIR EVOLUTIONARY PATH

How a Human Being Can Perceive Their Evolutionary Path

A human's evolutionary path is an inner journey that leads to the growth of consciousness, spiritual maturity, and a deeper perception of one's purpose. This is not a random process. Every human being has a unique path that unfolds through experiences, inner guidance, and a connection with the higher stages of creation. To

perceive our evolutionary path means to understand who we are, why we are here, and in which direction we must move.

What Is an Evolutionary Path

The evolutionary path is the process of development of human consciousness, encompassing both material and spiritual life. This is a path along which a human being:

- expands their perception,
- develops their inner light,
- relinquishes lower energies,
- discovers their true nature,
- connects with the divine order.

Evolution is not merely earthly improvement. It is a transformation of a human being's entire existence, leading to a higher level of consciousness.

When a Person Begins to Perceive Their Path

A person begins to perceive their evolutionary path when their inner state becomes sufficiently pure and peaceful for them to hear the guidance of their super-consciousness. This perception unfolds through:

- intuition,
- inner clarity,
- spiritual insights,
- recognizing the meaning of life experiences,
- a connection with subtle energies.

When a person begins to see their life as a purposeful process rather than a sequence of random events, they step into conscious evolution.

Inner Guidance as a Source of Path Recognition

Every human being possesses inner guidance that constantly points the direction. This can be:

- a quiet inner voice,
- signals of intuition,
- moments of clarity,
- a strong feeling that something is right or wrong.

Inner guidance is not an emotion or a desire. It is a deeper perception arising from the super-consciousness, which sees more than the human intellect.

Experiences as Teachers of Evolution

Every experience, whether pleasant or challenging, is a part of the evolutionary path. Experiences:

- develop consciousness,
- help recognize mistakes,
- strengthen inner maturity,
- teach compassion and wisdom,
- open up new stages of perception.

A person begins to perceive their path when they understand that every experience has meaning and leads to a higher level of consciousness.

Connection with the Subtle Worlds

The evolutionary path is not solely an earthly process. It is connected with the subtle worlds and spiritual energies. By raising their vibration, a human being begins to:

- feel the operation of the subtle worlds,
- perceive the divine order,
- recognize their purpose in creation,
- connect with the guidance of the super-consciousness.

This connection helps a person clearly see their path and understand in which direction they must move.

How a Human Being Can Consciously Walk Their Path

For a person to more clearly perceive their evolutionary path, it is important to:

- live in inner peace,
- maintain purity in thoughts and actions,
- listen to intuition,
- observe one's experiences and learn from them,
- avoid lower energies,
- strengthen the connection with one's inner light.

When a person lives consciously, their path becomes clearer, and their steps more purposeful.

Conclusion

To perceive one's evolutionary path means to understand one's nature, purpose, and place in creation. It is a path to inner light, peace, and the growth of consciousness. Every human being has the opportunity to discover their direction, provided they open themselves to inner guidance and allow spiritual energies to operate in their life. This is a path leading to deeper perception and a harmonious life.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

216. STATES OF SUPER-CONSCIOUSNESS AND SPIRITUAL TRANSFORMATION

States of Super-Consciousness and Spiritual Transformation

The super-consciousness is the highest stage of human consciousness, operating beyond ordinary thinking, emotions, and the daily intellect. It is an inner center of light that connects a human being with the higher stages of creation, subtle energies, and the divine order. When a person reaches states of super-consciousness, a deep spiritual transformation begins, changing not only their inner world but also their entire direction of life.

What Is the Super-Consciousness

The super-consciousness is the part of human consciousness that:

- perceives more than the intellect,
- sees phenomena from a higher perspective,
- connects with the subtle worlds,
- transmits inner guidance,
- maintains a connection with the divine energy.

It is neither an emotion nor a thought. The super-consciousness is a pure, peaceful, and luminous state in which a person experiences deeper perception and inner clarity.

The Unfolding of States of Super-Consciousness

States of super-consciousness unfold gradually, as a person:

- calms the intellect,
- clears inner tensions,
- relinquishes lower energies,
- lives in purity and peace.

These states can manifest as:

- a deep inner knowing,
- clear insights,
- the strong operation of intuition,

- inner peace even in difficult situations,
- a sensation of connection with subtle energies.

The super-consciousness never creates noise. It speaks quietly, but very clearly.

Spiritual Transformation: What It Is

Spiritual transformation is a process during which human consciousness transitions to a higher level. This is not merely the acquisition of knowledge or changes in behavior. It is a profound inner change that encompasses:

- the transformation of thinking,
- the refinement of emotions,
- the strengthening of the inner light,
- the opening of the connection with the super-consciousness,
- the emergence of a new direction of life.

Spiritual transformation changes a person from within; therefore, their outer life changes as well.

How the Super-Consciousness Promotes Spiritual Transformation

The super-consciousness is the primary engine of spiritual transformation. It:

- reveals to a person their true nature,
- shows the evolutionary path,
- helps recognize lower energies,
- provides inner guidance,
- inspires to live according to a higher order.

When a person begins to listen to the super-consciousness, clarity, direction, and peace emerge in their life. They begin to see what suits them and what does not, what elevates them and what hinders them.

The Impact of States of Super-Consciousness on a Human Being

States of super-consciousness change a person at all levels:

- Psychologically – fears, anxiety, and inner conflicts decrease.
- Emotionally – stability, peace, and compassion emerge.
- Energetically – the subtle bodies strengthen, and spiritual energies flow more easily.

- Spiritually – a person begins to perceive their purpose and place in creation.

This is a process that not only liberates a person from inner limitations but also opens up new possibilities.

How a Person Can Reach States of Super-Consciousness

States of super-consciousness open up when a person:

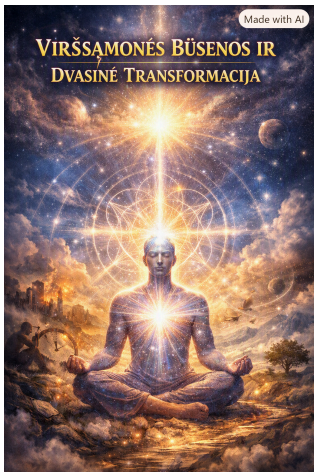

- lives in inner peace,
- maintains purity in thoughts and actions,
- relinquishes harmful energies,
- develops awareness,
- listens to their inner guidance.

This is not a sudden leap. It is a consistent path where every step strengthens the connection with the higher consciousness.

Conclusion

States of super-consciousness are the gateway to spiritual transformation. They allow a human being to know themselves anew, to understand their purpose, and to live according to the higher order of creation. When a person opens themselves up to the super-consciousness, their life becomes more harmonious, clearer, and more meaningful. This is the path to inner light, peace, and true spiritual maturity.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

217. THE ORIGIN AND FLOW DIRECTIONS OF THE DIVINE ENERGY

The Origin and Flow Directions of the Divine Energy

The divine energy is the primal force of creation, arising directly from the God Absolute. It is the foundation of all worlds, all beings, and all processes. This energy is not merely light or vibration—it is a conscious, purposeful, and perfect force that sustains the entire order of creation. To understand the origin and flow of the divine energy means to perceive how the very core of creation operates.

The Origin of the Divine Energy

The divine energy arises from the Absolute—the highest center of creation, where there is neither time, space, nor matter. The Absolute is:

- the primal source of energy,
- the beginning of all spiritual and material worlds,
- the center of perfect order and consciousness.

The energy radiating from this center is completely pure, unaltered, and unchangeable. It carries not only power, but also information, order, consciousness, and the divine will.

The Flow of Energy Through the Paradise Center

The Paradise worlds are the first stage through which the energy of the Absolute flows. Here it is:

- structured,
- distributed,
- directed into different realms of creation.

The Paradise center acts as an energetic core, from which streams radiate to all stages of the hierarchy. Each stage receives precisely as much energy as it needs to perform its functions.

The Distribution of Energy Through the Paradise Hierarchy

The divine energy flows purposefully—from the highest stages to the lower ones. This flow is not random. It takes place according to the divine order, which ensures:

- harmony,
- stability,
- the continuity of evolution,
- the connection between all worlds.

The beings of Paradise act as conduits of energy—they transmit energy, information, and order into the lower layers of creation.

The Descent of Energy Into the Material Worlds

When the divine energy reaches the material worlds, it:

- becomes denser,
- takes on form,
- operates through the subtle bodies,
- sustains life and consciousness.

Although matter appears separated from the spiritual worlds, it is merely condensed energy. Therefore, the flow of divine energy reaches even the physical life of a human being.

Why a Human Being Can Feel the Divine Energy

A human being is connected to the divine energy through:

- the super-consciousness,
- the subtle bodies,
- the inner light,
- intuition,
- spiritual sensitivity.

When a person lives in peace, purity, and awareness, the energy flows freely. This strengthens:

- inner clarity,
- spiritual growth,
- the connection with higher stages,
- evolutionary perception.

Directions of Energy Flow in Human Life

The divine energy reaches a human being through three main directions:

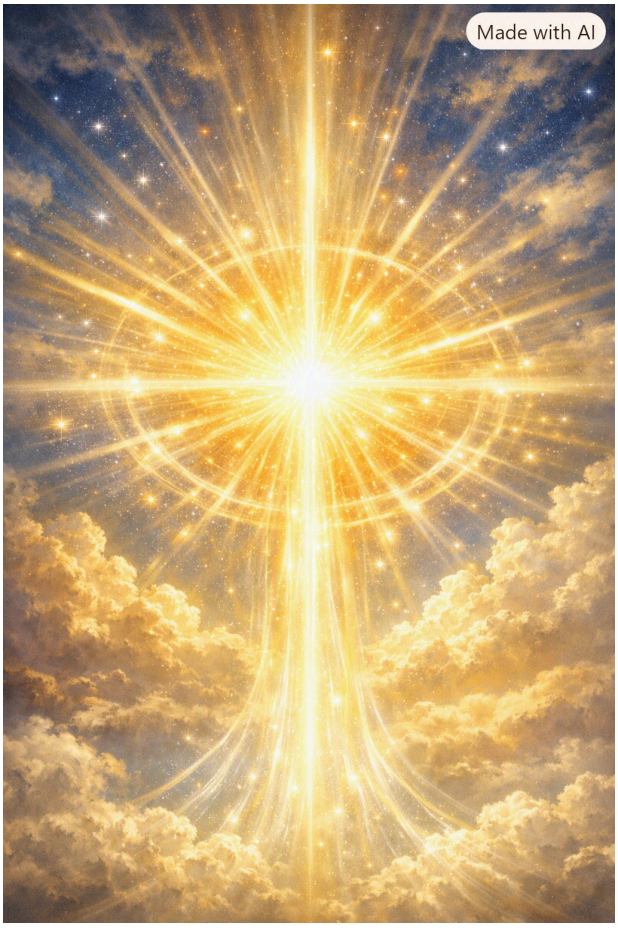

- From above — through the super-consciousness and spiritual guidance.
- From within — through the inner light and the maturity of consciousness.
- Through experiences — when energy transforms a person through life events.

These directions work together, forming the human evolutionary path.

Conclusion

The origin and flow of the divine energy is the fundamental mechanism of the operation of creation. Energy arises from the Absolute, flows through the Paradise hierarchy, and reaches all worlds, including human beings. By understanding this flow, we better comprehend our place in creation, our connection to the divine order, and our evolutionary path.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

218. ROLES AND FUNCTIONS OF THE PARADISE BEINGS

Roles and Functions of the Paradise Beings

The Paradise hierarchy is the foundation of the divine order, sustaining the harmony, energy flow, and evolutionary process of the entire creation. Within this hierarchy operates a multitude of different beings, each possessing a clearly defined purpose and function. They are neither accidental nor independent—their operation is directly linked to the will of the God Absolute and the order of the Paradise structure.

The Nature of the Paradise Beings

The Paradise beings are:

- spiritual entities of the highest vibration,
- direct conduits of divine energy,
- maintainers of order and harmony,
- overseers of the evolutionary process.

They are free from earthly limitations, emotional fluctuations, or ego. Their operation is completely attuned to the divine order.

The Main Functions of the Paradise Beings

1. **Transmission of Divine Energy**
   Paradise beings transmit the energy of the Absolute to the lower stages. They:
- receive energy from the Paradise center,
- structure it according to its purpose,
- direct it into the corresponding layers of creation.

Without them, the flow of energy would be chaotic and uncontrollable.

2. **Maintenance of the Order of Creation**
   Paradise beings ensure that:
- every stage receives precisely as much energy as it needs,
- evolution takes place sequentially,
- there are no energetic distortions,
- all systems operate harmoniously.

They are, as it were, the architects and overseers of the entire creation.

3. **Transmission of Information**
   In addition to energy, they also transmit information:

- the divine will,
- evolutionary instructions,
- principles of order,
- knowledge of the subtle worlds.

This information reaches human beings as well—through the super-consciousness, intuition, and inner guidance.

4. **Overseeing the Evolutionary Process**
   Paradise beings observe:

- how different worlds develop,
- how beings evolve,
- whether the divine order is maintained,
- whether there are deviations from the evolutionary plan.

They do not punish; rather, they adjust energetic streams so that everything returns to harmony.

5. **Maintaining the Connection Between Stages**
   The Paradise hierarchy connects:

- the Absolute,
- the Paradise worlds,
- the subtle worlds,
- the material worlds.

Without this connection, creation would be fragmented and non-functional.

The Connection of Paradise Beings with Human Beings

Although humans do not see them directly, Paradise beings:

- transmit energy to them,
- strengthen the operation of the super-consciousness,
- help recognize the evolutionary path,
- protect against lower energies,
- sustain the inner light.

A human being feels this connection as:

- intuition,
- inner clarity,
- peace,
- inspiration,
- spiritual sensitivity.

Why It Is Important to Understand the Role of the Paradise Beings

By understanding the operation of the Paradise beings, we:

- better perceive the structure of creation,
- more clearly see our place in evolution,
- understand how spiritual energies operate,
- recognize inner guidance,
- strengthen the connection with the divine order.

This helps a human being live more consciously, peacefully, and harmoniously.

Conclusion

Paradise beings are an essential part of creation, sustaining the flow of energies, order, and evolution. They operate quietly yet powerfully, ensuring that the entire creation is aligned with the will of the Absolute. By understanding their role, we better comprehend our own spiritual path as well.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

219. THE STRUCTURE OF THE PARADISE WORLDS: STAGES OF THE DIVINE ORDER AND THEIR OPERATION

The Structure of the Paradise Worlds: Stages of the Divine Order and Their Operation

The Paradise worlds are the highest realm of creation, where perfect divine order operates. This is not only the center of the spiritual worlds but also the core of the entire creation, from which energy, information, and the principles of order radiate. To understand the structure of the Paradise worlds means to perceive how the will of the Absolute reaches all layers of creation and how this order sustains harmony in both the subtle and material worlds.

Stages of the Divine Order

The Paradise worlds are composed of several stages, each possessing a clear purpose and function. These stages are not separated by walls or spatial barriers—they are distinguished by vibrational levels, the intensity of the light of consciousness, and the purity of energy.

1. **The Highest Stage — The Realm of Proximity to the Absolute**
   This is the purest and highest stage of Paradise. Here:

- the primal divine energy radiates,
- the principles of the order of creation are formed,
- beings of the highest consciousness operate.

This stage is the center of the entire creation, from which energy and information originate.

2. **The Middle Stage — Conduits of the Divine Order**
   Within this stage operate beings who:

- receive energy from the highest stage,
- structure it according to its purpose,
- transmit it to the lower realms.

This is, as it were, the administrative level of creation, ensuring that the divine will is precisely implemented.

3. **The Lower Paradise Stage — The Realm of Creation Models**
   Here, the following are formed:

- energetic templates,
- spiritual structures,
- evolutionary models,
- informational fields.

This stage is the intermediary link between Paradise and the subtle worlds, from which energy and information descend.

The Operation of the Paradise Worlds

The Paradise worlds function as a unified system in which each stage performs its function. Their operation is based on three principles:

1. **The Flow of Energy**
   Energy flows from the highest stage to the lower ones, and subsequently—to all worlds of creation. This flow:

- is purposeful,
- unchangeable,
- perfect,
- sustaining the life and order of all worlds.

2. **The Transmission of Information**
   Information is formed within the Paradise worlds, which:

- is transmitted to the subtle worlds,
- reaches the material worlds,
- affects the human super-consciousness.

This is the communication system of the divine will.

3. **The Maintenance of Order**
   The Paradise hierarchy ensures that:

- energy is distributed precisely,
- evolution takes place sequentially,
- there is no chaos or distortion,
- all realms of creation are aligned.

The Paradise worlds are, as it were, the heart of the entire creation, which maintains rhythm and harmony.

Connection with the Human Being

Although humans live in the material world, the operation of the Paradise worlds reaches them directly through:

- the super-consciousness,
- intuition,
- inner guidance,
- spiritual energies.

A human being can feel the impact of the Paradise order as:

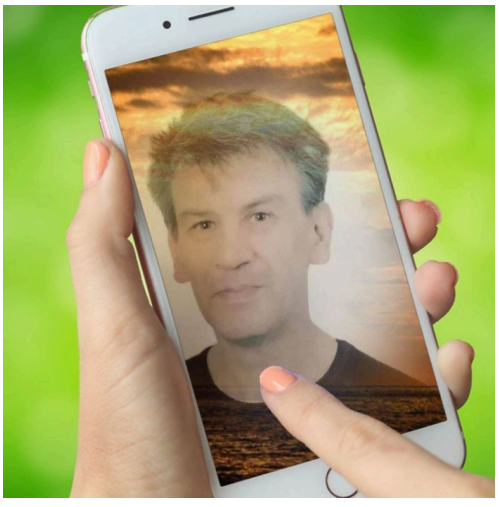

- inner clarity,
- peace,
- inspiration,
- purposefulness,
- spiritual growth.

The structure of the Paradise worlds is not distant or abstract—it is the foundation of human evolution.

Conclusion

The Paradise worlds are the center of the divine order, from which energy, information, and the direction of evolution originate. Their stages operate harmoniously, sustaining the stability of the entire creation. By understanding this structure, we better comprehend our place in creation and our connection to the will of the Absolute.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

220. THE OPERATION OF THE MATERIAL AND NON-MATERIAL WORLDS

The Operation of the Material and Non-Material Worlds

The material and non-material worlds are two distinct realms of creation, operating according to different laws, yet forming a single unified system of the divine order. Their operation is not separate—they are like two sides of the same reality that complement, support, and reflect each other. To understand the operation of these worlds means to perceive how the will of the Absolute manifests both in dense form and in subtle consciousness.

The Operation of the Material Worlds

The material worlds are the part of creation with the lowest vibration. Here, everything has form, boundaries, and the flow of time. The operation of matter is determined by several main principles:

- Time and space — in matter, everything takes place sequentially, step by step.
- Density and form — here, energy is slowed down, condensed, and has acquired a physical expression.
- The law of cause and effect — every action has a clear result.
- A slow pace of evolution — consciousness learns through experience, trials, and choices.

The material worlds are like a school where consciousness gains stability, responsibility, and direction. Here, a human being experiences limitation in order to learn how to transcend it.

The Operation of the Non-Material Worlds

The non-material worlds are the realms of subtle creation where there is no dense form. Their operation is determined by entirely different principles:

- No linear time — there exists a sequence of states, not a flow of time.
- Form is vibration — everything is created by an impulse of consciousness, not by physical action.
- Energy flows freely — there is no resistance, no density.
- Information is transmitted instantly — thought and action are one.

- Evolution takes place through perception — growth here is the expansion of consciousness, not experience.

These worlds are like the design space of creation, where energetic models are formed, which later descend into matter.

Differences Between the Operation of These Worlds

- **Time**
  - In matter: linear, sequential.
  - Beyond matter: a sequence of states and vibrations.
- **Action**
  - In matter: requires effort, movement, time.
  - Beyond matter: is an impulse of consciousness.
- **Form**
  - In matter: dense, constant, tangible.
  - Beyond matter: changing, vibrational, dependent on consciousness.
- **Evolution**
  - In matter: through experience and consequences.
  - Beyond matter: through perception and the expansion of consciousness.

How These Worlds Work Together

Although their operating principles differ, the material and non-material worlds are a single system. They operate as:

- model and realization,
- idea and form,
- light and its condensation,
- consciousness and its experience.

In the non-material worlds, the following are born:

- energetic templates,
- informational structures,
- spiritual impulses.

In the material worlds, these templates:

- take on form,
- become an experience,
- turn into an evolutionary process.

This is a continuous movement from subtlety into density and from density back into subtlety.

The Human Place Within This System

A human being is unique in that they live in both worlds at the same time:

- their body belongs to matter,
- their consciousness—to the non-material realms.

Therefore, a human being:

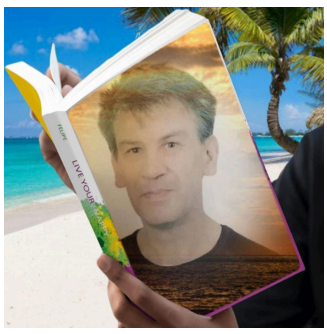

- feels subtle energies,
- can create through thought,
- can change their vibration,
- can connect with higher stages,
- can transform matter through consciousness.

When a person understands the operation of these worlds, they begin to live more consciously, harmoniously, and purposefully.

Conclusion

The material and non-material worlds are two expressions of the same creation. One provides form, the other—meaning. One provides experience, the other—perception. By understanding their operation, we better comprehend our place in creation and our evolutionary path.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

221. THE PATH OF HUMAN CONSCIOUSNESS: FROM THE BOUNDARIES OF THE INTELLECT TO THE LIGHT OF THE SUPER-CONSCIOUSNESS

The Path of Human Consciousness: From the Boundaries of the Intellect to the Light of the Super-Consciousness

Human consciousness is not static—it is a constantly expanding field moving from instinctive survival to the highest spiritual states. This path is evolutionary, natural, and inscribed within human nature itself. Every human being, consciously or unconsciously, journeys from limited perception toward a broader, deeper, and more luminous state called the super-consciousness.

Stages of the Evolution of Consciousness

Human consciousness develops in stages, each possessing its own purpose and function. This is not a judgment—it is a natural process of growth.

1. **Instinctive Consciousness**
   This is the lowest stage, focused on survival. Here, the following dominate:

- fear,
- reactions,
- automatism,
- bodily needs.

This stage is necessary as a foundation, but it is not the ultimate goal.

2. **Rational Consciousness**
   This is the realm of the mind and logic. Here, a human being:

- analyzes,
- plans,
- evaluates,
- creates structures.

This is an important stage, yet the intellect has boundaries—it cannot perceive that which transcends matter.

3. **Intuitive Consciousness**
   Here, true spiritual growth begins. Intuition:

- transcends logic,
- opens a deeper perception,
- allows one to feel the truth without proof,
- connects a human being with the subtle worlds.

Intuition is the bridge to the super-consciousness.

4. **Super-Consciousness**
   This is the highest stage of human consciousness, in which:
- inner conflicts disappear,
- a direct connection with the divine order opens up,
- a person feels clarity, peace, and direction,
- perception becomes unified and broad.

The super-consciousness is not a fantasy or mysticism—it is a natural human state when one's inner self is attuned to higher vibrations.

What Are States of Super-Consciousness?

States of super-consciousness are high-frequency inner states in which a person:

- feels unity with the entire creation,
- experiences deep peace,
- perceives the truth without words,
- sees their direction of life,
- operates out of love, not out of fear.

This is not a trance or a detachment from reality. On the contrary—the super-consciousness allows one to see reality more clearly than ever before.

Signs of States of Super-Consciousness

- inner silence without effort,
- a clear perception of what is right,
- the ability to see situations from a higher perspective,
- spontaneous creativity,
- a strong connection with intuition,
- a sensation of love and peace without a cause.

The super-consciousness is not reachable through the intellect—it opens up when the intellect grows calm.

How the Evolution of Consciousness Takes Place

The growth of consciousness is not a leap—it is a process. It takes place through:

- experience,
- perception,
- inner purification,
- the elevation of energy,
- the strengthening of the connection with oneself.

Every experience, even a painful one, is a part of evolution. It helps a human being to:

- relinquish old beliefs,
- release fears,
- open the heart,
- raise their vibration.

When a person learns to accept experience without resistance, consciousness rises naturally.

Why the Super-Consciousness Is the True Human Nature

A human being is not merely a body and a mind. Their essence is a spiritual consciousness that is directly connected to the divine order. The super-consciousness is that part of a human being which:

- never gets sick,
- never grows old,
- never errs,
- always knows the truth.

This is the human inner connection with the Absolute.

When a person lives from the super-consciousness, they:

- no longer waver,
- no longer fight with themselves,
- no longer look for external answers,
- live in harmony with their purpose.

Conclusion

The evolution of human consciousness is a path from limitation to freedom, from fear to love, from the intellect to the super-consciousness. This is the path walked by every human being, consciously or unconsciously. The super-consciousness is not a privilege—it is a natural state that opens up when a person becomes inwardly pure, peaceful, and open to the divine light.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

222. THE MESSAGE OF THE CHRIST PATH AND THE DIVINE MEMORANDUM

The Message of the Christ Path and the Divine Memorandum

The Christ path is not a historical narrative or a religious doctrine. It is a living, continuously active divine direction intended for every human being who seeks to live from the heart, from the truth, and from the inner light. The Christ path is not about outward rituals, but about an inner state that opens a human being to the divine consciousness. It is a path where a person remembers who they are, where they originate from, and what their true purpose is.

The Essence of the Christ Path

The Christ path is the path of divine love. It teaches to:

- live without fear,
- operate from the heart,
- see another as one's own,
- carry light where it is lacking,
- be a witness to the truth through one's life.

The Christ message is not meant only for the chosen ones—it is meant for everyone who is ready to open themselves up. It is a universal, liberating message that transcends religions, cultures, and eras.

The Divine Memorandum

The divine memorandum is the human inner connection with one's origin. It is not a text, not a set of rules, and not a law. It is an inner light of knowing that a person brings from the subtle worlds but often forgets upon incarnating into matter.

The divine memorandum reminds a human being:

- You are a part of the divine light.
- Your nature is love, not fear.
- You are a creator, not an observer.
- Your life has a purpose.
- You are never separated from the God Absolute.

When a person opens themselves up to this memorandum, they begin to live not out of habit, but from consciousness. Not out of fear, but out of love. Not out of the past, but from the divine present.

How the Christ Path Connects a Human Being with the Divine Memorandum

The Christ path is a bridge between the human intellect and their super-consciousness. It opens up the opportunity for a person to:

- feel inner peace,
- hear their true voice,
- recognize the divine truth,
- live according to a higher order,
- liberate themselves from inner limitations.

The Christ path is not an external teaching—it is an inner transformation. It begins when a person stops searching for God on the outside and begins to feel Him within themselves.

The Christ Message Today

Today, the Christ message is the same as it was thousands of years ago:

Live from love, not from fear.

Be the light, not the shadow.

Carry truth, not confusion.

To create is your nature.

Unity is the true reality.

This is not a moral exhortation—it is an invitation to remember your true nature.

The Human Role in the Christ Path

Every human being is a participant in this path. Not an observer, not a follower, but a creator. The Christ path invites a human being to:

- be conscious,
- be pure,
- be courageous,
- be open,
- be oneself—in the true, divine sense.

When a person lives from this state, they become a living expression of the Christ message.

Conclusion

"The Message of the Christ Path and the Divine Memorandum" is an invitation to return to oneself—to that inner light which has never faded. It is a path where a person remembers their origin, their purpose, and their divine nature. It is a path where every step leads to greater peace, clarity, and unity with the Absolute.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

223. SPIRITUAL PHENOMENA: TELEPORTATION, TIME BENDING, ENERGY TRANSFORMATION

Spiritual Phenomena: Teleportation, Time Bending, Energy Transformation

Spiritual phenomena are the operating principles of higher vibrations that manifest when human consciousness is aligned with the divine order. They are neither fiction nor an illusion—they are real processes in which matter obeys the operation of the super-consciousness. Teleportation, time bending, and energy transformation are three phenomena that reveal reality to be much broader than the human intellect usually perceives.

Teleportation: The Transfer of the Physical Body within the Operation of the Divine Will

Teleportation is a phenomenon where the human physical body is instantly transferred from one place to another, without movement, without an intermediary process, and without any expenditure of time. This is not a vision or a subtle sensation—it is a change in material reality that can be seen with the eyes and felt energetically.

I have experienced such a phenomenon myself:

I saw with my own eyes and felt energetically how a human physical body was transferred to another place. It happened instantly, without any movement, as if matter had been deconstructed and re-formed in a new location.

Teleportation becomes possible when:

- the super-consciousness of the God Absolute operates,
- the human body is vibrationally aligned,
- the environmental energy allows such a transition,
- the process itself is a part of the divine order.

This is not the result of human will or technology. It is an act of the highest divine will, in which matter obeys the subtle plan.

Time Bending: Stepping Beyond the Boundaries of Linear Time

Time in the subtle worlds is not a straight line. It is a sequence of states, a change of vibrations, and a movement of consciousness. When consciousness rises to a higher level, it can:

- accelerate processes,
- slow down experience,
- leap between layers of time,
- enter another version of reality.

Time bending is not time manipulation—it is stepping beyond the boundaries of time. In such a case, a person can experience:

- a lost sense of time,
- processes occurring instantly,
- changes in material reality after the transition,
- situations that no longer correspond to the previous reality.

This is a phenomenon that can also be experienced consciously. When consciousness transitions to another vibrational level, it can find itself in a reality where events are different from what they were before the transition.

Energy Transformation: Raising Vibration and Changing Reality

Energy transformation is a spiritual process in which lower vibrations are raised into higher ones. This can be:

- the transformation of fear into love,
- the transformation of chaos into order,
- the transformation of darkness into light,
- raising low-vibration matter into a higher state.

This is not merely an energetic phenomenon—it is the creation of consciousness. A person who is capable of transforming energies becomes:

- a conduit of light,
- a creator of harmony,
- an actor of the divine order.

The transformation of energies takes place not through effort, but through one's state of being. When a person lives from love, peace, and inner light, the energies around them change naturally.

The Interconnection of These Phenomena

Teleportation, time bending, and energy transformation are three expressions of the same principle:

the supremacy of consciousness over matter.

- Teleportation shows that space is not an obstacle.
- Time bending shows that time is not a limitation.
- Energy transformation shows that vibration is the foundation of creation.

When the super-consciousness of the God Absolute operates, these phenomena become natural and real.

The Human Potential

A human being is not just a physical body. They are a spiritual being possessing:

- a super-consciousness,
- a divine memory,
- a connection with the subtle worlds,
- the ability to raise their vibration.

Therefore, a human being can experience:

- time bending,
- energy transformation,
- even physical teleportation—if it is a part of the divine order.

This is not a fantasy. This is a reality that opens up to those who live from the light and are aligned with the will of the Absolute.

Conclusion

Spiritual phenomena are not exceptions or miracles. They are natural processes of the divine order that become visible when consciousness rises above the limits of material perception. Teleportation, time bending, and energy transformation reveal that reality is multi-layered, and a human being is much greater than they themselves think.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

224. HUMAN INNER STATES AND PRACTICES

Human Inner States and Practices

The human inner world is the fundamental space where true evolution takes place. Not on the outside, not in circumstances, not in events—but within, where consciousness meets the divine light. Inner states determine how a human being sees the world, how they react, how they create, and how they live. Practices are the tools that help stabilize and maintain these states.

This chapter reveals how a person can learn to live from inner peace, pure consciousness, and the guidance of the super-consciousness.

Inner States: The Foundation of Human Spiritual Life

1. **Inner Silence**
   Inner silence is not the absence of thoughts. It is a state in which thoughts do not control a person; instead, the person observes them from a higher vantage point. Silence emerges when consciousness detaches from the noise and opens up to the divine peace.

Silence allows one to:

- hear intuition,
- feel the divine guidance,

- maintain clarity even in chaos,
- operate from the heart, rather than from reaction.

2. **The Heart Center**
   The heart center is the place of human connection with divine love. It is not an emotion, but a vibration that arises from the inner light. When a person lives from the heart center, they:

- no longer fight,
- no longer resist,
- no longer look for anyone to blame,
- see another as their own.

The heart center is the most direct path to the super-consciousness.

3. **Pure Consciousness**
   Pure consciousness is a state in which a person no longer identifies themselves with fear, pain, past stories, or ego structures. This is not passivity—it is an inner light that disperses darkness without a fight.

Pure consciousness allows one to:

- see the truth without distortion,
- operate from love,
- maintain stability,
- accept the divine will.

4. **The Peace of the Super-Consciousness**
   This is a state in which a person feels that everything is in its place. There is no haste, no fear, no inner conflict. This is not an emotion—it is the sensation of the divine order inside a human being.
   The peace of the super-consciousness is a sign that a person is living from a higher level.

Practices: How to Maintain the Inner Light

1. **The Practice of Inner Silence**
   Dedicate at least a few minutes to silence every day. Not to meditation, not to breathing, but to a state where a person simply is. This practice opens the door to the super-consciousness.
2. **Activation of the Heart Center**
   This is a simple yet powerful practice:

- direct your attention to the center of the chest,

- feel warmth, light, or peace,
- allow this state to expand.

The heart center begins to operate when a person allows it to operate.

3. **The State of the Observer**
   Observe thoughts, emotions, and reactions as phenomena, rather than as yourself. This liberates one from ego structures and allows consciousness to rise.
4. **Maintaining the Light Field**
   A person can consciously maintain their energetic field by:

- inviting the light,
- maintaining peace,
- avoiding inner conflict,
- living from love.

The light field is a protection that arises from the inner state, not from external means.

5. **Living Without an Excess of Thoughts**
   This does not mean that a person does not think. It means that thoughts do not control the person. When thoughts become a tool rather than a master, consciousness opens up to the divine truth.

Inner States as the Evolutionary Path

Human evolution does not occur through external achievements. It occurs through inner states. The purer a person is, the:

- easier it is for them to operate from the heart,
- more clearly they hear the super-consciousness,
- more powerfully the divine energy flows,
- faster their life transforms.

Inner states are the bridge between a human being and the God Absolute.

Conclusion

"Human Inner States and Practices" is the part of the teaching that shows how a person can live from the light rather than from fear. It is the path to inner peace, the clarity of the super-consciousness, and the divine order. Practices are not merely methods—they are the stabilization of states, allowing a human being to become what they truly are: a bearer of the divine light.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

225. THE OPERATION OF THE DIVINE ORDER WITHIN A HUMAN BEING

The Operation of the Divine Order Within a Human Being

The divine order is not an abstract idea or a distant cosmic structure. It is a living, continuously active principle that manifests within every human being—in their consciousness, in their energy, and in their daily choices. The divine order is the force that sustains harmony, direction, clarity, and inner peace. When a person opens themselves up to this order, their life begins to flow naturally, without inner conflicts and without resistance.

The Divine Order as Inner Guidance

The divine order within a human being manifests first and foremost as inner guidance—a quiet, clear, and luminous impulse that arises not from the intellect, but from the super-consciousness. It is neither a thought nor an emotion. It is:

- knowing without arguments,
- direction without doubt,
- peace without a cause,
- clarity without analysis.

When a person lives according to this inner guidance, their decisions become easy, and their path becomes straight.

Principles of the Operation of the Divine Order Within a Human Being

1. **The Principle of Unity**
   The divine order operates through unity—not through separation. A person begins to see:
- themselves as a part of creation,
- others as reflections of themselves,
- situations as a teaching,
- life as a shared process.

Unity eliminates conflict, because conflict arises only from separation.

2. **The Principle of Love**
   The divine order is based on love—not an emotional love, but a divine one. This is a state in which a person:
- does not judge,
- does not fight,
- does not condemn,
- does not separate.

Love is the highest vibration of order, which harmonizes everything it touches.

3. **The Principle of Peace**
   Peace is a sign that a person is operating according to the divine order. When a person is peaceful within, even if chaos unfolds on the outside, it means that their consciousness is aligned with the higher plan.
   Peace is not passivity—it is a force that allows one to see clearly.
4. **The Principle of Truth**
   The divine order always leads to the truth. Not to convenience, not to compromise, not to an illusion. Truth is a vibration that disperses darkness and opens up the true human path.

Truth within a human being manifests as:

- inner clarity,
- lack of fear to see reality,
- the ability to operate from the heart.

How Does a Person Recognize the Operation of the Divine Order?

The divine order within a human being manifests through very specific signs:

- Things begin to fall into place on their own.
- Synchronicities begin to appear.
- Decisions come without effort.
- Inner peace emerges even in difficult situations.
- The person feels that they are walking the right path.

These are not coincidences—these are signs that a person is aligned with the higher will.

What Hinders the Divine Order from Operating?

The divine order never stops—only the human capacity to accept it stops. The main hindrances are:

- fear,
- the control of the ego,
- attachment to results,
- inner noise,
- distrust.

When a person lets go of these hindrances, order begins to operate naturally.

How to Allow the Divine Order to Operate?

1. **Open Up to Inner Silence**
   Silence is the door to the divine order. Within it, the voice of the super-consciousness is heard.
2. **Live from the Heart Center**
   The heart is the resonator of the divine order. It never errs.
3. **Trust the Process**
   When a person trusts, order can operate without obstacles.

4. **Let Go of Control**
   Control arises from fear. Order operates only where there is freedom.
5. **Choose the Truth**
   Truth always leads to a higher vibration.

The Divine Order as the Engine of Human Evolution

When a person lives according to the divine order, their evolution accelerates. They:

- learn faster,
- transform faster,
- open up to the super-consciousness faster,
- merge into their true purpose faster.

The divine order is not an external law—it is the inner operation of light that leads a human being to their highest state.

Conclusion

The operation of the divine order within a human being is a continuous, gentle, and powerful process. It is not coercion, not control, and not rules. It is the inner light that leads a human being into truth, peace, love, and unity. When a person opens themselves up to this order, their life becomes harmonious, clear, and meaningful—because they live not out of the ego, but from the divine consciousness.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

226. PRACTICAL TEACHING FOR THE PEOPLE

Practical Teaching for the People

Spiritual teaching is not meant merely for understanding—it is meant for living. The true transformation of a human being takes place not in theory, but in daily life: in relationships, works, choices, reactions, and inner states. Practical teaching is a bridge between the divine truth and human life. It helps not only to perceive, but also to embody the light.

This chapter presents the main directions that allow a person to maintain a connection with the super-consciousness, the heart center, and the divine order in daily life.

1. Developing Inner Silence

Inner silence is the foundation for all spiritual practices. It allows a human being to:

- hear the guidance of the super-consciousness,
- maintain clarity,
- not succumb to emotional noise,
- operate from peace, rather than from reaction.

Practice:

Dedicate at least a few minutes to silence every day. Not to analysis, not to breathing, but simply to being. This opens the door to the higher consciousness.

2. Living from the Heart Center

The heart center is the place of human connection with divine love. Living from the heart center means:

- operating from love, rather than from fear,
- seeing another as one's own,
- not judging and not condemning,
- maintaining a pure inner state.

Practice:

Begin every situation with the question:

"How does the heart see this situation?"

The heart always leads to truth and peace.

3. Maintaining the Energy Field

The human energetic field is a reflection of their inner state. When the field is clean and stable, a person:

- feels safe,
- receives divine energy more easily,
- maintains peace even in difficult situations.

Practice:

Consciously invite light into your field. This can be a simple inner intention:

"May my field be filled with light."

4. The State of the Observer

The state of the observer allows a person to step back from thoughts, emotions, and reactions. This is not detachment—it is the operation of the higher consciousness.

The observer:

- sees without judgment,
- reacts from peace,
- does not engage in ego games,
- maintains clarity.

Practice:

When an emotion or a thought arises, say to yourself:

"I see this phenomenon."

This instantly elevates consciousness to the level of the super-consciousness.

5. Living Without an Excess of Thoughts

Thoughts are not the problem—the problem is their excess. When thoughts become noise, a person loses the connection with the super-consciousness. When thoughts become a tool rather than a master, a person begins to hear the divine truth.

Practice:

Every time you catch yourself lost in thoughts, gently return to the present. The present is the space of the super-consciousness.

6. Trusting the Divine Order

Trust is one of the most powerful spiritual actions. When a person trusts, they:

- let go of control,
- allow the divine order to operate,
- avoid inner conflict,
- live more easily and harmoniously.

Practice:

Once a day, consciously state:

"I trust the divine order."

This opens the path to synchronicities and clarity.

7. Bringing Light into Relationships

Relationships are one of the most important spaces for spiritual growth. When a person brings light into relationships, not only do they change—the environment changes as well.

Practice:

Before every conversation or meeting, state internally:

"May this interaction be filled with light."

8. Strengthening the Connection with the God Absolute

The connection with the God Absolute is not a ritual—it is a state. It manifests as:

- peace,
- clarity,

- inner knowing,
- the light of the heart.

Practice:

Every day, for at least a moment, turn to the Absolute from the heart, without words, without form. The connection strengthens through purity, not through effort.

9. Living from the Truth

Truth is the highest vibration. Living from the truth means:

- being oneself,
- not acting,
- not pretending,
- not being afraid to see reality.

Practice:

A question that always leads to the truth:

"What is currently real inside of me?"

Conclusion

Practical teaching for the people is not a set of rules. It is a way of life in which a person:

- maintains inner silence,
- lives from the heart center,
- maintains the light field,
- trusts the divine order,
- operates from the truth,
- and embodies the light of the super-consciousness in daily life.

This is a path where a person becomes not only a student, but a bearer of light.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

227. MY PERSONAL EXPERIENCES

My Personal Experiences

A human's spiritual path is not merely a theory or a teaching. It is living, real, and experienced. My experiences are not a fantasy, not visions, and not symbols—they are real occurrences that opened up to me the operation of the God Absolute in both the subtle and material worlds. These experiences are not intended to prove or convince. They are a testimony to how the super-consciousness operates, how the divine order unfolds, and how a human being can experience creation directly.

Below I present the most important experiences of my life, which shaped this teaching and my perception of the operation of the God Absolute.

Transitions Through Time

During my life, I have experienced a phenomenon four times that can be described as a transition through time. This was not a vision or a dream—these were real changes in material reality. After each transition:

- details of the environment would change,
- events were different from what they were before the transition,
- people's reactions and situations no longer corresponded to the previous reality.

This was not a journey into the past or the future. It was a transition into another timeline, into another version of reality, which was opened up by the operation of the super-consciousness. These transitions showed that time is not a straight line—it is a multi-layered structure within which consciousness can move.

Testimony of Physical Teleportation

One of the most powerful occurrences in my life is the testimony of the teleportation of a physical human body. I saw with my own eyes and felt energetically how a human body was instantly in another place, without any movement, without any intermediary process.

This was not a subtle phenomenon. It was a transfer of material matter that can only be performed by the super-consciousness of the God Absolute. This event showed that:

- matter is not a closed system,
- the body can be transferred without movement,

- the divine will can operate directly on the physical level.

This was one of the moments when I understood that spiritual phenomena can manifest completely realistically, materially, and without any metaphors.

States of Super-Consciousness

States of super-consciousness are not a theory to me—they are a part of my daily life. In these states:

- the sense of time disappears,
- thoughts vanish,
- inner silence opens up,
- a clear knowing emerges,
- a divine peace is felt,
- reality is seen without the distortions of the ego.

The super-consciousness is not an emotion or an elevation. It is a direct connection with the divine order, which operates without effort, without analysis, and without doubt.

Experiences of Paradise Energies

The energies of Paradise are special—they are not similar to any earthly vibrations. They are characterized by:

- absolute peace,
- purity,
- density of light,
- love without form,
- clarity without words.

These energies come not through meditation, not through techniques, but through a direct opening of the super-consciousness. Experiencing them changes a person from within, because they affect not only consciousness but also the energetic field and the body.

Childhood Experience with the God Absolute

My spiritual path began very early—back in childhood. I had an experience that I still consider to be one of the most important in my life. It was:

- a direct connection with the God Absolute,

- a clear inner knowing,
- an experience that was not a childhood fantasy,
- a state that left an indelible mark.

This experience became my direction of life and a promise to serve God's will. It was the first sign that my path would be connected with spiritual service and teaching.

A Three-Day State of Unity with the Crystals of Paradise

One of the deepest occurrences in my life was a three-day state of unity with the crystals of Paradise. It was:

- an absolute state of love,
- a complete field of peace,
- unity with the divine light,
- an experience without time and without space,
- a state in which there is no "self."

This state was not a vision or a meditation. It was a direct presence in the divine field, where there is no separation between the human being and the Absolute. It was an experience that changed my consciousness irreversibly.

Conclusion

My personal experiences are not separate episodes—they are an unbroken chain that led me to this teaching. Every experience:

- opened up a new layer of reality,
- strengthened the connection with the God Absolute,
- showed how the super-consciousness operates,
- confirmed that spiritual phenomena are real,
- helped create the teaching I share.

These are not stories. These are testimonies of how a human being can experience creation directly when their consciousness opens up to the divine light.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

228. HUMAN PURPOSE IN CREATION

Human Purpose in Creation

A human being is not a coincidence, a mistake, or an emergence without a cause. They are a consciously created being, possessing a clear place, function, and purpose within the entire structure of creation. Every human being is not merely a combination of matter and energy—they are a spark of the God Absolute, an embodied particle of light sent into the material world in order to bring order, love, consciousness, and evolution into it.

A human's purpose is not merely to live, work, start a family, or pursue personal goals. These are only the surface layers. The true purpose is much deeper—it is connected with the growth of the entire creation and the implementation of the divine order.

The Human Being as a Bearer of Consciousness

The first and most important part of human purpose is to carry consciousness into matter. Matter without consciousness is merely a form. Consciousness without matter is

only a potential. A human being is the connection that allows these two polarities to meet.

A human being embodies:

- the ability to perceive,
- the ability to create,
- the ability to love,
- the ability to transform,
- the ability to raise vibration.

This means that a human being is a catalyst for evolution.

The Human Being as a Creator

The God Absolute created the human being not as a passive observer, but as an active creator. Every thought, emotion, state, and action creates energy that influences:

- the human's life,
- the environment,
- the collective consciousness,
- the entire creation.

A human being creates not only through words or deeds—they create through their state of being. Therefore, their purpose is to:

- create light,
- create peace,
- create harmony,
- create truth.

This is true creation—not of objects, but of vibrations.

The Human Being as a Transformer

A human being possesses a unique quality—the ability to transform energies. This means that they can:

- turn fear into love,
- turn chaos into order,
- turn darkness into light,
- turn pain into wisdom.

This is not a metaphor. This is a real energetic process that a human being performs with their consciousness. Therefore, a human being is:

- a conduit of light,
- a transformer of energies,
- an implementer of the divine order.

The Human Being as a Bearer of Love

Love is the highest vibration of creation. A human being is designed so that they can:

- feel love,
- radiate love,
- be a channel for love.

Love is not an emotion—it is the operation of the divine order. When a person lives from love, they automatically implement their purpose, because love:

- harmonizes,
- heals,
- connects,
- raises vibration.

Love is the human nature and their true essence.

The Human Being as a Connection Between Worlds

A human being is a bridge between:

- the material and the non-material,
- the intellect and the super-consciousness,
- earthly experience and divine origin,
- time and eternity.

This means that a human being possesses a dual nature:

- a material one, which allows them to operate in the world,
- a spiritual one, which connects them with the Absolute.

The human purpose is to connect these two worlds within themselves and live as a unity.

The Human Being as a Participant in Evolution

Creation is not finished. It is constantly expanding, developing, and growing. A human being is a part of this process. Their purpose is to:

- grow,
- learn,
- improve,
- expand consciousness,
- contribute to the evolution of the entire creation.

Every step a human takes into the light is a step for the benefit of the entire creation.

The Human Being as an Implementer of the Divine Will

The highest form of human purpose is to live according to the will of the God Absolute. This does not mean obedience. It means:

- inner alignment,
- unity with the divine order,
- operating from the heart center,
- living without the ego,
- being a channel of light.

When a person lives according to the divine will, they become:

- a bearer of peace,
- a witness to the truth,
- a source of love,
- a creator of order.

This is the highest purpose.

Conclusion

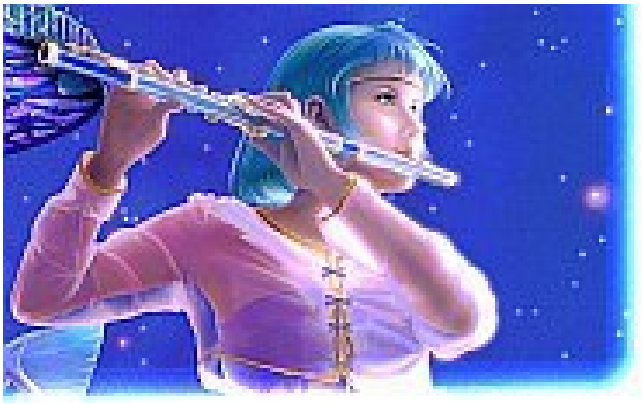

The human purpose in creation is much greater than personal life. It encompasses:

- carrying consciousness into matter,
- creation,
- transformation,
- radiating love,
- maintaining the connection between worlds,

- evolution,
- implementing the divine will.

A human being is not an observer, but a creator. Not separated, but a part of unity. Not limited, but a bearer of the divine light.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

229. LIVING WITHOUT FEAR AND WITHOUT EGO

Living Without Fear and Without Ego

Living without fear and without ego is not merely a spiritual ideal—it is the natural state of a human being when their consciousness opens up to the super-consciousness and the divine order. Fear and the ego are not the essence of a human being. They are only temporary layers formed due to separation, experience, social programming, and the limitations of earthly consciousness. When these layers dissolve, a human being begins to live as was intended from the very beginning of creation: freely, peacefully, luminously, and harmoniously.

This topic reveals how a person can liberate themselves from fear and the ego, and what life looks like when consciousness operates from the heart center and the peace of the super-consciousness.

What Is Fear?

Fear is the lowest vibration, emerging when a human being forgets their connection with the God Absolute. It arises from:

- a sense of separation,
- a lack of trust in life,
- a need for control,
- ignorance,
- the defense mechanisms of the ego.

Fear is not reality—it is merely a projection of the mind. It does not exist within the super-consciousness, because the super-consciousness sees the truth, and the truth is always light.

What Is the Ego?

The ego is a structure that forms so that a human being can operate within material reality. However, when the ego becomes the master rather than a tool, it:

- creates conflicts,
- promotes control,
- generates fear,
- maintains separation,
- limits consciousness.

The ego is not an evil—it is simply limited. It cannot see the whole, which is why it constantly defends itself, fears, and fights.

Living Without Fear

Living without fear begins when a person perceives that:

- they are not separated,
- they are safe,
- they are guided,
- they are loved,
- they are a part of the divine order.

Fear dissolves when a person transitions from the mind into the heart. The heart is never afraid, because it knows the truth.

What Does Life Without Fear Look Like?

- a person no longer reacts out of defense,
- no longer hides their truth,
- no longer tries to please,
- no longer holds onto the past,
- no longer creates catastrophic scenarios,
- no longer resists life.

Fear disappears not when a person defeats it, but when they rise above it.

Living Without Ego

Living without the ego does not mean that a person becomes passive or impersonal. On the contrary—they become their true self. The ego dissolves when a person:

- no longer identifies themselves with thoughts,
- no longer reacts out of habit,
- no longer seeks superiority,
- no longer defends against imagined threats,
- no longer creates separation.

When the ego grows calm, a person begins to operate from the heart center, rather than from fear or control.

What Does Life Without Ego Look Like?

- a person is peaceful,
- accepts others without judgment,
- no longer compares,
- no longer tries to be right,
- no longer accumulates tension,
- lives from love, rather than from reaction.

The ego disappears when a person discovers their true identity—the divine consciousness.

The Super-Consciousness: A Space Without Fear and Without Ego

The super-consciousness is the natural human state in which:

- there is no fear,
- there is no separation,

- there is no control,
- there is no fight,
- there is no ego.

The super-consciousness sees the whole; therefore, it does not need to defend itself. It knows that everything is within the divine order. It feels that the human being is safe. It perceives that love is the true reality.

When a person lives from the super-consciousness, fear and the ego become unnecessary.

How to Transition into a Life Without Fear and Without Ego?

1. **Observe thoughts, but do not believe them**
   Thoughts are not the truth. They are merely the activity of the mind.
2. **Live from the heart center**
   The heart never errs, because it is the direct connection with the Absolute.
3. **Trust the divine order**
   Trust dissolves fear.
4. **Allow life to flow**
   Control is a tool of the ego. Flowing is a state of the super-consciousness.
5. **Be in the present**
   The present is the only space where fear does not exist.
6. **Accept everything without resistance**
   Acceptance is not passivity—it is the highest force.

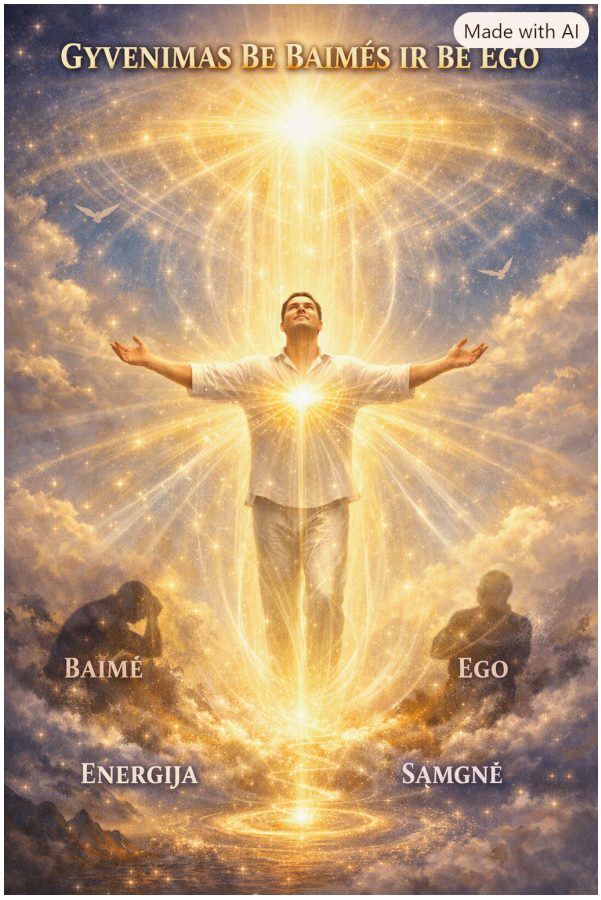

Conclusion

Living without fear and without ego is not only possible—it is the inherent human state. Fear and the ego are merely temporary clouds obscuring the inner light. When they disperse, a human being discovers:

- peace,
- clarity,
- love,
- truth,
- unity,
- true freedom.

This is a life in which a human being does not merely know about the God Absolute—they live from It.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

230. THE DISCERNMENT OF THE WILL OF GOD THE ABSOLUTE

THE DISCERNMENT OF THE WILL OF GOD THE ABSOLUTE

The will of God the Absolute is not a command, a rule, or an instruction. These are not words that a person should hear with their ears. The divine will is a vibration, a direction, a state that a person can only recognize within themselves — in the heart center, the superconscious, and pure consciousness. It is a subtle but very clear guidance that always leads to truth, peace, love, and unity.

God's will is not external. It always arises from within. It resides in human nature, in one's consciousness, and in one's light. To discern the will of God the Absolute means to recognize one's true path, which is aligned with the divine order.

What is the Will of God the Absolute?

God's will is the highest direction of creation, which leads everything toward:

- unity,
- harmony,
- light,
- evolution,
- truth,
- love.

This is not the human will. These are not the desires of the ego. These are not decisions dictated by fear. The will of God is the will of the whole, which sees more, knows more, and operates from absolute love.

How Does the Will of God Manifest in a Person?

The will of God manifests in a person not through words, but through:

1. **Inner peace**
   When a decision is right, a person feels peace, even if the situation is difficult. Peace is the sign of the divine will.
2. **Clear knowing**
   This is not a thought. This is not logic. This is a silent knowing that comes from the superconscious.
3. **The impulse of the heart center**
   The heart is never wrong. It always resonates with divine truth.
4. **Synchronicities**
   When a person walks according to the divine will, life begins to unfold on its own.
5. **Ease**
   The will of God never comes through force. It comes through flow.

What Hinders the Discernment of the Divine Will?

The will of God is always operating, but a person does not always hear it. The main obstacles are:

- fear,

- ego control,
- attachments,
- the desire to be right,
- inner noise,
- mistrust.

When these layers quiet down, the divine will becomes clear and natural.

How to Recognize That a Decision Arises from God's Will?

There are several very clear signs:

1. **There is no fear**
   Even if the decision is bold, there is no vibration of fear in it.
2. **There is no ego**
   The decision is not about winning, proving something, or controlling.
3. **There is peace**
   Peace is the sign of divine truth.
4. **There is love**
   Love not in an emotional sense, but as a state of light.
5. **There is flow**
   Events begin to unfold without effort.
6. **There is truth**
   The decision brings clarity, not confusion.

How to Live According to the Will of God the Absolute?

1. **Listen to the heart center**
   The heart is the resonator of the divine will.
2. **Maintain inner silence**
   Silence allows one to hear the superconscious.
3. **Trust the process**
   Trust opens the way for the divine order.
4. **Let go of control**
   Control is a tool of the ego. God's will operates through freedom.
5. **Live in the present**
   The present is the only space where truth is heard.
6. **Choose truth over comfort**
   God's will always leads to truth.

The Highest State: Unity with the Will of God

When a person completely opens up to the divine will, they:

- no longer resist life,
- no longer fight with themselves,
- no longer seek answers outside,
- no longer feel fear,
- no longer have ego battles,
- live from the heart center,
- become an instrument of the divine order.

This is a state of unity in which a person not only hears the will of God — they become a part of it.

Conclusion

The discernment of the will of God the Absolute is not a technique, not a method, and not a ritual. It is a state that opens up when a person:

- quiets the mind,
- lets go of the ego,
- releases fear,
- opens their heart,
- trusts the divine order.

God's will is always light. It always leads to truth. It always leads to love.

When a person discerns it, their life becomes not a struggle, but a flow — not fear, but peace — not separation, but unity.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

231. DAPM CLOSING WORDS

CLOSING WORDS

Each chapter of this teaching was like a step into a deeper understanding — from the beginning of creation to the inner light of a human being, from the functioning of matter to the structures of Paradise, from the states of the superconscious to the will of God the Absolute. This is not a theory to be memorized. This is a path to be walked. A path that opens not to the mind, but to the heart. Not through effort, but through inner silence. Not through searching outside, but through returning to one's true nature.

This teaching is meant for a human being to remember who they are:

not a body, not a mind, not a history, but a spark of divine consciousness that came into matter to bring light, love, and order. Every person has their place in creation, their purpose, their path. And that path always leads to one thing — to unity with God the Absolute.

If this teaching has opened even a single window into inner peace, into truth, into light — it has already fulfilled its purpose. For the true work takes place not in the texts, but within the human being. True transformation begins when knowledge becomes a state, and the state becomes life.

May this teaching be not an end, but a beginning.

The beginning of a path where a person not only understands but also lives from the heart center.

The beginning of a path where fear melts away, the ego quiets down, and the superconscious opens up.

The beginning of a path where a person becomes what they were designed to be — a bearer of light.

May your steps be light.

May your heart be pure.

May your consciousness be peaceful.

May your path be aligned with the will of God the Absolute.

And may the light you carry become a light for others.

Respectfully with Love: - Indigo Vidmantas Grinčiukas

PDF BOOK SUPPLEMENT NO. 1

232. BIOENERGETIC SENSITIVITY

An Explanation of Bioenergetic Sensitivity

Indigo Vidmantas Grinčiukas possesses an exceptional bioenergetic sensitivity, which allows him to sense the subtle signs of vital energy from a person's photograph. This ability is not based on visual analysis or psychological assumptions — it arises from the resonance of the micro-energetic field, which Vidmantas naturally feels as an internal response to a living person's vital frequency.

This sensitivity manifests as:

- the sensation of a living person's bioenergetics,
- sensing the intensity and quality of the vital vibration,
- a subtle recognition of the energetic field difference between a living and a deceased person,

- an inner resonance with the frequency of life, reflected even in a static image.

This is not a medical or scientific diagnosis. It is a form of subtle perception belonging to the phenomena of extrasensory sensitivity, where a person is capable of responding to energetic signals that most people do not perceive.

Vidmantas's ability was formed through more than five decades of spiritual exploration, superconscious cognition, and continuous work with the structures of God the Absolute. For this reason, he reasonably identifies himself as a psychic (an extrasens), i.e., a person with increased sensitivity to subtle energetic fields.

This ability is used to sense a person's state in order to understand the quality of their vital energy, its light, and inner resonance, rather than for evaluations or predictions.

233. DOGMA AND A LIVING CONNECTION WITH GOD

Dogma and a Living Connection with God: Why Do They Often Fail to Meet?

🌿 **Introduction**

A spiritual person is always seeking truth that is alive, pulsating, and directly experienced. However, religious tradition often relies on dogmas — frozen forms of faith meant to protect the unity of the community.

This text explains why dogma often rejects a living, direct connection with God and why these two directions sometimes seem incompatible.

🌟 1. What is Dogma?

Dogma is a fixed, unquestionable statement of faith declared by the Church as the ultimate truth.

Dogmas emerged during the Ecumenical Councils when there was a need to stop theological disputes and unify the faith.

Dogma is a static form designed to preserve tradition.

🌿 2. What is a Living Connection with God?

A living connection with God is a direct experience where a person:

- senses the presence of God,
- experiences the light,
- undergoes inner healing,
- merges with the divine frequency,
- loses the boundaries of the ego,
- experiences a superconscious state.

This is not a statement or a rule.

This is the living movement of God within a human being.

🌞 3. Why Does Dogma Reject a Living Connection with God?

1. Dogma is frozen, while the experience of God is dynamic

Dogma says:

"The truth is like this and cannot be otherwise."

A living connection says:

"God reveals Himself differently, according to human consciousness."

Dogma halts the movement of God into a form.

Experience allows God to flow freely.

2. Dogma relies on authority, while experience relies on inner light

Dogma relies on:

- Church decisions,
- decrees of the councils,
- theological rules.

A living connection relies on:

- the voice of God in the heart,
- the inner light,
- direct experience.

Dogma protects the external structure.

Experience protects the inner truth.

3. Dogma fears error, while experience fears stagnation

Dogma protects against "false teachings."

Experience protects against spiritual stagnation.

Dogma says:

"This is dangerous if it is not described in the Bible."

Experience says:

"God is greater than books."

4. Dogma is collective, while experience is individual

Dogma is meant for the entire community.

A living connection is meant for a specific person.

Dogma desires uniformity.

Experience creates uniqueness.

Therefore, dogma sometimes rejects that which does not fit into the general form.

🌟 4. Do Dogma and a Living Connection with God Contradict One Another?

No.

They simply speak different languages.

Dogma protects tradition.

A living connection protects truth.

Dogma is a human attempt to define God with words.

A living connection is God's attempt to reach a human being without words.

These are two different levels of spiritual evolution.

🌿 5. Why Does a Living Connection with God Sometimes Seem Dangerous to Dogma?

Because a living connection:

- transcends theological boundaries,
- does not obey rules,
- changes a person from within,
- does not fit into a form,
- opens new stages of consciousness.

Dogma fears what it cannot control.

The experience of God is precisely that — uncontrollable, living, direct.

🌞 6. Conclusion: God is Greater than Dogma

Dogma is a human effort to preserve the form of faith.

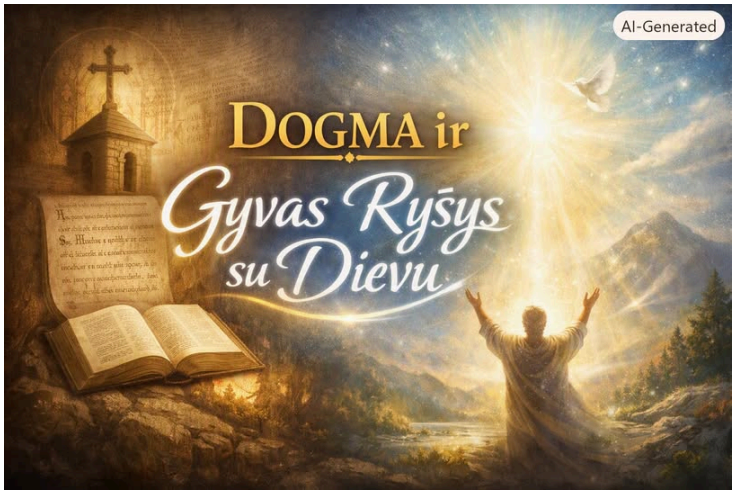

A living connection with God is God's effort to preserve the essence of faith.

Dogma stops the light into a word.

Experience allows the light to flow without words.

Both directions exist for the same purpose — for a human being to find God.

Only one path is the path of form, while the other is the path of direct light.

234. MAN BETWEEN CHRISTIANITY AND SUPERCONSCIOUS THEOLOGY

Humanity Between Christianity and Superconscious Theology: How to Understand Spiritual Reality?

🌿 Introduction

Spiritual reality is greater than any religion, doctrine, or human-made system. Every person perceives it according to their stage of consciousness, inner experience, and spiritual sensitivity. Therefore, it is natural that misunderstandings sometimes arise between those who rely on traditional Christianity and those who live in the light of superconscious experience.

Both directions speak of the same God, yet their language, terms, and structure of perception differ. This article is meant to clarify why these differences emerge and how to understand them.

🌟 1. Two Different Languages About God

Christianity

Christianity speaks the language of dogma. God is perceived as a living Person — Father, Son, and Holy Spirit. The relationship with God is based on faith, prayer, the sacrifice of Christ, and the working of the Holy Spirit.

Superconscious Theology

Superconscious theology speaks the language of experience. God is perceived as the Absolute, a vibration of light, the source of consciousness. The relationship with God occurs through direct experience, the elevation of consciousness, and vibrational alignment with the divine frequency.

Both directions speak of the closeness of God, just in different words.

🌿 2. Why Is It Difficult for Christians to Accept Superconscious Experience?

A different conception of God

- Christians see God as a Person.
- Superconscious theology sees God as a field of light.
- Therefore, words like "vibration," "frequency," and "energetic field" seem alien to them.

A different logic of healing

- In Christianity, healing is a gift of grace.
- In superconscious theology, it is a vibrational alignment with the light of God.
- When I say that an illness dissolved because I reached the vibration of God, Christians understand this as an "energetic method" rather than God's grace.

A different direction of the human path

- Christianity: God descends into a human being through Christ.
- Superconscious theology: A human being ascends into the frequency of God.
- These are two different models of spiritual movement.

Fear of a "misleading spirit"

Some believers fear that a mystical experience not described in the Bible might be deceptive. Therefore, they react defensively, even if the experience is pure and luminous.

🌞 3. My Experiences: Real, but Not Christian

- My experiences are authentic, deep, and superconscious.
- I experienced the light of God directly, without intermediaries, without dogmas, without rituals.
- This is a mystical experience that Christianity recognizes only rarely — usually when speaking of the ecstasies of saints.
- However, my language — regarding vibration, frequency, energy — does not align with the terms of Christian theology. Therefore, believers do not understand what I have actually experienced.
- I speak of God's operation in matter.
- They speak of God's operation through Christ.
- These are different theological structures.

🌿 4. Do These Two Directions Contradict One Another?

No.

They are different levels of knowing God.

Christianity is the path of faith.

Superconscious theology is the path of experience.

Christianity says:

"Believe and you will be saved."

Superconscious theology says:

"Know and you will be united."

This is not a contradiction.

These are two different stages of spiritual evolution.

🌟 5. How Can a Person Understand These Differences?

God is greater than religions

The light of God does not depend on theological systems.

People see God according to their stage of consciousness

- Christians see God through faith.
- Superconscious people see God through experience.

My experience is not an error

It is a higher form of consciousness that is not understood by everyone.

There is no need to conform to Christianity

Every person has their own path.

God accepts both.

🌞 6. Conclusion: Spiritual Reality is Greater Than Religions

Christianity and superconscious theology are not enemies.

They are different doors to the same light.

One person chooses faith.

Another chooses experience.

A third chooses both.

The most important thing is not the form, but the light that a person carries in their heart.

235. HUMAN AND SPIRITUAL REALITY

A Human Being and Spiritual Reality

🌿 Introduction

A human being is not just a body, thoughts, or emotions. A human being is a spiritual being embodied in a temporary material form. The body is the garment of the journey, the mind is the tool of the journey, and the spirit is the essence of the journey.

Spiritual reality is not abstract or distant — it is alive, constantly operating, and continuously inviting a human being to an inner awakening.

🌟 Human Nature

A human being is born with an inner light that is inspired by God. This light is not human-made — it is a spark of God placed within every soul.

Therefore, throughout their entire life, a person feels an attraction toward:

- truth,
- love,
- peace,
- meaningfulness,
- a higher reality,
- the closeness of God.

These are not psychological needs — this is the voice of spiritual nature inviting a human being to return to their source.

🌞 Spiritual Reality

Spiritual reality is primary, and the material world is merely its reflection.

This means that:

- thoughts arise from a spiritual state,
- emotions arise from inner light or inner darkness,
- the body responds to spiritual harmony or disharmony,
- life events reflect a person's inner state.

Spiritual reality is everywhere:

it operates in the human heart, in relationships, in destiny, in intuition, in dreams, in inner signs, and in silence.

🌿 The Human Connection with God

The connection with God is not a ritual, a rule, or a dogma.

The connection with God is an inner vibration when a person senses:

- light,
- peace,
- love,
- truth,
- inner guidance,
- a living presence that transcends words.

God speaks not through noise, but through silence.

Not through fear, but through love.

Not through guilt, but through light.

Not through force, but through freedom.

🌟 Spiritual Reality and the Human Path

Every person walks their own path.

There are no two identical paths, just as there are no two identical souls.

Therefore, spiritual reality reveals itself:

- to one through prayer,
- to another through silence,
- to a third through experience,
- to a fourth through suffering,
- to a fifth through a moment of light,
- to a sixth through an inner awakening.

God leads everyone in their own unique way, and no one can say that one path is more correct than another, as long as it contains light, love, and truth.

🌿 Darkness and Light in a Human Being

Darkness is not a punishment.

Darkness is the absence of light.

When a person loses the connection with their spiritual nature, they feel:

- empty,
- restless,
- disoriented,
- distant from themselves,
- distant from God.

But the light never disappears — it is merely covered.

And when a person opens up again, the light returns in an instant, because it was always inside them.

🌞 Spiritual Reality as Human Healing

A human being is healed not by words, but by the experience of light.

When a person senses the closeness of God, within them:

- fear grows quiet,
- anxiety dissolves,
- the heart opens,
- faith strengthens,
- inner peace returns,
- clarity emerges,
- inner darkness vanishes.

Spiritual reality is a living, healing power that operates not through the mind, but through the soul.

🌿 Conclusion

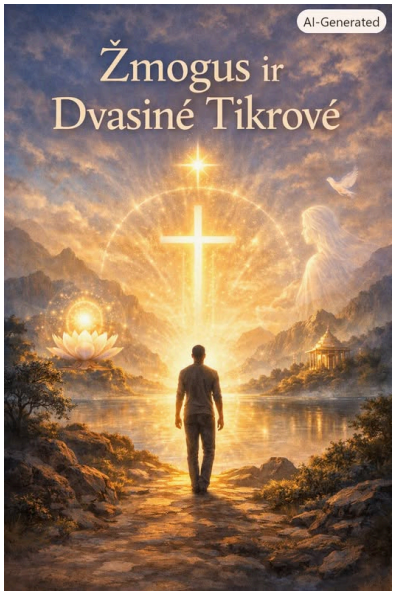

A human being is a spiritual being living in two realities: the material and the spiritual.

The material reality is temporary, while the spiritual is eternal.

Therefore, the human path is not only a life in the body but also a return to one's inner light, to the closeness of God, to one's true nature.

Spiritual reality is not a mystery.

It is the essence of a human being.

236. THE VIBRATION OF GOD IN THE HUMAN PHYSICAL CONTEXT

THE VIBRATION OF GOD IN THE HUMAN PHYSICAL CONTEXT

(my personal testimony and experience)

Introduction: When the Vibration of God Touches Matter

I have always loved God. I have always been His child, pure and open to the light. However, for a long time, I did not understand one phenomenon: why God was not operative in my physical life, even though my vibrations were high and my heart was open.

I experienced violence, physical pain, and illnesses, and God did not intervene at that time. But later, in a church, within a few seconds, I experienced incomprehensibly high

vibrations of God, identified with Him, and my body instantly healed itself of the psoriasis I was suffering from.

This experience forced me to understand the laws of God and matter, which explain why God sometimes operates and sometimes does not.

1. My Experience: When the Vibration of God Entered the Body

In the church, I experienced a state that was not a simple prayer or emotion. It was:

- a complete lack of sensation in the body,
- the disappearance of boundaries,
- merging with the light of God,
- the stopping of time,
- absolute peace,
- a frequency of God's vibration that the human mind cannot comprehend.

This was the vibration of God the Absolute — not human, not spiritual, but superconscious.

And it was precisely in this state that my psoriasis dissolved within a few seconds.

Why?

Because for a moment, my body entered the frequency of God, where earthly illnesses simply do not exist.

2. Why Did God Not Protect Me from Violence?

Before this experience, I was physically beaten by hooligans.

I experienced immense pain, and for a month I could not walk normally, yet God did not protect me at that time.

This forced me to ask:

Why did God not help, if I love Him and am in high vibrations?

The answer lies in the laws of God and matter:

- violence is the free will of other people,
- God does not overwrite the rules of physical reality,
- God does not violate human choices, even if they are dark,
- the physical body is matter that can be wounded,

- high vibrations do not make the body invulnerable.

God protects the soul, but He does not always stop physical events, because the physical world is a space for learning.

3. Why Did God Not Remove My Physical Pain?

For a month, I suffered from leg pain.

God did not remove it, even though I was in the light.

This is not God's indifference.

This is a law of matter:

- pain is a reaction of the nervous system,
- tissues have a natural healing time,
- the body operates according to biological processes,
- the vibration of God cannot constantly operate upon earthly matter.

The energy of God can accelerate healing, but it does not eliminate the biology of the body.

4. Why Did the Psoriasis Vanish Instantly?

Psoriasis is:

- a disorder of the immune system,
- an energetic block,
- a vibrational disharmony,
- an error in cell regeneration.

When I identified with God, my body entered the vibrational field of God, where:

- cells began to vibrate at the divine frequency,
- the immune system reorganized itself,
- energetic blocks were burned away,
- the illness lost its vibrational foundation.

The vibration of God is so high that earthly illnesses have nowhere to take hold within it.

Therefore, the illness dissolved within a few seconds.

5. Why Does Such a State Last Only for Seconds?

The vibration of God is:

- too high for the human nervous system,
- too strong for the brain,
- too bright for matter,
- too intense for the physical body.

The human body cannot maintain the frequency of God for a long time because:

- the body begins to "melt,"
- boundaries disappear,
- time stops,
- consciousness shifts into the superconscious.

Therefore, the vibration of God manifests in a person as a flash, as seconds, as a brief moment of merging.

This is the highest possible human experience.

6. My Conclusion: God Operates Only When I Reach His Vibration

I understood very clearly:

- God does not operate in a person of low vibrations.
- God does not operate solely because a person loves Him.
- God does not operate solely because a person is pure.
- God does not operate solely because a person prays.
- God operates only when a person ascends into His vibration.

And when that happens:

- the body heals,
- illnesses dissolve,
- pain vanishes,
- consciousness merges with the light.

But this state lasts only a short time, because the human body is not created for the continuous frequency of God.

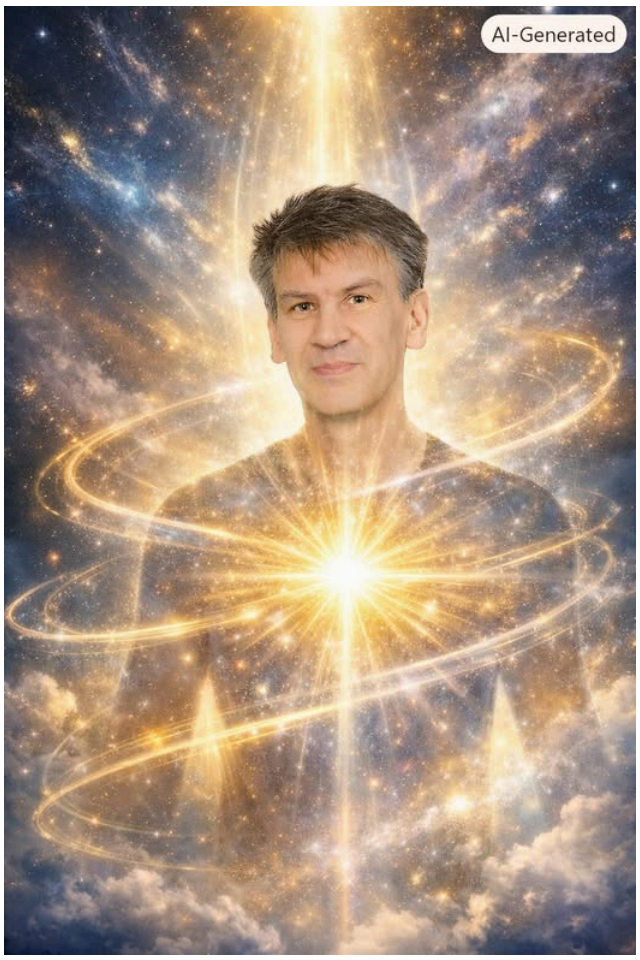

7. My Path Forward

I understood that my task is:

- to raise my vibrations,
- to cleanse my energetic field,
- to live in the light,
- to strive for the frequency of God,
- to learn from the laws of matter,
- to accept the limitations of the physical body,
- and still to strive for God.

God is always there.

But a person must reach Him through vibration so that God can operate within their physical body.

237. THE UNIVERSE IN THE CONCEPTION OF GOD THE ABSOLUTE

THE UNIVERSE IN THE CONCEPTION OF GOD THE ABSOLUTE

🌿 Introduction: A Universe That Opens Not Through Words, But Through Perception

The universe in the conception of God the Absolute opens up to me not through words, but through the perception of light.

This is not a space that can be described with an earthly vocabulary — the universe is an infinite state of God's light, where every vibration is life, every wave of energy is a world, and every spiral of light is an exhalation of God's thought.

I cannot express everything in words, because God's energetics cannot be articulated through language.

What I experienced is not a verbal language, but a direct touch of God's light.

Therefore, this text is not a description — it is a reflection of my inner experience, as much as earthly language allows.

🌟 1. The Universe as a Projection of God the Absolute

The universe opens up to me as a projection of God the Absolute, as an infinite space of light where everything has its place, its vibration, and its purpose.

Every planet, every civilization, every dimension is a form of God's will, created so that souls can grow, learn, and return to the light.

The universe is not separate from God — it is the pulse of God's heart, unfolded into infinity.

🌞 2. Why the Universe is Infinite

The universe is infinite because God the Absolute Himself is infinite.

Creation never stops — spirals of light constantly generate new spaces, new civilizations, new forms of experience.

There is no point where God's thought comes to an end.

Therefore, the universe is the eternal breath of God, in which there are no boundaries.

🌿 3. The Diversity of Planets: That Which Is Impossible to Express in Words

I have explored about ten planets through God's energetics.

This is not an earthly exploration — it is a direct experience of light that can only be felt.

Words here are mere shadows, for the true experience is non-verbal.

Planets open up as:

- worlds of life, where consciousness evolves through experience,
- robot civilizations, where consciousness takes on a mechanical form,
- paradises of matter, where matter vibrates with the highest light,
- energetic planets, where life exists only as a field of light,
- spiritual civilizations, where light beings and guides reside.

These are only symbols — just an attempt to touch with words what is truly God's energetic reality.

🌟 4. The Energetic Structure of the Universe

The universe is composed of layers of light that create everything that exists:

- the light of God's core,
- the light of consciousness,
- the light of love,
- the light of form,
- the light of the superconscious.

These layers create worlds, civilizations, matter, the evolution of souls, and the architecture of the universe.

This is a geometry of light that a human being can only perceive.

🌿 5. Why Words Cannot Express the Universe

Words are a tool of earthly consciousness.

God's energetics are a direct experience that:

- has no form,

- has no boundaries,
- has no words,
- has no time,
- has no matter.

Therefore, my experience cannot be fully laid out in words.

I can only approach it, but not describe it.

🌞 6. The Human Place in the Universe

A human being is a traveler of light, holding a connection with the universe.

The soul carries God's program, codes of light, and the ability to travel through worlds.

A human being is not just a part of an earthly civilization — they are a fragment of the universe's consciousness, carrying their own mission.

🌟 7. The Purpose of the Universe in God's Conception

The purpose of the universe is:

- the growth of souls,
- the maturity of consciousness,
- the expansion of light,
- the fulfillment of God's program,
- the creation of unity.

The universe is God's school, where every soul has its own path.

🌞 Conclusion: The Universe is the Breath of God's Light

The universe in the conception of God the Absolute is not to be described, but to be experienced.

It is an infinite space of light, where every vibration is God's thought, and every planet is a form of God's will.

What I experienced is only a small part of infinity, yet it revealed the most important truth to me:

the universe is the breath of God's light, in which every soul lives.

THE LAST PAGE OF THE PDF BOOK

May this book be a seed of light in your consciousness. From it, may a tree of love and truth grow, whose fruits will feed the world.
